COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 12 day of July, 2013
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITANYOW HUWILP SOCIETY, a society incorporated under the *Society Act* of British Columbia, doing business as Gitanyow Fisheries Authority for and on behalf of the members of the Houses, (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 31
Schedule 7	Progress Report / Year End Report	Page 32
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 39
Schedule C	Aboriginal Fishery Guardians	Page 42
Schedule D	Monitoring and Enforcement Protocol	Page 45

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to TWO HUNDRED AND NINETY-SIX THOUSAND, TWO HUNDRED AND FIFTY-TWO DOLLARS ($296,252.00) in Fiscal Year 2013-2014 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2014-2015 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2015-2016 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2016-2017 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2017-2018 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2018.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Gitanyow Fisheries Authority
P.O. Box 148
#4581 North Access Road
Kitwanga, BC
V0J 2A0

s.19(1)

Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization warrants that it is a society duly incorporated and in good standing under the applicable laws of Canada or of a province or a territory of Canada, as the case may be, and will remain in good standing under those laws at all times during the term of this Agreement.

12.5. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

Clan (Pdeek)

Lax Gibuu (Wolf)	Gwass Hlaam
	Wii Litsxw/Tax Wookxw
	Malii
	Haizimsque
Lax Ganeda (Frog)	GamLaxyeltw/Sindhl
	LuuxHon
	Gwinuu
	Wataxhayetsxw/Siidook

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2014-2015, 2015-2016, 2016-2017 and 2017-2018.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in September of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2013, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2013 and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a six-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent six-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For the last Fiscal Year of this Agreement, a holdback of five percent (5%) of the Contribution for the last Fiscal Year will apply.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.5. Unexpended Funding and Repayments

2.5.1. Subject to subsection 2.5.4 of this Schedule, the Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.5.4. Subject to DFO's written approval on the planned use of Unexpended Funding and associated reporting requirements, the Organization may retain any Unexpended Funding that remains at the end of a Fiscal Year for use in the next Fiscal Year to further achieve results towards the program objectives or to continue meeting the program objectives. The Organization will repay to DFO any Unexpended Funding that remains at the expiry of this Agreement.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization may, at its discretion, submit a Progress Report at any time in the form set out in Schedule 7.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other non-employees

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

The Gitanyow Fisheries Authority (Organization) is the technical arm of the Gitanyow Hereditary Chiefs (GHC), and provides fisheries and overall environmental expertise and services for the Gitanyow territory.

Guided by the Organization's Mandate, and in cooperation with DFO, the Organization's fisheries program has been in operation for the past 18 years. The Organization's Mandate states:

> *The GFA is mandated to conserve, protect, restore, monitor and manage fish, wildlife and the habitat they require, within the Gitanyow Lax Yip (Traditional Territory).*

The Organization has been in operation since 1994 and in that time has grown to employing 3 full time biologists, 1 full time fisheries coordinator and 8-10 seasonal technical staff. The AFS program has been, and will continue to be, instrumental in supporting the development and growth of the Organization. The Organization conducts salmonid stock assessment, watershed restoration, environmental monitoring, fish and wildlife habitat assessment, environmental impact assessment, research and planning, primarily within the Gitanyow territory.

The driving force behind the creation of the Organization was the perilous state of the Kitwanga River sockeye salmon. This stock was historically a key food fish for the Gitanyow people, as well as a vital component of the highly productive Kitwanga River Watershed ecosystem. The Kitwanga Sockeye Recovery Plan began in 2005-2006, which involved accurate stock assessment, resulting in the construction and operation of the Kitwanga River Salmon Enumeration Facility and the Kitwanga River Sockeye Smolt Enumeration Facility.

The Organization has grown into a well established fisheries management team that now conducts stock assessment work in the Nass River Watershed as well as a variety of work throughout the Gitanyow territory. The stock assessment projects have provided valuable data to both the Organization and to DFO and have contributed to the management of salmon within the Skeena and Nass River Watersheds. The Organization intends to continue to operate the facilities as well as grow and remain fully engaged in the management and protection of the fisheries resources.

1.1. Multi-year Work Plan

1.1.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities				
2013-2014	**2014-2015**	**2015-2016**	**2016-2017**	**2017-2018**
$296,252.00	$294,000.00	$294,000.00	$294,000.00	$294,000.00

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Description: Gitanyow Fisheries Authority (GFA) The Organization will oversee and carry out program development, work planning, consultations and negotiations of the AFS Agreement and maintain dialogue and co-

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan

management initiatives between DFO and the Gitanyow Hereditary Chiefs (GHC). The Organization will be responsible for managing the Gitanyow FSC fisheries, implementing AFS field programs, budgeting, planning, reporting, and data management. As well, the Organization will seek to support additional fisheries related research, stock assessment programs, habitat monitoring, habitat restoration and fisheries enhancement opportunities through the leveraging of additional funding from other sources inside and outside of DFO. The GHC will provide administrative support for GFA program under this Agreement and aids with the financial management component of the Agreement, including the provision of office space, supplies, utilities, computer support, and storage facilities.

The Organization's core staff is comprised of a Fisheries Coordinator (FC), Fisheries Biologists (FB), a book keeper, several seasonal fisheries technicians (FT), several seasonal fisheries labourers (FL), a part time receptionist and a part-time seasonal catch monitor (CM). The FC with help from the FB, will co-ordinate the various fisheries activities and provide direction regarding the various projects while ensuring program stability and cost effective management. The FC and the FB will collectively oversee the training and supervision of field staff, implementation of AFS field programs, AFS Agreement budgeting, planning, reporting and data management. The FB will also set-up field standards for data collection, train field staff on proper field process, data collection and conduct regular field audits to ensure field operations proceed as planned. The GHC will be responsible for ensuring that the FC and support staff are provided with the administrative and physical infrastructure required to manage the program and associated projects.

1. With the assistance of the FB and GHC Leadership, the FC will lead and coordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. Regular internal meetings will be conducted with leadership who will oversee political negotiations, program/policy development and staff management.
3. The FB will be responsible for the technical aspects of the program including project planning, project management and the maintenance of technical standards. The FB will also research, write and submit technical proposals to various funding sources to secure partnerships and additional funding whenever possible.
4. Participation of Organizational staff and GHC leadership in fisheries focused resource management forums including the review of yearly Integrated Fisheries Management Plans for the BC north coast, participate in technical working groups, Joint Management Advisory Committees, Pacific Salmon Commission technical meetings, community fisheries meetings and multi-stakeholder meetings.
5. The Organization will monitor their FSC fishery and provide harvest data and tag information to DFO (Prince Rupert) so that it can be incorporated into the management of salmon for the Nass River drainage.
6. The Organization will pursue various partnering and leveraging opportunities, including proposal development and attend meetings as required.
7. The Organization under this Agreement will provide training to support the Organizational staff. Annual training and recertification needs vary with returning and/or new staff. Required training may consists of, but is not limited to, the following: First Aid, Transportation Endorsement, Boating Safety, Swiftwater Rescue, Bear Awareness and shotgun handling, Chainsaw Safety, and Helicopter Safety, Conflict Resolution and Life Skills. Training for managerial staff in computer software, accounting and program management is provided under this category.
8. The Organization - FB to take part in Environmental Assessment (EA) of proposed development projects in and around Gitanyow Territory that have the potential of effecting fish and fish habitat.
9. Production and distribution of newsletter and public informational brochures / posters for the community and public at large.

Expected Results:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
1. Project budgets and operational workplans are completed and agreed to by DFO and the Organization/ GHC to facilitate the completion of the AFS Agreement. 2. Internal Organizational/GHC meetings to develop program direction/mandate development are held and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained. 3. The FC and FB will report on all projects undertaken, and make any proposals developed and submitted available for DFO review upon request. 4. Staff, leadership and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of GFA fisheries program in cooperation with DFO. 5. Partnering and leveraging activities complement Agreement objectives. 6. Area and species specific catch data are received weekly by DFO Fisheries Management. The FSC fishery is managed within the allocations provided for in the Agreement. 7. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects. 8. Projects are carried out in accordance with the expected results, and supporting detailed operational workplans jointly developed by the Organization and DFO. 9. The Organization - FB able to recommend fisheries mitigation / compensation for proposed development on Gitanyow Territory. 10. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO contacts. Financial reports and supporting documents are generated in a timely manner.
Description: Stock Assessment 1. Operation of various salmon smolt and adult counting facilities and the completion of salmon stream counts. 2. Sockeye (Sx), Chinook (Ch), Pink (Pk), Chum (Cu), Coho (Co) **Expected Results:** 1. Employment of 6 community members for approximately 7 person months; develop technical capacity in stock assessment techniques. 2. Cumulative escapement information will be reported to DFO in-season to help manage fisheries.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Activities

3.1. Annual Work Plan for 2013-2014

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement. s.20(1)(c)

Annual Work Plan for 2013-2014
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Gitanyow Fisheries Authority (GFA) **ESTIMATED COST:** [redacted] The Organization oversees and carries out program development, work planning, consultations and negotiations of the AFS Agreement and maintains dialogue and co-management initiatives between DFO and the Gitanyow Hereditary Chiefs (GHC). The Organization is responsible for managing the Gitanyow FSC fisheries, implementing AFS field programs, budgeting, planning, reporting, and data management. As well, the Organization seeks to support additional fisheries related research, stock assessment programs, habitat monitoring, habitat restoration and fisheries enhancement opportunities through the leveraging of additional funding from other sources inside and outside of DFO. Annual Work Plan for 2013-2014

7. The Organization under this Agreement will provide training to support Organizational staff. Annual training and recertification needs vary with returning and/or new staff. Required training may consists of, but is not limited to, the following: First Aid, Transportation Endorsement, Boating Safety, Swiftwater Rescue, Bear Awareness and shotgun handling, Chainsaw Safety, and Helicopter Safety, Conflict Resolution and Life Skills. Training for managerial staff in computer software, accounting and program management is provided under this category.
8. The Organization - FB to take part in Environmental Assessment (EA) of proposed development projects in and around Gitanyow Territory that have the potential of effecting fish and fish habitat.
9. Production and distribution of newsletter and public informational brochures / posters for the community and public at large.
10. To participate and give a presentation about the GFA fisheries program for the Aboriginal Strategies and Governance Program DFO evaluation being conducted by Price-Waterhouse Cooper.

Expected Results:

1. Project budgets and operational workplans are completed and agreed to by DFO and the Organization / GHC to facilitate the completion of the AFS Agreement.
2. Internal Organizational / GHC meetings to develop program direction/mandate development are held and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained.
3. The FC and FB will report on all projects undertaken, and make any proposals developed and submitted available for DFO review upon request.
4. Staff, leadership and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of GFA fisheries program in cooperation with DFO.
5. Partnering and leveraging activities complement Agreement objectives.
6. Area and species specific catch data are received weekly by DFO Fisheries Management. The FSC fishery is managed within the allocations provided for in the Agreement.
7. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects.
8. Projects are carried out in accordance with the expected results, and supporting detailed operational workplans jointly developed by the Organization and DFO.
9. The Organization's - FB able to recommend fisheries mitigation / compensation for proposed development on Gitanyow Territory.
10. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO contacts. Financial reports and supporting documents are generated in a timely manner.
11. Travel to RHQ and give a power point presentation to the lead consultant of Price-Waterhouse Cooper on the Gitanyow Fisheries Authority fisheries program.

Products/Reports to provide to DFO:

1. Seasonal operational plans for field activities, work plans and budgets that are used to construct the Agreement.
2. Documentation of all meeting-related activities by staff and leadership shall be provided

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for 2013-2014

in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items, dates, travel costs and a summary of meeting outcome, i.e.:
- Internal Organizational meetings
- Technical and management processes

3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in the Year End Report.

4. Catch information provided to DFO weekly throughout the fishing season (to Jim Steward – DFO – Prince Rupert, via email). The Organization will also provide a post season summary and details of the Catch Reporting Project in their Year End Narrative Report.

5. The Organization will include details of type of training and number of staff attended in their Progress Report.

6. FB to provide a summary of EA projects reviewed including a summary of review outcomes.

7. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.

s.20(1)(c)

8. Year End Report will be submitted within 120 days of Fiscal Year end.

Key Element A / Activity 2: Stock Assessment

ESTIMATED COST: [redacted]

Task Description:

Operation of various salmon smolt and adult counting facilities and the completion of salmon stream counts.

Activity	River / Location	Duration (estimated)	Species	Expected Sample Size	Purpose
i)	Kitwanga River Smolt Enumeration Facility (KsF)	April 13 – June 8	Sockeye	Sx = 750,000	Sx: Determine yearly production, age and size.
ii)	Kitwanga River Adult Salmon Enumeration Facility (KSEF)	July 13 – Oct. 26	Sockeye Chinook Pink Chum Coho	Sx = 2500 Ch = 1,000 Pk = 30,000 Cu = 500 Co = 6,000	Total return, age, sex, size, condition (total return of hatchery sockeye and CWT coho).
iii)	Meziadin River Fishway (MF)	July 18 – Sept. 30	Sockeye Chinook Coho Steelhead		Total return, age, sex, size, and tag recovery.
iv)	Brown Bear Stream Surveys	Sept.12 – Oct. 28	Sockeye Coho	Sx = 500 Co = 200	Estimated total return, age, sex, and tag recovery.

*Sockeye (Sx), Chinook (Ch), Pink (Pk), Chum (Cu), Coho (Co)

Expected Results:

1. Employment of 6 community members for approximately 7 person months; develop technical capacity in stock assessment techniques.

2. Cumulative escapement information will be reported to DFO in-season to help manage fisheries.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for 2013-2014	
Products/Reports to provide to DFO: 1. The Organization's FB will provide weekly in-season updates to DFO stock assessment staff via email (senior stock assessment biologist Dave Peacock) starting in the middle of July, 2013. 2. Summary Reports on the individual projects will be included in the Year End Report.	
KEY ELEMENT B:	FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by ten percent (10%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

s.20(1)(c)

4.1.2. For funding increases or decreases in excess of ten percent (10%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony, (Melanie.Anthony@dfo-mpo.gc.ca). The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year	$ AMOUNT Carried over from previous Fiscal Year
April		
May		
June		
July		
August		
September		
October		
November		
December		
January		
February		
March		
TOTAL	$0.00	

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 7

PROGRESS REPORT / YEAR END REPORT

Fiscal Year:	2013-2014 and/or 2014-2015		
Name and Address of Organization:	Gitanyow Fisheries Authority P.O. Box 148 #4581 North Access Road Kitwanga, BC V0J 2A0		
Agreement Number:	AFS2013-MLT-1308-0		
Amount of Approved Contribution for Fiscal Year:	Total:	13/14 $296,252.00	14/15 $294,000.00
	DFO:	13/ 14$296,252.00	14/15 $294,000.00

Section 2 –Products/Reports and Actual Results for 2013-2014

Activities (from section 3 of Schedule 5)	**Status * (In measurable terms)**
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Gitanyow Fisheries Authority (GFA) **Expected Results:** 1. Project budgets and operational workplans are completed and agreed to by DFO and the Organization / GHC to facilitate the completion of the AFS Agreement. 2. Internal Organizational / GHC meetings to develop program direction/mandate development are held and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained. 3. The FC and FB will report on all projects undertaken, and make any proposals developed and submitted available for DFO review upon request. 4. Staff, leadership and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of GFA fisheries program in cooperation with DFO. 5. Partnering and leveraging activities complement Agreement objectives. 6. Area and species specific catch data are received weekly by DFO Fisheries Management. The	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***

Activities (from section 3 of Schedule 5)	Status * (in measurable terms)
FSC fishery is managed within the allocations provided for in the Agreement. 7. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects. 8. Projects are carried out in accordance with the expected results, and supporting detailed operational workplans jointly developed by the Organization and DFO. 9. The Organization's - FB able to recommend fisheries mitigation / compensation for proposed development on Gitanyow Territory. 10. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO contacts. Financial reports and supporting documents are generated in a timely manner. 11. Travel to RHQ and give a power point presentation to the lead consultant of Price-Waterhouse Cooper on the Gitanyow Fisheries Authority fisheries program. **Products/Reports to provide to DFO:** 1. Seasonal operational plans for field activities, work plans and budgets that are used to construct the Agreement. 2. Documentation of all meeting-related activities by staff and leadership shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items, dates, travel costs and a summary of meeting outcome, i.e.: o Internal Organizational meetings o Technical and management processes 3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in the Year End Report. 4. Catch information provided to DFO weekly throughout the fishing season (to Jim Steward – DFO – Prince Rupert, via email). The Organization will also provide a post season summary and details of the Catch Reporting Project in their Year End Narrative Report. 5. The Organization will include details of type of training and number of staff attended in their Progress Report. 6. FB to provide a summary of EA projects reviewed including a summary of review outcomes. 7. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement. 8. Year End Report will be submitted within 120 days of Fiscal Year end.	
Activity A-2: Stock Assessment **Expected Results:**	**Expected/Actual Results (annual / multi-year):**

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.9. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

s.20(1)(c)

[redacted]

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

4.1. Fishing is permitted in the following areas:

s.20(1)(c)

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Gitanyow Huwilp Society will serve as the Member's designation document.

6.3. The Organization will designate specific Members to engage in Fishing on its behalf by issuing a designation document to each designated Member.

6.4. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.5. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Melanie Anthony, Resource Manager at melanine.anthony@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.6. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.7. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.8. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel, representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

s.19(1)

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Ricardo Correia	Detachment Supervisor Skeena, Nass, Coastal, Area 6	(250) 847-2576

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO and the Aboriginal Fishery Guardians will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 4 day of May, 2018
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITANYOW HUWILP SOCIETY, a society incorporated under the *Society Act* of British Columbia, doing business as Gitanyow Fisheries Authority for and on behalf of the members of the Houses, (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 27
Schedule 7	Progress Report / Year End Report	Page 28
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 33
Schedule C	Aboriginal Fishery Guardians	Page 36
Schedule D	Monitoring and Enforcement Protocol	Page 39

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2018-2019 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2019-2020 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2020-2021 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2021-2022 and an amount of up to TWO HUNDRED AND NINETY-FOUR THOUSAND DOLLARS ($294,000.00) in Fiscal Year 2022-2023 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2023.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Gitanyow Fisheries Authority
P.O. Box 148
#4581 North Access Road
Kitwanga, BC
V0J 2A0

Attention:	Gregory Rush Fisheries Coordinator, Gitanyow Fisheries Authority
Telephone:	(250) 849-5373
Facsimile:	(250) 849-5375

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-666-8385
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization warrants that it is a society duly incorporated and in good standing under the applicable laws of Canada or of a province or a territory of Canada, as the case may be, and will remain in good standing under those laws at all times during the term of this Agreement.

12.5. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

Clan (Pdeek)	
Lax Gibuu (Wolf)	Gwass Hlaam
	Wii Litsxw/Tax Wookxw
	Malii
	Haizimsque
Lax Ganeda (Frog)	GamLaxyeltw/Sindhl
	LuuxHon
	Gwinuu
	Wataxhayetsxw/Siidook

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2019-2020, 2020-2021, 2021-2022 and 2022-2023.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in September of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2018, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2018, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a six-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent six-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For the last Fiscal Year of this Agreement, a holdback of five percent (5%) of the Contribution for the last Fiscal Year will apply.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.5. Unexpended Funding and Repayments

2.5.1 Subject to subsection 2.5.4 of this Schedule, the Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2 The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3 Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.5.4 Subject to DFO's written approval on the planned use of Unexpended Funding and associated reporting requirements, the Organization may retain any Unexpended Funding that remains at the end of a Fiscal Year for use in the next Fiscal Year to further achieve results towards the program objectives or to continue meeting the program objectives. The Organization will repay to DFO any Unexpended Funding that remains at the expiry of this Agreement.

2.6. Withholding of Payments

2.6.1 Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2 Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1 The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1 The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2 DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3 In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization may, at its discretion, submit a Progress Report at any time in the form set out in Schedule 7.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   - a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   - b) GST or HST paid that is not eligible for reimbursement or exemption
   - c) bank interest fees if incurred where DFO is at fault

2) Audit
   - a) costs incurred in carrying out an audit of financial statements associated with this Agreement

3) Communications:
   - a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   - b) outreach materials (e.g. printing costs, web sites)

4) General Operating Expenses:
   - a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   - b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises

5) Insurance:
   - a) insurance expenses related to Activities under this Agreement

6) Professional Services:
   - a) contracted and professional service costs other than travel or litigation costs
   - b) consultation costs
   - c) legal fees related to this Agreement (excluding litigation costs)

7) Property, Plant and Equipment:
   - a) purchase, lease or rental of equipment, supplies and materials
   - b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   - c) construction of new vessels and/or gear

8) Rental of Space/Accommodations:
   - a) office lease or rent

9) Salaries, Wages and Related Costs:
   - a) human resource costs, including salaries and benefits (in-house)

10) Training:
   - a) training fees and expenses, including materials

11) Travel:
   - a) travel and related expenses for contracted professional service providers or other non-employees

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

The Gitanyow Fisheries Authority (Organization) is the technical arm of the Gitanyow Hereditary Chiefs Office (GHC), and provides fisheries and overall environmental expertise and services for the asserted Gitanyow territory.

Guided by the Organization's Mandate, and in cooperation with DFO, the Organization's fisheries program has been in operation for the past 23 years. The Organization's Mandate states:

> *The GFA is mandated to conserve, protect, restore, monitor and manage fish, wildlife and the habitat they require, within the Gitanyow Lax Yip (Traditional Territory).*

The Organization has been in operation since 1994 and in that time has grown to employing 3 full time biologists, 1 full time fisheries coordinator and 8-10 seasonal technical staff. The AFS program has been, and will continue to be, instrumental in supporting the development and growth of the Organization. The Organization conducts salmonid stock assessment, watershed restoration, environmental monitoring, fish and wildlife habitat assessment, environmental impact assessment, research and planning, primarily within the asserted Gitanyow territory.

One of the driving forces behind the creation of the Organization was the perilous state of the Kitwanga River sockeye salmon. This stock was historically a key food fish for the Gitanyow people, as well as a vital component of the highly productive Kitwanga River Watershed ecosystem. The Kitwanga Sockeye Recovery Plan began in 1999, which involved accurate stock assessment, resulting in the construction and operation of the Kitwanga River Salmon Enumeration Facility (2003) and the Kitwanga River Sockeye Smolt Enumeration Facility (2008).

The Organization has grown into a well established fisheries management team that now conducts stock assessment work in the Nass River Watershed as well as a variety of work throughout the asserted Gitanyow territory. The stock assessment projects have provided valuable data to both the Organization and to DFO and have contributed to the management of salmon within the Skeena and Nass River Watersheds. The Organization intends to continue to operate the facilities as well as grow and remain fully engaged in the management and protection of the fisheries resources.

1.1. Multi-year Work Plan

1.1.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities					
	2018-2019	2019-2020	2020-2021	2021-2022	2022-2023
	$294,000.00	$294,000.00	$294,000.00	$294,000.00	$294,000.00

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Description: Gitanyow Fisheries Authority (GFA) The Organization will oversee and carry out program development, work planning,

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan

consultations and negotiations of the AFS Agreement and maintain dialogue and co-management initiatives between DFO and the Gitanyow Hereditary Chiefs (GHC). The Organization will be responsible for managing the Gitanyow FSC fisheries, implementing AFS programs, budgeting, planning, reporting, and data management. As well, the Organization will seek to support additional fisheries related research, such as stock assessment programs, habitat monitoring, habitat restoration and fisheries enhancement opportunities through the leveraging of additional funding from other sources inside and outside of DFO. The GHC will provide leadership and administrative support for GFA program under this Agreement and aids with some financial management component of the Agreement, including the provision of office space, supplies, utilities, computer support, and storage facilities.

The Organization's core staff is comprised of a Fisheries Coordinator (FC), Fisheries Biologists (FB), a contract book keeper, several seasonal fisheries technicians (FT), several seasonal fisheries labourers (FL), a part time receptionist and a part-time seasonal catch monitor (CM). The FC with help from the FB, will co-ordinate the various fisheries activities and provide direction regarding the various projects while ensuring program stability and cost effective management. The FC and the FB will collectively oversee the training and supervision of field staff, implementation of the AFS program, AFS Agreement budgeting, planning, reporting and data management. The FB will also set-up field standards for data collection, train field staff on proper field process, data collection and conduct regular field audits to ensure field operations proceed as planned. The GHC will be responsible for ensuring that the FC and support staff are provided with the leadership required to manage and effectively deliver the program and associated projects.

1. With the assistance of the FB and GHC Leadership, the FC will lead and coordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. Regular internal meetings will be conducted with GHC leadership who will oversee political negotiations, program/policy development and staff management.
3. The FB will be responsible for the technical aspects of the program including project planning, project management and the maintenance of technical standards. The FB will also research, write and submit technical proposals to various funding sources to secure partnerships and additional funding whenever possible.
4. Participation of Organizational staff and GHC leadership in fisheries focused resource management forums including the review of yearly Integrated Fisheries Management Plans for the BC north coast, participate in technical working groups, Joint Management Advisory Committees, Pacific Salmon Commission technical meetings, community fisheries meetings and multi-stakeholder meetings.
5. The Organization will monitor their FSC fishery and provide harvest information to DFO so that it can be incorporated into the management of salmon for the Skeena and Nass River drainages.
6. The Organization will pursue various partnering and leveraging opportunities, including proposal development and attend meetings as required.
7. The Organization under this Agreement will provide training to support the Organizational staff. Annual training and recertification needs vary with returning and/or new staff. Required training may consists of, but is not limited to, the following: First Aid, Transportation Endorsement, Boating Safety, Swiftwater Rescue, Bear Awareness and shotgun handling, Chainsaw Safety, and Helicopter Safety, Conflict Resolution and Life Skills. Training for managerial staff will also be provided under this agreement.
8. The Organization's FB may take part in Environmental Assessment (EA) of proposed development projects in and around asserted Gitanyow Territory that have the potential of impacting fish and fish habitat.
9. The Organization may also produce and distribute newsletters, notices and public

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
informational brochures / posters for the community and public at large. **Expected Results:** 1. Project budgets and operational workplans are completed and agreed to by DFO, the Organization and the GHC to facilitate the completion of the AFS Agreement. 2. Internal Organizational meetings to develop program direction/mandate development will be held annually and outcomes will be communicated to the community as necessary and summarized for DFO upon request. Communication with GHC leadership and the Gitanyow community will be maintained. 3. The FC and FB will report on all projects undertaken, and make any proposals developed and submitted available for DFO review upon request. 4. Staff, leadership and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of GFA fisheries program in cooperation with DFO as needed. 5. Partnering and leveraging activities will complement Agreement objectives. 6. The Organization will strive to provide area and species specific catch data on a weekly basis to DFO Fisheries Management in season, as it becomes available. The Organization will manage their FSC fishery within the allocations provided for in the Agreement. 7. The Organization will strive to support employees to maintain required and relevant training to work safely and effectively on fisheries projects. 8. Projects are carried out in accordance with the expected results, and supporting detailed operational workplans jointly developed by the Organization and DFO. 9. The Organization's FB will strive to provide recommendations on fisheries mitigation / compensation for proposed development in and around the asserted Gitanyow Territory. 10. Financial records will be maintained and reporting will be completed in a timely manner and communication will be maintained with the DFO contacts as best as possible.
Description: Stock Assessment 1. Operation of various salmon smolt and adult counting facilities and the completion of salmon stream counts. 2. Sockeye (Sx), Chinook (Ch), Pink (Pk), Chum (Cu), Coho (Co) **Expected Results:** 1. Employment of 4-6 community members for approximately 6-8 person months; develop technical capacity in stock assessment techniques. 2. Cumulative escapement information will be reported to DFO in-season and post-season to help manage fisheries.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

2. **Annual Work Planning Process**

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. **Activities**

3.1. **Annual Work Plan for Fiscal Year 2018-2019 and 2019-2020**

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2018-2019 and 2019-2020
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Gitanyow Fisheries Authority (GFA)

ESTIMATED COST:

The Organization oversees and carries out program development, work planning, consultations and negotiations of the AFS Agreement and maintains dialogue and co-management initiatives between DFO and the Gitanyow Hereditary Chiefs Office (GHC). The Organization is responsible for managing the Gitanyow Food, Social and Ceremonial (FSC) fisheries, implementing all fisheries related field programs including AFS specific projects, budgeting, planning, reporting, and data management. As well, the Organization seeks to secure additional funds annually to conduct additional fisheries related research, implement additional stock assessment programs, habitat monitoring, habitat restoration and fisheries enhancement opportunities through the leveraging of additional funding from other sources inside and outside of DFO. The GHC provides support, leadership and program management to the GFA program under this Agreement.

The Organization's core staff is comprised of a Fisheries Coordinator (FC) / Seasonal Catch Monitor (CM), Fisheries Biologists (FB), several seasonal Fisheries Technicians (FT), several seasonal Fisheries Labourers (FL) and a receptionist. Financial accounting for GFA is contracted out. The FC with help from the FB co-ordinates the various fisheries activities and provides direction regarding the various projects while ensuring program stability and cost effective management. The FC and the FB collectively oversee the training and supervision of field staff, implementation of AFS field programs, AFS Agreement budgeting, planning, reporting and data management. The FB will set-up field standards for data collection, trains field staff on proper field techniques, data collection and conducts regular field audits to ensure field operations proceeds as planned. The Organization is responsible for ensuring that the FC and support staff are provided with the administrative and physical infrastructure required to manage the program and associated projects.

Task Description:

1. With the assistance of the FB and GHC Leadership, the FC will lead and coordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. Regular internal meetings will be conducted with leadership who will oversee political negotiations, program/policy development and staff management. Meet with local (Smithers, Terrace, Prince Rupert), regional (Vancouver) and national (Ottawa) DFO staff as needed to ensure the program operates as expected and planned on an annual basis.
3. The FB will be responsible for the technical aspects of the program including project planning, project management and the maintenance of technical standards. The FB will also research, write and submit technical proposals to various funding sources to secure partnerships and additional funding whenever possible.
4. Participation of Organizational staff and GHC leadership in fisheries focused resource management forums including the review of yearly Integrated Fisheries Management Plans for the BC north coast, participate in technical working groups, Joint Management

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Advisory Committees, Pacific Salmon Commission technical meetings, community fisheries meetings and multi-stakeholder meetings.

5. The Organization will monitor their FSC fishery and provide harvest information to DFO so that it can be incorporated into the management of salmon for the Skeena and Nass River drainages.
6. The Organization will pursue various partnering and leveraging opportunities, including proposal development and attend meetings as required.
7. The Organization under this Agreement will provide training to support Organizational staff, including annual training and recertification of new and returning staff as required. Required training may consists of, but is not limited to, the following: Level 1 - First Aid, Transportation Endorsement, Boating Safety, Swiftwater Rescue, Bear Awareness and safe firearms handling, Chainsaw Safety, ATV training, Helicopter Safety, and Conflict Resolution Training for managerial staff in computer software, accounting and program management may be provided under this category.
8. The Organization's FB to take part in Environmental Assessment (EA) of proposed development projects in and around asserted Gitanyow territory that have the potential to impact fish and fish habitat.
9. Production and distribution of newsletter and public informational brochures / posters for the community and public at large. Take part in community, local and regional meetings as needed to share the results of the program.

Expected Results:

1. Project budgets and operational workplans are completed and agreed to by DFO and the GFA / GHC to facilitate the completion of the AFS Agreement.
2. Internal GFA / GHC meetings to develop program direction/mandate development are held and outcomes are communicated to community and summarized for DFO as needed. Communication with leadership and community is maintained.
3. The FC and FB will report on all projects undertaken, and make any proposals developed and submitted available for DFO review upon request.
4. Staff, leadership and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of GFA fisheries program in cooperation with DFO.
5. Partnering and leveraging activities complement Agreement objectives.
6. Area and species specific catch data are received weekly by DFO Fisheries Management.
7. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects.
8. Projects are carried out in accordance with the expected results, and supporting detailed operational workplans jointly developed by the Organization and DFO.
9. The Organization's FB is able to recommend fisheries mitigation / compensation for proposed development on and around asserted Gitanyow territory.
10. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO contacts.

Products/Reports to provide to DFO:

1. Seasonal operational plans for field activities, work plans and budgets are reported out as set out by the Agreement.
2. Documentation of all meeting-related activities by staff and leadership shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items, dates, participation and a summary of meeting outcome, i.e.:
    - Internal Organizational meetings
    - Technical and management processes
3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in the Year End Report.
4. The Organization will provide catch information to DFO weekly throughout the fishing season (to DFO via email). The Organization will also provide a post season summary

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and details of the Catch Reporting Project in their Year End Report.
5. The Organization will include details of type of training and number of staff attended in their Progress Report.
6. FB to provide a summary of EA projects reviewed including a summary of review outcomes. Copies of any publications will be provided to the AFS Implementation Officer, upon request.

s.20(1)(c)

7. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.
8. A table showing general costing of salaries, wages and professional services for the current fiscal year in a format acceptable to DFO will be submitted by September 01 of that fiscal year.
9. Year End Report will be submitted within 120 days of Fiscal Year End.

Key Element A / Activity 2: Stock Assessment

ESTIMATED COST: [redacted]

Task Description:

Operation of various salmon smolt and adult counting facilities and the completion of salmon stream counts (if and when funding permits).

Activity	River / Location	Duration (estimated)	Species	Expected Sample Size	Purpose
i)	Kitwanga River Smolt Enumeration Facility (KsF)	April to June	Sockeye Coho	10,000 to 750,000 smolts	Sx: Determine yearly production, age and size. Co: conduct coded wire tag program.
ii)	Kitwanga River Adult Salmon Enumeration Facility (KSEF)	July to October	Sockeye Chinook Pink Chum Coho	50,000 to 1,000,000	Total return, age, sex, size, condition (total return of CWT coho).
iii)	Meziadin River Fishway (MF) – Joint operations with DFO and Nisga'a Fisheries	July to September	Sockeye Chinook Coho Steelhead	Variable	Total return, age, sex, size, and tag recovery.
iv)	Brown Bear Stream Surveys	September to October	Sockeye Coho	0 to 1,000	Estimated total return, age, sex, and tag recovery.

*Sockeye (Sx), Chinook (Ch), Pink (Pk), Chum (Cu), Coho (Co)

Expected Results:

1. Employment of approximately 4-6 field technicians / labourers for approximately 6-8 months; develop technical capacity in stock assessment techniques.
2. Escapement information will be reported to DFO in-season to help manage fisheries.

Products/Reports to provide to DFO:

1. The Organization's FB will provide weekly or bi-weekly in-season updates to DFO stock assessment staff via email starting in the middle of July of each season.
2. Summary Reports on the individual projects will be included in the Year End Report.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

KEY ELEMENT C: ECONOMIC OPPORTUNITIES

KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by ten percent (10%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of ten percent (10%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony, (Melanie.Anthony@dfo-mpo.gc.ca). The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

5. **Budget**

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5 of Schedule 5.
2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.
3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.
4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 7

PROGRESS REPORT / YEAR END REPORT

s.20(1)(c)

Fiscal Year:	2018-2019 and/or 2019-2020
Name and Address of Organization:	Gitanyow Fisheries Authority P.O. Box 148 #4581 North Access Road Kitwanga, BC V0J 2A0
Agreement Number:	AFS2018-MLT-1806-0
Amount of Approved Contribution for Fiscal Year:	Total: DFO: Organization: $0.00 $0.00

Reporting period: from: _____ to: _____

Type of report:	Purpose of report:
☐ Progress Report ☐ Year End Report	☐ Request for advance payment * ☐ Request for reimbursement ☐ Release holdback ☐ Other: _____ * Also submit a revised cash flow projection of Eligible Costs in the form set out in Schedule 6 of the Agreement.

Section 1 – Financial Summary

TABLE 1.0

DFO Eligible Costs category	*Budgeted amount*	*Funds received year to date (fill in total only)*	*Expenses for current reporting period*	*Expenses year to date (includes current reporting period)*
1) Administration				
2) Audit				
3) Communications				
4) General Operating Expenses				
5) Insurance				
6) Professional Services				
7) Property, Plant and Equipment				
8) Rental of Space/Accommodations				
9) Salaries, Wages and Related Costs				
10) Training				
11) Travel				
TOTAL	$294,000.00			

* Anticipated over-threshold or under-threshold status for Progress Reports; actual over-threshold or under-threshold status for Year End Reports. Please fill out Table 1.1 below. As per the table for the applicable Fiscal Year in section 5 of Schedule 5.
** When receiving funding from other sources please fill in Table 1.2 below.

TABLE 1.1

Where there is an anticipated/actual over-threshold or under-threshold status for a given Eligible Costs category that exceeds the established threshold set out in the table in section 5 of Schedule 5 for the applicable Fiscal Year, please explain:

DFO Eligible Costs category	*Budgeted amount*	*Actual expenses $ amount*	*Under-budget or over-budget $ amount*	*Reason for budget deviation*

Section 2 – Products/Reports and Actual Results

Activities (from section 3 of Schedule 5)	Progress on Year-End/Final Report on Status (in measurable terms)
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Gitanyow Fisheries Authority (GFA) Expected Results: 1. Project budgets and operational workplans are completed and agreed to by DFO and the GFA / GHC to facilitate the completion of the AFS Agreement.	Actual Results in Narrative Format (enter text):
2. Internal GFA / GHC meetings to develop program direction/mandate development are held and outcomes are communicated to community and summarized for DFO as needed. Communication with leadership and community is maintained.	
3. The FC and FB will report on all projects undertaken, and make any proposals developed and submitted available for DFO review upon request.	
4. Staff, leadership and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of GFA fisheries program in cooperation with DFO.	
5. Partnering and leveraging activities complement Agreement objectives.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
6. Area and species specific catch data are received weekly by DFO Fisheries Management.	
7. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects.	
8. Projects are carried out in accordance with the expected results, and supporting detailed operational workplans jointly developed by the Organization and DFO.	
9. The Organization's FB is able to recommend fisheries mitigation / compensation for proposed development on and around asserted Gitanyow territory.	
10. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO contacts.	
Products/Reports to provide to DFO: 1. Seasonal operational plans for field activities, work plans and budgets are reported out as set out by the Agreement.	**Products/Reports:**
2. Documentation of all meeting-related activities by staff and leadership shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items, dates, participation and a summary of meeting outcome, i.e.: - Internal Organizational meetings - Technical and management processes	
3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in the Year End Report.	
4. The Organization will strive to provide catch information to DFO weekly throughout the fishing season (to DFO via email). The Organization will also provide a post season summary and details of the Catch Reporting Project in their Year End Report.	
5. The Organization will include details of type of training and number of staff attended in their Progress Report.	
6. FB to provide a summary of EA projects reviewed including a summary of review outcomes. Copies of any publications will be provided to the AFS Implementation Officer, upon request.	
7. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Agreement.	
8. A table showing general costing of salaries, wages and professional services for the current fiscal year in a format acceptable to DFO will be submitted by September 01 of that fiscal year.	
9. Year End Report will be submitted within 120 days of Fiscal Year End.	
Activity A-2: Stock Assessment **Expected Results:** 1. Employment of approximately 4-6 field technicians / labourers for approximately 6-8 months; develop technical capacity in stock assessment techniques.	**Actual Results in Narrative Format (enter text):**
2. Escapement information will be reported to DFO in-season to help manage fisheries.	
Products/Reports to provide to DFO: 1. The Organization's FB will provide weekly or bi-weekly in-season updates to DFO stock assessment staff via email starting in the middle of July of each season.	**Products/Reports:**
2. Summary Reports on the individual projects will be included in the Year End Report.	
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY	

Section 3 – Measuring Program Performance

Section 4- Allocation Transfer Program (ATP)

To be completed as part of the Year End Report when Schedule B (Communal Commercial Fisheries Access) is part of the Agreement.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.9. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

s.20(1)(c) 2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

[redacted]

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

4.1. Fishing is permitted in the following areas:

s.20(1)(c)

[redacted]

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Gitanyow Huwilp Society will serve as the Member's designation document.

6.3. The Organization will designate specific Members to engage in Fishing on its behalf by issuing a designation document to each designated Member.

6.4. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.5. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Melanie Anthony, Resource Manager at melanine.anthony@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.6. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.7. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.8. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel, representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

s.19(1)

Name	Position Title	Phone Number
Gregory Rush	Fisheries Coordinator	(250) 849-5373

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO and the Aboriginal Fishery Guardians will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 2 day of November, 2015
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITGA'AT INDIAN BAND, also known as the Hartley Bay Indian Band and the Gitga'at First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 27
Schedule 7	Progress Report / Year End Report	Page 28
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 34
Schedule B	Communal Commercial Fisheries Access	Page 37
Schedule D	Monitoring and Enforcement Protocol	Page 40

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND SIX THOUSAND, FIVE HUNDRED AND NINETY-FOUR DOLLARS ($106,594.00) in Fiscal Year 2015-2016 an amount of up to ONE HUNDRED AND SIX THOUSAND, FIVE HUNDRED AND NINETY-FOUR DOLLARS ($106,594.00) in Fiscal Year 2016-2017 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted] in Fiscal Year 2015-2016 and [redacted] in Fiscal Year 2016-2017, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2017.

s.19(1)
s.20(1)(c)

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Gitga'at First Nation
445 Hayimiisaxaa Way
Hartley Bay, BC
V0V 1A0

Attention: Chris Picard, Science Director

Telephone: (250) 841-2500
Facsimile: (250) 841-2541
Email: [redacted]

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in section 6 of Schedule B;

"Contribution to Activities" means the amount of funds, set annually by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

or facilitator will be shared equally by the Parties.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2015, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2015, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.1 Multi-year Work Plan

1.1.1 The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities	
Fiscal Year 2015-2016	**Fiscal Year 2016-2017**
$127,400.00	$127,400.00

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Description:

The Organization's key activities are related to fisheries management and stock assessment in Gitga'at asserted Territory. The Agreement creates an avenue for ongoing communications between the Organization and DFO on important fisheries issues. It also provides base support for Gitga'at Fisheries Office to facilitate some of the Organization's internal and third party work and communications on fisheries issues.

The Organization engages in stock assessment through the AFS Agreement focusing on species that are of high importance to both the Organization and DFO, but are not part of other stock assessment programs. Basic objectives include filling knowledge gaps, understanding stock status and informing management of such information. For the current two year Agreement, stock assessment work will continue to focus on Dungeness crab, intertidal bivalves and salmon in key coastal streams of PFMAs 5 and 6.

AFS fully funds a full-time fisheries technician and partially funds an administrative assistant, four Guardian Watchmen and a biologist.

Expected Results:

1. Internal fisheries and aquatic resource meetings are held to develop program direction/mandate development and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained.
2. Financial records are maintained, reporting is completed in a timely manner and communication is maintained with the DFO Resource Manager. Financial reports and supporting documents are generated in a timely manner to support the fisheries technician in meeting AFS reporting requirements.
3. Timely and fair distribution of communal commercial assets acquired through the ATP program.
4. A summary of escapement and trends for all spawning salmon species in the Tsimtack/Moore watershed will be submitted in a report to DFO.
5. Stock assessment projects will increase technical skills and capacity to conduct and report on stock assessment activities.
6. The Organization will gain increased knowledge on Dungeness crab and the indicators of overexploitation. Data analysis will focus on population characteristics that may be indicators of overexploitation. Results and potential management implications will be discussed with DFO staff.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
7. Determine bivalve distribution, abundance and biomass at several harvest sites, evaluate how bivalve populations respond to food harvesting, and identify bivalve population and community structure characteristics that may be early indicators of stock depletion. 8. Continue discussions with DFO and implement a community harvest plan and biotoxin monitoring. 9. Determine long-term trends which will help support implementation of the Organization's bivalve management plan.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: The Organization will carry out catch monitoring to collect multi-species harvest information from the Organization's fishers in Gitga'at asserted Territory. FSC harvests in Gitga'at asserted territory by other fishers under the Organization permitting authority will also be monitored. **Expected Results:** 1. Catch data will be submitted to DFO at agreed to regular intervals. 2. Summary of catch data will be provided with AFS Year End Report.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Fisheries Authority and Program Management **ESTIMATED COST** [redacted] **Task Description:** 1. Establish and maintain an Aboriginal Fisheries Authority (AFA) to represent the Organization during negotiations with DFO and manage reporting requirements in the Agreement. This funding will support a fisheries technician and administrative assistant who will liaise, negotiate and prepare reports. 2. Tracking of Agreement expenditures and preparation of Progress and Year End Reports. 3. Prepare negotiating positions including background research and internal communications. 4. Assist with distribution of communal commercial fishing licences and quotas and

s.20(1)(c)

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

management of the associated financial proceeds.

5. The fisheries technician will develop negotiating positions regarding various issues based on interaction with the community through reports and evaluations. These community positions will be communicated through correspondence with DFO and/or other First Nations.
6. Participate in negotiation sessions and other meetings with DFO, other First Nations and other organizations. The technician will work with the community towards:
   - Policy development;
   - Negotiation of Comprehensive Fisheries Agreement (and other AFS documents) between DFO and the Organization;
   - Presenting the community's position on numerous fisheries-related issues to DFO; and,
   - Developing agreements with other First Nations.

Expected Results:

1. To ensure that all fisheries issues are communicated to the community and DFO and to negotiate a Comprehensive Fisheries Agreement (CFA) for the Fiscal Year.
2. Internal AFS meetings are held to develop program direction/mandate development and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained.
3. Engagement in multi-First Nations organizations such as North Coast Skeena First Nations Stewardship Society, Great Bear Initiative and First Nations Fisheries Council on matters of common interest.
4. Financial records are maintained, reporting is completed in a timely manner and communication is maintained with the DFO Resource Manager. Financial reports and supporting documents are generated in a timely manner to support the fisheries technician in meeting AFS reporting requirements.
5. Timely and fair distribution of communal commercial assets.

Products/Reports to provide to DFO:

1. A completed Schedule 5 and signed CFA.
2. Documentation of all meetings-related activities by staff and leadership will be provided in the Progress and Year End Reports, consisting of a minimum of a listing of agenda items, dates, travel costs and a summary of meeting outcomes.
3. Progress Report covering period of April 1 to September 30 each fiscal, and Year End Report submitted within 90 days from March 31st.
4. A summary of communal fishing activities will be provided monthly to the DFO Resource Manager as per communal licence requirements and will be provided in the Year End Report.

s.20(1)(c)

Key Element A / Activity 2: Tsimtack/Moore Watershed Stock Assessment

ESTIMATED COST

Task Description:

1. The staff biologist and a fisheries technician/Guardian Watchmen will conduct adult salmon escapement and enumeration surveys in sockeye spawning tributaries within the Tsimtack/Moore watershed and Quaal River during early September to mid-October. Spawning locations will be mapped and escapement of each species will be estimated.
   - This project will be completed in two phases:
     - Phase 1: First Nation staff will accompany a contract biologist to conduct routine spawning salmon enumeration of the referenced streams.
     - Phase 2: First Nation's technicians/ Guardian Watchmen will camp within the watershed for several days in order to survey potential spawning rivers and beaches and estimate total escapement to each sub-drainage using area-under-the-curve methodology.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

Expected Results:

1. A summary of escapement and timing for all salmon species in the watershed will be submitted in a report to DFO. The extent and relative importance of sockeye and other salmon spawning habitat will also be quantified.
2. This project contributes to ongoing Stock Assessment in Area 6, which enables the community to increase understandings of salmon spawning habitat and escapement.
3. This project will increase Organizational skills and capacity to conduct stock assessment activities.

Products/Reports to provide to DFO:

1. A summary of results will be provided in the Year End Report. Stream Inventory Logs (SILs) will be provided to DFO in-season.

s.20(1)(c)

Key Element A / Activity 3: Crab Surveys

ESTIMATED COST

Task Description:

1. As in previous years, seasonal Dungeness Crab field trapping and sampling will be conducted at important crab areas in Kishkosh Inlet and Kitkiata Inlet during spring (May or early June) and autumn (October) to understand seasonal changes in crab abundance that may be associated with sportfishing during the summer season.
2. In each site, numerous traps (i.e. approximately 25) will be set for 24 hours. Sampling will include: enumerating crabs from each trap; identifying gender; measuring carapace width and noting injuries.
3. The staff biologist, fisheries technician, and two Guardian Watchmen will conduct the 4-6 day field surveys each season.
4. Technicians have received training in the proper data collection and recording protocols. Field supervision, data management and analysis will be the responsibility of the staff biologist.
5. All data will be recorded on standard forms consistent with Dunham, J.S., Phillips, A., Morrison, J., and Jorgensen, G. 2011. A manual for Dungeness crab surveys in British Columbia. Can. Tech. Rep. Fish. Aquat. Sci. 2964: viii + 68 p.
6. All data will be recorded on standard data forms as discussed with DFO. The Organization will also provide DFO with a summary report of all data collected and raw data in an MS Access database or in a format that will be accepted by DFO.

Expected Results:

1. The Organization will gain increased knowledge on Dungeness crab and the indicators of overexploitation. Data analysis will focus on population characteristics that may be indicators of overexploitation. Results and potential management implications will be discussed with DFO staff.

Products/Reports to provide to DFO:

1. A summary of results including raw data will be provided with the Year End Report.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

Key Element A / Activity 4: Intertidal Bivalve Surveys

ESTIMATED COST [redacted]

Task Description:

1. Stock assessment will be conducted at two beaches in Douglas Channel that are commonly used for harvesting. Stock assessment will be conducted when the lowest tides occur during daylight hours, which will facilitate efficient and effective data collection. The survey will be supervised by a registered professional biologist experienced in benthic surveys. The sample program will involve the following aspects:
   - Technician training;
   - Pre-surveys;
   - Field surveys;
   - Laboratory work and analysis;
   - Data entry and management; and,
   - Detailed report writing.

   The survey will occur in late August over 4-6 days. In addition to the contracted Biologist, the fisheries technicians will complete office work and gear preparations, and several Guardian Watchmen and volunteers will participate in field sampling. Given the extensive beaches and short timeframe, more participants help ensure that the survey is completed.

Expected Results:

1. To determine bivalve distribution, abundance and biomass at several harvest sites, evaluate how bivalve populations respond to food harvesting, and identify bivalve population and community structure characteristics that may be early indicators of stock depletion.
2. To continue discussions with DFO and implement a community harvest plan and biotoxin monitoring.
3. Data will be used to determine long-term trends which will help support implementation of the Organization's bivalve management plan.

Products/Reports to provide to DFO:

s.20(1)(c)

1. A summary of results including raw data will be provided with the Year End Report.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Catch Monitoring and Information Management

ESTIMATED COST [redacted]

Task Description:

1. The fisheries technician will issue and maintain a database of communal licence designations for First Nation members and vessels throughout the year.
2. Commencing April 1st, the full-time fisheries technician and a contracted biologist will conduct catch monitoring to ensure compliance with relevant provisions of the communal licence. This will be conducted through-out the year but primarily in the spring and summer and will include dockside monitoring, door to door surveys and vessel based surveys.
3. FSC monitoring data will be stored in an FSC database.
4. The Organization and DFO will work together to develop a fishing plan and catch monitoring program that reflects actual harvest levels.

Expected Results:

1. The database information will provide a summary of the licences that were issued during the year.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017
2. The fisheries technician will use the database to maintain a record of contacts made with the fishermen to acquire FSC harvest. 3. FSC catch will be monitored throughout the year to ensure compliance with the communal licence. 4. This database information will provide a summary of licences issued and catches for the year. This information will be provided to DFO throughout the year and will be compiled and included in the Progress and Year End Reports that are submitted to DFO. **Products/Reports to provide to DFO:** 1. Information on designated licences to will be provided to DFO as required and a summary will be included with the Year End Report. 2. A summary of results including raw data will be provided with the Year End Report. 3. Commencing April 1st, catch data and total estimated FSC catch numbers will be provided to DFO each month.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year 2015/2016

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$106,594.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.3 The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.4 DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Disposition of Fish

3.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

3.2. For greater certainty, subsection 3.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

4. Designation to Fish

4.1. No individual other than a designated individual may participate in the FSC Fishery.

4.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Gitga'at Indian Band will serve as the Member's designation document.

4.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

4.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Jill MacNeill, Resource Manager at Jill.MacNeill@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

4.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

4.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

4.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

5. Restrictions to, Withdrawal of or Amendment of Designations

5.1. The Organization may place restrictions on designations, which may include the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

5.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

6. Responsibilities of the Organization

6.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

6.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1 Licensing

1.1 The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2 Annually, DFO will provide the Organization with the renewal application(s) and instructions that the Organization must follow prior to DFO issuing any Communal Commercial Licence eligibilities.

1.3 In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2 Designation to Fish

2.1 The Organization will identify, on each application, the designated vessel that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, the designated vessel must hold a vessel-based licence eligibility.

2.2 DFO will issue a Communal Commercial Licence to the Organization upon receipt of an application that will, among other things, identify the vessel registration number (VRN), name of the designated vessel and the name of the licence eligibility holder and vessel owner. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.3 The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.4 The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.5 No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

3 Withdrawal or Amendment of Designation

3.1 The Organization may request to change a designated vessel with the submission of an Application for Aboriginal Communal Commercial Eligibility Re-designation signed by an authorized signing authority of the Organization and the submission of the previously issued Communal Commercial Licence and decals.

4 Responsibilities of the Organization

4.1 The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4.2 The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3 The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4 For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5 DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6 The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7 The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5 Sale of Fish

5.1 Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6 Species and Quantity of Fish and Associated Provisions

s.20(1)(c)

6.1 The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FR 18
Licence area:	[redacted]
Species of Fish:	crab
Fishing gear type:	trap
Maximum vessel length (MVL):	9.19 metres
Contribution for Use:	[redacted]
Contribution to Activities:	

(b)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL 26
Species of Fish:	halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	18.63 metres
Contribution for Use:	[redacted]
Contribution to Activities:	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

(c)
Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL 30
Species of Fish:	halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	19.99 metres
Contribution for Use:	
Contribution to Activities:	

(d)
Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FZN 19
Licence area:	
Species of Fish:	rockfish
Fishing gear type:	hook and line
Maximum vessel length (MVL):	22.02 metres
Contribution for Use:	
Contribution to Activities:	

(e)
Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FZN 23
Licence area:	
Species of Fish:	rockfish
Fishing gear type:	hook and line
Maximum vessel length (MVL):	12.19 metres
Contribution for Use:	
Contribution to Activities:	

(f)
Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FAS 39
Licence area:	
Species of Fish:	salmon
Fishing gear type:	seine
Maximum vessel length (MVL):	20.99 metres
Contribution for Use:	
Contribution to Activities:	

6.2 Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3 Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4 Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization will work cooperatively in implementing this Schedule.

2.2. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) establish a process, where possible, for the reporting of enforcement activities and actions; and

(c) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

s.19(1)

Name	Position Title	Phone Number
Bruce Reece	Fisheries Manager	250-841-2525
[redacted]		

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Brian Gyorfi	Fishery Officer	250-615-5359

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 28 day of December, 2017
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITGA'AT INDIAN BAND, also known as the Hartley Bay Indian Band and the Gitga'at First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 27
Schedule 7	Progress Report / Year End Report	Page 28
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 34
Schedule B	Communal Commercial Fisheries Access	Page 37
Schedule D	Monitoring and Enforcement Protocol	Page 40

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND FIVE THOUSAND, FIVE HUNDRED AND SEVENTY-FIVE ($105,575.00) in Fiscal Year 2017-2018 an amount of up to ONE HUNDRED AND FIVE THOUSAND, FIVE HUNDRED AND SEVENTY-FIVE DOLLARS ($105,575.00) in Fiscal Year 2018-2019 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted] in Fiscal Year 2017-2018 and [redacted] in Fiscal Year 2018-2019, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2019.

s.19(1)
s.20(1)(c)

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:
Gitga'at First Nation

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set annually by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

or facilitator will be shared equally by the Parties.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2017-2018 and 2018-2019.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2017, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2017, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.1 Multi-year Work Plan

1.1.1 The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities	
Fiscal Year 2017-2018	**Fiscal Year 2018-2019**
$127,400.00	$127,400.00

Multi-year Work Plan	
KEY ELEMENT A:	**AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP**

Description:

The Organization's key activities are related to fisheries management and stock assessment in Gitga'at asserted Territory. The Agreement creates an avenue for ongoing communications between the Organization and DFO on important fisheries issues. It also provides base support for Gitga'at Fisheries Office to facilitate some of the Organization's internal and third party work and communications on fisheries issues.

The Organization engages in stock assessment through the AFS Agreement focusing on species that are of high importance to both the Organization and DFO, but are not part of other stock assessment programs. Basic objectives include filling knowledge gaps, understanding stock status and informing management of such information. For the current two year Agreement, stock assessment work will continue to focus on Dungeness crab, intertidal bivalves and salmon in key coastal streams of PFMAs 5 and 6.

AFS fully funds a full-time fisheries technician and partially funds an administrative assistant, four Guardian Watchmen and a staff biologist.

Expected Results:

1. Internal fisheries and aquatic resource meetings are held to develop program direction/mandate development and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained.
2. Financial records are maintained, reporting is completed in a timely manner and communication is maintained with the DFO Resource Manager. Financial reports and supporting documents are generated in a timely manner to support the fisheries technician in meeting AFS reporting requirements.
3. Timely and fair distribution of communal commercial assets acquired through the ATP program.
4. A summary of escapement and trends for all spawning salmon species in the Tsimtack/Moore watershed will be submitted in a report to DFO.
5. Stock assessment projects will increase technical skills and capacity to conduct and report on stock assessment activities.
6. The Organization will gain increased knowledge on Dungeness crab and the indicators of overexploitation. Data analysis will focus on population characteristics that may be indicators of overexploitation. Results and potential management implications will be

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
discussed with DFO staff. 7. Determine bivalve distribution, abundance and biomass at several harvest sites, evaluate how bivalve populations respond to food harvesting, and identify bivalve population and community structure characteristics that may be early indicators of stock depletion. 8. Continue discussions with DFO and implement a community harvest plan and biotoxin monitoring. 9. Determine long-term trends which will help support implementation of the Organization's bivalve management plan.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: The Organization will carry out catch monitoring to collect multi-species harvest information from the Organization's fishers in Gitga'at asserted Territory. FSC harvests in Gitga'at asserted territory by other fishers under the Organization permitting authority will also be monitored. **Expected Results:** 1. Catch data will be submitted to DFO at agreed to regular intervals. 2. Summary of catch data will be provided with AFS Year End Report.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

s.20(1)(c)

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Fisheries Authority and Program Management **ESTIMATED COST** [redacted] **Task Description:** 1. Establish and maintain an Aboriginal Fisheries Authority (AFA) to represent the Organization during negotiations with DFO and manage reporting requirements in the Agreement. This funding will support a fisheries technician and administrative assistant who will liaise, negotiate and prepare reports. 2. Tracking of Agreement expenditures and preparation of Progress and Year End Reports. 3. Prepare negotiating positions including background research and internal communications.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

4. Assist with distribution of communal commercial fishing licences and quotas and management of the associated financial proceeds.
5. The fisheries technician will develop negotiating positions regarding various issues based on interaction with the community through reports and evaluations. These community positions will be communicated through correspondence with DFO and/or other First Nations.
6. Participate in negotiation sessions and other meetings with DFO, other First Nations and other organizations. The technician will work with the community towards:
   - Policy development;
   - Negotiation of Comprehensive Fisheries Agreement (and other AFS documents) between DFO and the Organization;
   - Presenting the community's position on numerous fisheries-related issues to DFO; and,
   - Developing agreements with other First Nations.

Expected Results:

1. To ensure that all fisheries issues are communicated to the community and DFO and to negotiate a Comprehensive Fisheries Agreement (CFA) for the Fiscal Year.
2. Internal AFS meetings are held to develop program direction/mandate development and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained.
3. Engagement in multi-First Nations organizations such as North Coast Skeena First Nations Stewardship Society, Coastal First Nations and First Nations Fisheries Council on matters of common interest.
4. Financial records are maintained, reporting is completed in a timely manner and communication is maintained with the DFO Resource Manager. Financial reports and supporting documents are generated in a timely manner to support the fisheries technician in meeting AFS reporting requirements.
5. Timely and fair distribution of communal commercial assets.

Products/Reports to provide to DFO:

1. A completed Schedule 5 and signed CFA.
2. Documentation of all meetings-related activities by staff and leadership will be provided in the Progress and Year End Reports, consisting of a minimum of a listing of agenda items, dates, travel costs and a summary of meeting outcomes.
3. Progress Report covering period of April 1 to September 30 each fiscal, and Year End Report submitted within 90 days from March 31st.

s.20(1)(c)

4. A summary of communal fishing activities will be provided monthly to the DFO Resource Manager as per communal licence requirements and will be provided in the Year End Report.

Key Element A / Activity 2: Tsimtack/Moore Watershed Stock Assessment

ESTIMATED COST

Task Description:

1. The staff biologist and a fisheries technician/Guardian Watchmen will conduct adult salmon escapement and enumeration surveys in sockeye spawning tributaries within salmon spawning rivers including the Tsimtack/Moore watershed, the Quaal River, Kitkiata River, Belowe Creek, Kwa'a River and Lowe Inlet river during early September to mid-October. Spawning locations will be mapped and escapement of each species will be estimated.

Expected Results:

1. A summary of escapement and timing for all salmon species in the watershed will be submitted in a report to DFO. The extent and relative importance of sockeye and other salmon spawning habitat will also be quantified.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

2. This project contributes to ongoing Stock Assessment in Area 5 and Area 6, which enables the community to increase understandings of salmon spawning habitat and escapement.
3. This project will increase Organizational skills and capacity to conduct stock assessment activities.

Products/Reports to provide to DFO:

1. A summary of results will be provided in the Year End Report. Stream Inventory Logs (SILs) will be provided to DFO in-season.

s.20(1)(c)

Key Element A / Activity 3: Crab Surveys

ESTIMATED COST

Task Description:

1. As in previous years, seasonal Dungeness Crab field trapping and sampling will be conducted at important crab areas in Kishkosh Inlet and Kitkiata Inlet during spring (May or early June) and autumn (October) to understand seasonal changes in crab abundance that may be associated with sportfishing during the summer season.
2. In each site, numerous traps (i.e. approximately 25) will be set for 24 hours. Sampling will include: enumerating crabs from each trap; identifying gender; measuring carapace width and noting injuries.
3. The staff biologist, fisheries technician, and two Guardian Watchmen will conduct the 4-6 day field surveys each season.
4. Technicians have received training in the proper data collection and recording protocols. Field supervision, data management and analysis will be the responsibility of the staff biologist.
5. All data will be recorded on standard forms consistent with Dunham, J.S., Phillips, A., Morrison, J., and Jorgensen, G. 2011. A manual for Dungeness crab surveys in British Columbia. Can. Tech. Rep. Fish. Aquat. Sci. 2964: viii + 68 p.
6. All data will be recorded on standard data forms as discussed with DFO. The Organization will also provide DFO with a summary report of all data collected and raw data in an MS Access database or in a format that will be accepted by DFO.

Expected Results:

1. The Organization will gain increased knowledge on Dungeness crab and the indicators of overexploitation. Data analysis will focus on population characteristics that may be indicators of overexploitation. Results and potential management implications will be discussed with DFO staff.

Products/Reports to provide to DFO:

1. A summary of results including raw data will be provided with the Year End Report.

Key Element A / Activity 4: Intertidal Bivalve Biotoxin Assessment

ESTIMATED COST

Task Description:

1. Maintain a regular biotoxin monitoring program from late summer to early spring.
2. Collect mussels on a schedule from 2 testing sites (identified in community harvest plan).
3. Collect clam and cockles from harvest beaches as identified in community harvest plan for testing.
4. Maintain database with biotoxin test results.
5. Post-harvest notices with biotoxin levels as needed.

Expected Results:

1. Ensuring safe harvest for community members

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019
2. Increase community awareness regarding risks of biotoxin consumption. 3. Continue to implement components of community harvest plan. 4. Data will be used to determine long-term trends which will help support implementation of the Organization's bivalve management plan. **Products/Reports to provide to DFO:** 1. A summary of results including raw data will be provided with the Year End Report.
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Key Element B / Activity 1: Catch Monitoring and Information Management **ESTIMATED COST** **Task Description:** 1. The fisheries technician will issue and maintain a database of communal licence designations for First Nation members and vessels throughout the year. 2. Commencing April 1st, the full-time fisheries technician and a biologist will conduct catch monitoring to ensure compliance with relevant provisions of the communal licence. This will be conducted through-out the year but primarily in the spring and summer and will include dockside monitoring, door to door surveys and vessel based surveys. 3. FSC monitoring data will be stored in an FSC database. 4. The Organization and DFO will work together to develop a fishing plan and catch monitoring program that reflects actual harvest levels. 5. Participate in an AHMS demonstration and examine potential use in the Organization's catch monitoring program. **Expected Results:** 1. The database information will provide a summary of the licences that were issued during the year. 2. The fisheries technician will use the database to maintain a record of contacts made with the fishermen to acquire FSC harvest. 3. FSC catch will be monitored throughout the year to ensure compliance with the communal licence. 4. This database information will provide a summary of licences issued and catches for the year. This information will be provided to DFO throughout the year and will be compiled and included in the Progress and Year End Reports that are submitted to DFO. **Products/Reports to provide to DFO:** 1. Information on designated licences to will be provided to DFO as required and a summary will be included with the Year End Report. 2. A summary of results including raw data will be provided with the Year End Report. 3. Commencing April 1st, catch data and total estimated FSC catch numbers will be provided to DFO each month.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

5. Budget

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$105,575.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 7

PROGRESS REPORT / YEAR END REPORT

Fiscal Year:	2017-2018 and/or 2018-2019
Name and Address of Organization:	Gitga'at Indian Band General Delivery Hartley Bay, BC V0V 1A0
Agreement Number:	AFS2017-MLT-1707-0
Amount of Approved Contribution for Fiscal Year:	Total: [redacted] DFO: $105,575.00 Organization: [redacted]

Reporting period: from: _____ to: _____

Type of report:	**Purpose of report:**
☐ Progress Report ☐ Year End Report	☐ Request for advance payment * ☐ Request for reimbursement ☐ Release holdback ☐ Other: _____ Also submit a revised cash flow projection of Eligible Costs in the form set out in Schedule 6 of the Agreement.

Section 2 –Products/Reports and Actual Results

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Fisheries Authority and Program Management **Expected Results:** 1. To ensure that all fisheries issues are communicated to the community and DFO and to negotiate a Comprehensive Fisheries Agreement (CFA) for the Fiscal Year.	**Actual Results in Narrative Format (enter text):**
2. Internal AFS meetings are held to develop program direction/mandate development and outcomes are communicated to community and summarized for DFO. Communication with leadership and community is maintained.	
3. Engagement in multi-First Nations organizations such as North Coast Skeena First Nations Stewardship Society, Coastal First Nations and First Nations Fisheries Council on matters of common interest.	
4. Financial records are maintained, reporting is completed in a timely manner and communication is maintained with the DFO Resource Manager. Financial reports and supporting documents are generated in a timely manner to support the fisheries technician in meeting AFS reporting requirements.	
5. Timely and fair distribution of communal commercial assets.	
Products/Reports to provide to DFO: 1. A completed Schedule 5 and signed CFA.	**Products/Reports:**
2. Documentation of all meetings-related activities by staff and leadership will be provided in the Progress and Year End Reports, consisting of a minimum of a listing of agenda items, dates, travel costs and a summary of meeting outcomes.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
3. Progress Report covering period of April 1 to September 30 each fiscal, and Year End Report submitted within 90 days from March 31st.	
4. A summary of communal fishing activities will be provided monthly to the DFO Resource Manager as per communal licence requirements and will be provided in the Year End Report.	
Activity A-2: Tsimtack/Moore Watershed Stock Assessment **Expected Results:** 1. A summary of escapement and timing for all salmon species in the watershed will be submitted in a report to DFO. The extent and relative importance of sockeye and other salmon spawning habitat will also be quantified.	**Actual Results in Narrative Format (enter text):**
2. This project contributes to ongoing Stock Assessment in Area 5 and Area 6, which enables the community to increase understandings of salmon spawning habitat and escapement.	
3. This project will increase Organizational skills and capacity to conduct stock assessment activities.	
Products/Reports to provide to DFO: 1. A summary of results will be provided in the Year End Report. Stream Inventory Logs (SILs) will be provided to DFO in-season.	**Products/Reports:**
Activity A-3: Crab Surveys **Expected Results:** 1. The Organization will gain increased knowledge on Dungeness crab and the indicators of overexploitation. Data analysis will focus on population characteristics that may be indicators of overexploitation. Results and potential management implications will be discussed with DFO staff.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A summary of results including raw data will be provided with the Year End Report.	**Products/Reports:**
Activity A-4: Intertidal Bivalve Biotoxin Assessment **Expected Results:** 1. Ensuring safe harvest for community members	**Actual Results in Narrative Format (enter text):**
2. Increase community awareness regarding risks of biotoxin consumption.	
3. Continue to implement components of community harvest plan.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
4. Data will be used to determine long-term trends which will help support implementation of the Organization's bivalve management plan.	
Products/Reports to provide to DFO: 1. A summary of results including raw data will be provided with the Year End Report.	**Products/Reports:**
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Catch Monitoring and Information Management **Expected Results:** 1. The database information will provide a summary of the licences that were issued during the year.	**Actual Results in Narrative Format (enter text):**
2. The fisheries technician will use the database to maintain a record of contacts made with the fishermen to acquire FSC harvest.	
3. FSC catch will be monitored throughout the year to ensure compliance with the communal licence.	
4. This database information will provide a summary of licences issued and catches for the year. This information will be provided to DFO throughout the year and will be compiled and included in the Progress and Year End Reports that are submitted to DFO.	
Products/Reports to provide to DFO: 1. Information on designated licences to will be provided to DFO as required and a summary will be included with the Year End Report.	**Products/Reports:**
2. A summary of results including raw data will be provided with the Year End Report.	
3. Commencing April 1st, catch data and total estimated FSC catch numbers will be provided to DFO each month.	
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.3 The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.4 DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Disposition of Fish

3.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

3.2. For greater certainty, subsection 3.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

4. Designation to Fish

4.1. No individual other than a designated individual may participate in the FSC Fishery.

4.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Gitga'at Indian Band will serve as the Member's designation document.

4.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

4.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Jill MacNeill, Resource Manager at Jill.MacNeill@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

4.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

4.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

4.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

5. Restrictions to, Withdrawal of or Amendment of Designations

5.1. The Organization may place restrictions on designations, which may include the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

5.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

6. Responsibilities of the Organization

6.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

6.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1 Licensing

1.1 The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2 Annually, the Organization must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3 In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2 Designation to Fish

2.1 Where applicable, the Organization will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2 The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3 The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4 No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5 No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6 The Organization may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7 The Organization may designate in writing all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the [*Organization or Member Organization*] will serve as proof of identity.

3 Withdrawal or Amendment of Designation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.1 The Organization may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2 Where the Organization makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4 Responsibilities of the Organization

4.1 The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2 The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3 The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4 For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5 DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6 The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7 The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5 Sale of Fish

5.1 Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6 Species and Quantity of Fish and Associated Provisions

6.1 The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FR 18
	Licence area:	[redacted]
	Species of Fish:	crab
	Fishing gear type:	trap
	Maximum vessel length (MVL):	9.19 metres

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

Contribution for Use:
Contribution to Activities:

(b)
Program: Allocation Transfer Program (ATP)
Licence eligibility number: FL 26
Species of Fish: halibut
Fishing gear type: hook and line
Maximum vessel length (MVL): 18.63 metres
Contribution for Use:
Contribution to Activities:

(c)
Program: Allocation Transfer Program (ATP)
Licence eligibility number: FL 30
Species of Fish: halibut
Fishing gear type: hook and line
Maximum vessel length (MVL): 19.99 metres
Contribution for Use:
Contribution to Activities:

(d)
Program: Allocation Transfer Program (ATP)
Licence eligibility number: FZN 19
Licence area:
Species of Fish: rockfish
Fishing gear type: hook and line
Maximum vessel length (MVL): 22.02 metres
Contribution for Use:
Contribution to Activities:

(e)
Program: Allocation Transfer Program (ATP)
Licence eligibility number: FZN 23
Licence area:
Species of Fish: rockfish
Fishing gear type: hook and line

Contribution for Use:
Contribution to Activities:

(f)
Program: Allocation Transfer Program (ATP)
Licence eligibility number: FAS 39
Licence area:
Species of Fish: salmon
Fishing gear type: seine
Maximum vessel length (MVL): 20.99 metres
Contribution for Use:
Contribution to Activities:

6.2 Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3 Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4 Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization will work cooperatively in implementing this Schedule.

2.2. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) establish a process, where possible, for the reporting of enforcement activities and actions; and

(c) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Bruce Reece	Fisheries Manager	250-841-2525
[redacted]		

s.19(1)

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Brian Gyorfi	Fishery Officer	250-615-5359

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval.*

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 1 day of May, 20 14
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITKSAN HOUSES, dba Gitksan Watershed Authorities (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Organization supports a watershed management approach through the mechanism of the Skeena Fisheries Commission;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

support the Organization in carrying out the Activities.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights, and, for greater certainty, is made without prejudice to any positions either Party may take with respect to the existence of Aboriginal rights, to the fishery or otherwise, or whether any Aboriginal rights, to the fishery or otherwise, are unjustifiable infringed;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 9
Schedule 3	Financial Management, Payments and Reporting	Page 13
Schedule 4	Description of Eligible Costs for Reimbursement	Page 18
Schedule 5	Activities	Page 20
Schedule 6	Cash Flow Projection of Eligible Costs	Page 30
Schedule 7	Progress Report / Year End Report	Page 31
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 37

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to NINE HUNDRED AND THIRTY-ONE THOUSAND DOLLARS ($931,000.00) in Fiscal Year 2014-2015 and an amount of up to NINE HUNDRED AND THIRTY-ONE THOUSAND DOLLARS ($931,000.00) in Fiscal Year 2015-2016 an amount of up to NINE HUNDRED AND THIRTY-ONE THOUSAND DOLLARS ($931,000.00) in Fiscal Year 2016-2017on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2017.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with sixty (60) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Gitksan Watershed Authorities
P.O. Box 166
Hazelton, BC
V0J 1Y0

Attention: Rod Sampare or Sadie Harris

Telephone: (250) 842-2213
Facsimile: (250) 842-2253

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-666-8385
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) the following business day if sent by facsimile, email, or delivered in person;

(b) five (5) business days after the posting if sent by regular mail; or

(c) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

11.4. The Organization will notify DFO when it is no longer acting for or on behalf of a Gitksan House by sending a notice, in writing, to that effect to DFO and to the House. Notwithstanding subsection 10.1, where DFO receives such a notice, DFO and the Organization will discuss the matter and, depending on the outcome of the discussion, the Parties may amend this Agreement.

11.5. When a Gitksan House gives notice, in writing, to DFO and to the Organization that the Organization no longer acts for or on its behalf, DFO will discuss the matter with the Organization and the Gitksan House giving notice. Notwithstanding subsection 10.1, depending on the outcome of the discussion, the Parties may amend this Agreement.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and members of the Gitksan Houses listed in Schedule 1 for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform the members of the Gitksan Houses listed in Schedule 1 of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"FSC Fishery" means the fisheries for food, social and ceremonial purposes carried out by the Organization, or its Members;

"**Gitksan Houses**" means the Gitksan Houses listed in this Schedule, as follows:

GITKSAN HOUSES EAST	CLAN	HOUSE
	Fireweed	Antgulilbix/Tsii Baasa Dawamuxw Geel Gitludahl Gutginuxw Gwiiyseehl Axtii Dsaak Delgamuukw

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization or a member of a Member Organization;

"Member Organizations" means, for the purposes of this Agreement, all the houses that comprise the Gitksan Houses;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization, its Members or Member Organizations in carrying out the Activities under this Agreement will be owned by the Organization, and the Gitksan Houses, as required or appropriate under any agreement between the Organization and the Gitksan Houses.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from the Gitksan Houses, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. Notwithstanding section 1.7 of Schedule 3, the Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Gitksan Houses, any Gitksan Houses member, its officers, employees, agents or contractors of the Organization or Member Organization, or anyone for whom the Organization or Gitksan Houses is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, any Gitksan Houses or anyone for whom the Organization or any Gitksan Houses is responsible for in law, including but not limited to any Gitksan Houses member, officer, employee, agent or contractor of the Organization under this Agreement. The Organization and each Gitksan Houses are responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

or facilitator will be shared equally by the Parties.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2014-2015, 2015-2016 and 2016-2017.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

1.7. Distribution of Contribution Funds to Member Organizations

1.7.1. In the event that the Organization distributes funds from the Contribution to any Member Organization or Other Entity, the Organization will:

(a) implement the accountability and management framework that the Organization provided to DFO prior to the execution of this Agreement;

(b) provide a description of the redress provisions regarding decisions that the Organization has implemented with respect to the Member Organization or Other Entity that applies for or receives distributed payments;

(c) implement a transparent and open decision-making process to provide for the selection of Member Organizations or Other Entities to receive distributed payments and the approval of initiatives to be funded, and the Organization will provide to DFO a description of its responsibilities in this process;

(d) undertake a written agreement with each Member Organization or Other Entity receiving distributed payments that:

(i) addresses financial roles and responsibilities,

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(ii) provides for oversight, reviews and audits by the Organization, and the right of the Organization to provide copies of reviews and audits to DFO,

(iii) provide for access by DFO to records and premises of the Member Organization or Other Entity for the purpose of monitoring compliance with this Agreement,

(iv) acknowledges, to the Member Organization or Other Entity, DFO's role in providing the funding, and

(v) provides that the Member Organizations or Other Entities maintain and preserve the books, accounts, records, supporting documentation, reports and other documents related to the Activities for a period of six (6) years following the end of this Agreement; and

(e) provide to DFO, on request, any reports, reviews and audits carried out by the Organization in relation to Member Organizations or Other Entities that receive distributed funds.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2014, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2014, and the date upon which this Agreement comes into effect.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of five percent (5%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within one hundred and eighty (180) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.1. Multi-year Work Plan

1.1.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities		
Fiscal Year 2014-2015	**Fiscal Year 2015-2016**	**Fiscal Year 2016-2017**
$931,000.00	$931,000.00	$931,000.00

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Description:

The Organization's principal focus has been fisheries management that helps to ensure strong returns of wild salmon populations to the asserted traditional territory of the Gitksan Houses. This also helps ensure abundant sustenance use and benefits. The Organization takes pride in the fact that the Gitksan Houses have always managed resources in a manner that allows for sustainable use, and is well aware that the use of traditional knowledge has been left in its trust to manage the resources of the land.

The Organization's aquatic resource management and stewardship is the operations and infrastructure by which activities under this agreement are supported. The core management staff consists of a Coordinator, a Technical Coordinator, a Financial Administrator, a Legal Advisor and the Chiefs Advisory Committee (CAC). The core program operations staff consists of a Fisheries Biologist, a Senior Fisheries Technician, a GIS Technician and an Office Manager.

Key Roles and Responsibilities:

- Program development and work planning.
- Provide annual training and recertification for staff in relevant and required courses.
- Proposal development and pursuing possible partnering or leveraging opportunities.
- Participation in fisheries focused resource management meetings and forums, both internal and external.

Work-plans over the next two years include the following Aquatic Resource Management and Stewardship programs:

- Aquatic Resource Meetings - Involvement in the Skeena Fisheries Commission technical committee.
- Stock Assessment Science
  - Slamgeesh Salmon Project – salmon population enumeration and research.
  - Sockeye Escapement Surveys within the asserted traditional territory of the Gitksan Houses.
  - Coho Escapement Surveys within the asserted traditional territory of the Gitksan Houses.
  - Collection of Salmon Information - sampling to improve information on stock

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan

definition, age structure and condition.
- Water Quality and Quantity - Stream gauging station operations.

- GIS department operations including resources to support habitat monitoring within the asserted traditional territory.

Expected Results:

1. Longer term planning will help the Organization in possible partnering and leveraging opportunities.
2. Organizational participation in technical and management processes for both the Organization's fisheries program and DFO programs.
3. Support employees to maintain required and relevant training.
4. Cooperative management of the resource by providing DFO with catch information and science/stock assessment information.
5. Stability within the Organization to allow for longer term planning on the direction of the program.
6. Maintain communication with leadership and the community.
7. Continued sustainably managed fisheries resource for the benefit of the Gitksan Houses and the environment.

DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Description:

The Organization's Fisheries Monitoring Program will continue to collect FSC catch information from its fisheries within the asserted traditional territory of the Gitksan Houses.

Expected Results:

1. Continued co-management of the resource by collecting and sharing with DFO the FSC catch numbers for management purposes.

DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES

Description:

Fisheries Planning: The Organization will continue work with Gitksan fishers to ensure operations are well planned and openness is maintained.

Expected Results:

1. A sustainable and productive economic fishery for the benefit of community members and providing the opportunity for economic growth.
2. To seek further funds in support of management and fishing skills training.

DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Description:

The Organization will maintain one Ranger on staff to work with local enforcement officers when required.

Other responsibilities will include supervision of catch monitoring staff, analysis and reporting of FSC catches to DFO Prince Rupert, assisting with Organization science projects, assisting in search and rescue efforts, maintaining Organization equipment and maintaining the Kispiox field office building.

Expected Results:

1. Maintaining a relationship between the Organization Ranger and DFO C&P staff.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
2. Providing training and skills development for the Organization Ranger.
3. Maintaining a presence of an Organization Ranger within the community.

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Years 2014-2015 and 2015-2016

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Years 2014-2015 and 2015-2016
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Gitksan Watershed Authorities (GWA) **ESTIMATED COST $743,625.00** The Organization oversees and carries out program development, work planning, consultations and negotiations of the AFS Agreement and maintains dialogue and co-management initiatives between DFO and the Organization. The Organization is responsible for managing the FSC fishery, implementing AFS field programs, budgeting, planning, reporting, and data management As well, the Organization seeks to support additional Fisheries related research, stock assessment programs, habitat monitoring and enhancement opportunities through the leveraging of additional funding from sources outside DFO. The Organization provides administrative support to all projects under this Agreement and aids the Coordinator with the financial management component of the Agreement, including the provision of office space, supplies, utilities, IT support, and storage facilities. The Organization's management staff is comprised of Chiefs Advisory Committee (CAC), a Coordinator, a Technical Coordinator, Financial Administrator and Legal Advisor. The Coordinator will oversee the various activities of the Organization and provide direction regarding the various projects while ensuring program stability and cost effective management. Organization activities under this Agreement are supported by the Technical Coordinator, the Financial Administrator, Legal Advisor and program operations staff consisting of the Office Manager, Fisheries Biologist, a Senior Fisheries Technician, and a GIS Technician. Program operations staff assists in facilitating training and development of fisheries staff operational plans, implementing AFS field programs, budgeting, planning, reporting, data management and GIS support. The Fisheries Office staff, and Field/ Technical staff assists the Coordinator with the processing of invoices and reimbursements, communications activities, the organizing and scheduling of work tasks for field technicians, and assists field technicians with data collection and camp duties where required. The Chiefs Advisory Committee is responsible for ensuring that the Coordinator and support staff are provided with the administrative/physical infrastructure required to manage the program and associated projects. The Organization will employ up to 12 field technicians to work with project leaders in conducting the science projects discussed later in Key Element A and B. Up to six field technicians will be designated to work on the Slamgeesh Project exclusively. Six field technicians will be designated to work on all other field projects described later. A Salaries table broken down by position title and activity will be maintained. **Task Description:** 1. With the assistance of Organization staff and CAC, the Coordinator will oversee and coordinate program development, work planning, consultations and negotiations of the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

AFS Agreement between DFO and the Organization, and staff management.

2. Regular internal meetings (monthly CAC meetings) will be conducted with leadership who will oversee political negotiations, and program/policy development.
3. Participation of staff and leadership in fisheries focused resource management including the Skeena Fisheries Commission meetings and multi-stakeholder meetings (Skeena Fisheries Commission, Transboundary Technical Committee).
4. The Organization will monitor the FSC fishery and provide food fish data for reporting and maintenance of catch records.
5. The Organization will pursue various partnering and leveraging opportunities, including proposal development and meetings as required.
6. Annual training and recertification needs vary with returning and/or new staff. Required training consists of, but is not limited to, the following: First Aid, Transportation Endorsement, Boating Safety, Swiftwater Rescue, Bear Awareness and shotgun handling.
7. The Organization will produce and distribute an in-season newsletter for the community and update the Organization's website.

Expected Results:

1. Project budgets and operational work plans will be completed and agreed to by DFO and the Organization to facilitate the completion of the AFS agreement
2. Internal Organization meetings to develop program direction/mandate development will be held and outcomes will be communicated to community and summarized for DFO. Communication with leadership and the community will be maintained
3. Management and technical staff participate in technical and management processes, provide input into fisheries management and coordinate the scientific/technical direction of the Organization's fisheries program in cooperation with DFO.
4. Area and species specific catch data will be received weekly by DFO Fisheries Management.
5. Partnering and leveraging activities will be secured to complement the AFS Agreement objectives.
6. Employees will be supported to maintain required and relevant training to work safely and effectively on fisheries projects.
7. Projects (Activities 2 to 8) will be carried out in accordance with the expected results, and supporting detailed operational work plans will be developed by the Organization.
8. Financial records will be maintained and reporting will be completed in a timely manner and communication will be maintained with DFO. Financial reports and supporting documents will be generated in a timely manner to support the Coordinator in meeting AFS reporting requirements.

Products/Reports to provide to DFO:

1. Seasonal operational plans for field activities, work plans and budgets that are used to construct the Agreement.
2. Documentation of all meeting-related activities by staff and leadership shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items, dates, and attendance i.e.:
   a. Internal Organization meetings
   b. Technical and management processes
3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in Progress Reports and in the Year End Report.
4. In-season weekly catch information provided to DFO Prince Rupert. The Organization will provide a post season summary and details of the Catch Monitoring Project in the Year End Report.
5. The Organization will include details of type of training and number of staff attended in their Year End Report.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2014-2015 and 2015-2016

6. Status report of activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.
7. The final financial progress report and Final Year End Report will be submitted within 6 months after the end of the Fiscal Year.
8. A salaries table will be submitted by November 1st in a format acceptable to DFO, and DFO will deal with the salaries table in a manner consistent with the utmost confidentiality and the Privacy Act.

Key Element A / Activity 2: Skeena Fisheries Commission Technical Committee

ESTIMATED COST $1,800.00

Task Description:

The Organization will have technical staff attend Skeena Fisheries Commission (SFC) Technical Committee meetings and participate with other First Nations for planning and following the progress of science related projects within the watersheds of the asserted traditional territory of the Gitksan Houses and the Skeena River.

Expected Results:

1. To support coordinated science and salmon management in the asserted traditional territory and the Skeena River Watershed.

Products/Reports to provide to DFO:

1. Updates provided at the SFC technical committee meetings.
2. List of meetings attended provided to DFO.

Contact Person for this Activity: Charlie Muldon

Key Element A / Activity 3: Slamgeesh Salmon Project

ESTIMATED COST $79,050.00

Task Description:

The Organization will install and maintain the operation of the smolt trapping program, and the adult counting fence program on Damshilgwet Creek in the Slamgeesh Watershed from May through to the end of October for the purposes of Slamgeesh sockeye and coho stock assessment, sampling and enumeration.

Location	Duration (estimated)	Species	Target sample	Samples required
Damshilgwet Creek (Slamgeesh)	April 30 – Jun.30	Sockeye smolts	200* Sub-sample** Captures ***	*Scale sample **length ***enumeration, mark-recaptures, adipose clips.
Damshilgwet Creek (Slamgeesh)	April 30 – Jun.30	Coho smolts	200* Sub-sample** Captures ***	*Scale sample **length, adipose clips, cwt. ***enumeration, mark-recaptures
Damshilgwet Creek (Slamgeesh)	July 29 – Oct. 1	Sockeye adults	250* All**	*Scale sample **sex, length enumeration, clipped returns
Damshilgwet Creek (Slamgeesh)	July 29 – Oct. 30	Coho adults	250* All**	*Scale sample **sex, length enumeration, clipped returns

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2014-2015 and 2015-2016

Damshilgwet Creek (Slamgeesh)	smolt and adult programs	Other species	Captures ***	Enumeration

Expected Results:

1. Employment of up to 5 community members - May through October (seasonal, part-time).
2. Enumeration, coded wire tag output and biophysical data will be collected and information will be provided to DFO Resource Management in Prince Rupert.
3. Sockeye and coho population assessments will be conducted and brood year tables will be maintained for reporting fresh water production and marine survival rates.
4. Sampling analysis of sockeye and coho (age, length, and timing).

Products/Reports to provide to DFO:

1. Updates will be provided at the SFC technical committee meetings.
2. The Fisheries Biologist shall provide in-season updates to DFO Resource Management and Stock Assessment in Prince Rupert, as well as preliminary estimates by December 1st.
3. Final reporting as a GWA annual technical report is also provided to the DFO stock assessment branch in Prince Rupert and DFO Resource Manager Melanie Anthony in Smithers.

Contact Person for this Activity: Alicia Fernando

Key Element A / Activity 4: Sockeye Escapement Surveys

ESTIMATED COST $13,400.00

Task Description:

The Organization will continue to enumerate sockeye escapements for the Kispiox watershed and Zyomoetz River. The escapement surveys will be conducted from late August to the end of September. A minimum of three (3) foot surveys per river will be conducted where appropriate and three (3) helicopter surveys conducted where needed.

Expected Results:

1. Sockeye escapement estimates for the Swan-Stephens Lakes area, the Nangeese River, and the Zymoetz River.

Products/Reports to provide to DFO:

1. Escapement data provided in stream inspection logs database to DFO Prince Rupert.
2. A detailed escapement report will be provided in the Year End Report.

Contact Person for this Activity: Charlie Muldon

Key Element A / Activity 5: Coho Escapement Surveys

ESTIMATED COST $6,600.00

Task Description:

The Organization will continue to enumerate coho escapement data on streams of the Kispiox watershed. Surveys will be conducted beginning in October and ending in early November. A minimum of three (3) foot surveys will be conducted on streams surveyed.

Expected Results:

1. Coho escapement estimates for the Kispiox Watershed.

Products/Reports to provide to DFO:

1. Escapement data provided in stream inspection logs database to DFO Prince Rupert.
2. Detailed report provided in the Year End Report.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2014-2015 and 2015-2016

Contact Person for this Activity: Charlie Muldon

Key Element A / Activity 6: Collection of Salmon Tissue Samples

ESTIMATED COST $7,750.00

Task Description:

Tissue samples will be collected for chinook, chum and sockeye salmon of select streams where baseline data is incomplete. Field collection of these samples is undertaken to continue adding to the DNA baseline database.

Expected Results:

1. Field collection of these samples is undertaken to continue adding to the DNA baseline database.

Products/Reports to provide to DFO:

1. Submission of samples to DFO Prince Rupert for shipment to PBS Nanaimo for analysis.
2. Detailed report provided in the Year End Report.

Contact Person for this Activity: Charlie Muldon

Key Element A / Activity 7: Stream Gauging Stations

ESTIMATED COST $1,650.00

Task Description:

Temperature and stage data will be collected for Natlan Creek, Slamgeesh River, Kispiox River, Clifford Creek, Upper Zyomoetz, and the Nangeese River.

Expected Results:

1. Data collection and maintenance will occur on a quarterly basis, with data analysed and stored for use with project reports.

Products/Reports to provide to DFO:

1. Updates in semi-annual narrative with detailed report provided in the Year End Report to DFO Resource Manager Melanie Anthony in Smithers.

Contact Person for this Activity: Charlie Muldon

Key Element A / Activity 8: GIS

ESTIMATED COST $3,525.00

Task Description:

Maintain the operation of the Organization's GIS La.

Expected Results:

1. The GIS Lab will continue to provide a valuable service to the Organization for its projects and reporting as well as providing the Gitksan Houses with maps as requested.

Products/Reports to provide to DFO:

1. Updates in semi-annual narrative with detailed report provided in the Year End Report to DFO Resource Manager Melanie Anthony in Smithers.

Contact Person for this Activity: Charlie Muldon

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Fisheries Monitoring Program

ESTIMATED COST $36,800.00

Task Description:

The Organization will continue to collect FSC catch information from fisheries within the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2014-2015 and 2015-2016
asserted traditional territory of the Gitksan Houses. **Expected Results:** 1. Detailed catch estimates of the FSC Fisheries employing 5 members of the community. **Products/Reports to provide to DFO:** 1. Weekly in-season catch estimates reported to DFO Prince Rupert. 2. Detailed catch estimates and report provided in the Year End Report. **Contact Person for this Activity:** Charlie Muldon, Rod Harris.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
Key Element C / Activity 1: Fisheries Planning **ESTIMATED COST $2,500.00** **Task Description:** The Organization will work with fishers to ensure operations are well planned and openness is maintained. **Expected Results:** 1. Organized commercial fisheries within the asserted traditional territory with policies, Agreements, and licensing in place with the fishers. **Products/Reports to provide to DFO:** 1. Meeting dates will be listed in the semi-annual narrative reports. 2. Outcomes of the fisheries to be provided in the Year Report. **Contact Person for this Activity:** Charlie Muldon
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY
Key Element D / Activity 1: GWA Rangers **ESTIMATED COST $34,300.00** **Task Description:** The Organization will maintain one Ranger on staff to work with local enforcement officers when required. Other responsibilities will include supervision of catch monitoring staff, analysis and reporting of FSC catches to DFO Prince Rupert, assisting with Organization science projects, assisting in search and rescue efforts, maintaining Organization equipment and maintaining the Kispiox field office building. **Expected Results:** 1. The Organization will maintain the presence of a Ranger within the community. **Products/Reports to provide to DFO:** 1. Updates in the semi-annual narrative as required and a detailed report included in the Year End Report. **Contact Person for this Activity:** Rod Harris, Charlie Muldon

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony, Resource Manager @Melanie.anthony@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

5. Budget

5.1. Summary for Fiscal Years 2014-2015 and 2015-2016

TABLE 1 (full costing by Activity)

PLANNED EXPENDITURE	BUDGET	NOTES
Key Element A / Activity 1: Gitksan Watershed Authorities (GWA)		
Administration [EC-01]	$51,410.00	Office supplies, utilities, janitorial, bank interest fees (DFO at fault), security, office materials, shipping
General Operating Expenses [EC-04]	$3,600.00	Maintenance to office equipment
Insurance [EC-05]	$9,000.00	Liability, office and equipment
Professional Services [EC-06]	$12,000.00	Chief's advisory committee (4 members)
Rental of space/accommodations [EC-08]	$16,200.00	Office rent
Salaries, Wages and Related Costs [EC-09]	$636,815.00	Program Manager, Fisheries Biologist, Finance Administrator, Legal support, office manager, Ranger, Senior Fisheries Technician, GIS Technician, Technical Coordinator
Travel [EC-11]	$9,600.00	Travel for core staff to attend fisheries related meetings.
Training [EC-10]	$5,000.00	Miscellaneous training for core staff
Sub-total	**$743,625.00**	
Key Element A / Activity 2: Skeena Fisheries Commission Technical Committee		
Travel [EC-11]	$1,800.00	Travel for technical coordinator to attend SFC meetings.
Sub-total	**$1,800.00**	
Key Element A / Activity 3: Slamgeesh Salmon Project		
Administration [EC-01]	$2,940.00	Shipping, utilities for Slamgeesh camp
General Operating Expenses [EC-04]	$10,500.00	Repairs and maintenance of equipment, fuel
Professional Services [EC-06]	$42,300.00	Helicopter charters to Slamgeesh camp
Property Plant and Equipment [EC-07]	$17,640.00	Vehicle rental, supplies and materials
Rental of space/accommodations [EC-08]	$4,200.00	Slamgeesh camp rent
Training [EC-10]	$1,470.00	Slamgeesh technician safety training
Sub-total	**$79,050.00**	
Key Element A / Activity 4: Sockeye Escapement Surveys		
General Operating Expenses [EC-04]	$500.00	Fuel
Professional Services [EC-06]	$9,900.00	3 Aircraft charters
Property, Plant and Equipment [EC-07]	$3,000.00	Truck and Jet boat rental (2 months)
Sub-total	**$13,400.00**	
Key Element A / Activity 5: Coho Escapement Surveys		
General Operating Expenses [EC-04]	$600.00	Fuel
Property, Plant and Equipment [EC-07]	$6,000.00	Truck and Jet boat rental (2 months)
Sub-total	**$6,600.00**	
Key Element A / Activity 6: Collection of Salmon Tissue Samples		
General Operating Expenses [EC-04]	$1,250.00	Fuel
Property, Plant and Equipment [EC-07]	$6,500.00	Field and safety equipment, truck rental
Sub-total	**$7,750.00**	
Key Element A / Activity 7: Stream Gauging Stations

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year ___2014_____

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	67,861.40
May	79,322.69
June	107,724.63
July	116,366.13
August	132,390.63
September	109,037.63
October	85,697.63
November	54,246.85
December	42,454.35
January	50,339.35
February	41,904.35
March	43,654.36
TOTAL	**931,000.00**

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 7

PROGRESS REPORT / YEAR END REPORT

Fiscal Year:	2014-2015 and/or 2015-2016
Name and Address of Organization:	Gitksan Watershed Authorities P.O. Box 166 Hazelton, BC V0J 1Y0
Agreement Number:	AFS2014-MLT-1406-0
Amount of Approved Contribution for Fiscal Year:	Total: $931,000.00 DFO: $931,000.00 Organization: $ 0.00

Reporting period: from: _____ to: _____

Type of report:	**Purpose of report:**
☐ Progress Report ☐ Year End Report	☐ Request for advance payment * ☐ Request for reimbursement ☐ Release holdback ☐ Other: _____ Also submit a revised cash flow projection of Eligible Costs in the form set out in Schedule 6 of the Agreement.

Section 1 – Financial Summary

TABLE 1.0

DFO Eligible Costs category	*Budgeted amount*	*Funds received year to date (fill in total only)*	*Expenses for current reporting period*	*Expenses year to date (includes current reporting period)*
1) Administration	$54,350.00			
2) Audit	$0.00			
3) Communications	$1,250.00			
4) General Operating Expenses	$31,525.00			
5) Insurance	$9,000.00

Section 2 –Products/Reports and Actual Results

Activities (from section 3 of Schedule 5)	Status * (in measurable terms)
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Gitksan Watershed Authorities **Expected Results:** 1. Project budgets and operational work plans will be completed and agreed to by DFO and the Organization to facilitate the completion of the AFS agreement 2. Internal Organization meetings to develop program direction/mandate development will be held and outcomes will be communicated to community and summarized for DFO. Communication with leadership and the community will be maintained 3. Management and technical staff participate in technical and management processes, provide input into fisheries management and coordinate the scientific/technical direction of the Organization's fisheries program in cooperation with DFO. 4. Area and species specific catch data will be received weekly by DFO Fisheries Management. 5. Partnering and leveraging activities will be secured to complement the AFS Agreement objectives. 6. Employees will be supported to maintain required and relevant training to work safely and effectively on fisheries projects. 7. Projects (Activities 2 to 8) will be carried out in accordance with the expected results, and supporting detailed operational work plans will be developed by the Organization.	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Status * (in measurable terms)
8. Financial records will be maintained and reporting will be completed in a timely manner and communication will be maintained with DFO. Financial reports and supporting documents will be generated in a timely manner to support the Coordinator in meeting AFS reporting requirements. **Products/Reports to provide to DFO:** 1. Seasonal operational plans for field activities, work plans and budgets that are used to construct the Agreement. 2. Documentation of all meeting-related activities by staff and leadership shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items, dates, and attendance i.e.: a. Internal Organization meetings b. Technical and management processes 3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in Progress Reports and in the Year End Report. 4. In-season weekly catch information provided to DFO Prince Rupert. The Organization will provide a post season summary and details of the Catch Monitoring Project in the Year End Report. 5. The Organization will include details of type of training and number of staff attended in their Year End Report. 6. Status report of activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement. 7. The final financial progress report and Final Year End Report will be submitted within 6 months after the end of the Fiscal Year. 8. A salaries table will be submitted by November 1st in a format acceptable to DFO, and DFO will deal with the salaries table in a manner consistent with the utmost confidentiality and the Privacy Act.	
Activity A-2: Skeena Fisheries Commission Technical Committee **Expected Results:** 1. To support coordinated science and salmon management in the asserted traditional territory and the Skeena River Watershed. **Products/Reports to provide to DFO:** 1. Updates provided at the SFC technical committee meetings. 2. List of meetings attended provided to DFO. **Contact Person for this Activity**: Charlie Muldon	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Status * (in measurable terms)
Activity A-3: Slamgeesh Salmon Project **Expected Results:** 1. Employment of up to 5 community members - May through October (seasonal, part-time). 2. Enumeration, coded wire tag output and biophysical data will be collected and information will be provided to DFO Resource Management in Prince Rupert. 3. Sockeye and coho population assessments will be conducted and brood year tables will be maintained for reporting fresh water production and marine survival rates. 4. Sampling analysis of sockeye and coho (age, length, and timing). **Products/Reports to provide to DFO:** 1. Updates will be provided at the SFC technical committee meetings. 2. The Fisheries Biologist shall provide in-season updates to DFO Resource Management and Stock Assessment in Prince Rupert, as well as preliminary estimates by December 1st. 3. Final reporting as a GWA annual technical report is also provided to the DFO stock assessment branch in Prince Rupert and DFO Resource Manager Melanie Anthony in Smithers. **Contact Person for this Activity:** Alicia Fernando	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
Activity A-4: Sockeye Escapement Surveys **Expected Results:** 1. Sockeye escapement estimates for the Swan-Stephens Lakes area, the Nangeese River, and the Zymoetz River. **Products/Reports to provide to DFO:** 1. Escapement data provided in stream inspection logs database to DFO Prince Rupert. 2. A detailed escapement report will be provided in the Year End Report. **Contact Person for this Activity:** Charlie Muldon.	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
Activity A-5: Coho Escapement Surveys **Expected Results:** 1. Coho escapement estimates for the Kispiox Watershed. **Products/Reports to provide to DFO:** 1. Escapement data provided in stream inspection logs database to DFO Prince Rupert. 2. Detailed report provided in the Year End Report. **Contact Person for this Activity:** Charlie Muldon	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
Activity A-6: Collection of Salmon Tissues Samples **Expected Results:** 1. Field collection of these samples is undertaken to continue adding to the DNA baseline database. **Products/Reports to provide to DFO:**	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Status * (in measurable terms)
1. Submission of samples to DFO Prince Rupert for shipment to PBS Nanaimo for analysis. 2. Detailed report provided in the Year End Report. **Contact Person for this Activity:** Charlie Muldon	
Activity A-7: Stream Gauging Stations **Expected Results:** 1. Data collection and maintenance will occur on a quarterly basis, with data analysed and stored for use with project reports. **Products/Reports to provide to DFO:** 1. Updates in semi-annual narrative with detailed report provided in the Year End Report to DFO Resource Manager Melanie Anthony in Smithers. **Contact Person for this Activity:** Charlie Muldon	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
Activity A-8: GIS **Expected Results:** 1. The GIS Lab will continue to provide a valuable service to the Organization for its projects and reporting as well as providing the Gitksan Houses with maps as requested. **Products/Reports to provide to DFO:** 1. Updates in semi-annual narrative with detailed report provided in the Year End Report to DFO Resource Manager Melanie Anthony in Smithers. **Contact Person for this Activity:** Charlie Muldon	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Fisheries Monitoring Program **Expected Results:** 1. Detailed catch estimates of the FSC Fisheries employing 5 members of the community. **Products/Reports to provide to DFO:** 1. Weekly in-season catch estimates reported to DFO Prince Rupert. 2. Detailed catch estimates and report provided in the Year End Report. **Contact Person for this Activity:** Charlie Muldon, Rod Harris	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
Activity C-1: Fisheries Planning **Expected Results:** 1. Organized commercial fisheries within the asserted traditional territory with policies, Agreements, and licensing in place with the fishers. **Products/Reports to provide to DFO:** 1. Meeting dates will be listed in the semi-annual narrative reports. 2. Outcomes of the fisheries to be provided in the	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization and Gitksan Houses with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

Sockeye salmon
Pink salmon
Chum salmon
Chinook salmon
Coho salmon

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

4.1. s.20(1)(c) [redacted]

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all Members of the Gitksan Houses to engage in Fishing in the FSC Fishery. Proof of membership in a Gitksan House will serve as the Member's

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

designation document.

6.3. The Organization may designate an individual who is not a Member of a Gitksan House to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to James D'Andrea, fax (250) 842-6283, a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 11 day of April, 2017
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITKSAN HOUSES, dba Gitksan Watershed Authorities (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Organization supports a watershed management approach through the mechanism of the Skeena Fisheries Commission;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

support the Organization in carrying out the Activities.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights, and, for greater certainty, is made without prejudice to any positions either Party may take with respect to the existence of Aboriginal rights, to the fishery or otherwise, or whether any Aboriginal rights, to the fishery or otherwise, are unjustifiably infringed;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
	General Terms and Conditions	Page 9
Schedule 2		
Schedule 3	Financial Management, Payments and Reporting	Page 13
Schedule 4	Description of Eligible Costs for Reimbursement	Page 18
Schedule 5	Activities	Page 20
Schedule 6	Cash Flow Projection of Eligible Costs	Page 30
Schedule 7	Progress Report / Year End Report	Page 30
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 37

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to NINE HUNDRED AND THIRTY-ONE THOUSAND DOLLARS ($931,000.00) in Fiscal Year 2017-2018 and an amount of up to NINE HUNDRED AND THIRTY-ONE THOUSAND DOLLARS ($931,000.00) in Fiscal Year 2018-2019 an amount of up to NINE HUNDRED AND THIRTY-ONE THOUSAND DOLLARS ($931,000.00) in Fiscal Year 2019-2020 and an amount of up to NINE HUNDRED AND THIRTY-ONE THOUSAND DOLLARS

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

($931,000.00) in Fiscal Year 2020-2021 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2021.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 11 and subsections 8.1 and 8.2 of

9.2. Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with sixty (60) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile, email, or delivered in person;

(b) five (5) business days after the posting if sent by regular mail; or

(c) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

11.4. The Organization will notify DFO when it is no longer acting for or on behalf of a Gitksan House by sending a notice, in writing, to that effect to DFO and to the House. Notwithstanding subsection 10.1, where DFO receives such a notice, DFO and the Organization will discuss the matter and, depending on the outcome of the discussion, the Parties may amend this Agreement.

11.5. When a Gitksan House gives notice, in writing, to DFO and to the Organization that the Organization no longer acts for or on its behalf, DFO will discuss the matter with the Organization and the Gitksan House giving notice. Notwithstanding subsection 10.1, depending on the outcome of the discussion, the Parties may amend this Agreement.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and members of the Gitksan Houses listed in Schedule 1 for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform the members of the Gitksan Houses listed in Schedule 1 of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"FSC Fishery" means the fisheries for food, social and ceremonial purposes carried out by the Organization, or its Members;

"Gitksan House" means, for the purposes of this Agreement, any one of the Houses listed in the succeeding definition;

"**Gitksan Houses**" means, for the purposes of this Agreement, all of the Houses that comprise the Gitksan Houses listed in this Schedule, as follows:

GITKSAN HOUSES EAST	CLAN	HOUSE
	Fireweed	Antgulilbix/Tsii Baasa Dawamuxw Geel Gitludahl Gutginuxw Gwiiyseehl

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization or a member of a Gitksan House

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act.*

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization, its Members or any Gitksan House in carrying out the Activities under this Agreement will be owned by the Organization, and the Gitksan Houses, as required or appropriate under any agreement between the Organization and the Gitksan Houses.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from the Gitksan Houses, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. Notwithstanding section 1.7 of Schedule 3, the Organization will not assign this

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Agreement or any part of it.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Gitksan House, any Gitksan House member, and any officers, employees, agents or contractors of the Organization or of a Gitksan House or anyone for whom the Organization or a Gitksan House is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, any Gitksan House or anyone for whom the Organization or any Gitksan House is responsible for in law, including but not limited to any Gitksan House member, officer, employee, agent or contractor of the Organization under this Agreement. The Organization and each Gitksan House are responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.Acts and Regulations .

8.4. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

8.5. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

8.6. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

8.7. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

8.8. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

9. Official Languages

9.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

10. Public Acknowledgement and Communications

10.1. Subject to subsection 10.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

10.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 10.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

11. Issue Resolution

11.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

11.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

11.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

11.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

11.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

11.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

11.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2017-2018, 2018-2019, 2019-2020, and 2020-2021.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

1.7. Distribution of Contribution Funds to Gitksan Houses

1.7.1. In the event that the Organization distributes funds from the Contribution to any Gitksan House or Other Entity, the Organization will:

(a) implement the accountability and management framework that the Organization provided to DFO prior to the execution of this Agreement;

(b) provide a description of the redress provisions regarding decisions that the Organization has implemented with respect to the Gitksan House or Other Entity that applies for or receives distributed payments;

(c) implement a transparent and open decision-making process to provide for the selection of Gitksan Houses or Other Entities to receive distributed payments and the approval of initiatives to be funded, and the Organization will provide to DFO a description of its responsibilities in this process;

(d) undertake a written agreement with each Gitksan House or Other Entity receiving distributed payments that:

(i) addresses financial roles and responsibilities,

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(ii) provides for oversight, reviews and audits by the Organization, and the right of the Organization to provide copies of reviews and audits to DFO,

(iii) provide for access by DFO to records and premises of the Gitksan House or Other Entity for the purpose of monitoring compliance with this Agreement,

(iv) acknowledges, to the Gitksan House or Other Entity, DFO's role in providing the funding, and

(v) provides that the Gitksan Houses or Other Entities maintain and preserve the books, accounts, records, supporting documentation, reports and other documents related to the Activities for a period of six (6) years following the end of this Agreement; and

(e) provide to DFO, on request, any reports, reviews and audits carried out by the Organization in relation to Gitksan Houses or Other Entities that receive distributed funds.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2017, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2017, and the date upon which this Agreement comes into effect.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of five percent (5%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within one hundred and eighty (180) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.1. Multi-year Work Plan

1.1.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities			
Fiscal Year 2017-2018	**Fiscal Year 2018-2019**	**Fiscal Year 2019-2020**	**Fiscal Year 2020-2021**
$931,000.00	$931,000.00	$931,000.00	$931,000.00

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Description:

The Organization's principal focus has been fisheries management that helps to ensure strong returns of wild salmon populations to the asserted traditional territory of the Gitksan Houses. This also helps ensure abundant sustenance use and benefits. The Organization takes pride in the fact that the Gitksan Houses have always managed resources in a manner that allows for sustainable use, and is well aware that the use of traditional knowledge has been left in its trust to manage the resources of the land.

The Organization's aquatic resource management and stewardship is the operations and infrastructure by which activities under this agreement are supported. The core management staff consists of a Coordinator, Executive Assistant, a Legal Advisor and the Chiefs Advisory Committee (CAC). The core program operations staff consists of a Fisheries Biologist, a Senior Fisheries Technician, a GIS Technician and a Ranger.

Key Roles and Responsibilities:

- Program development and work planning.
- Provide annual training and recertification for staff in relevant and required courses.
- Proposal development and pursuing possible partnering or leveraging opportunities.
- Participation in fisheries focused resource management meetings and forums, both internal and external.

Work-plans over the next two years include the following Aquatic Resource Management and Stewardship programs:

- Aquatic Resource Meetings - Involvement in the Skeena Fisheries Commission technical committee.
- Stock Assessment Science
  - Slamgeesh Salmon Project – salmon population enumeration and research.
  - Sockeye Escapement Surveys within the asserted traditional territory of the Gitksan Houses.
  - Coho Escapement Surveys within the asserted traditional territory of the Gitksan Houses.
  - Collection of Salmon Information - sampling to improve information on stock

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan

definition, age structure and condition.

- Water Quality and Quantity - Stream gauging station operations.

- GIS department operations including resources to support habitat monitoring within the asserted traditional territory.

Expected Results:

1. Longer term planning will help the Organization in possible partnering and leveraging opportunities.
2. Organizational participation in technical and management processes for both the Organization's fisheries program and DFO programs.
3. Support employees to maintain required and relevant training.
4. Cooperative management of the resource by providing DFO with catch information and science/stock assessment information.
5. Maintaining core staff will provide stability within the Organization to allow for longer term planning on the direction of the program.
6. Maintain communication with leadership and the community.
7. Continued sustainably managed fisheries resource for the benefit of the Gitksan Houses and the environment.

DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Description:

The Organization's Fisheries Monitoring Program will continue to collect FSC catch information from its fisheries within the asserted traditional territory of the Gitksan Houses.

Expected Results:

1. Continued co-management of the resource by collecting and sharing with DFO the FSC catch numbers for management purposes.

DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES

Description:

Fisheries Planning: The Organization will continue work with Gitksan fishers to ensure operations are well planned and openness is maintained.

Expected Results:

1. A sustainable and productive economic fishery for the benefit of community members and providing the opportunity for economic growth.
2. To seek further funds in support of management and fishing skills training.

DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Description:

The Organization will maintain one Ranger on staff to work with local enforcement officers when required.

Other responsibilities will include supervision of catch monitoring staff, analysis and reporting of FSC catches to DFO Prince Rupert, assisting with Organization science projects, assisting in search and rescue efforts, maintaining Organization equipment and maintaining the Kispiox field office building.

Expected Results:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
1. Maintaining a relationship between the Organization Ranger and DFO C&P staff.
2. Providing training and skills development for the Organization Ranger.
3. Maintaining a presence of an Organization Ranger within the community.

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Gitksan Watershed Authorities (GWA) **ESTIMATED COST $769,185.00** The Organization oversees and carries out program development, work planning, consultations and negotiations of the AFS Agreement and maintains dialogue and co-management initiatives between DFO and the Organization. The Organization is responsible for managing the FSC fishery, implementing AFS field programs, bud geting, planning, reporting, and data management As well, the Organization seeks to support additional Fisheries related research, stock assessment programs, habitat monitoring and enhancement opportunities through the leveraging of additional funding from sources outside DFO. The Organization provides administrative support to all projects under this Agreement and aids the Coordinator with the financial management component of the Agreement, including the provision of office space, supplies, utilities, IT support, and storage facilities. The Organization's management staff is comprised of Chiefs Advisory Committee (CAC), a Coordinator, Executive Assistant, and Legal Advisor. The Coordinator will oversee the various activities of the Organization and provide direction regarding the various projects while ensuring program stability and cost effective management. Organization activities under this Agreement are supported by the Coordinator, the Executive Assistant, Legal Advisor and program operations staff consisting of the Fisheries Biologist, a Senior Fisheries Technician, GIS Technician and a Ranger. Program operations staff assists in facilitating training and development of fisheries staff operational plans, implementing AFS field programs, budgeting, planning, reporting, data management and GIS support. The Fisheries Office staff, and Field/ Technical staff assists the Coordinator with the processing of invoices and reimbursements, communications activities, the organizing and scheduling of work tasks for field technicians, and assists field technicians with data collection and camp duties where required. The Chiefs Advisory Committee is responsible for ensuring that the Coordinator and support staff are provided with the administrative/physical infrastructure required to manage the program and associated projects. The Legal Advisor works directly with the Coordinator and supports all areas of GWA operations. This includes legal advise to the GWA board and management on a broad range of activities under the AFS agreement including fisheries law, constitutional law, aboriginal law, and employment law. The Organization will employ up to 12 field technicians to work with project leaders in conducting the science projects discussed later in Key Elements A and B. Up to six field technicians will be designated to work on the Slamgeesh Project exclusively. Six field technicians will be designated to work on all other field projects described later. A Salaries table broken down by position title and activity will be maintained.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

Task Description:

1. With the assistance of Organization staff and CAC, the Coordinator will oversee and coordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization, and staff management.
2. Regular internal meetings (monthly CAC meetings) will be conducted with leadership who will oversee political negotiations, and program/policy development.
3. Participation of staff and leadership in fisheries focused resource management including the Skeena Fisheries Commission meetings and multi-stakeholder meetings (Skeena Fisheries Commission, Transboundary Technical Committee).
4. The Organization will monitor the FSC fishery and provide food fish data for reporting and maintenance of catch records.
5. The Organization will pursue various partnering and leveraging opportunities, including proposal development and meetings as required.
6. Annual training and recertification needs vary with returning and/or new staff. Required training consists of, but is not limited to, the following: First Aid, Transportation Endorsement, Boating Safety, Swiftwater Rescue, Bear Awareness and shotgun handling.
7. The Organization will produce and distribute an in-season newsletter for the community and update the Organization's website.
8. The Organization will provide DFO with the Schedule of Revenues and Expenditures for the Aboriginal Fisheries Strategy program from their audited financial statements.

Expected Results:

1. Project budgets and operational work plans will be completed and agreed to by DFO and the Organization to facilitate the completion of the AFS agreement
2. Internal Organization meetings to develop program direction/mandate development will be held and outcomes will be communicated to community and summarized for DFO. Communication with leadership and the community will be maintained
3. Management and technical staff participate in technical and management processes, provide input into fisheries management and coordinate the scientific/technical direction of the Organization's fisheries program in cooperation with DFO.
4. Area and species-specific catch data will be received weekly by DFO Fisheries Management.
5. Partnering and leveraging activities will be secured to complement the AFS Agreement objectives.
6. Employees will be supported to maintain required and relevant training to work safely and effectively on fisheries projects.
7. Projects (Activities 2 to 8) will be carried out in accordance with the expected results, and supporting detailed operational work plans will be developed by the Organization.
8. Financial records will be maintained and reporting will be completed in a timely manner and communication will be maintained with DFO. Financial reports and supporting documents will be generated in a timely manner to support the Coordinator in meeting AFS reporting requirements.

Products/Reports to provide to DFO:

1. Seasonal operational plans for field activities, work plans and budgets that are used to construct the Agreement.
2. Documentation of all meeting-related activities by staff and leadership shall be provided in the Progress Report and in the Year End Report, consisting of a minimum of a listing of dates, location, and purpose i.e.:
   a. Internal Organization meetings
   b. Technical and management processes
3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in Progress Report and in the Year End Report.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

4. In-season weekly catch information provided to DFO Prince Rupert. The Organization will provide a post season summary and details of the Catch Monitoring Project in the Year End Report.
5. The Organization will include details of type of training and number of staff attended in their Year End Report.
6. Progress Report of activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.
7. The Year End Report will be submitted within 6 months after the end of the Fiscal Year.
8. A salaries table will be submitted by November 1st in a format acceptable to DFO, and DFO will deal with the salaries table in a manner consistent with the utmost confidentiality and the Privacy Act.

Key Element A / Activity 2: Slamgeesh Salmon Project

ESTIMATED COST $74,640.00

Task Description:

The Organization will install the smolt trap and maintain the operation of the smolt trapping program, and the adult counting fence program on Damshilgwet Creek in the Slamgeesh Watershed from May through to the end of October for the purposes of Slamgeesh sockeye and coho stock assessment, sampling and enumeration.

Location	Duration (estimated)	Species	Target sample	Samples required
Damshilgwet Creek (Slamgeesh)	April 30 – Jun.30	Sockeye smolts	200* Sub-sample** Captures ***	*Scale sample **length ***enumeration, mark-recaptures, adipose clips.
Damshilgwet Creek (Slamgeesh)	April 30 – Jun.30	Coho smolts	200* Sub-sample** Captures ***	*Scale sample **length, adipose clips, cwt. ***enumeration, mark-recaptures
Damshilgwet Creek (Slamgeesh)	July 29 – Oct. 1	Sockeye adults	250* All**	*Scale sample **sex, length, enumeration, clipped returns
Damshilgwet Creek (Slamgeesh)	July 29 – Oct. 30	Coho adults	250* All**	*Scale sample **sex, length, enumeration, clipped returns
Damshilgwet Creek (Slamgeesh)	smolt and adult programs	Other species	Captures ***	***Enumeration

Expected Results:

1. Employment of up to 5 community members - May through October (seasonal, part-time).
2. Enumeration, coded wire tag output and biophysical data will be collected and information will be provided to DFO Resource Management in Prince Rupert.
3. Sockeye and coho population assessments will be conducted and brood year tables will be maintained for reporting fresh water production and marine survival rates.
4. Sampling analysis of sockeye and coho (age, length, and timing).

Products/Reports to provide to DFO:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

1. Updates will be provided at the SFC technical committee meetings.
2. The Fisheries Biologist shall provide in-season updates to DFO Resource Management and Stock Assessment in Prince Rupert, as well as preliminary estimates by December 1st.
3. Final reporting as a GWA annual technical report is also provided to the DFO stock assessment branch in Prince Rupert and DFO Resource Manager Melanie Anthony in Smithers.

Contact Person for this Activity: Alicia Fernando

Key Element A / Activity 3: Sockeye Escapement Surveys

ESTIMATED COST $13,400.00

Task Description:

The Organization will continue to enumerate sockeye escapements for the Kispiox watershed and Zymoetz River. The escapement surveys will be conducted from late August to the end of September. A minimum of three (3) foot surveys per river will be conducted where appropriate and three (3) helicopter surveys conducted where needed.

Expected Results:

1. Sockeye escapement estimates for the Swan-Stephens Lakes area, the Nangeese River, and the Zymoetz River.

Products/Reports to provide to DFO:

1. Escapement data provided in stream inspection logs database to DFO Prince Rupert.
2. A detailed escapement report will be provided in the Year End Report.

Contact Person for this Activity: Tim Wilson

Key Element A / Activity 4: Coho Escapement Surveys

ESTIMATED COST $6,600.00

Task Description:

The Organization will continue to enumerate coho escapements on streams of the Kispiox watershed. The escapement surveys will be conducted beginning in October and ending in early November. A minimum of three (3) foot surveys will be conducted on streams surveyed.

Expected Results:

1. Coho escapement estimates for the Kispiox Watershed.

Products/Reports to provide to DFO:

1. Escapement data provided in stream inspection logs database to DFO Prince Rupert.
2. A detailed escapement report will be provided in the Year End Report.

Contact Person for this Activity: Tim Wilson

Key Element A / Activity 5: Stream Gauging Stations

ESTIMATED COST $1,300.00

Task Description:

Temperature and stage data will be collected for Natlan Creek, Slamgeesh River, Kispiox River, Clifford Creek, Upper Zymoetz, and the Nangeese River.

Expected Results:

1. Data collection and maintenance will occur on a quarterly basis, with data analysed and stored for use with project reports.

Products/Reports to provide to DFO:

1. Updates in the Progress Report with detailed report provided in the Year End Report to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

DFO Resource Manager Melanie Anthony in Smithers.

Contact Person for this Activity: Tim Wilson

Key Element A / Activity 6: GIS

ESTIMATED COST $3,525.00

Task Description:

Maintain the operation of the Organization's GIS Lab.

Expected Results:

1. The GIS Lab will continue to provide a valuable service to the Organization for its projects and reporting as well as providing the Gitksan Houses with maps as requested.

Products/Reports to provide to DFO:

1. Updates in the Progress Report with detailed report provided in the Year End Report to DFO Resource Manager Melanie Anthony in Smithers.

Contact Person for this Activity: Charlie Muldon

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Fisheries Monitoring Program

ESTIMATED COST $33,800.00

Task Description:

The Organization will continue to collect FSC catch information from fisheries within the asserted traditional territory of the Gitksan Houses.

Expected Results:

1. Detailed catch estimates of the FSC Fisheries employing 5 members of the community.

Products/Reports to provide to DFO:

1. Weekly in-season catch estimates reported to DFO Prince Rupert.
2. Detailed catch estimates and report provided in the Year End Report.

Contact Person for this Activity: Rod Harris.

KEY ELEMENT C: ECONOMIC OPPORTUNITIES

Key Element C / Activity 1: Fisheries Planning

ESTIMATED COST $2,250.00

Task Description:

The Organization will work with fishers to ensure operations are well planned and openness is maintained.

Expected Results:

1. Organized FSC and commercial fisheries within the asserted traditional territory with policies, Agreements, and licensing in place.

Products/Reports to provide to DFO:

1. Meeting dates will be listed in the Progress Report.
2. Outcomes of the fisheries to be provided in the Year End Report.

Contact Person for this Activity: Charlie Muldon

KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2017-2018 and 2018-2019

Key Element D / Activity 1: GWA Rangers

ESTIMATED COST $26,300.00

Task Description:

The Organization will maintain one Ranger on staff to work with local enforcement officers when required. Other responsibilities will include supervision of catch monitoring staff, analysis and reporting of FSC catches to DFO Prince Rupert, assisting with Organization science projects, assisting in search and rescue efforts, maintaining Organization equipment and maintaining the Kispiox field office building.

Expected Results:

1. The Organization will maintain the presence of a Ranger within the community.

Products/Reports to provide to DFO:

1. Updates in the Progress Report as required and a detailed report included in the Year End Report.

Contact Person for this Activity: Rod Harris

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony, Resource Manager @Melanie.anthony@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

5. Budget

5.1. Summary for Fiscal Years 2017-2018 and 2018-2019

TABLE 1 (full costing by Activity)

PLANNED EXPENDITURE	BUDGET	NOTES
Key Element A / Activity 1: Gitksan Watershed Authorities (GWA)		
Administration [EC-01]	$54,350.00	Office supplies, utilities, janitorial, bank interest fees, security, office materials, shipping
Audit [EC-02]	$5,000	Annual financial review
General Operating Expenses [EC-04]	$3,600.00	Maintenance to office equipment
Insurance [EC-05]	$9,000.00	Liability, office and equipment
Professional Services [EC-06]	$37,000.00	Chief's advisory committee (4 members), Financial Services
Rental of space/accommodations [EC-08]	$16,200.00	Office rent
Salaries, Wages and Related Costs [EC-09]	$629,975.00	Program Manager, Fisheries Biologist, Finance Administrator, Legal support, office manager, Ranger, Senior Fisheries Technician, GIS Technician, Technical Coordinator
Travel [EC-11]	$9,600.00	Travel for core staff to attend fisheries related meetings.
Training [EC-10]	$4,460.00	Miscellaneous training for core staff

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Sub-total	**$769,185.00**	
Key Element A / Activity 2: Slamgeesh Salmon Project		
General Operating Expenses [EC-04]	$14,340.00	Repairs and maintenance of equipment, fuel
Professional Services [EC-06]	$42,300.00	15 Helicopter and Air charters to Slamgeesh camp
Property Plant and Equipment [EC-07]	$13,800.00	Vehicle rental, supplies and materials
Rental of space/accommodations [EC-08]	$4,200.00	Slamgeesh camp rent
Sub-total	**$74,640.00**	
Key Element A / Activity3: Sockeye Escapement Surveys		
General Operating Expenses [EC-04]	$500.00	Fuel
Professional Services [EC-06]	$9,900.00	3 Helicopter charters
Property, Plant and Equipment [EC-07]	$3,000.00	Truck and Jet boat rental (2 months)
Sub-total	**$13,400.00**	
Key Element A / Activity 4: Coho Escapement Surveys		
General Operating Expenses [EC-04]	$600.00	Fuel
Property, Plant and Equipment [EC-07]	$6,000.00	Truck and Jet boat rental (2 months)
Sub-total	**$6,600.00**	
Key Element A / Activity 5: Stream Gauging Stations		
General Operating Expenses [EC-04]	$300.00	Fuel
Property, Plant and Equipment [EC-07]	$1,000.00	Truck rental
Sub-total	**$1,300.00**	
Key Element A / Activity 6: GIS		
General Operating Expenses [EC-04]	$2,325.00	Maintenance of equipment
Property, Plant and Equipment [EC-07]	$1,200.00	Supplies and materials
Sub-total	**$3,525.00**	
Key Element B / Activity 1: Fisheries Monitoring Program		
General Operating Expenses [EC-04]	$8,800.00	Fuel for truck and jet boat
Property, Plant and Equipment [EC-07]	$25,000.00	Vehicle lease, boat rental
Sub-total	**$33,800.00**	
Key Element C / Activity 1: Fisheries Planning		
Communications [EC-03]	$1,000.00	Meeting expenses, hospitality, supplies
Travel [EC-11]	$1,250.00	Travel for Fisheries Coordinator to attend in-season planning meetings
Sub-total	**$2,250.00**	
Key Element D / Activity 1: GWA Rangers		
General Operating Expenses [EC-04]	$3,300.00	Fuel for truck and jet boat
Property, Plant and equipment [EC-07]	$23,000.00	Vehicle lease, boat rental
Sub-total	**$26,300.00**	
GRAND TOTAL	**$931,000.00**	

TABLE 2

DFO Eligible Costs Category (as described in Schedule 4)	Total
1. Administration	$54,350.00
2. Audit	$5,000.00
3. Communications	$1,000.00
4. General Operating Expenses	$33,765.00
5. Insurance	$9,000.00
6. Professional Services	$89,200.00
7. Property, Plant and Equipment	$73,000.00
8. Rental of Space/Accommodations	$20,400.00

March	$43,654.36
TOTAL	**$931,000.00**

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

SCHEDULE 7

PROGRESS REPORT / YEAR END REPORT

Fiscal Year:	2017-2018 and/or 2018-2019
Name and Address of Organization:	Gitksan Watershed Authorities P.O. Box 166 Hazelton, BC V0J 1Y0
Agreement Number:	AFS2017-MLT-1708-0
Amount of Approved Contribution for Fiscal Year:	Total: $931,000.00 DFO: $931,000.00

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

	Organization: $ 0.00

Reporting period: from: _____ to: _____

Type of report:	**Purpose of report:**
☐ Progress Report ☐ Year End Report	☐ Request for advance payment * ☐ Request for reimbursement ☐ Release holdback ☐ Other: _____ Also submit a revised cash flow projection of Eligible Costs in the form set out in Schedule 6 of the Agreement.

Section 1 – Financial Summary

TABLE 1.0

DFO Eligible Costs category	*Budgeted amount*	*Funds received year to date (fill in total only)*	*Expenses for current reporting period*	*Expenses year to date (includes current reporting period)*
1) Administration	$54,350.00			
2) Audit	$5,000.00			
3) Communications	$1,000.00			
4) General Operating Expenses	$33,765.00			
5) Insurance	$9,000.00			
6) Professional Services	$89,200.00			
7) Property, Plant and Equipment	$73,000.00			
8) Rental of Space/Accommodations	$20,400.00			
9) Salaries, Wages and Related Costs	$629,975.00			
10) Training	$4,460.00			
11) Travel	$10,850.00			
TOTAL	**$931,000.00**			

* Anticipated over-threshold or under-threshold status for Progress Reports; actual over-threshold or under-threshold status for Year End Reports. Please fill out Table 1.1 below. As per the table for the applicable Fiscal Year in section 5 of Schedule 5.
** When receiving funding from other sources please fill in Table 1.2 below.

TABLE 1.1

Where there is an anticipated/actual over-threshold or under-threshold status for a given [Activity / Eligible Costs category] that exceeds the established threshold set out in the table in section 5 of Schedule 5 for the applicable Fiscal Year, please explain:

DFO Eligible Costs category	*Budgeted amount*	*Actual expenses $ amount*	*Under-budget or over-budget $ amount*	*Reason for budget deviation*
1) Administration	$54,350.00			
2) Audit	$5,000.00			
3) Communications	$1,000.00			
4) General Operating Expenses	$33,765.00			
5) Insurance	$9,000.00			
6) Professional Services	$89,200.00			
7) Property, Plant and Equipment	$73,000.00			
8) Rental of Space/Accommodations	$20,400.00			
9) Salaries, Wages and Related Costs	$629,975.00			
10) Training	$4,460.00			
11) Travel	$10,850.00			
TOTAL	**$931,000.00**			

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

* Please contact Melanie Anthony, Resource Manager @ melanie.anthony@dfo-mpo.gc.ca to discuss how to address any budget deviation and whether a movement of funds or retention of funds will be required.

TABLE 1.2
Total funding provided from all other sources. When receiving funding from other sources please provide details below:

Section 2 –Products/Reports and Actual Results

Activities (from section 3 of Schedule 5)	**Progress or Year End/Final Report on Status (in measurable terms)**
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Gitksan Watershed Authorities **Expected Results:** 1. Project budgets and operational work plans will be completed and agreed to by DFO and the Organization to facilitate the completion of the AFS Agreement.	**Actual Results in Narrative Format (enter text):**
2. Internal Organization meetings to develop program direction/mandate development will be held and outcomes will be communicated to community and summarized for DFO. Communication with leadership and the community will be maintained	
3. Management and technical staff participate in technical and management processes, provide input into fisheries management and coordinate the scientific/technical direction of the Organization's fisheries program in cooperation with DFO.	
4. Area and species-specific catch data will be received weekly by DFO Fisheries Management.	
5. Partnering and leveraging activities will be secured to complement the AFS Agreement objectives.	
6. Employees will be supported to maintain required and relevant training to work safely and effectively on fisheries projects.	
7. Projects (Activities 2 to 8) will be carried out in accordance with the expected results, and supporting detailed operational work plans will be developed by the Organization.	
8. Financial records will be maintained and reporting will be completed in a timely manner and communication will be maintained with DFO. Financial reports and supporting documents will be generated in a timely manner to support the Coordinator in meeting AFS reporting requirements.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. Seasonal operational plans for field activities, work plans and budgets that are used to construct the Agreement.	**Products/Reports:**
2. Documentation of all meeting-related activities by staff and leadership shall be provided in the Progress Report and in the Year End Report, consisting of a minimum of a listing of dates, location, and purpose i.e.: a. Internal Organization meetings b. Technical and management processes	
3. Declaration of joint project funding as per Agreement provisions and in the form set out in Schedule 7 as appropriate; summary details of partnering and leveraging activities communicated to DFO in Progress Report and in the Year End Report.	
4. In-season weekly catch information provided to DFO Prince Rupert. The Organization will provide a post season summary and details of the Catch Monitoring Project in the Year End Report.	
5. The Organization will include details of type of training and number of staff attended in their Year End Report.	
6. Progress Report of activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.	
7. The Year End Report will be submitted within 6 months after the end of the Fiscal Year.	
8. A salaries table will be submitted by November 1st in a format acceptable to DFO, and DFO will deal with the salaries table in a manner consistent with the utmost confidentiality and the Privacy Act.	
Activity A-2: Slamgeesh Salmon Project **Expected Results:** 1. Employment of up to 5 community members - May through October (seasonal, part-time).	**Actual Results in Narrative Format (enter text):**
2. Enumeration, coded wire tag output and biophysical data will be collected and information will be provided to DFO Resource Management in Prince Rupert.	
3. Sockeye and coho population assessments will be conducted and brood year tables will be maintained for reporting fresh water production and marine survival rates.	
4. Sampling analysis of sockeye and coho (age, length, and timing).	
Products/Reports to provide to DFO: 1. Updates will be provided at the SFC technical committee meetings.	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year End/Final Report on Status (in measurable terms)
2. The Fisheries Biologist shall provide in-season updates to DFO Resource Management and Stock Assessment in Prince Rupert, as well as preliminary estimates by December 1st.	
3. Final reporting as a GWA annual technical report is also provided to the DFO stock assessment branch in Prince Rupert and DFO Resource Manager Melanie Anthony in Smithers. **Contact Person for this Activity:** Alicia Fernando	
Activity A-3: Sockeye Escapement Surveys **Expected Results:** 1. Sockeye escapement estimates for the Swan-Stephens Lakes area, the Nangeese River, and the Zymoetz River.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Escapement data provided in stream inspection logs database to DFO Prince Rupert.	**Products/Reports:**
2. A detailed escapement report will be provided in the Year End Report. **Contact Person for this Activity:** Tim Wilson	
Activity A-4: Coho Escapement Surveys **Expected Results:** 1. Coho escapement estimates for the Kispiox Watershed.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Escapement data provided in stream inspection logs database to DFO Prince Rupert.	**Products/Reports:**
2. A detailed escapement report will be provided in the Year End Report. **Contact Person for this Activity:** Tim Wilson	
Activity A-5: Stream Gauging Stations **Expected Results:** 1. Data collection and maintenance will occur on a quarterly basis, with data analysed and stored for use with project reports.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Updates in the Progress Report with detailed report provided in the Year End Report to DFO Resource Manager Melanie Anthony in Smithers. **Contact Person for this Activity:** Tim Wilson	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year End/Final Report on Status (in measurable terms)
Activity A-6: GIS **Expected Results:** 1. The GIS Lab will continue to provide a valuable service to the Organization for its projects and reporting as well as providing the Gitksan Houses with maps as requested.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 2. Updates in the Progress Report with detailed report provided in the Year End Report to DFO Resource Manager Melanie Anthony in Smithers. **Contact Person for this Activity:** Charlie Muldon	**Products/Reports:**
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Fisheries Monitoring Program **Expected Results:** 1. Detailed catch estimates of the FSC Fisheries employing 5 members of the community.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Weekly in-season catch estimates reported to DFO Prince Rupert.	**Products/Reports:**
2. Detailed catch estimates and report provided in the Year End Report. **Contact Person for this Activity:** Rod Harris.	
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
Activity C-1: Fisheries Planning **Expected Results:** 1. Organized FSC and commercial fisheries within the asserted traditional territory with policies, Agreements, and licensing in place.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Meeting dates will be listed in the Progress Report.	**Products/Reports:**
2. Outcomes of the fisheries to be provided in the Year End Report. **Contact Person for this Activity:** Charlie Muldon	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY	
Activity D-1: GWA Rangers **Expected Results:** 1. The Organization will maintain the presence of a Ranger within the community.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Updates in the Progress Report as required and a detailed report included in the Year End Report. **Contact Person for this Activity:** Rod Harris	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization and Gitksan Houses with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.4. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.5. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.6. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.7. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.8. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.9. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.10. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Sockeye salmon
Pink salmon
Chum salmon
Chinook salmon
Coho salmon

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

s.20(1)(c)

4.1. [redacted]

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all Members of the Gitksan Houses to engage in Fishing in the FSC Fishery. Proof of membership in a Gitksan House will serve as the Member's designation document.

6.3. The Organization may designate an individual who is not a Member of a Gitksan House to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to DFO in Terrace, fax (250) 615-5364, a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 9 day of September, 2014
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITXAALA NATION, also known as Kitkatla Indian Band, and the Gitxaala Indian Band (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 16
Schedule 5	Activities	Page 18
Schedule 6	Cash Flow Projection of Eligible Costs	Page 31
Schedule 7	Progress Report / Year End Report	Page 32
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 41
Schedule B	Communal Commercial Fisheries Access	Page 44
Schedule C	Aboriginal Fishery Guardians	Page 47
Schedule D	Monitoring and Enforcement Protocol	Page 50

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND SEVENTEEN THOUSAND, TWO HUNDRED AND SIXTY DOLLARS ($117,260.00) in Fiscal Year 2014-2015 an amount of up to ONE HUNDRED AND SEVENTEEN THOUSAND, TWO HUNDRED AND SIXTY DOLLARS ($117,260.00) in Fiscal Year

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2015-2016 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted] in Fiscal Year 2014-2015 and [redacted] in Fiscal Year 2015-2016, which results from commercial opportunities described in Schedule B.

s.20(1)(c)

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2016.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Gitxaala Nation
P.O. Box 149
11 Ocean Drive
Kitkatla, BC
V0V 1C0

Attention: Clarence Innis, Acting Chief Councillor

Telephone: (250) 848-2214
Facsimile: (250) 848-2238

To DFO:

Fisheries and Oceans Canada

200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-666-8385
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

6. Conflict of Interest

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2014, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2014, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

a) travel and related expenses for contracted professional service providers or other non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2014-2015

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

s.20(1)(c)

Annual Work Plan for Fiscal Year 2014-2015
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Gitxaala Fisheries Program (GFP) Management Authority **ESTIMATED COST:** [redacted] The Gitxaala Fisheries Program (GFP) oversees and carries out program development and implementation, project work planning, negotiations of the AFS Agreement, and maintains dialogue and co-management initiatives between DFO and the Organization. GFP is responsible for catch monitoring of Gitxaala fisheries, implementing AFS field programs, monitoring other marine related activities, budgeting, planning, reporting, and data management. GFP also assesses fisheries management plans, policies and regulations, as well as other higher level plans that affect Gitxaala's marine environment. As well, GFP seeks to support additional Fisheries related research, stock assessment programs, habitat monitoring and enhancement opportunities through the leveraging of additional funding from sources outside DFO. GFP also manages the communal commercial fishing assess of the Organization in partnership with the Kitkatla Economic Development Corporation. The Organization in association with Gitxaala Environmental Monitoring (GEM) provides administrative support to all projects under this Agreement and aids the GFP with the financial management component of the Agreement, including the provision of office space, supplies, utilities, IT support, and storage facilities. GFP core staff is comprised of a Fisheries Biologist/ Program Manager (PM) and one full time technician who has Fishery Guardian designation. The PM co-ordinates the implementation of the AFS Agreement; develops project workplans and budgets; attends meetings and workshop on behalf of the Organization; maintains a working relationship with DFO; sources out opportunities for leveraging additional funds to support other fishery related projects; reviews policy, management plans, and other DFO material for the governing Council. The GFP Technician implements AFS field programs, carries out the monitoring activities, provides reporting, assists with data management, attends fisheries related meetings and conferences within and outside of the community, and assists the Program Manager with other aspects of the AFS Agreement. The GFP Technician also coordinates and assists with the planning of commercial fishing activities of the communal commercial fishing assets of the Organization. **Task Description:** 1. The Biologist/Program Manager will lead and coordinate program development, work planning, co-management initiatives, and negotiation/implementation of the AFS Agreement between DFO and the Organization. 2. The Biologist/Program Manager will work with the Gitxaala Nation Elected Band

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2014-2015

Council and Gitxaala Administration to ensure communications within the Organization are maintained.

3. GFP staff will participate in regular meetings with DFO to discuss fisheries related issues and will work to develop mutually beneficial initiatives.
4. GFP staff will participate in other Tier 1 (First Nation), Tier 2 (First Nation and DFO), and Tier 3 (First Nations and Stakeholders) meetings with other North Coast First Nations, AAROM Organizations, and other regional/provincial FN Organizations; local advisory boards and committees, Sectoral stakeholder meetings, etc.
5. The Biologist/Program Manager will pursue various partnering and leveraging opportunities, including proposal development and meetings as required.
6. Seek training opportunities to support GFP staff.
7. Production and distribution of communication material for the community.
8. GFP staff will manage communal commercial fishing assets obtained though ATP and PICFI (via NCSFNSS).

Expected Results:

1. Project budgets and operational work plans are completed and agreed to by GFP and DFO to facilitate the completion of the AFS Agreement.
2. Staff, leadership, and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of the GFP in cooperation DFO.
3. Partnering and leveraging activities that complement Agreement objectives.
4. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects.
5. Projects are carried out in accordance with the expected results, and supporting detailed operational work plans jointly developed by GFP and DFO.
6. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO. Financial reports and supporting documents are generated in a timely manner to support the GFP in meeting AFS reporting requirements.

Products/Reports to provide to DFO:

1. Reports relating to specific field activities and project work plans that are used to construct the Agreement.
2. Summaries of all meeting-related activities by GFP staff shall be provided in the semi-annual and Year End Reports, consisting of a minimum of a listing of: dates, participants, summary of meeting outcome, and travel costs.
3. Copies of any Communication materials produced.
4. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

Annual Work Plan for Fiscal Year 2014-2015
Key Element A / Activity 2: Gitxaala Fisheries Program (GFP) Stream Inventory Program **ESTIMATED COST:** [redacted] **Task Description:** GFP will continue its stream inventory program in 2014 and 2015 to determine salmon escapements for a select group of streams within Area 5. GFP staff will work with DFO Stock Assessment and Resource Management staff to identify streams to survey, species of interest, and timing of selected salmon runs. Stream surveys will be coordinated with the appropriate DFO staff to ensure survey methodology; data recording (Stream Inspection Logs) are standard with other similar work being conducted by DFO or other groups. It is anticipated that DFO staff will assist GFP by providing some hands on training and, where possible, conduct joint stream surveys. Stream surveys will commence in mid/late August and conclude by the end of October. **Expected Results:** 1. Coordination with local DFO staff on annual stream survey plan. 2. Employment for 1 part time technician (approximately 1 person month). 3. Development of technical stream survey capacity. 4. Stream Inspection Logs for each stream surveyed. **Products/Reports to provide to DFO:** 1. GFP will provide DFO Stock Assessment with completed Stream Inspection Logs for each stream surveyed.
Key Element A / Activity 3: Gitxaala Fisheries Program (GFP) Dungeness Crab Survey **ESTIMATED COST:** [redacted] **Task Description:** GFP will continue with this project and collect data for the third and fourth year of a multi-year Dungeness Crab Survey program initiated in 2012. The goals of these years are to collect data that supports: (1) the relative abundance of Dungeness crab in commercially fished versus non-commercially fished areas in Kitkatla Inlet, and (2) to further pinpoint soft-shell periods. Sites will be divided between commercially fished waters and waters that are currently closed to commercial fishing. It is anticipated that DFO staff will assist GFP by providing survey methodology and, where possible technical advice/assistance. All data will be recorded on standard forms consistent with Dunham, J.S., Phillips, A., Morrison, J., and Jorgensen, G. 2011. A manual for Dungeness crab surveys in British Columbia. Can. Tech. Rep. Fish. Aquat. Sci. 2964: viii + 68 p. **Expected Results:** 1. Employment for additional 1 technician (approximately 2 person month). 2. Development of technical survey capacity. 3. Biological data for Kitkatla Inlet Dungeness Crab. **Products/Reports to provide to DFO:** 1. GFP will provide DFO with a summary report of all data collected and raw data in an MS Access database or in a format that will be accepted by DFO.
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Key Element B / Activity 1: Catch Monitoring of Gitxaala Fisheries

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2014-2015
ESTIMATED COST: [redacted] s.20(1)(c)
Task Description: GFP will carry out regular catch monitoring of non-commercial fishing activities conducted by Gitxaala members within Gitxaala territory. GFP will also endeavour to interact with other First Nations to monitor, provide regulations, and collaboratively manage fishing activities conducted by non-Gitxaala members fishing within Gitxaala territory. Efforts to collect catch data will include: dockside monitoring, on-water monitoring, and phone/ in-person conversations. The GFP will maintain a database to store and archive all catch statistics for future analysis and management decisions. GFP will also collaborate with local DFO Fishery Officers to maintain communications throughout key periods of the year so that DFO is informed of the status of Gitxaala Fisheries. **Expected Results:** 1. Area and species specific catch will be provided to DFO Resource Management. 2. Increased capacity and more effective catch monitoring program. **Products/Reports to provide to DFO:** 1. GFP will provide DFO with regular Gitxaala Fisheries Monitoring Reports. 2. A Catch Monitoring Report will be included in the Year End Report.
Key Element B / Activity 2: Area 5 Sockeye DNA Collection and Analysis **ESTIMATED COST:** [redacted] **Task Description:** 1. GFP will collect DNA (and have analyzed) from sockeye salmon within portions of Area 5 that are open to commercial salmon fisheries in conjunction with targeted commercial fisheries for Skeena River sockeye stocks. Typically when there are gill net openings [redacted] Gitxaala would like to determine, through DNA analysis, what the stock composition of sockeye caught during these openings is with respect to non-Skeena River sockeye. This will only be conducted in the summers of 2014 and 2015. 2. GFP will also collaborate with the local DFO Stock Assessment staff to work out methodology of this project. **Expected Results:** 1. Collection and analysis of 250-300 sockeye DNA samples taken from Area 5. 2. Increased capacity and more effective monitoring program. **Products/Reports to provide to DFO:** 3. GFP will provide DFO Stock Assessment with results of DNA analysis.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2014-2015
Key Element D / Activity 1: Gitxaala Monitoring and Enforcement **ESTIMATED COST:** [redacted] s.20(1)(c) **Task Description:** GFP will monitor marine activity throughout Gitxaala territory as this has been identified as a priority by the governing Council and community members. These activities will be led by the GFP technician who has Guardian status. A schedule of patrols will be developed to include random patrols, patrols during active commercial fisheries, and patrols during peak harvesting times for key species. Suspicious/illegal activities, violations of commercial fishery regulations, habitat violations/concerns, and other activities will be the focus of monitoring efforts. GFP will use the protocol developed in 2005 by the Gitxaala Fisheries Department (GFD) and DFO – Compliance and Enforcement staff as the basis to maintain communications, discuss possibilities of joint patrols, schedule patrols based on DFO needs and to complement DFO monitoring, and to report any violations observed by GFP staff. **Expected Results:** 1. Increased presence of GFP throughout Gitxaala area. 2. Reports of violations of the Fisheries Act and other regulations. 3. A database of key information collected during monitoring trips will be maintained – location of commercial fishing vessels and gear (legal and illegal activities), Killer Whale and Humpback Whale sightings (SARA species). **Products/Reports to provide to DFO:** 1. A summary of monitoring efforts will be provided to DFO. 2. Details of suspicious/illegal activities will be reported to local Fishery officers in a timely fashion.

2.2 Annual Work Plan for Fiscal Year 2015-2016

2.2.1 The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2015-2016
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Gitxaala Fisheries Program (GFP) Management Authority **ESTIMATED COST:** [redacted] The Gitxaala Fisheries Program (GFP oversees and carries out program development and implementation, project work planning, negotiations of the AFS Agreement, and maintains dialogue and co-management initiatives between DFO and the Organization. The GFP is responsible for catch monitoring of Gitxaala fisheries, implementing AFS field programs, monitoring other marine related activities, budgeting, planning, reporting, and data management. The GFP also assesses fisheries management plans, policies and regulations, as well as other higher level plans that affect Gitxaala's marine environment. As well, GFP seeks to support additional Fisheries related research, stock assessment programs, habitat monitoring and enhancement opportunities through the leveraging of additional funding from sources outside DFO. The GFP also manages the communal commercial fishing assess of the Organization in partnership with the Kitkatla Economic Development Corporation. The Organization in association with Gitxaala Environmental Monitoring (GEM) provides administrative support to all projects under this Agreement and aids the GFP with the financial management component of the Agreement, including the provision of office space, supplies, utilities, IT support, and storage facilities. GFP core staff is comprised of a Fisheries Biologist/ Program Manager (PM) and one full time technician who has Fishery Guardian designation. The PM co-ordinates the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016

implementation of the AFS Agreement; develops project workplans and budgets; attends meetings and workshop on behalf of the Organization; maintains a working relationship with DFO; sources out opportunities for leveraging additional funds to support other fishery related projects; reviews policy, management plans, and other DFO material for the governing Council. The GFP Technician implements AFS field programs, carries out the monitoring activities, provides reporting, assists with data management, attends fisheries related meetings and conferences within and outside of the community, and assists the Program Manager with other aspects of the AFS Agreement. The GFP Technician also coordinates and assists with the planning of commercial fishing activities of the communal commercial fishing assets of the Organization.

Task Description:

1. The Biologist/Program Manager will lead and coordinate program development, work planning, co-management initiatives, and negotiation/implementation of the AFS Agreement between DFO and the Organization.
2. The Biologist/Program Manager will work with the Gitxaala Nation Elected Band Council and Gitxaala Administration to ensure communications within the Organization are maintained.
3. GFP staff will participate in regular meetings with DFO to discuss fisheries related issues and will work to develop mutually beneficial initiatives.
4. GFP staff will participate in other Tier 1 (First Nation), Tier 2 (First Nation and DFO), and Tier 3 (First Nations and Stakeholders) meetings with other North Coast First Nations, AAROM Organizations, and other regional/provincial FN Organizations; local advisory boards and committees, Sectoral stakeholder meetings, etc.
5. The Biologist/Program Manager will pursue various partnering and leveraging opportunities, including proposal development and meetings as required.
6. Seek training opportunities to support GFP staff.
7. Production and distribution of communication material for the community.
8. GFP staff will manage communal commercial fishing assets obtained though ATP and PICFI (via NCSFNSS).

Expected Results:

1. Project budgets and operational work plans are completed and agreed to by GFP and DFO to facilitate the completion of the AFS Agreement.
2. Staff, leadership, and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of the GFP in cooperation DFO.
3. Partnering and leveraging activities that complement Agreement objectives.
4. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects.
5. Projects are carried out in accordance with the expected results, and supporting detailed operational work plans jointly developed by GFP and DFO.
6. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO. Financial reports and supporting documents are generated in a timely manner to support the GFP in meeting AFS reporting requirements.

Products/Reports to provide to DFO:

1. Reports relating to specific field activities and project work plans that are used to construct the Agreement.
2. Summaries of all meeting-related activities by GFP staff shall be provided in the semi-annual and Year End Reports, consisting of a minimum of a listing of: dates, participants, summary of meeting outcome, and travel costs.
3. Copies of any Communication materials produced.
4. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016
Agreement. s.20(1)(c)

Key Element A / Activity 2: Gitxaala Fisheries Program (GFP) Stream Inventory Program

ESTIMATED COST:

Task Description:

1. GFP will continue its stream inventory program in 2014 and 2015 to determine salmon escapements for a select group of streams within Area 5. GFP staff will work with DFO Stock Assessment and Resource Management staff to identify streams to survey, species of interest, and timing of selected salmon runs. Stream surveys will be coordinated with the appropriate DFO staff to ensure survey methodology; data recording (Stream Inspection Logs) are standard with other similar work being conducted by DFO or other groups. It is anticipated that DFO staff will assist GFP by providing some hands on training and, where possible, conduct joint stream surveys. Stream surveys will commence in mid/late August and conclude by the end of October.

Expected Results:

1. Coordination with local DFO staff on annual stream survey plan.
2. Employment for 1 part time technician (approximately 1 person month).
3. Development of technical stream survey capacity.
4. Stream Inspection Logs for each stream surveyed.

Products/Reports to provide to DFO:

1. GFP will provide DFO Stock Assessment with completed Stream Inspection Logs for each stream surveyed.

Key Element A / Activity 3: Gitxaala Fisheries Program (GFP) Dungeness Crab Survey

ESTIMATED COST:

Task Description:

GFP will continue with this project and collect data for the third and fourth year of a multi-year Dungeness Crab Survey program initiated in 2012. The goals of these years are to collect data that supports: (1) the relative abundance of Dungeness crab in commercially fished versus non commercially fished areas in Kitkatla Inlet, and (2) to further pinpoint soft-shell periods. Sites will be divided between commercially fished waters and waters that are currently closed to commercial fishing. It is anticipated that DFO staff will assist GFP by providing survey methodology and, where possible technical advice/assistance.

All data will be recorded on standard forms consistent with Dunham, J.S., Phillips, A., Morrison, J., and Jorgensen, G. 2011. A manual for Dungeness crab surveys in British Columbia. Can. Tech. Rep. Fish. Aquat. Sci. 2964: viii + 68 p.

Expected Results:

1. Employment for additional 1 technician (approximately 2 person month).
2. Development of technical survey capacity.
3. Biological data for Kitkatla Inlet Dungeness Crab.

Products/Reports to provide to DFO:

1. GFP will provide DFO with a summary report of all data collected and raw data in an MS Access database or in a format that will be accepted by DFO.

KEY ELEMENT B:	FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016	
Key Element B / Activity 1: Catch Monitoring of Gitxaala Fisheries	**ESTIMATED COST:**

s.20(1)(c)

Task Description:

1. GFP will carry out regular catch monitoring of non-commercial fishing activities conducted by Gitxaala members within Gitxaala territory. The GFP will also endeavour to interact with other First Nations to monitor, provide regulations, and collaboratively manage fishing activities conducted by non-Gitxaala members fishing within Gitxaala territory. Efforts to collect catch data will include: dockside monitoring, on-water monitoring, and phone/ in-person conversations. The GFP will maintain a database to store and archive all catch statistics for future analysis and management decisions.
2. GFP will also collaborate with local DFO Fishery Officers to maintain communications throughout key periods of the year so that DFO is informed of the status of Gitxaala Fisheries.

Expected Results:

1. Area and species specific catch will be provided to DFO Resource Management.
2. Increased capacity and more effective catch monitoring program.

Products/Reports to provide to DFO:

1. GFP will provide DFO with regular Gitxaala Fisheries Monitoring Reports.
2. A Catch Monitoring Report will be included in the Annual AFS Report.

KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Key Element D / Activity 1: Gitxaala Monitoring and Enforcement

ESTIMATED COST:

Task Description:

1. GFP will monitor marine activity throughout Gitxaala territory as this has been identified as a priority by the governing Council and community members. These activities will be led by the GFP technician who has Guardian status. A schedule of patrols will be developed to include random patrols, patrols during active commercial fisheries, and patrols during peak harvesting times for key species. Suspicious/illegal activities, violations of commercial fishery regulations, habitat violations/concerns, and other activities will be the focus of monitoring efforts. GFP will use the protocol developed in 2005 by the GFD and DFO – Compliance and Enforcement staff as the basis to maintain communications, discuss possibilities of joint patrols, schedule patrols based on DFO needs and to complement DFO monitoring, and to report any violations observed by GFP staff.

Expected Results:

1. Increased presence of GFP throughout Gitxaala area.
2. Reports of violations of the Fisheries Act and other regulations.
3. A database of key information collected during monitoring trips will be maintained – location of commercial fishing vessels and gear (legal and illegal activities), Killer Whale and Humpback Whale sightings (SARA species).

Products/Reports to provide to DFO:

1. A summary of monitoring efforts will be provided to DFO.
2. Details of suspicious/illegal activities will be reported to local Fishery officers in a timely fashion.

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Karen Kimura-Miller, Resource Manager at karen.miller@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

4. Budget

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year __2014-2015_____

☐ Original

☐ Revised as of _____

s.20(1)(c)

MONTH	$ AMOUNT Current Fiscal Year
April	[redacted]
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$117,260.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Summaries of all meeting-related activities by GFP staff shall be provided in the semi-annual and Year End Reports, consisting of a minimum of a listing of: dates, participants, summary of meeting outcome, and travel costs. 3. Copies of any Communication materials produced. 4. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.	
Activity A-2: Gitxaala Fisheries Program (GFP) Stream Inventory Program **Expected Results:** 1. Coordination with local DFO staff on annual stream survey plan. 2. Employment for 1 part time technician (approximately 1 person month). 3. Development of technical stream survey capacity. 4. Stream Inspection Logs for each stream surveyed. **Products/Reports to provide to DFO:** 1. GFP will provide DFO Stock Assessment with completed Stream Inspection Logs for each stream surveyed.	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
Activity A-3: Gitxaala Fisheries Program (GFP) Dungeness Crab Survey **Expected Results:** 1. Employment for additional 1 technician (approximately 2 person month). 2. Development of technical survey capacity. 3. Biological data for Kitkatla Inlet Dungeness Crab. **Products/Reports to provide to DFO:** 1. GFP will provide DFO with a summary report of all data collected and raw data in an MS Access database or in a format that will be accepted by DFO.	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Catch Monitoring of Gitxaala Fisheries **Expected Results:** 1. Area and species specific catch will be provided to DFO Resource Management. 2. Increased capacity and more effective catch monitoring program. **Products/Reports to provide to DFO:** 1. GFP will provide DFO with regular Gitxaala Fisheries Monitoring Reports. 2. A Catch Monitoring Report will be included in the Year End Report.	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Status * (in measurable terms)
Activity B-2: Area 5 Sockeye DNA Collection and Analysis **Expected Results:** 1. Collection and analysis of 250-300 sockeye DNA samples taken from Area 5. 2. Increased capacity and more effective monitoring program. **Products/Reports to provide to DFO:** 1. GFP will provide DFO Stock Assessment with results of DNA analysis.	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY	
Activity D-1: Gitxaala Monitoring and Enforcement **Expected Results:** 1. Increased presence of GFP throughout Gitxaala area. 2. Reports of violations of the Fisheries Act and other regulations. 3. A database of key information collected during monitoring trips will be maintained – location of commercial fishing vessels and gear (legal and illegal activities), Killer Whale and Humpback Whale sightings (SARA species). **Products/Reports to provide to DFO:** 1. A summary of monitoring efforts will be provided to DFO. 2. Details of suspicious/illegal activities will be reported to local Fishery officers in a timely fashion.	**Expected/Actual Results (annual / multi-year):** **Products/Reports: ***

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

2.1. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

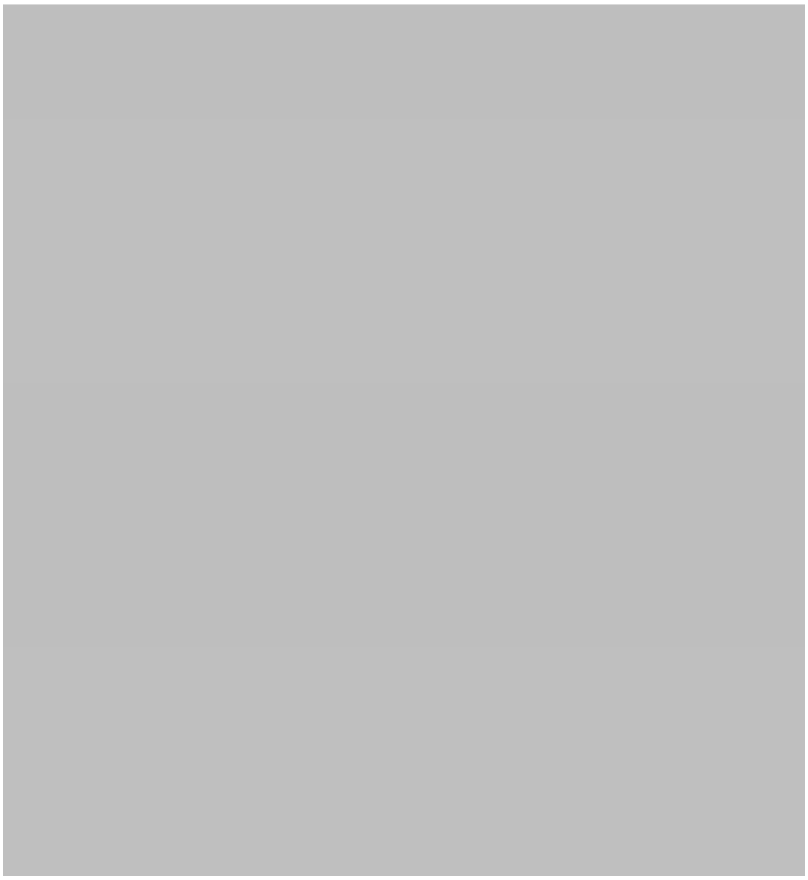
2.2. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Area Where the FSC Fishery Takes Place

s.20(1)(c)

3.1.



4. Disposition of Fish

4.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

4.2. For greater certainty, subsection 4.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

5. Designation to Fish

5.1. No individual other than a designated individual may participate in the FSC Fishery.

5.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Gitxaala Nation will serve as the Member's designation document.

5.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Karen Kimura-Miller, Resource Manager at Karen.Miller@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

5.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

5.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

5.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

6. Restrictions to, Withdrawal of or Amendment of Designations

6.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

6.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

7. Responsibilities of the Organization

7.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

7.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, DFO will provide the Organization with the renewal application(s) and instructions that the Organization must follow prior to DFO issuing any Communal Commercial Licence for the licence eligibilities set out in subsection 6.1 of this Schedule.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. The Organization will identify, on each application, the designated vessel that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, the designated vessel must hold a vessel-based licence eligibility.

2.2. DFO will issue a Communal Commercial Licence to the Organization upon receipt of an application that will, among other things, identify the vessel registration number (VRN), name of the designated vessel and the name of the licence eligibility holder and vessel owner. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.3. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.4. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.5. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel with the submission of an Application for Aboriginal Communal Commercial Eligibility Re-designation signed by an authorized signing authority of the Organization and the submission of the previously issued Communal Commercial Licence and decals.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FHS 02
	Species of Fish:	Herring
	Fishing gear type:	Seine
	Contribution for Use:	
	Contribution to Activities:

Contribution for Use:	
Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. **Responsibilities of the Organization**

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Clarence Nelson	Fisheries Officer	250-627-3419

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval.*

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 9 day of September, 20 16
(Date of signing by DFO's authorized representative/to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITXAALA NATION, also known as Kitkatla Indian Band, and the Gitxaala Indian Band (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 16
Schedule 5	Activities	Page 18
Schedule 6	Cash Flow Projection of Eligible Costs	Page 25
Schedule 7	Progress Report / Year End Report	Page 26
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 32
Schedule B	Communal Commercial Fisheries Access	Page 35
Schedule C	Aboriginal Fishery Guardians	Page 38
Schedule D	Monitoring and Enforcement Protocol	Page 41

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND SIXTEEN THOUSAND, SIX HUNDRED AND SEVENTEEN DOLLARS ($116,617.00) in Fiscal Year 2016-2017 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted] in Fiscal Year 2016-2017, which results from commercial opportunities described in Schedule B.

s.20(1)(c)

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2017.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Gitxaala Nation
P.O. Box 149
11 Ocean Drive
Kitkatla, BC
V0V 1C0

Attention: Clifford White, Chief Councilor

Telephone: (250) 848-2214
Facsimile: (250) 848-2238

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2016, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2016, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

a) travel and related expenses for contracted professional service providers or other non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2016-2017

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for 2016/2017
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Gitxaala Fisheries Program (GFP) Management Authority **ESTIMATED COST**
The Gitxaala Fisheries Program (GFP) oversees and carries out program development and implementation, project work planning, negotiations of the AFS Agreement, and maintains dialogue and co-management initiatives between DFO and the Organization. The GFP is responsible for catch monitoring of Gitxaala fisheries, implementing AFS field programs, monitoring other marine related activities, budgeting, planning, reporting, and data management. The GFP also assesses fisheries management plans, policies and regulations, as well as other higher level plans that affect Gitxaala's marine environment. As well, GFP seeks to support additional Fisheries related research, stock assessment programs, habitat monitoring and enhancement opportunities through the leveraging of additional funding from sources outside DFO. The GFP also manages the communal commercial fishing assess of the Organization in partnership with the Kitkatla Economic Development Corporation. The Organization in association with Gitxaala Environmental Monitoring (GEM) provides administrative support to all projects under this Agreement and aids the GFP with the financial management component of the Agreement, including the provision of office space, supplies, utilities, IT support, and storage facilities. GFP core staff is comprised of a Fisheries Biologist/ Program Manager (PM) and two full time technicians, one of which has Fishery Guardian designation. The PM co-ordinates the implementation of the AFS Agreement; develops project workplans and budgets; attends meetings and workshop on behalf of the Organization; maintains a working relationship with DFO; sources out opportunities for leveraging additional funds to support other fishery related projects; reviews policy, management plans, and other DFO material for the governing Council. GFP technicians implement AFS field programs, carry out the monitoring activities, provides reporting, assists with data management, attends fisheries related meetings and conferences within and outside of the community, and assists the Program Manager with other aspects of the AFS Agreement. GFP technicians also coordinate and assist with the planning of commercial fishing activities of the communal commercial fishing assets of the Organization. **Task Description:** 1. Taking direction from the elected band Council, the Biologist/Program Manager will lead and coordinate program development, work planning, co-management initiatives, and negotiation/implementation of the AFS agreement between DFO and the Organization. 2. GFP staff will participate in regular meetings with DFO to discuss fisheries related issues and will work to develop mutually beneficial initiatives. 3. GFP staff will participate in other Tier I, Tier II, and Tier III meetings with other North

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for 2016/2017

Coast First Nations, AAROM organizations, and other regional/provincial FN organizations; local advisory boards and committees, Sectoral stakeholder meetings, etc.

4. The Biologist/Program Manager will pursue various partnering and leveraging opportunities, including proposal development and meetings as required.
5. Seek training opportunities to support GFP staff.
6. Production and distribution of communication material for the community.
7. GFP staff will manage communal commercial fishing assets obtained though ATP and PICFI (via NCSFNSS)
8. The Organization will work with DFO staff on the evaluation of the FSC Fishery through the Strategic Framework for Fishery Monitoring and Catch Reporting in the Pacific Fisheries.

Expected Results:

1. Project budgets and operational work plans are completed and agreed to by GFP and DFO to facilitate the completion of the AFS Agreement.
2. Staff, leadership, and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of the GFP in cooperation with DFO.
3. Partnering and leveraging activities that complement Agreement objectives.
4. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects.
5. Projects are carried out in accordance with the expected results, and supporting detailed operational work plans jointly developed by GFP and DFO.
6. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO. Financial reports and supporting documents are generated in a timely manner to support the GFP in meeting AFS reporting requirements.
7. The Strategic Framework Catch Monitoring Risk Assessment for the FSC Fishery will be completed.

Products/Reports to provide to DFO:

1. Reports relating to specific field activities and project work plans that are used to construct the Agreement.
2. Summaries of all meeting-related activities by GFP staff shall be provided in the Mid-Year and Final Reports, consisting of a minimum of a listing of: dates, participants, summary of meeting outcome, and travel costs.
3. Copies of any Communication materials produced.
4. A list of Risk Assessment review meetings including date, and who attended will be submitted in the Year End Report.
5. A status update of the Risk Assessment will be provided in the Year End Report including the progress made and the next steps that will be taken.
6. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for 2016/2017

Key Element A / Activity 2: GFP Stream Inventory Program

ESTIMATED COST [redacted]

Task Description:

The GFP will continue its stream inventory program in 2016 to determine salmon escapements for a select group of streams within Area 5. The GFP staff will work with Prince Rupert DFO Stock Assessment and Resource Management staff to identify streams to survey, species of interest, and timing of selected salmon runs. Stream surveys will be coordinated with the appropriate DFO staff to ensure survey methodology; data recording (Stream Inspection Logs) are standard with other similar work being conducted by DFO or other groups. Stream surveys will commence in mid/late August and conclude by the end of October.

Expected Results:

1. Employment for 1 part time technician (approximately 1 person month).
2. Development of technical capacity to conduct stream surveys.
3. Stream Inspection Logs for each stream surveyed.

Products/Reports to provide to DFO:

1. The GFP will provide DFO Stock Assessment in Prince Rupert with complete Stream Inspection Logs for each stream surveyed.

Key Element A / Activity 3: GFP Dungeness Crab Survey

ESTIMATED COST [redacted]

Task Description:

The GFP will continue to conduct the Dungeness crab survey and collect data for this initiative (started in 2012). The goals of this project are: (1) to determine the relative abundance of Dungeness crab in commercially fished areas versus non-commercially fished areas in Kitkatla Inlet, and (2) to determine soft-shell periods. Sites will be divided between commercially fished waters and waters that are currently closed to commercial fishing. It is anticipated that DFO staff will assist the GFP by providing survey methodology and, where possible technical advice/assistance.

Expected Results:

1. Employment for additional 1 technician (approximately 2 person months).
2. Development of technical capacity to conduct crab surveys.
3. Biological data for Kitkatla Inlet Dungeness Crab.

Products/Reports to provide to DFO:

1. The GFP will provide DFO with a summary report of all data collected with the Year End Report and to the Prince Rupert DFO crab manager.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Catch Monitoring of Gitxaala Fisheries

ESTIMATED COST [redacted]

Task Description:

The GFP will carry out regular catch monitoring of FSC fishing activities conducted by Gitxaala members within Gitxaala asserted territory. The GFP will also communicate with other First Nations to monitor, provide regulations, and collaboratively manage fishing activities conducted by non Gitxaala members fishing within Gitxaala asserted territory. Efforts to collect catch data will include: dockside monitoring, on-water monitoring, and phone/ in-person conversations. The GFP will maintain a database to store and archive all catch statistics for future analysis and management decisions. The GFP will also install and use the Aboriginal Harvest Management System (AHMS) database to determine if it meets the catch recording and data management for the GFP FSC fisheries.

The GFP will also collaborate with local DFO Fishery Officers to maintain communications throughout key periods of the year so that DFO is informed of the status of Gitxaala Fisheries.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for 2016/2017
Expected Results: 1. Area and species specific catch will be provided to DFO Resource Management in Prince Rupert. 2. Increased catch monitoring capacity and more effective catch monitoring program. 3. Install and use the AHMS database. **Products/Reports to provide to DFO:** 1. The GFP will provide DFO with weekly in-season Gitxaala Fisheries Monitoring Reports. 2. A Catch Monitoring Report will be included in the Year End Report.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY
Key Element D / Activity 1: Gitxaala Monitoring and Enforcement **ESTIMATED COST** **Task Description:** The GFP will monitor marine activity throughout Gitxaala asserted territory as this has been identified as a priority by the governing Council and community members. A schedule of patrols will be developed to include random patrols, patrols during active commercial fisheries, and patrols during peak harvesting times for key species. Suspicious/illegal activities, violations of commercial fishery regulations, habitat violations/concerns, and other activities will be the focus of monitoring efforts. The GFP will use the protocol developed in 2005 by the Gitxaala Fisheries Department and DFO – Compliance and Enforcement staff as the basis to maintain communications, discuss possibilities of joint patrols, schedule patrols based on DFO needs and to complement DFO monitoring, and to report any violations to C&P staff in Prince Rupert or the Observe, Record and Report line observed by GFP staff. **Expected Results:** 1. Increased presence of GFP throughout Gitxaala asserted territory. 2. Reports of violations of the Fisheries Act and other regulations. 3. A database of key information collected during monitoring trips will be maintained – location of commercial fishing vessels and gear (legal and illegal activities), Killer Whale and Humpback Whale sightings (SARA species). **Products/Reports to provide to DFO:** 1. A summary of monitoring efforts will be provided to DFO in the Year End Report. 2. Details of suspicious/illegal activities will be reported to local Fishery officers as soon as possible.

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, A/Aboriginal Affairs Advisor at amy.wakelin@dfo-mpo.gc.ca or DFO.NCAP-PACN.MPO@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$116,617.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

2.1. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

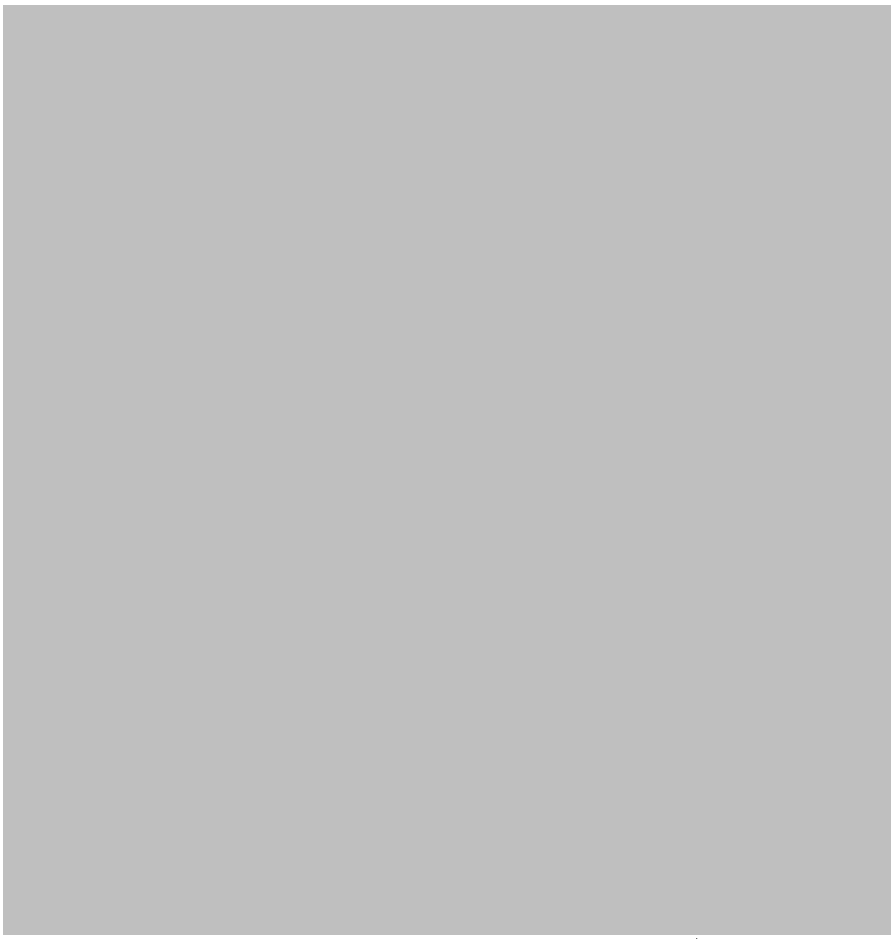
2.2. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

3. Area Where the FSC Fishery Takes Place

3.1.



4. Disposition of Fish

4.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

4.2. For greater certainty, subsection 4.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

5. Designation to Fish

5.1. No individual other than a designated individual may participate in the FSC Fishery.

5.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Gitxaala Nation will serve as the Member's designation document.

5.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Amy Wakelin, A/Aboriginal Affairs Advisor at amy.wakelin@dfo-mpo.gc.ca or DFO.NCAP-PACN.MPO@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

5.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

5.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

5.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

6. Restrictions to, Withdrawal of or Amendment of Designations

6.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

6.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

7. Responsibilities of the Organization

7.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

7.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, the Organization must renew the Communal Commercial Licence(s) set out in subsection 6 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, the Organization will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6. The Organization may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7. The Organization may designate in writing all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Organization will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2. Where the Organization makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

	Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where s.19(1) prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Clarence Nelson	Fisheries Officer	250-627-3419

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

AFS2017-MLT-1709-0
Gitxaala Nation
April 1, 2017 to March 31, 2019

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 25 day of October, 2017
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

GITXAALA NATION, also known as Kitkatla Indian Band, and the Gitxaala Indian Band (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

support the Organization in carrying out the Activities.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 28
Schedule 7	Progress Report / Year End Report	Page 29
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 35
Schedule B	Communal Commercial Fisheries Access	Page 38
Schedule C	Aboriginal Fishery Guardians	Page 41
Schedule D	Monitoring and Enforcement Protocol	Page 44

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND SIXTEEN THOUSAND, FOUR HUNDRED AND SIX DOLLARS ($116,406.00) in

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Fiscal Year 2017-2018 an amount of up to ONE HUNDRED AND SIXTEEN THOUSAND, FOUR HUNDRED AND SIX DOLLARS ($116,406.00) in Fiscal Year 2018-2019 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

s.20(1)(c) 6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted] in Fiscal Year 2017-2018, and [redacted] in Fiscal Year 2018-2019 which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2019.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:
Gitxaala Nation
P.O. Box 149
11 Ocean Drive
Kitkatla, BC
V0V 1C0

Attention:	Clifford White, Chief Councilor
Telephone:	(250) 848-2214
Facsimile:	(250) 848-2238

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2017-2018 and 2018-2019.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2017, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2017, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Multi-year Work Plan

1.1.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities	
Fiscal Year 2017-2018	**Fiscal Year 2018-2019**
$127,400.00	$127,400.00

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Description: The Gitxaala Fisheries Program (GFP) oversees and carries out program development and implementation, project work planning, negotiations of the AFS Agreement, and maintains dialogue and co-management initiatives between DFO and the Organization. GFP is responsible for catch monitoring of Gitxaala fisheries, implementing AFS field programs, monitoring other marine related activities, budgeting, planning, reporting, and data management. GFP also assesses fisheries management plans, policies and regulations, as well as other higher level plans that affect Gitxaala's marine environment. As well, GFP seeks to support additional Fisheries related research, stock assessment programs, habitat monitoring and enhancement opportunities through the leveraging of additional funding from sources outside DFO. GFP also manages the communal commercial fishing assess of the Organization in partnership with the Kitkatla Economic Development Corporation. The Organization in association with Gitxaala Environmental Monitoring (GEM) provides administrative support to all projects under this Agreement and aids the GFP with the financial management component of the Agreement, including the provision of office space, supplies, utilities, IT support, and storage facilities. GFP core staff is comprised of a Fisheries Biologist/ Program Manager (PM) and two full time technicians, one of which has Fishery Guardian designation. The PM co-ordinates the implementation of the AFS Agreement; develops project workplans and budgets; attends meetings and workshop on behalf of the Organization; maintains a working relationship with DFO; sources out opportunities for leveraging additional funds to support other fishery related projects; reviews policy, management plans, and other DFO material for the governing Council. GFP technicians implement AFS field programs, carry out the monitoring activities, provides reporting, assists with data management, attends fisheries related meetings and conferences within and outside of the community, and assists the Program Manager with other aspects of the AFS Agreement. GFP technicians also coordinate and assist with the planning of commercial fishing activities of the communal commercial fishing assets of the Organization. GFP will continue its stream inventory program to determine salmon escapements for a select group of streams within Area 5. GFP staff will work with Prince Rupert DFO Stock Assessment and Resource Management staff to identify streams to survey, species of interest, and timing of selected salmon runs. GFP will continue to conduct the Dungeness crab survey and collect data for this initiative (started in 2012). The goals of this project are: (1) to determine the relative abundance of Dungeness crab in commercially fished areas versus non-commercially fished areas in

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
Kitkatla Inlet, and (2) to determine soft-shell periods. **Expected Results:** 1. Project budgets and operational work plans are completed and agreed to by GFP and DFO to facilitate the completion of the AFS Agreement. 2. Staff, leadership, and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of the GFP in cooperation with DFO. 3. Partnering and leveraging activities that complement Agreement objectives. 4. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects. 5. Projects are carried out in accordance with the expected results, and supporting detailed operational work plans jointly developed by GFP and DFO. 6. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO. Financial reports and supporting documents are generated in a timely manner to support the GFP in meeting AFS reporting requirements. 7. Continue to conduct stream surveys. 8. Stream Inspection Logs for each stream surveyed. 9. Continue to conduct crab surveys. 10. Biological data for Kitkatla Inlet Dungeness Crab.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: GFP will carry out regular catch monitoring of FSC fishing activities conducted by Gitxaala members within Gitxaala asserted territory. GFP will also communicate with other First Nations to monitor, provide regulations, and collaboratively manage fishing activities conducted by non Gitxaala members fishing within Gitxaala asserted territory. **Expected Results:** 1. Area and species specific catch will be provided to DFO Resource Management. 2. Increased catch monitoring capacity and more effective catch monitoring program. 3. Use the AHMS database for catch recording and FSC catch management.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY
Description: GFP will monitor marine activity throughout Gitxaala asserted territory. GFP will use the protocol developed in 2005 by the Gitxaala Fisheries Department and DFO – Compliance and Enforcement staff as the basis to maintain communications, discuss possibilities of joint patrols, schedule patrols based on DFO needs and to complement DFO monitoring, and to report any violations to C&P staff in Prince Rupert or the Observe, Record and Report line observed by GFP staff. **Expected Results:** 1. Increased presence of GFP throughout Gitxaala asserted territory. 2. Reports of violations of the Fisheries Act and other regulations. 3. A database of key information collected during monitoring trips will be maintained – location of commercial fishing vessels and gear (legal and illegal activities), Killer Whale and Humpback Whale sightings (SARA species).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

s.20(1)(c) **3.1. Annual Work Plan for Fiscal Year 2017-2018**

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2017-2018
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Gitxaala Fisheries Program (GFP) Management Authority **ESTIMATED COST**
The Gitxaala Fisheries Program (GFP) oversees and carries out program development and implementation, project work planning, negotiations of the AFS Agreement, and maintains dialogue and co-management initiatives between DFO and the Organization. GFP is responsible for catch monitoring of Gitxaala fisheries, implementing AFS field programs, monitoring other marine related activities, budgeting, planning, reporting, and data management. GFP also assesses fisheries management plans, policies and regulations, as well as other higher level plans that affect Gitxaala's marine environment. As well, GFP seeks to support additional Fisheries related research, stock assessment programs, habitat monitoring and enhancement opportunities through the leveraging of additional funding from sources outside DFO. GFP also manages the communal commercial fishing assess of the Organization in partnership with the Kitkatla Economic Development Corporation. The Organization in association with Gitxaala Environmental Monitoring (GEM) provides administrative support to all projects under this Agreement and aids the GFP with the financial management component of the Agreement, including the provision of office space, supplies, utilities, IT support, and storage facilities. GFP core staff is comprised of a Fisheries Biologist/ Program Manager (PM) and two full time technicians, one of which has Fishery Guardian designation. The PM co-ordinates the implementation of the AFS Agreement; develops project workplans and budgets; attends meetings and workshop on behalf of the Organization; maintains a working relationship with DFO; sources out opportunities for leveraging additional funds to support other fishery related projects; reviews policy, management plans, and other DFO material for the governing Council. GFP technicians implement AFS field programs, carry out the monitoring activities, provides reporting, assists with data management, attends fisheries related meetings and conferences within and outside of the community, and assists the Program Manager with other aspects of the AFS Agreement. GFP technicians also coordinate and assist with the planning of commercial fishing activities of the communal commercial fishing assets of the Organization. **Task Description:** 1. Taking direction from the elected Band Council, the Biologist/Program Manager will lead and coordinate program development, work planning, co-management initiatives, and negotiation/implementation of the AFS agreement between DFO and the Organization. 2. GFP staff will participate in regular meetings with DFO to discuss fisheries related issues and will work to develop mutually beneficial initiatives. 3. GFP staff will participate in other Tier I, Tier II, and Tier III meetings with other North Coast First Nations, AAROM organizations, and other regional/provincial FN organizations; local advisory boards and committees, Sectoral stakeholder meetings, etc. 4. The Biologist/Program Manager will pursue various partnering and leveraging

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

Annual Work Plan for Fiscal Year 2017-2018

opportunities, including proposal development and meetings as required.

5. Seek training opportunities to support GFP staff.
6. Production and distribution of communication material for the community.
7. GFP staff will manage communal commercial fishing assets obtained though ATP and PICFI (via NCSFNSS)
8. The Organization will work with DFO staff on the evaluation of the FSC Fishery through the Strategic Framework for Fishery Monitoring and Catch Reporting in the Pacific Fisheries.

Expected Results:

1. Project budgets and operational work plans are completed and agreed to by GFP and DFO to facilitate the completion of the AFS Agreement.
2. Staff, leadership, and community participate in technical and management process, provide input into fisheries management and coordinate the scientific/technical direction of the GFP in cooperation with DFO.
3. Partnering and leveraging activities that complement Agreement objectives.
4. Employees are supported to maintain required and relevant training to work safely and effectively on fisheries projects.
5. Projects are carried out in accordance with the expected results, and supporting detailed operational work plans jointly developed by GFP and DFO.
6. Financial records are maintained and reporting is completed in a timely manner and communication is maintained with the DFO. Financial reports and supporting documents are generated in a timely manner to support the GFP in meeting AFS reporting requirements.
7. The Strategic Framework Catch Monitoring Risk Assessment for the FSC Fishery will be started.

Products/Reports to provide to DFO:

1. Reports relating to specific field activities and project work plans that are used to construct the Agreement.
2. Summaries of all meeting-related activities by GFP staff shall be provided in the mid-Year and Final Reports, consisting of a minimum of a listing of: dates, participants, summary of meeting outcome, and travel costs.
3. Copies of any Communication materials produced.
4. A list of Risk Assessment review meetings including date, and who attended will be submitted in the Year End Report.
5. A status update of the Risk Assessment will be provided in the Year End Report including the progress made and the next steps that will be taken.
6. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial or other) requested by DFO in relation to the Agreement.

Key Element A / Activity 2: GFP Stream Inventory Program

ESTIMATED COST

Task Description:

GFP will continue its stream inventory program to determine salmon escapements for a select group of streams within Area 5. GFP staff will work with Prince Rupert DFO Stock Assessment and Resource Management staff to identify streams to survey, species of interest, and timing of selected salmon runs. Stream surveys will be coordinated with the appropriate DFO staff to ensure survey methodology; data recording (Stream Inspection Logs) are standard with other similar work being conducted by DFO or other groups. Stream surveys will commence in mid/late August and conclude by the end of October.

Expected Results:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2017-2018
1. Employment for 1 part time technician (approximately 1 person month). 2. Development of technical capacity to conduct stream surveys. 3. Stream Inspection Logs for each stream surveyed. **Products/Reports to provide to DFO:** 1. GFP will provide DFO Stock Assessment in Prince Rupert with complete Stream Inspection Logs for each stream surveyed.
Key Element A / Activity 3: GFP Dungeness Crab Survey **ESTIMATED COST** **Task Description:** GFP will continue to conduct the Dungeness crab survey and collect data for this initiative (started in 2012). The goals of this project are: (1) to determine the relative abundance of Dungeness crab in commercially fished areas versus non-commercially fished areas in Kitkatla Inlet, and (2) to determine soft-shell periods. Sites will be divided between commercially fished waters and waters that are currently closed to commercial fishing. It is anticipated that DFO staff will assist the GFP by providing survey methodology and, where possible technical advice/assistance. In 2017/18 GFP, in discussions with DFO, will explore potential of developing a more comprehensive crab management plan for Kitkatla Inlet, including management objectives. **Expected Results**: 1. Employment for additional 1 technician (approximately 2 person months). 2. Biological data for Kitkatla Inlet Dungeness Crab. 3. Framework for a draft crab management plan. **Products/Reports to provide to DFO:** 1. GFP will provide DFO with a summary report of all data collected with the Year End Report and to the Prince Rupert DFO crab manager. 2. List of meetings to discuss draft management plan.
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Key Element B / Activity 1: Catch Monitoring of Gitxaala Fisheries **ESTIMATED COST** **Task Description:** GFP will carry out regular catch monitoring of FSC fishing activities conducted by Gitxaala members within Gitxaala asserted territory. GFP will also communicate with other First Nations to monitor, provide regulations, and collaboratively manage fishing activities conducted by non Gitxaala members fishing within Gitxaala asserted territory. Efforts to collect catch data will include: dockside monitoring, on-water monitoring, and phone/ in-person conversations. GFP will maintain a database to store and archive all catch statistics for future analysis and management decisions. GFP will also install and use the Aboriginal Harvest Management System (AHMS) database to determine if it meets the catch recording and data management for the GFP FSC fisheries. GFP will also collaborate with local DFO Fishery Officers to maintain communications throughout key periods of the year so that DFO is informed of the status of Gitxaala Fisheries. **Expected Results**: 1. Area and species specific catch will be provided to DFO Resource Management in Prince Rupert. 2. Increased catch monitoring capacity and more effective catch monitoring program. 3. Use the AHMS database for catch reporting **Products/Reports to provide to DFO:** 1. GFP will provide DFO with weekly in-season Gitxaala Fisheries Monitoring Reports. 2. A Catch Monitoring Report will be included in the Year End Report.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2017-2018	
KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Key Element D / Activity 1: Gitxaala Monitoring and Enforcement

ESTIMATED COST

Task Description:

GFP will monitor marine activity throughout Gitxaala asserted territory as this has been identified as a priority by the governing Council and community members. A schedule of patrols will be developed to include random patrols, patrols during active commercial fisheries, and patrols during peak harvesting times for key species. Suspicious/illegal activities, violations of commercial fishery regulations, habitat violations/concerns, and other activities will be the focus of monitoring efforts. GFP will use the protocol developed in 2005 by the Gitxaala Fisheries Department and DFO – Compliance and Enforcement staff as the basis to maintain communications, discuss possibilities of joint patrols, schedule patrols based on DFO needs and to complement DFO monitoring, and to report any violations to C&P staff in Prince Rupert or the Observe, Record and Report line observed by GFP staff.

Expected Results:

1. Increased presence of GFP throughout Gitxaala asserted territory.
2. Reports of violations of the Fisheries Act and other regulations.
3. A database of key information collected during monitoring trips will be maintained – location of commercial fishing vessels and gear (legal and illegal activities), Killer Whale and Humpback Whale sightings (SARA species).

Products/Reports to provide to DFO:

1. A summary of monitoring efforts will be provided to DFO in the Year End Report.
2. Details of suspicious/illegal activities will be reported to local Fishery officers as soon as possible.

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, A/Aboriginal Affairs Advisor at amy.wakelin@dfo-mpo.gc.ca or DFO.NCAP-PACN.MPO@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$116,406.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

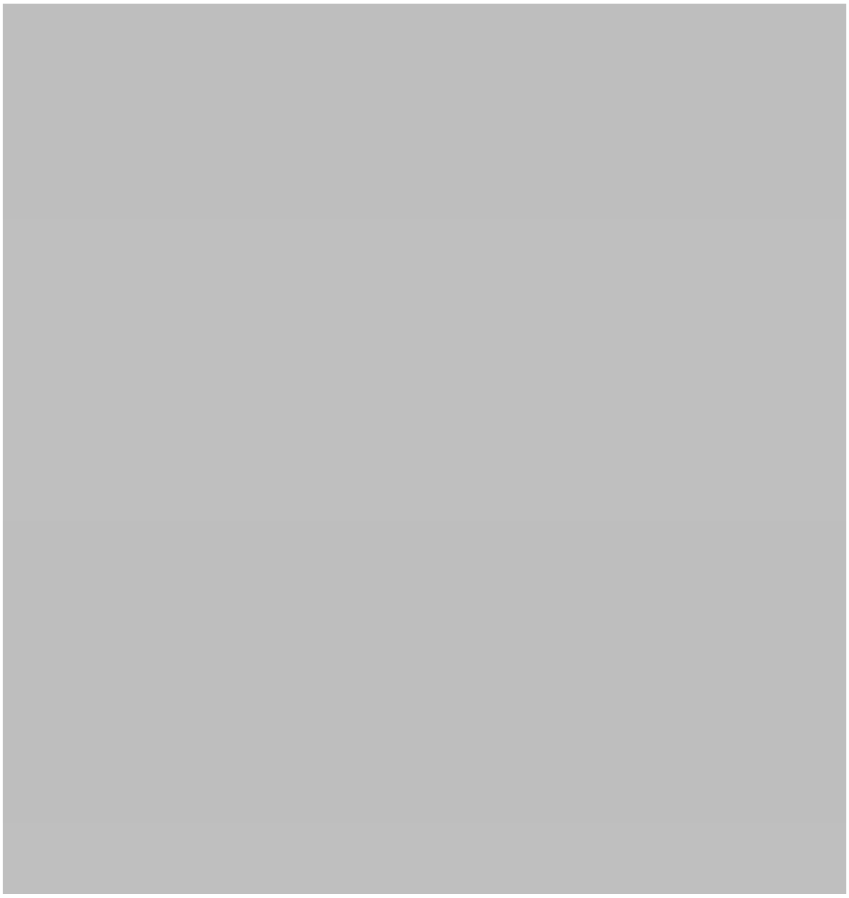
2.1. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.2. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Area Where the FSC Fishery Takes Place

3.1.



4. Disposition of Fish

4.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

4.2. For greater certainty, subsection 4.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

5. Designation to Fish

5.1. No individual other than a designated individual may participate in the FSC Fishery.

5.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Gitxaala Nation will serve as the Member's designation document.

5.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Amy Wakelin, A/Aboriginal Affairs Advisor at amy.wakelin@dfo-mpo.gc.ca or DFO.NCAP-PACN.MPO@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

5.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

5.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

5.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

6. Restrictions to, Withdrawal of or Amendment of Designations

6.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

6.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

7. Responsibilities of the Organization

7.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

7.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, the Organization must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, the Organization will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6. The Organization may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7. The Organization may designate in writing all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Organization will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2. Where the Organization makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

s.19(1)

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Patricia Demille	Detachment Supervisor	250-627-3419

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 27 day of October, 20 15
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

KITSELAS INDIAN BAND, also known as Kitselas First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

2. Interpretation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 25
Schedule 7	Progress Report / Year End Report	Page 26
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 32
Schedule B	Communal Commercial Fisheries Access	Page 35

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

s.20(1)(c)

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND TWENTY-ONE THOUSAND, THREE HUNDRED AND FIFTY-SEVEN DOLLARS ($121,357.00) in Fiscal Year 2015-2016 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted] in Fiscal Year 2015-2016, which results from commercial opportunities described in Schedule B.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2016.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:
Kitselas First Nation
1581 Kulspai Crescent
Terrace, BC

Telephone: (778) 634-3517
Facsimile: (778) 634-3796
Email: [redacted]

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-363-1647
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act, 2012*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act, 2012* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act, 2012*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2015, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2015, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. In addition to the Progress Report referred to in subsection 3.2.1, the Organization will submit a financial summary in the form set out in Section 1 of Schedule 7 following the first and third quarters of each Fiscal Year covered by this Agreement.

3.2.3. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit:
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other non-employees

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2015-2016

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2015-2016
s.20(1)(c) KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Kitselas Lands and Resource Department - Maintaining a Fisheries Authority

ESTIMATED COST: [redacted]

Task Description:

Project Management and Reporting:

1. A Registered Professional Biologist (RPBio) [redacted] will work with the Kitselas Fisheries Program to continue development and review of a report on vision strategies and progress.
2. Retain staff including a Resource Department Manager, Resource Department Lead and two technicians and seasonal catch monitors.
3. Development of activities, management procedures and reporting protocols will be maintained to ensure Activities undertaken as part of this and future funding Agreements are documented according to the requirements of this Agreement.
4. Chief and Council support and infrastructure are in place to maintain participation in resource management activities.
5. The Organizations Lands and Resource Department Lead, two technicians and eight season monitors will receive formal training from an accredited training organization. Training will include jet boat operation, electroshocking, swift water rescue, radio operator certificate and first aid/transportation endorsement.
6. Fisheries related meetings in Prince Rupert with other First Nations (AAROM body North Coast Skeena Fisheries Stewardship Society (NCSFSS)) and/or any DFO related meetings will be attended by Kitselas fisheries staff members.
7. Community meetings will be held to update the community on fisheries related issues.
8. A desktop analysis of streams potentially affected by LNG pipelines will be completed and a field inspection will be performed to determine potential for further stream walks.
9. The Resource Manager, two Resource Coordinators and Field Technicians will complete a visit of DFO's test fishery with David Peacock, DFO Stock Assessment.

Expected Results:

1. To have a negotiated Agreement in place to help the Organization continue with the fisheries program.
2. To ensure that management structures, systems and processes are in place for the AFS program activities to be implemented and reported on, including expenditures.
3. To ensure management structures and reporting protocols are in place to enable the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.19(1)

s.20(1)(c)

Annual Work Plan for Fiscal Year 2015-2016

transition from consultant support in 2016-2017.

4. All resource field staff will be trained to carry out Agreement Activities safely.

Products/Reports to provide to DFO:

1. A signed and implemented AFS Agreement.
2. A list of meetings attended (community, DFO, NCSFSS, etc.) including meeting purpose, date, location and number of staff will be provided in the Year End Report.
3. Quarterly financial, Progress and Year End Reports (including narratives and financials) will be submitted within the prescribed timeframe outlining the Activities and actual expenditures for all Activities in the reporting period.
4. A copy of work descriptions and job postings will be provided in the Year End Report.
5. A list of training courses, number of attendees and copies of training certificates will be provided in the Year End Report.
6. An overview of the desktop analysis of streams potentially affected by LNG pipelines will be complete and provided in the Year End Report.
7. A report detailing stream walks will be provided to DFO Stock Assessment in Prince Rupert by [redacted] Kitselas Fisheries by June 30, 2016.

Key Element A / Activity 2: Stream Walk Spawner Assessments

ESTIMATED COST: [redacted]

Following meetings with DFO, several watercourses have been identified by DFO and Kitselas as important for spawning salmon. These watercourses include: Christ Creek, Williams Creek, Scully Creek, Lower Kleanza River, Dasque Creek, Middle Creek, and Clearwater Creek.

Task Description:

1. Fisheries technicians will monitor the dates and approximate number of spawning salmon.
2. Five 7 hour days are planned in September for crews to assess the run on all creeks-.
3. Summary field reports and a technical report of the spawner assessment will be completed.

Expected Results:

1. Summary field and technical reports outlining details of spawning salmon will be produced for use by Kitselas and DFO in the collaborative management of salmon stock and post-season run reconstruction.

Products/Reports to provide to DFO:

1. A technical report regarding the spawner assessment will be provided to DFO Stock Assessment upon completion of the assessments and before June 30, 2015.

Key Element A / Activity 3: Effort Count on Copper River

ESTIMATED COST: [redacted]

Task Description:

1. Kitselas Fisheries will perform an effort count on the Copper River for recreational fishers. The count will be performed for two weeks during July, for approximately 3 or 4 days per week.
2. A report will be compiled to provide to DFO.

Expected Results:

1. To obtain accurate and timely data on count of effort on Copper River.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

Annual Work Plan for Fiscal Year 2015-2016
Products/Reports to provide to DFO: 1. A report on Copper River effort count will be compiled and provided to DFO Stock Assessment when complete and to the Resource Manager in the Year End Report.
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Key Element B / Activity 1: Catch Monitoring and Reporting **ESTIMATED COST:** **Task Description:** 1. The Resource Department Lead will plan, facilitate, coordinate and report on the catch monitoring program for the Food, Social and Ceremonial (FSC) fishery. This will include approximately ninety-six (96) 7 hour field days for the monitoring crew of 2-3 people. Monitoring will primarily occur during June, July and August, with reduced monitoring in September and October, pending fishing activity. 2. Program overview, budgeting, information management, financial tracking and reporting will be conducted by and Kitselas fisheries staff. 3. Professional services will be provided to assist in the continued refinement of the catch monitoring program and data compilation. **Expected Results**: 1. The FSC Fishery will be will be managed within the allocations provided for in the Agreement and communal licence. 2. To obtain accurate and timely catch monitoring and reporting of numbers of the FSC harvest across all species. **Products/Reports to provide to DFO:** 1. A summary of FSC harvest activities across all species will be provided in the Year End Report. 2. FSC catch information will be provided to DFO Resource Management in Prince Rupert by March 31, 2016, with interim data being provided weekly from July 1 to September 30, 2015.
Key Element B / Activity 2: Eulachon Catch Monitoring Program **ESTIMATED COST:** **Task Description:** 1. The eulachon run in the Skeena River will be monitored by two staff for approximately 20 days from late February to the end of March. 2. Two Field Technicians and a Resource Coordinator will be involved with the eulachon monitoring program and will travel by truck and boat to monitoring sites. 3. The study will be overseen by North Coast Skeena First Nation Stewardship Society and be conducted in conjunction with other local First Nations. **Expected Results**: 1. To obtain accurate and timely catch monitoring and reporting of numbers of eulachon in the Skeena River. 2. To build capacity in the Kitselas Fisheries Department by providing experience to field technicians. **Products/Reports to provide to DFO:** 1. A report prepared by NCSFNSS will be submitted with the Year End Report.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Movement of Funds

s.20(1)(c)

3.1.1. For funding increases or decreases between DFO Eligible Costs categories, the Organization will submit a request in writing to Amy Wakelin (amy.wakelin@dfo-mpo.gc.ca). The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

4. Budget

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$121,357.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Section 2 –Products/Reports and Actual Results

Activities (from section 2 of Schedule 5)	**Progress or Year-End/Final Report on Status (in measurable terms)**
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Kitselas Lands and Resource Department - Maintaining a Fisheries Authority **Expected Results:** 1. To have a negotiated Agreement in place to help the Organization continue with the fisheries program.	**Actual Results in Narrative Format (enter text):**
2. To ensure that management structures, systems and processes are in place for the AFS program activities to be implemented and reported on, including expenditures.	**Actual Results in Narrative Format (enter text):**
3. To ensure management structures and reporting protocols are in place to enable the transition from consultant support in 2016-2017.	**Actual Results in Narrative Format (enter text):**
4. All resource field staff will be trained to carry out Agreement Activities safely.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A signed and implemented AFS Agreement.	**Products/Reports:**
2. A list of meetings attended (community, DFO, NCSFSS, etc.) including meeting purpose, date, location and number of staff will be provided in the Year End Report.	**Products/Reports:**
3. Quarterly financial, Progress and Year End Reports (including narratives and financials) will be submitted within the prescribed timeframe outlining the Activities and actual expenditures for all Activities in the reporting period.	**Products/Reports:**
4. A copy of work descriptions and job postings will be provided in the Year End Report.	**Products/Reports:**
5. A list of training courses, number of attendees and copies of training certificates will be provided in the Year End Report.	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
6. An overview of the desktop analysis of streams potentially affected by LNG pipelines will be complete and provided in the Year End Report.	**Products/Reports:**
7. A report detailing stream walks will be provided to DFO Stock Assessment in Prince Rupert by [redacted] Kitselas Fisheries by June 30, 2016.	**Products/Reports:**
Activity A-2: Stream Walk Spawner Assessments **Expected Results:** 1. Summary field and technical reports outlining details of spawning salmon will be produced for use by Kitselas and DFO in the collaborative management of salmon stock and post-season run reconstruction.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A technical report regarding the spawner assessment will be provided to DFO Stock Assessment upon completion of the assessments and before June 30, 2015.	**Products/Reports:**
Activity A-3: Effect Count on Copper River **Expected Results:** 1. To obtain accurate and timely data on count of effort on Copper River.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A report on Copper River effort count will be compiled and provided to DFO Stock Assessment when complete and to the Resource Manager in the Year End Report.	**Products/Reports:**
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Catch Monitoring and Reporting **Expected Results:** 1. The FSC Fishery will be will be managed within the allocations provided for in the Agreement and communal licence.	**Actual Results in Narrative Format (enter text):**
2. To obtain accurate and timely catch monitoring and reporting of numbers of the FSC harvest across all species.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A summary of FSC harvest activities across all species will be provided in the Year End Report.	**Products/Reports:**
2. FSC catch information will be provided to DFO Resource Management in Prince Rupert by March 31, 2016, with interim data being provided weekly from July 1 to September 30, 2015.	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Activity B-2: Eulachon Catch Monitoring Program **Expected Results:** 1. To obtain accurate and timely catch monitoring and reporting of numbers of eulachon in the Skeena River.	**Actual Results in Narrative Format (enter text):**
2. To build capacity in the Kitselas Fisheries Department by providing experience to field technicians.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A report prepared by NCSFNSS will be submitted with the Year End Report.	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

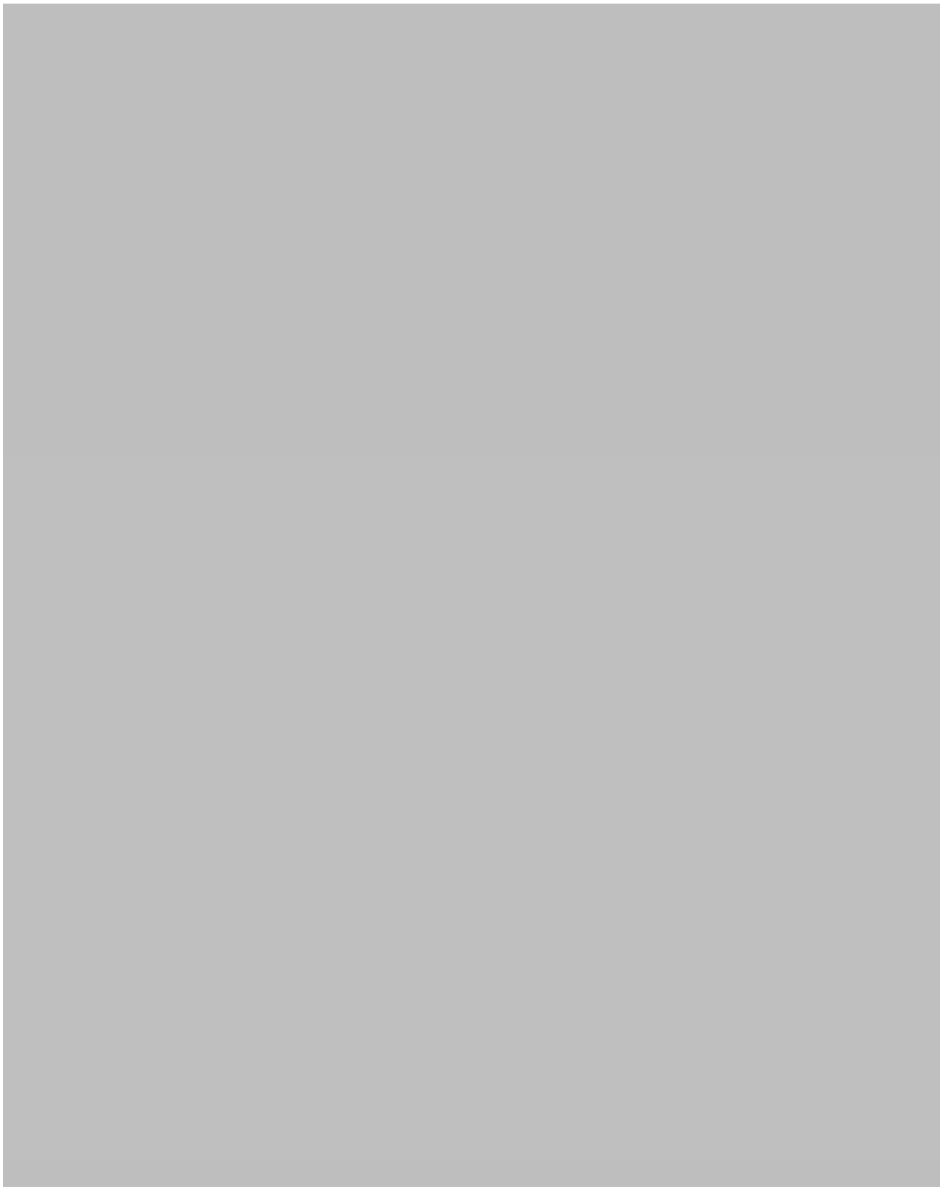
2.1. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.2. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Area Where the FSC Fishery Takes Place

s.20(1)(c)



3.1.

4. Disposition of Fish

4.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

4.2. For greater certainty, subsection 4.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

5. Designation to Fish

5.1. No individual other than a designated individual may participate in the FSC Fishery.

5.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Kitselas First Nation will serve as the Member's designation document.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

5.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Wade Larson, (wade.larson@dfo-mpo.gc.ca, fax: (250) 615-5364) a list of the names of designated individuals prior to the commencement of the FSC Fishery.

5.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

5.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

5.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

6. Restrictions to, Withdrawal of or Amendment of Designations

6.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

6.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

7. Responsibilities of the Organization

7.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

7.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, DFO will provide the Organization with the renewal application(s) and instructions that the Organization must follow prior to DFO issuing any Communal Commercial Licence for the licence eligibilities set out in subsection 6.1 of this Schedule.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. The Organization will identify, on each application, the designated vessel that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, the designated vessel must hold a vessel-based licence eligibility.

2.2. DFO will issue a Communal Commercial Licence to the Organization upon receipt of an application that will, among other things, identify the vessel registration number (VRN), name of the designated vessel and the name of the licence eligibility holder and vessel owner. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.3. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.4. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.5. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel with the submission of an Application for Aboriginal Communal Commercial Eligibility Re-designation signed by an authorized signing authority of the Organization and the submission of the previously issued Communal Commercial Licence and decals.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

s.20(1)(c)

(a)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL25
Species of Fish:	Halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	19.16 metres
Contribution for Use:	
Contribution to Activities:	
Quota in percentage TAC:	0.171949%

(b)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FZN 16
Licence area:	
Species of Fish:	Rockfish
Fishing gear type:	hook and line
Maximum vessel length (MVL):	14.63 metres
Contribution for Use:	
Contribution to Activities:	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FAG 74
	Licence area:	
	Species of Fish:	Salmon
	Fishing gear type:	gillnet
	Maximum vessel length (MVL):	12.36 metres
	Contribution for Use:	
	Contribution to Activities:	

(d)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FS 11
	Species of Fish:	Shrimp
	Fishing gear type:	trawl
	Maximum vessel length (MVL):	12.36 metres
	Contribution for Use:	
	Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 19 day of July, 2016
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

KITSELAS INDIAN BAND, also known as Kitselas First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 26
Schedule 7	Progress Report / Year End Report	Page 27
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 32
Schedule B	Communal Commercial Fisheries Access	Page 35

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND TWENTY-ONE THOUSAND, ONE HUNDRED AND THIRTY-TWO DOLLARS ($121,132.00) in Fiscal Year 2016-2017 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

s.20(1)(c)

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted]

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

[redacted] in Fiscal Year 2016-2017, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2017.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

s.19(1)
s.20(1)(c)

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Kitselas First Nation
#206 4716 Lazelle Avenue
Terrace, BC
V8G 4P5

Attention: Director of Lands and Resources

Telephone: (778) 634-3517
Facsimile: (778) 634-3796
Email: [redacted]

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act, 2012*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act, 2012* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act, 2012*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2016, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2016, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit:
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other non-employees

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2016-2017

s.19(1)

s.20(1)(c)

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2016-2017	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Kitselas Lands and Resource Department - Maintaining a Fisheries Authority

ESTIMATED COST: [redacted]

Task Description:

Project Management and Reporting:

1. RP Bio [redacted] will work with Kitselas staff to create a Stream Walk Design/Methodology
2. Funding will be used to retain staff including a Resource Department Manager, Resource Department Lead; and returning staff including two technicians and seasonal catch monitors.
3. Development of activities, management procedures and reporting protocols will be maintained to ensure Activities undertaken as part of this and future funding Agreements are documented according to the requirements of this Agreement.
4. Chief and Council support and infrastructure are in place to maintain participation in resource management activities.
5. The Organizations Lands and Resource Department Lead and 2 technicians will receive formal training from an accredited training organization: jet boat operator; radio operator certificate; and first aid/transportation endorsement.
6. Fisheries related meetings in Prince Rupert with other First Nations (AAROM body North Coast Skeena Fisheries Stewardship Society (NCSFSS)) and/or any DFO related meetings will be attended by Kitselas fisheries staff members. Realistically we would expect to attend at least 24 meetings with NCSFNSS and approximately six DFO related meetings.
7. Community meetings will be held to update the community on fisheries related issues.
8. The Lands and Resource Department will continue to develop a document that will guide Kitselas' Fisheries program. This will focus on the steps required throughout the year to run the department including developing the AFS budget and agreement each year, administering the ATP licenses, and highlighting future projects.

Expected Results:

1. To have a negotiated Agreement in place to help the Organization continue with the fisheries program.
2. To ensure that management structures, systems and processes are in place for the AFS program activities to be implemented and reported on, including expenditures.
3. To maintain and facilitate management structures and reporting protocols

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. All resource field staff will be trained to carry out Agreement Activities safely.

Products/Reports to provide to DFO:

1. A signed and implemented AFS Agreement.
2. A list of meetings attended (community, DFO, NCSFSS, etc.) including meeting purpose, date, location and number of staff will be provided in the Year End Report.
3. Quarterly financial, Progress and Year End Reports (including narrative and financial) submitted within the prescribed timeframe outlining the Activities and actual expenditures for all Activities in the reporting period.
4. A list of training courses, number of attendees, and copies of training certificates will be provided in the Year End Report.
5. As part of the stream walk methodology a report detailing streams walked and results will be provided in the final report.
6. Kitselas will provide a summary of the updates to our Fisheries program document to DFO.

Key Element A / Activity 2: Stream Walk Spawner Assessments

ESTIMATED COST:

Following meetings with DFO several watercourses have been identified by the Agency and Kitselas as important for spawning salmon. These watercourses include: Chist Creek, Williams Creek, Scully Creek, Lower Kleanza River, Dasque Creek, Middle Creek, and Clearwater Creek.

Task Description:

1. Fisheries technicians will monitor the dates and approximate number of spawning salmon.
2. A total of 18 survey days (7 hour days) are planned for crews to assess the run on all creeks identified.
3. Technical report of the spawner assessment and spawner assessment methodology will be completed.

Expected Results:

1. Technical reports of the spawner assessments will be provided to DFO Stock Assessment in Prince Rupert to be used by DFO in post-season run reconstruction. The Organization participates in the collaborative management of chum spawner assessment.

Products/Reports to provide to DFO:

1. A technical report regarding the spawner assessments will be provided to DFO Stock Assessment by November 14, 2016.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Catch Monitoring and Reporting

ESTIMATED COST:

Task Description:

1. The Resource Department Lead will plan, facilitate, coordinate and report on the catch monitoring program for the Food, Social and Ceremonial (FSC) fishery. This will include approximately ninety-six (96) 7 hour field days for the monitoring crew of 2-3 people. Monitoring will primarily occur during June, July and August, with reduced monitoring in September and October, pending fishing activity.
2. Program overview, budgeting, information management, financial tracking and reporting will be conducted by Kitselas fisheries staff.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2016-2017

Expected Results:

1. The FSC Fishery will be will be managed within the allocations provided for in the Agreement and communal licence.
2. To obtain accurate and timely catch monitoring and reporting of numbers of the FSC harvest across all species.

Products/Reports to provide to DFO:

1. A summary of FSC harvest activities across all species will be provided in the Year End Report.
2. FSC catch information will be provided to DFO Resource Management in Prince Rupert with the Year End Report, with interim data being provided weekly from July 1 to September 30, 2016.

Key Element B / Activity 2: Eulachon Monitoring Program

ESTIMATED COST:

Task Description:

1. The eulachon run in the Skeena River will also be monitored by two staff for approximately 30 days from late February to the end of March.
2. Two Field Technicians and a Resource Coordinator will be involved, which also includes travel by truck and boat.
3. The study will be overseen by NCSFNSS and be conducted in conjunction with other local First Nations.

Expected Results:

1. To obtain accurate and timely catch monitoring and reporting of numbers of eulachon in the Skeena River.
2. To build capacity in the Kitselas Fisheries Department by providing experience to field technicians.

Products/Reports to provide to DFO:

1. All reports to be provided by NCSFNSS.

Key Element B / Activity 3: Effort Count on Copper River

ESTIMATED COST:

Task Description:

1. Kitselas Fisheries will perform an effort count of fishers on the Copper River. This will be performed for 2 weeks during July, for approximately 3 or 4 days per week. Approximate dates for this work could be 4 July to 18 July, although this will depend on timing of the chinook run.
2. This will include gathering of catch data through interviews with fishers.

Expected Results:

1. Record of effort and catch data for the Copper River will be collected.

Products/Reports to provide to DFO

1. A report summarizing activities and results will be provided by November 14, 2016.

KEY ELEMENT C: ECONOMIC OPPORTUNITIES

KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.3 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, A/Aboriginal Affairs Advisor @ amy.wakelin@dfo-mpo.gc.ca or dfo.ncap-pacn.mpo@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$121,132.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

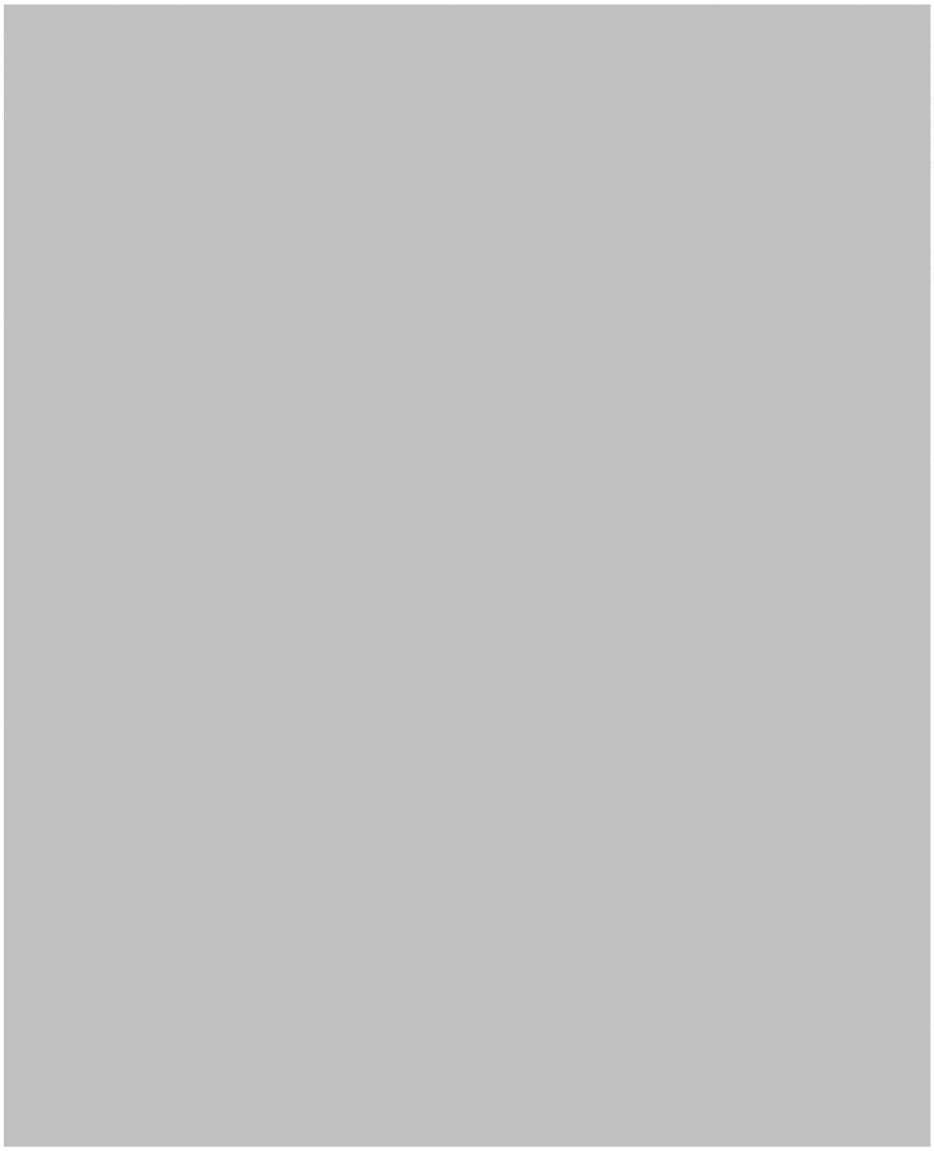
2.1. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.2. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Area Where the FSC Fishery Takes Place

s.20(1)(c)



3.1.

4. Disposition of Fish

4.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

4.2. For greater certainty, subsection 4.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

5. Designation to Fish

5.1. No individual other than a designated individual may participate in the FSC Fishery.

5.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Kitselas First Nation will serve as the Member's designation document.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

5.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Wade Larson, (wade.larson@dfo-mpo.gc.ca, fax: (250) 615-5364) a list of the names of designated individuals prior to the commencement of the FSC Fishery.

5.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

5.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

5.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

6. Restrictions to, Withdrawal of or Amendment of Designations

6.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

6.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

7. Responsibilities of the Organization

7.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

7.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the Communal Commercial Licence eligibilities and/or quota set out in section 6 of this Schedule. Communal Commercial Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, the Organization must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the Communal Commercial Licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, the Organization will identify, through NOLS, the designated vessel, including vessel registration number and vessel maser name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.2. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.3. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.4. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.5. The Organization may designate, in writing, each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.6. The Organization may designate, in writing, all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Organization will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures

3.2. Where the Organization makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in section 6 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in section 6 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in section 6 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL25
Species of Fish:	Halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	19.16 metres

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

	Contribution for Use:	
	Contribution to Activities:	
	Quota in percentage TAC:	0.171949%
(b)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FZN 16
	Licence area:	
	Species of Fish:	Rockfish
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	14.63 metres
	Contribution for Use:	
	Contribution to Activities:	
(c)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FAG 74
	Licence area:	
	Species of Fish:	Salmon
	Fishing gear type:	gillnet
	Maximum vessel length (MVL):	12.36 metres
	Contribution for Use:	
	Contribution to Activities:	
(d)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FS 11
	Species of Fish:	Shrimp
	Fishing gear type:	trawl
	Maximum vessel length (MVL):	12.36 metres
	Contribution for Use:	
	Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 28 day of August, 2017
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

KITSELAS INDIAN BAND, also known as Kitselas First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 26
Schedule 7	Progress Report / Year End Report	Page 27
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 32
Schedule B	Communal Commercial Fisheries Access	Page 35

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND TWENTY THOUSAND, NINE HUNDRED AND NINETY-NINE DOLLARS ($120,999.00) in Fiscal Year 2017-2018 and an amount of up to ONE HUNDRED AND TWENTY THOUSAND, NINE HUNDRED AND NINETY-NINE DOLLARS ($120,999.00) in Fiscal Year 2018-2019 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding [redacted] in Fiscal Year 2017-2018 and [redacted] in Fiscal Year 2018-2019, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2019.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Kitselas First Nation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act, 2012*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act, 2012* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act, 2012*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2017-2018 and 2018-2019.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2017, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2017, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit:
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other non-employees

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.1. Multi-year Work Plan

1.1.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities	
Fiscal Year 2017-2018	Fiscal Year 2018-2019
$127,400.00	$127,400.00

Multi-year Work Plan
DFO KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Description: The Kitselas Fisheries Program staff will include a Resource Department Manager, Resource Department Lead, two technicians and seasonal catch monitors. The Fisheries Program will develop activities, management procedures and reporting protocols to fulfill the Agreement requirements. Training will take place as required to ensure safety of staff and to maintain capacity within the Organization. The Organization will participate in Fisheries related meetings including AAROM participation and/or any DFO related meetings. Community meetings will be held to keep community members updated and the Organization will continue to develop policy and guidelines to steer the Fisheries Program. Stock Assessment activities will include spawner enumerations on watercourses that are determined to be important for spawning salmon by both Kitselas and DFO. These include but are not limited to: Chist Creek, Williams Creek, Scully Creek, Lower Kleanza River, Dasque Creek, Middle Creek, and Clearwater Creek. **Expected Results:** 1. To have a negotiated Agreement in place to help the Organization continue with the fisheries program. 2. To ensure that management structures, systems and processes are in place for the AFS program activities to be implemented and reported on, including expenditures. 3. To maintain and facilitate management structures and reporting protocols 4. All resource field staff will be trained to carry out Agreement Activities safely. 5. Technical reports of the spawner assessments will be provided to DFO Stock Assessment in Prince Rupert to be used by DFO in post-season run reconstruction. The Organization participates in the collaborative management of chum spawner assessment.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: The Resource Department Lead will plan, facilitate, coordinate and report on the catch monitoring program for the Food, Social and Ceremonial (FSC) fishery. Monitoring will primarily occur during June, July and August, with reduced monitoring in September and October, pending fishing activity. Catch Calendars and a yearly fishing permitting program for community members will be developed by the Resource Department to assist

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
in receiving timely and accurate harvest numbers across all species. The eulachon run in the Skeena River will also be monitored by staff from late February to the end of March. The study will be overseen by NCSFNSS and be conducted in conjunction with other local First Nations. **Expected Results:** 1. The FSC Fishery will be will be managed according to the communal licence. 2. Accurate and timely catch monitoring and reporting of numbers of the FSC harvest across all species will be obtained, including Eulachon. 3. To build capacity in the Kitselas Fisheries Department by providing experience to field technicians.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Year 2017-2018

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

s.20(1)(c)

Annual Work Plan for Fiscal Year 2017-2018	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Kitselas Lands and Resource Department - Maintaining a Fisheries Authority	**ESTIMATED COST:** [redacted]
Task Description: **Project Management and Reporting:** 1. Funding will be used to retain staff including a Resource Department Manager, Resource Department Lead; and returning staff including two technicians and seasonal catch monitors. 2. Development of activities, management procedures and reporting protocols will be maintained to ensure Activities undertaken as part of this and future funding Agreements are documented according to the requirements of this Agreement. 3. Chief and Council support and infrastructure are in place to maintain participation in resource management activities. 4. The Organization's Lands and Resource Department Lead and 2 technicians will receive formal training from an accredited training organization: jet boat operation, habitat assessment methodology 5. Fisheries related meetings in Prince Rupert with other First Nations (AAROM body North Coast Skeena Fisheries Stewardship Society (NCSFSS)) and/or any DFO related meetings will be attended by Kitselas fisheries staff members. The Organization would expect to attend at least 24 meetings with NCSFNSS and approximately six DFO related meetings.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

6. Season end community meeting will be held to update the community on fisheries related issues.
7. The Lands and Resource Department will continue to develop a document that will guide Kitselas' Fisheries program. This will focus on the steps required throughout the year to run the department including developing the AFS budget and agreement each year, administering the ATP licenses, and highlighting future projects.

Expected Results:

1. To have a negotiated Agreement in place to help the Organization continue with the fisheries program.
2. To ensure that management structures, systems and processes are in place for the AFS program activities to be implemented and reported on, including expenditures.
3. To maintain and facilitate management structures and reporting protocols
4. All resource field staff will be trained to carry out Agreement Activities safely.

Products/Reports to provide to DFO:

1. A signed and implemented AFS Agreement.
2. A list of meetings attended (community, DFO, NCSFSS, etc.) including meeting purpose, date, location and number of staff will be provided in the Year End Report.
3. Bi-annual Progress and Year End Reports (including narrative and financial) as per Schedule 7 submitted within the prescribed timeframe outlining the Activities and actual expenditures for all Activities in the reporting period.
4. A list of training courses, number of attendees, and copies of training certificates will be provided in the Year End Report.
5. A report detailing streams walked and results will be provided in the Year End Report.
6. The Organization will provide a summary of the updates to our Fisheries program document to DFO.

Key Element A / Activity 2: Stream Walk Spawner Assessments

ESTIMATED COST:

Following meetings with DFO several watercourses have been identified by the Agency and Kitselas as important for spawning salmon. These watercourses include: Chist Creek, Williams Creek, Scully Creek, Lower Kleanza River, Dasque Creek, Middle Creek, and Clearwater Creek.

Task Description:

1. Fisheries technicians will monitor the dates and approximate number of spawning salmon.
2. A total of 25 survey days (7 hour days) are planned for crews to assess the run on all creeks identified.
3. A total of 7 out of these 25 survey days will be dedicated to using drone aerial photography to take pictures of watercourses to assess in-stream barriers, assist in counting fish and documenting habitat units.
4. Technical report of the spawner assessment and spawner assessment methodology will be completed.

Expected Results:

1. Technical reports of the spawner assessments will be provided to DFO Stock Assessment in Prince Rupert to be used by DFO in post-season run reconstruction. The Organization participates in the collaborative management of chum spawner assessment.

Products/Reports to provide to DFO:

1. A technical report regarding the spawner assessments will be provided to DFO Stock

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for April 1, 2017-2018
Assessment by November 17, 2017.
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Key Element B / Activity 1: Catch Monitoring and Reporting **ESTIMATED COST:** [redacted] **Task Description:** 1. The Resource Department Lead will plan, facilitate, coordinate and report on the catch monitoring program for the Food, Social and Ceremonial (FSC) fishery. This will include approximately ninety-six (96) 7 hour field days for the monitoring crew of 2-3 people. Monitoring will primarily occur during June, July and August, with reduced monitoring in September and October, pending fishing activity. 2. The Resource Department will develop a Catch Calendar and yearly fishing permitting program for community members to assist Resource Department in receiving timely and accurate harvest numbers across all species. 3. Program overview, budgeting, information management, financial tracking and reporting will be conducted by Kitselas fisheries staff. **Expected Results:** 1. The FSC Fishery will be will be managed within the allocations provided for in the Agreement and communal licence. 2. To obtain accurate and timely catch monitoring and reporting of numbers of the FSC harvest across all species. **Products/Reports to provide to DFO:** 1. A summary of FSC harvest activities across all species will be provided in the Year End Report. 2. FSC catch information will be provided to DFO Resource Management in Prince Rupert with the Year End Report, with interim data being provided weekly from July 1 to September 30, 2017.
Key Element B / Activity 2: Eulachon Monitoring Program **ESTIMATED COST:** [redacted] **Task Description:** 1. The eulachon run in the Skeena River will also be monitored by two staff for approximately 30 days from late February to the end of March. 2. Two Field Technicians and a Resource Coordinator will be involved, which also includes travel by truck and boat. 3. Purchase of scale for eulachon bio-sampling 4. The study will be overseen by NCSFNSS and be conducted in conjunction with other local First Nations. **Expected Results:** 1. To obtain accurate and timely catch monitoring and reporting of numbers of eulachon in the Skeena River. 2. To build capacity in the Kitselas Fisheries Department by providing experience to field technicians. **Products/Reports to provide to DFO:** 1. All reports to be provided by NCSFNSS.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

s.20(1)(c)

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.3 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, A/Aboriginal Affairs Advisor @ amy.wakelin@dfo-mpo.gc.ca or dfo.ncap-pacn.mpo@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year 2017-2018

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$120,999.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

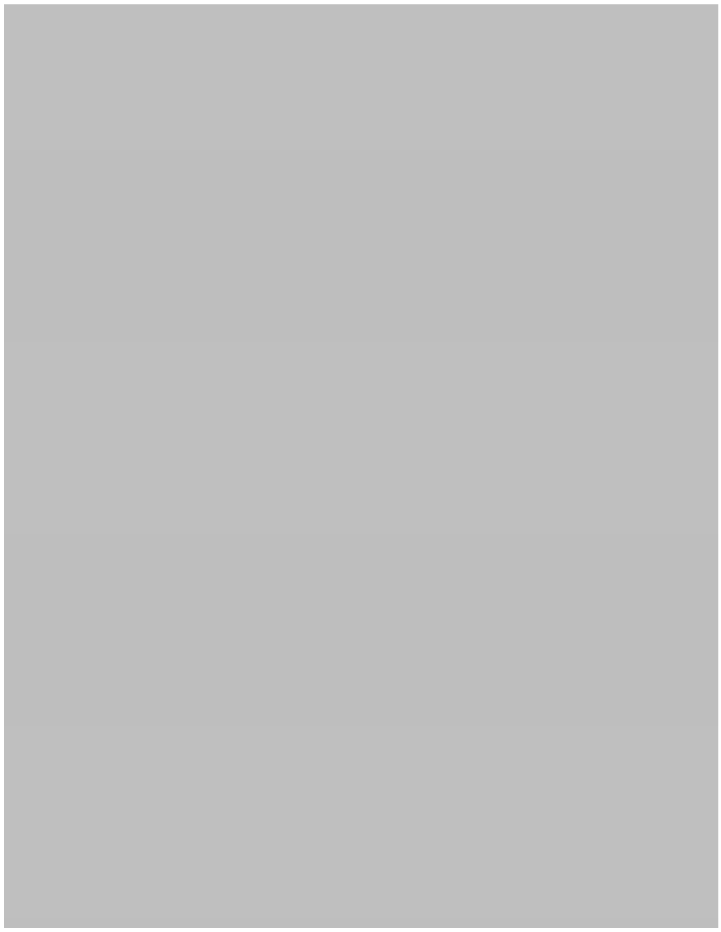
2.1. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.2. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

3. Area Where the FSC Fishery Takes Place



3.1.

4. Disposition of Fish

4.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

4.2. For greater certainty, subsection 4.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

5. Designation to Fish

5.1. No individual other than a designated individual may participate in the FSC Fishery.

5.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Kitselas First Nation will serve as the Member's designation document.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

5.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Wade Larson, (wade.larson@dfo-mpo.gc.ca, fax: (250) 615-5364) a list of the names of designated individuals prior to the commencement of the FSC Fishery.

5.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

5.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

5.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

6. Restrictions to, Withdrawal of or Amendment of Designations

6.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

6.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

7. Responsibilities of the Organization

7.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

7.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, the Organization must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, the Organization will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6. The Organization may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7. The Organization may designate in writing all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Organization will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2. Where the Organization makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FL25
	Species of Fish:	Halibut
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	19.16 metres

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

	Contribution for Use:	
	Contribution to Activities:	
	Quota in percentage TAC:	0.171949%
(b)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FZN 16
	Licence area:	
	Species of Fish:	Rockfish
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	14.63 metres
	Contribution for Use:	
	Contribution to Activities:	
(c)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FAG 74
	Licence area:	
	Species of Fish:	Salmon
	Fishing gear type:	gillnet
	Maximum vessel length (MVL):	12.36 metres
	Contribution for Use:	
	Contribution to Activities:	
(d)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FS 11
	Species of Fish:	Shrimp
	Fishing gear type:	trawl
	Maximum vessel length (MVL):	12.36 metres
	Contribution for Use:	
	Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 22 day of December, 20 15
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

KITSUMKALUM INDIAN BAND, also known as Kitsumkalum First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

2. Interpretation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 16
Schedule 5	Activities	Page 18
Schedule 6	Cash Flow Projection of Eligible Costs	Page 23
Schedule 7	Progress Report / Year End Report	Page 24
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 29
Schedule B	Communal Commercial Fisheries Access	Page 33
Schedule C	Aboriginal Fishery Guardians	Page 36
Schedule D	Monitoring and Enforcement Protocol	Page 39

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND SEVEN THOUSAND, FOUR HUNDRED AND THIRTY-SIX DOLLARS ($107,436.00) in Fiscal Year 2015-2016 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b)

s.20(1)(c) contribute funding [redacted] in Fiscal Year 2015-2016, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2016.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:
Kitsumkalum First Nation
P.O. Box 544
Highway 16 West
Terrace, BC
V8G 4B5

Attention: Don Roberts, Chief Councillor

Telephone: (250) 635-1718
Facsimile: (250) 635-6196

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-363-1647
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.1 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2015, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2015, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

a) travel and related expenses for contracted professional service providers or other non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

s.20(1)(b)

s.20(1)(c) **1. Annual Work Planning Process**

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2015-2016

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2015-2016
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Kitsumkalum Fisheries Program Management
ESTIMATED COST
Reporting to the Band Manager, the Fisheries Program Manager is responsible for the development of Kitsumkalum Fisheries Program and Operations, management and continued development of Kitsumkalum's Aboriginal Fisheries Strategy (AFS) operations. Under the general direction of the Kitsumkalum Band Council, the Fisheries Program Manager assists with addressing referrals and building capacity to carry out various fisheries and environmental studies.
Task Description:
1. Under the direction of the Kitsumkalum Band Council, the Fisheries Program Manager will lead and coordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. Direct and supervise staff, coordinate and manage all activities pertaining to the Organization's fisheries program.
3. Meet with neighbouring First Nations to discuss fisheries-related issues of mutual interest, including aquaculture, food fishing in overlap area, data sharing and marine use planning.
4. Provide quarterly updates at Kitsumkalum community meetings to review and update the community with the fisheries-related issues, including commercial operations, ATP licences and conservation issues.
5. The Organization will attend meetings of the North Coast Skeena First Nations Stewardship Society (NCSFNSS) and other process-specific meetings with DFO, as needed and available.
6. Facilitate and coordinate the catch-monitoring and enforcement program.
7. Develop project planning forms and data entry procedures jointly with DFO – Stock Assessment in the Prince Rupert office. The Organization's Fisheries Program Manager will enter all data into the catch monitoring database.
8. Submit detailed Progress Reports as required by this Agreement, including catch statistics for the FSC Fishery, activity and financial reports.
Expected Results:
1. Project budgets and operational workplans are completed and agreed to by DFO and the Organization to facilitate the completion of the AFS Agreement.
2. Community is well informed regarding fisheries related issues and the Organization is

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b)

s.20(1)(c)

able to provide input within relevant fisheries management decision-making processes.

3. Standardized catch monitoring data forms will be agreed upon by the Organization and DFO.
4. The Fisheries Program Manager will ensure that all fisheries issues are communicated to DFO, direct and supervise staff, coordinate and manage all activities pertaining to the Organization's fisheries program.

Products/Reports to provide to DFO:

1. A list of all meetings attended by staff, including staff attendee names, meeting dates, meeting locations and purpose will be summarized in the Progress and Year End Reports.
2. A database containing the catch number by species/date/week and summary of licences will be included in the Year End Report.
3. Status report of activities and financial summary reports as per Schedule 7 and any supplementary information (financial or other) requested by DFO in relation to the Agreement.

Key Element A / Activity 2: Catch Reporting

ESTIMATED COST

Task Description:

1. The Organization's catch monitoring and record keeping for harvests under the Food, Social and Ceremonial Fisheries will be conducted by two Aboriginal Monitors with assistance from the Fisheries Coordinator.
2. The Aboriginal Monitors will conduct separate checks along the Skeena River starting June 2015 to the end of September 2015; interviews will be done with First Nations participating in the harvest of salmon resources for FSC purposes.

Expected Results:

1. All data collected by the Aboriginal Monitors will be submitted monthly to Jill MacNeill, DFO Resource Manager.
2. Any violations will be documented and reported to the Kitsumkalum Aboriginal Fisheries Guardian. The Aboriginal Fisheries Guardian will fill in the proper required documentation and submit it to the DFO C&P staff in Terrace.

Products/Reports to provide to DFO:

1. Catch Monitoring Report will be submitted with the Year End Report.

KEY ELEMENT B:	FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Key Element D / Activity 1: Aboriginal Fisheries Guardian Program

ESTIMATED COST

The Organization's Aboriginal Fisheries Guardian Program will monitor and patrol the local area and manage all activities pertaining to their fisheries program in support of management and control of the FSC Fishery. This will assist in building a stronger relationship with DFO C&P, the Organization and other First Nations.

Task Description:

1. The Organization will work with the local DFO C&P staff to develop an enforcement protocol that will outline their roles, responsibilities, and relationship.
2. The Organization's Aboriginal Fisheries Guardian Program will do joint patrols with other enforcement agencies (DFO and RCMP) and other First Nations.
3. The Organization's Aboriginal Fisheries Guardian Program will keep detailed logs of all expenditures and document activity regarding the FSC and Recreational fishery activity

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016
on the Skeena River and other rivers and bodies of water monitored by DFO. 4. Support monitoring and enforcement of fishing regulations within the Organization's local claimed traditional harvest area. 5. The Organization's Aboriginal Fisheries Guardian Program will develop a training program as required to meet its obligation to ensure that staff are trained and qualified to undertake the duties in conjunction with DFO C&P personnel, the Fisheries Program Manager and Band Manager. Consultant input, if obtained, will be appropriate and match long-term needs of the Aboriginal Fisheries Guardian position. **Expected Results:** 1. A working relationship is maintained within the different sectors in DFO, C&P, RCMP and other First Nations. 2. Compliance with fishery openings and closures and other regulations are achieved. 3. A training program will be developed to match the long-term needs of the Aboriginal Fisheries Guardian position. **Products/Reports to provide to DFO:** 1. A summary of Aboriginal Fisheries Guardian Program activities will be submitted with the Progress and Year End Reports. 2. A summary of the training program developed for the Aboriginal Fisheries Guardian will be included in the Progress and/or Year End Report.

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, A/Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

4. Budget

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year ___2015-2016_____

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$107,436.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

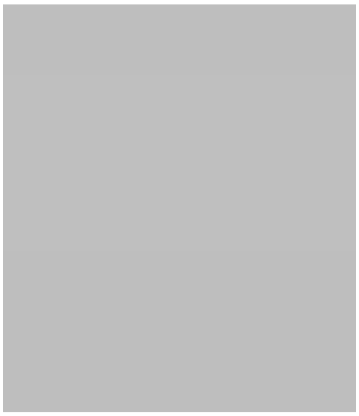
circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

s.20(1)(b)
s.20(1)(c)



2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

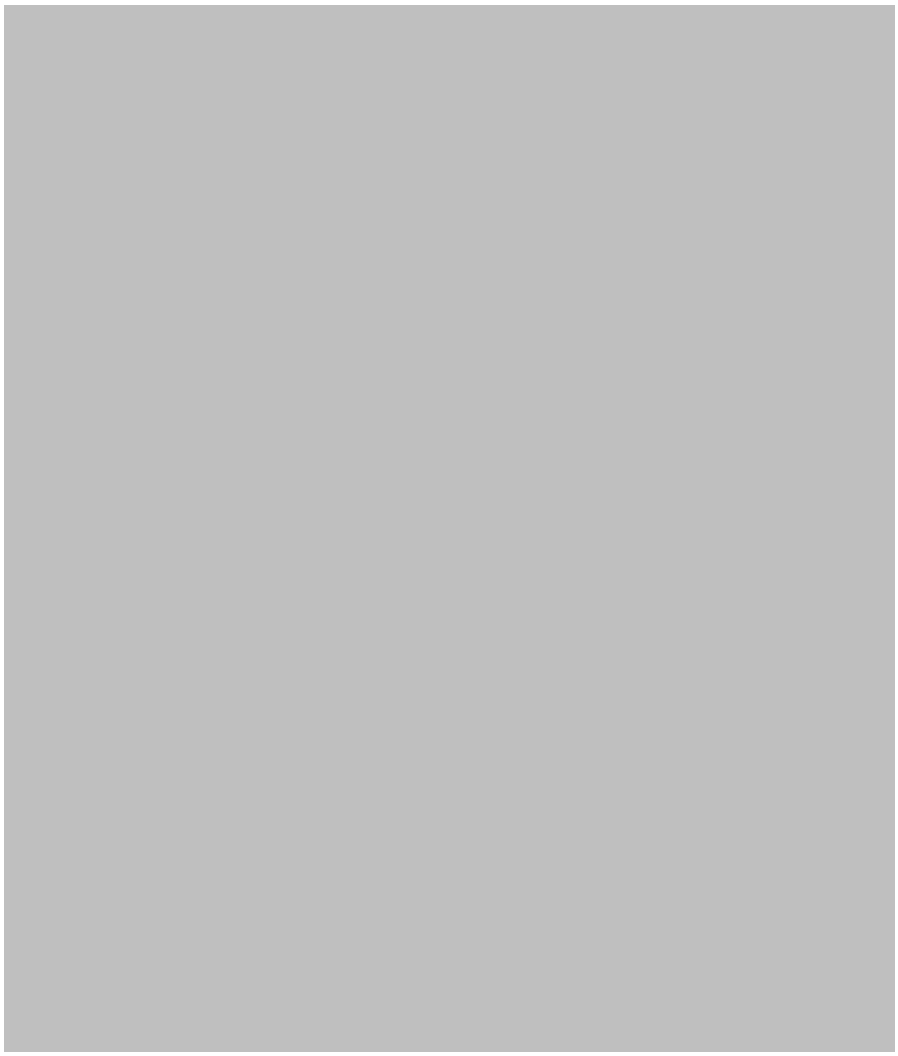
2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.



4.1.

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Kitsumkalum First Nation will serve as the Member's designation document.

6.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Jill MacNeill, Resource Manager at Jill.MacNeill@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, DFO will provide the Organization with the renewal application(s) and instructions that the Organization must follow prior to DFO issuing any Communal Commercial Licence for the licence eligibilities set out in subsection 6.1 of this Schedule.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. The Organization will identify, on each application, the designated vessel that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, the designated vessel must hold a vessel-based licence eligibility.

2.2. DFO will issue a Communal Commercial Licence to the Organization upon receipt of an application that will, among other things, identify the vessel registration number (VRN), name of the designated vessel and the name of the licence eligibility holder and vessel owner. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.3. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.4. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.5. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel with the submission of an Application for Aboriginal Communal Commercial Eligibility Re-designation signed by an authorized signing authority of the Organization and the submission of the previously issued Communal Commercial Licence and decals.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

s.20(1)(b)
s.20(1)(c)

(a)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL 31
Species of Fish:	halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	18.64 metres
Contribution for Use:	
Contribution to Activities:	
Quota in percentage TAC:	0.250671%

(b)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL 07
Species of Fish:	halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	20.19 metres
Contribution for Use:	
Contribution to Activities:	
Quota in percentage TAC:	0.216116%

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FL 22
	Species of Fish:	halibut
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	18.90 metres
	Contribution for Use:	
	Contribution to Activities:	
	Quota in percentage TAC:	0.108009%
(d)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FZN 17
	Licence area:	
	Species of Fish:	rockfish
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	12.85 metres
	Contribution for Use:	
	Contribution to Activities:	
(e)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FS 08
	Species of Fish:	shrimp
	Fishing gear type:	trawl
	Maximum vessel length (MVL):	10.75 metres
	Contribution for Use:	
	Contribution to Activities:	
(f)	Program:	Allocation Transfer Program (ATP)
	Licence area:	
	Species of Fish:	spiny dogfish quota
	Contribution for Use:	
	Contribution to Activities:	
	Quota in percentage TAC:	0.259410%

The allocation of the above noted quota to the Organization is temporary for the 2015 Fishing season only."

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel, representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

s.19(1)

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Wade Larson	Field Supervisor, Terrace Detachment	250-615-5357

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO and the Aboriginal Fishery Guardians will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval.*

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 12 day of July, 2016
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

KITSUMKALUM INDIAN BAND, also known as Kitsumkalum First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

2. Interpretation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 16
Schedule 5	Activities	Page 18
Schedule 6	Cash Flow Projection of Eligible Costs	Page 23
Schedule 7	Progress Report / Year End Report	Page 24
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 29
Schedule B	Communal Commercial Fisheries Access	Page 33
Schedule C	Aboriginal Fishery Guardians	Page 36
Schedule D	Monitoring and Enforcement Protocol	Page 39

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND SIX THOUSAND, SIX HUNDRED AND EIGHTY-TWO DOLLARS ($106,682.00) in Fiscal Year 2016-2017 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b)

s.20(1)(c)

contribute funding [redacted] in Fiscal Year 2016-2017, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2017.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:
Kitsumkalum First Nation
P.O. Box 544
Highway 16 West
Terrace, BC
V8G 4B5

Attention: Don Roberts, Chief Councillor

Telephone: (250) 635-1718
Facsimile: (250) 635-6196

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.1 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2016, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2016, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

a) travel and related expenses for contracted professional service providers or other non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

s.20(1)(b)

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

s.20(1)(c)

2. Activities

2.1. Annual Work Plan for Fiscal Year 2016-2017

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2016-2017	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Kitsumkalum Fisheries Program Management

ESTIMATED COST

Reporting to the Band Manager, the Fisheries Program Manager is responsible for the development of Kitsumkalum Fisheries Program and Operations, management and continued development of Kitsumkalum's Aboriginal Fisheries Strategy (AFS) operations. Under the general direction of the Kitsumkalum Band Council, the Fisheries Program Manager assists with addressing referrals and building capacity to carry out various fisheries and environmental studies.

Task Description:

1. Under the direction of the Kitsumkalum Band Council, the Fisheries Program Manager will lead and coordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. Direct and supervise staff, coordinate and manage all activities pertaining to the Organization's fisheries program.
3. Meet with neighbouring First Nations to discuss fisheries-related issues of mutual interest, including aquaculture, food fishing in overlap area, data sharing and marine use planning.
4. Provide quarterly updates at Kitsumkalum community meetings to review and update the community with the fisheries-related issues, including commercial operations, ATP licences and conservation issues.
5. The Organization will attend meetings of the North Coast Skeena First Nations Stewardship Society (NCSFNSS) and other process-specific meetings with DFO, as needed and available.
6. Facilitate and coordinate the catch-monitoring and enforcement program.
7. Develop project planning forms and data entry procedures jointly with DFO – Stock Assessment in the Prince Rupert office. The Organization's Fisheries Program Manager will enter all data into the catch monitoring database.
8. Submit detailed Progress Reports as required by this Agreement, including catch statistics for the FSC Fishery, activity and financial reports.

Expected Results:

1. Project budgets and operational workplans are completed and agreed to by DFO and the Organization to facilitate the completion of the AFS Agreement.
2. Community is well informed regarding fisheries related issues and the Organization is

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b)
s.20(1)(c)

able to provide input within relevant fisheries management decision-making processes.

3. Standardized catch monitoring data forms will be agreed upon by the Organization and DFO.
4. The Fisheries Program Manager will ensure that all fisheries issues are communicated to DFO, direct and supervise staff, coordinate and manage all activities pertaining to the Organization's fisheries program.

Products/Reports to provide to DFO:

1. A list of all meetings attended by staff, including staff attendee names, meeting dates, meeting locations and purpose will be summarized in the Progress and Year End Reports.
2. A database containing the catch number by species/date/week and summary of licences will be included in the Year End Report.
3. Status report of activities and financial summary reports as per Schedule 7 and any supplementary information (financial or other) requested by DFO in relation to the Agreement.

Key Element A / Activity 2: Catch Reporting

ESTIMATED COST

Task Description:

1. The Organization's catch monitoring and record keeping for harvests under the Food, Social and Ceremonial Fisheries will be conducted by two Aboriginal Monitors with assistance from the Fisheries Coordinator.
2. The Aboriginal Monitors will conduct separate checks along the Skeena River starting June 2016 to the end of September 2016; interviews will be done with First Nations participating in the harvest of salmon resources for FSC purposes.

Expected Results:

1. All data collected by the Aboriginal Monitors will be submitted monthly to DFO NC Aboriginal Affairs Advisor.
2. Any incidents will be documented and reported to the Kitsumkalum Aboriginal Fishery Guardian. The Aboriginal Fishery Guardian will fill in the proper required documentation and submit it to the DFO C&P staff in Terrace.

Products/Reports to provide to DFO:

1. A summary Catch Monitoring Report will be submitted with the Year End Report.

KEY ELEMENT B:	FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Key Element D / Activity 1: Aboriginal Fishery Guardian Program

ESTIMATED COST

The Organization's Aboriginal Fishery Guardian Program will monitor and patrol the local area and manage all activities pertaining to their fisheries program in support of management and control of the FSC Fishery. This will assist in building a stronger relationship with DFO C&P, the Organization and other First Nations.

Task Description:

1. The Organization will work with the local DFO C&P staff to develop an enforcement protocol that will outline their roles, responsibilities, and relationship.
2. The Organization's Aboriginal Fishery Guardian will do joint patrols with other enforcement agencies (DFO and RCMP) and other First Nations.
3. The Organization's Aboriginal Fishery Guardian will keep detailed logs of all expenditures and document activity regarding the FSC and Recreational fishery activity

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b)
s.20(1)(c)

on the Skeena River and other rivers and bodies of water monitored by DFO.

4. Support monitoring and enforcement of fishing regulations within the Organization's local claimed traditional harvest area.
5. The Organization's Aboriginal Fishery Guardian Program will develop a training program as required to meet its obligation to ensure that staff are trained and qualified to undertake the duties in conjunction with DFO C&P personnel, the Fisheries Program Manager and Band Manager. Consultant input, if obtained, will be appropriate and match long-term needs of the Aboriginal Fishery Guardian position.

Expected Results:

1. A working relationship is maintained within the different sectors in DFO, C&P, RCMP and other First Nations.
2. Compliance with fishery openings and closures and other regulations is achieved.
3. A training program will be developed to match the long-term needs of the Aboriginal Fishery Guardian position.

Products/Reports to provide to DFO:

1. A summary of Aboriginal Fishery Guardian Program activities will be submitted with the Progress and Year End Reports.
2. A summary of the training program developed for the Aboriginal Fishery Guardian will be included in the Progress and/or Year End Report.

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, A/Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

4. Budget

s.20(1)(b)

CASH FLOW PROJECTION OF ELIGIBLE COSTS

s.20(1)(c)

Fiscal Year 2016-2017

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	[redacted]
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$106,682.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

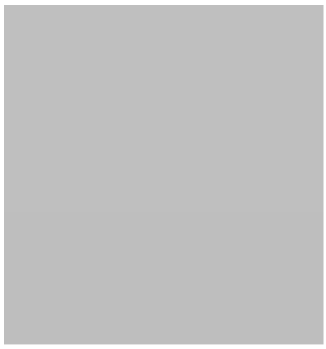
1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

s.20(1)(b)

s.20(1)(c)



2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

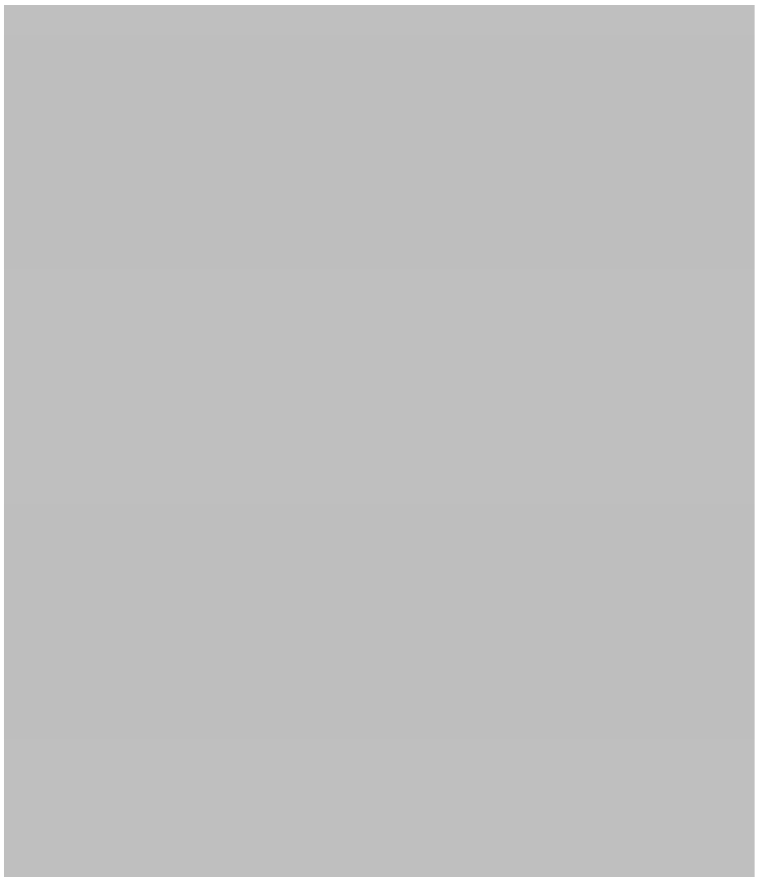
3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b)
s.20(1)(c)



4.1.

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Kitsumkalum First Nation will serve as the Member's designation document.

6.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Amy Wakelin, Aboriginal Affairs Advisor at amy.wakelin@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, the Organization must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, the Organization will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6. The Organization may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7. The Organization may designate, in writing all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Organization will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2. Where the Organization makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FL 31
	Species of Fish:	halibut
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	18.64 metres

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b)

s.20(1)(c)

	Contribution for Use:	
	Contribution to Activities:	
	Quota in percentage TAC:	0.250671%
(b)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FL 07
	Species of Fish:	halibut
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	20.19 metres
	Contribution for Use:	
	Contribution to Activities:	
	Quota in percentage TAC:	0.216116%
(c)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FL 22
	Species of Fish:	halibut
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	18.90 metres
	Contribution for Use:	
	Contribution to Activities:	
	Quota in percentage TAC:	0.108009%
(d)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FZN 17
	Licence area:	
	Species of Fish:	rockfish

	Maximum vessel length (MVL):	12.85 metres
	Contribution for Use:	
	Contribution to Activities:	
(e)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FS 08
	Species of Fish:	shrimp
	Fishing gear type:	trawl
	Maximum vessel length (MVL):	10.75 metres
	Contribution for Use:	
	Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel, representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

s.19(1)

Name	Position Title	Phone Number
[redacted]		

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Wade Larson	Field Supervisor, Terrace Detachment	250-615-5357

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO and the Aboriginal Fishery Guardians will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval.*

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 1 day of February, 2018
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

KITSUMKALUM INDIAN BAND, also known as Kitsumkalum First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 26
Schedule 7	Progress Report / Year End Report	Page 27
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 33
Schedule B	Communal Commercial Fisheries Access	Page 36
Schedule C	Aboriginal Fishery Guardians	Page 39
Schedule D	Monitoring and Enforcement Protocol	Page 42

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND NINETY-FIVE THOUSAND, SEVEN HUNDRED AND THIRTY-FIVE DOLLARS ($195,735.00) in Fiscal Year 2017-2018 amount of up to ONE HUNDRED AND SIX THOUSAND, TWO HUNDRED AND THIRTY-FIVE DOLLARS ($106,235.00) in

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Fiscal Year 2018-2019 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding

s.20(1)(b) [redacted] in Fiscal Year 2017-2018 and

s.20(1)(c) [redacted] in Fiscal Year 2018-2019, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2019.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:
Kitsumkalum First Nation
P.O. Box 544
Highway 16 West
Terrace, BC
V8G 4B5

Attention: Don Roberts, Chief Councillor

Telephone: (250) 635-1718
Facsimile: (250) 635-6196

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.1 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Year 2017-2018 and 2018-2019.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2017, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2017, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.2 Multi-year Work Plan

1.2.1 The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

s.20(1)(b)
s.20(1)(c)

Fiscal Year 2017-2018	Fiscal Year 2018-2019
[redacted]	[redacted]

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Description: The Fisheries Program Manager will be responsible for the development of Kitsumkalum Fisheries Program and Operations, management and continued development of Kitsumkalum's Aboriginal Fisheries Strategy (AFS) operations. Under the general direction of the Kitsumkalum Band Council, the Fisheries Program Manager will assist with addressing referrals and building capacity to carry out various fisheries and environmental studies. **Expected Results:** 1. Under the direction of the Kitsumkalum Band Council, the Fisheries Program Manager will lead and coordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization. 2. Direct and supervise staff, coordinate and manage all activities pertaining to the Organization's fisheries program. 3. Meet with neighbouring First Nations to discuss fisheries-related issues of mutual interest, including aquaculture, food fishing in overlap area, data sharing and marine use planning. 4. Provide quarterly updates at Kitsumkalum community meetings to review and update the community with the fisheries-related issues, including commercial operations, ATP licences and conservation issues. 5. The Organization will attend meetings of the North Coast Skeena First Nations Stewardship Society (NCSFNSS) and other process-specific meetings with DFO, as needed and available. 6. Facilitate and coordinate the catch-monitoring and enforcement program.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: 1. The Organization's catch monitoring and record keeping for harvests under the Food, Social and Ceremonial Fisheries will be conducted throughout the fishing season. Catch information will be shared with DFO in-season with finalized totals in the fall. **Expected Results:** 1. All data collected by the Aboriginal Monitors will be submitted monthly to DFO NC

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
Aboriginal Affairs Advisor. 2. Any incidents will be documented and reported to the Kitsumkalum Aboriginal Fishery Guardian. The Aboriginal Fishery Guardian will fill in the proper required documentation and submit it to the DFO C&P staff in Terrace.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY
Description: 1. The Organization's Aboriginal Fishery Guardian Program will monitor and patrol the local area and manage all activities pertaining to their fisheries program in support of management and control of the FSC Fishery. This will assist in building a stronger relationship with DFO C&P, the Organization and other First Nations. **Expected Results:** 1. A working relationship is maintained within the different sectors in DFO, C&P, RCMP and other First Nations. 2. Compliance with fishery openings and closures and other regulations is achieved. 3. A training program will be developed to match the long-term needs of the Aboriginal Fishery Guardian position.

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Year 2017-2018

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

s.20(1)(b)
s.20(1)(c)

Annual Work Plan for Fiscal Year 2017-2018
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Key Element A / Activity 1: Kitsumkalum Fisheries Program Management **ESTIMATED COST** [redacted] Reporting to the Band Manager, the Fisheries Program Manager is responsible for the development of Kitsumkalum Fisheries Program and Operations, management and continued development of Kitsumkalum's Aboriginal Fisheries Strategy (AFS) operations. interest, including aquaculture, food fishing in overlap area, data sharing and marine use planning.

4. Provide quarterly updates at Kitsumkalum community meetings to review and update the community with the fisheries-related issues, including commercial operations, ATP licences and conservation issues.
5. The Organization will attend meetings of the North Coast Skeena First Nations Stewardship Society (NCSFNSS) and other process-specific meetings with DFO, as needed and available.
6. Facilitate and coordinate the catch-monitoring and enforcement program.
7. Develop project planning forms and data entry procedures jointly with DFO – Stock Assessment in the Prince Rupert office. The Organization's Fisheries Program Manager will enter all data into the catch monitoring database.
8. Submit detailed Progress Reports as required by this Agreement, including catch statistics for the FSC Fishery, activity and financial reports.

Expected Results:

1. Project budgets and operational workplans are completed and agreed to by DFO and the Organization to facilitate the completion of the AFS Agreement.
2. Community is well informed regarding fisheries related issues and the Organization is able to provide input within relevant fisheries management decision-making processes.
3. Standardized catch monitoring data forms will be agreed upon by the Organization and DFO.
4. The Fisheries Program Manager will ensure that all fisheries issues are communicated to DFO, direct and supervise staff, coordinate and manage all activities pertaining to the Organization's fisheries program.

Products/Reports to provide to DFO:

1. A list of all meetings attended by staff, including staff attendee names, meeting dates, meeting locations and purpose will be summarized in the Progress and Year End Reports.
2. A database containing the catch number by species/date/week and summary of licences will be included in the Year End Report.
3. Status report of activities and financial summary reports as per Schedule 7 and any supplementary information (financial or other) requested by DFO in relation to the Agreement.

s.20(1)(b)

s.20(1)(c)

Key Element A / Activity 2: Lower Skeena River Education and Stewardship Program and Creel Survey

ESTIMATED COST

Task Description:

1. Surveys will take place beginning on July 15 and last until September15. Estimates will be stratified into three reaches and interviews will be conducted at local fishing areas using both roving and access point surveys.
2. Education and stewardship outreach will take place during the Lower Skeena creel survey that will also provide an excellent opportunity for Kitsumkalum First Nation fisheries personnel to interact with anglers on the Lower Skeena River, and provide them with feedback from previous surveys. The First Nations monitoring presence will also encourage compliance with fisheries regulations regarding gear, retention-species and area specific closures.
3. Monthly effort estimates and monthly catch estimates for all salmon species in the sport fishery on the waters of the Skeena River (downstream of Terrace) will be provided to DFO, with special emphasis on the chinook salmon catch estimates.
4. Weekly updates will be provided to DFO to assist with in-season management by Wednesday of each week.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2017-2018

5. Technicians will record the incidence of adipose fin clips of chinook salmon and the collection of scales for stock analysis of chinook salmon.

Expected Results:

1. Education and stewardship outreach will be conducted by Kitsumkalum Fisheries with anglers on the Lower Skeena River.
2. Scale samples will be collected for stock assessment analysis.
3. Estimates collected by the monitors will be submitted monthly to DFO resource management in Prince Rupert.
4. Weekly updates will be provided during in-season management calls between DFO and North Coast First Nations.

Products/Reports to provide to DFO:

1. A summary Catch Report will be submitted to the DFO recreational fishery manager by November 1.
2. A summary of scale sample analysis will be provided to DFO stock assessment and will be included in the Year End Report.
3. The summary catch report and a summary of education and stewardship outreach will be included with the Year End Report.

s.20(1)(b)

s.20(1)(c)

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Catch Reporting

ESTIMATED COST

Task Description:

1. The Organization's catch monitoring and record keeping for harvests under the Food, Social and Ceremonial Fisheries will be conducted by two Aboriginal Monitors with assistance from the Fisheries Coordinator.
2. The Aboriginal Monitors will conduct separate checks along the Skeena River starting June 2017 to the end of September 2017; interviews will be done with First Nations participating in the harvest of salmon resources for FSC purposes.

Expected Results:

1. All data collected by the Aboriginal Monitors will be submitted monthly to DFO NC Aboriginal Affairs Advisor.
2. Any incidents will be documented and reported to the Kitsumkalum Aboriginal Fishery Guardian. The Aboriginal Fishery Guardian will fill in the proper required documentation and submit it to the DFO C&P staff in Terrace.

Products/Reports to provide to DFO:

1. A summary Catch Monitoring Report will be submitted with the Year End Report.

KEY ELEMENT C: ECONOMIC OPPORTUNITIES

KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Key Element D / Activity 1: Aboriginal Fishery Guardian Program

ESTIMATED COST

The Organization's Aboriginal Fishery Guardian Program will monitor and patrol the local area and manage all activities pertaining to their fisheries program in support of management and control of the FSC Fishery. This will assist in building a stronger relationship with DFO C&P, the Organization and other First Nations.

Task Description:

1. The Organization will work with the local DFO C&P staff to develop an enforcement protocol that will outline their roles, responsibilities, and relationship.
2. The Organization's Aboriginal Fishery Guardian will do joint patrols with other enforcement agencies (DFO and RCMP) and other First Nations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2017-2018
3. The Organization's Aboriginal Fishery Guardian will keep detailed logs of all expenditures and document activity regarding the FSC and Recreational fishery activity on the Skeena River and other rivers and bodies of water monitored by DFO. 4. Support monitoring and enforcement of fishing regulations within the Organization's local claimed traditional harvest area. 5. The Organization's Aboriginal Fishery Guardian Program will develop a training program as required to meet its obligation to ensure that staff are trained and qualified to undertake the duties in conjunction with DFO C&P personnel, the Fisheries Program Manager and Band Manager. Consultant input, if obtained, will be appropriate and match long-term needs of the Aboriginal Fishery Guardian position. **Expected Results:** 1. A working relationship is maintained within the different sectors in DFO, C&P, RCMP and other First Nations. 2. Compliance with fishery openings and closures and other regulations is achieved. 3. A training program will be developed to match the long-term needs of the Aboriginal Fishery Guardian position. **Products/Reports to provide to DFO:** 1. A summary of Aboriginal Fishery Guardian Program activities will be submitted with the Progress and Year End Reports. 2. A summary of the training program developed for the Aboriginal Fishery Guardian will be included in the Progress and/or Year End Report.

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, A/Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year 2017-2018

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$195,735.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 7

PROGRESS REPORT / YEAR END REPORT

Fiscal Year:	2017-2018
Name and Address of Organization:	Kitsumkalum First Nation P.O. Box 544 Highway 16 West Terrace, BC V8G 4B5
Agreement Number:	AFS2017-MLT-1717-0
Amount of Approved Contribution for Fiscal Year:	Total: [redacted] DFO: $195,735.00 Organization: [redacted]

Reporting period: from: _____ to: _____

Type of report:	**Purpose of report:**
☐ Progress Report ☐ Year End Report	☐ Request for advance payment * ☐ Request for reimbursement ☐ Release holdback ☐ Other: _____ * Also submit a revised cash flow projection of Eligible Costs in the form set out in Schedule 6 of the Agreement.

Section 2 –Products/Reports and Actual Results

Activities (from section 3 of Schedule 5)	**Progress or Year-End/Final Report on Status (in measurable terms)**
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Kitsumkalum Fisheries Program Management **Expected Results:** 1. Project budgets and operational workplans are completed and agreed to by DFO and the Organization to facilitate the completion of the AFS Agreement.	**Actual Results in Narrative Format (enter text):**
2. Community is well informed regarding fisheries related issues and the Organization is able to provide input within relevant fisheries management decision-making processes.	
3. Standardized catch monitoring data forms will be agreed upon by the Organization and DFO.	
4. The Fisheries Program Manager will ensure that all fisheries issues are communicated to DFO, direct and supervise staff, coordinate and manage all activities pertaining to the Organization's fisheries program.	
Products/Reports to provide to DFO: 1. A list of all meetings attended by staff, including staff attendee names, meeting dates, meeting locations and purpose will be summarized in the Progress and Year End Reports.	**Products/Reports:**
2. A database containing the catch number by species/date/week and summary of licences will be included in the Year End Report.	
3. Status report of activities and financial summary reports as per Schedule 7 and any supplementary information (financial or other) requested by DFO in relation to the Agreement.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Activity A-2: Lower Skeena River Education and Stewardship Program and Creel Survey **Expected Results:** 1. Education and stewardship outreach will be conducted by Kitsumkalum Fisheries with anglers on the Lower Skeena River.	**Actual Results in Narrative Format (enter text):**
2. Scale samples will be collected for stock assessment analysis.	
3. Estimates collected by the monitors will be submitted monthly to DFO resource management in Prince Rupert.	
4. Weekly updates will be provided during in-season management calls between DFO and North Coast First Nations.	
Products/Reports to provide to DFO: 1. A summary Catch Report will be submitted to the DFO recreational fishery manager by November 1.	**Products/Reports:**
2. A summary of scale sample analysis will be provided to DFO stock assessment and will be included in the Year End Report.	
3. The summary catch report and a summary of education and stewardship outreach will be included with the Year End Report.	
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Catch Reporting: **Expected Results:** 1. All data collected by the Aboriginal Monitors will be submitted monthly to DFO NC Aboriginal Affairs Advisor.	**Actual Results in Narrative Format (enter text):**
2. Any incidents will be documented and reported to the Kitsumkalum Aboriginal Fishery Guardian. The Aboriginal Fishery Guardian will fill in the proper required documentation and submit it to the DFO C&P staff in Terrace.	
Products/Reports to provide to DFO: 1. A summary Catch Monitoring Report will be submitted with the Year End Report.	
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY	
Activity D-1: Aboriginal Fishery Guardian Program **Expected Results:** 1. A working relationship is maintained within the different sectors in DFO, C&P, RCMP and other First Nations.	**Actual Results in Narrative Format (enter text):**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
2. Compliance with fishery openings and closures and other regulations is achieved.	
3. A training program will be developed to match the long-term needs of the Aboriginal Fishery Guardian position.	
Products/Reports to provide to DFO: 1. A summary of Aboriginal Fishery Guardian Program activities will be submitted with the Progress and Year End Reports.	**Products/Reports:**
2. A summary of the training program developed for the Aboriginal Fishery Guardian will be included in the Progress and/or Year End Report.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

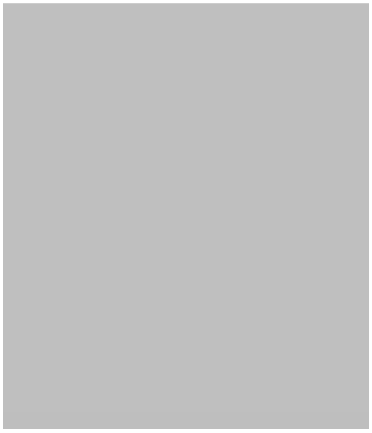
be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

s.20(1)(b)
s.20(1)(c)



2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Disposition of Fish

4.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

4.2. For greater certainty, subsection 4.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

5. Designation to Fish

5.1. No individual other than a designated individual may participate in the FSC Fishery.

5.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Kitsumkalum First Nation will serve as the Member's

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

designation document.

5.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

5.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Amy Wakelin, Aboriginal Affairs Advisor at amy.wakelin@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

5.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

5.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

5.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

6. Restrictions to, Withdrawal of or Amendment of Designations

6.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

6.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

7. Responsibilities of the Organization

7.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

7.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, the Organization must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, the Organization will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6. The Organization may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7. The Organization may designate in writing all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Organization will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2. Where the Organization makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(b) s.20(1)(c)

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL 31
Species of Fish:	halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	18.64 metres
Contribution for Use:	
Contribution to Activities:	
Quota in percentage TAC:	0.250671%

(b)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL 07
Species of Fish:	halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	20.19 metres
Contribution for Use:	
Contribution to Activities:	
Quota in percentage TAC:	0.216116%

(c)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FL 22
Species of Fish:	halibut
Fishing gear type:	hook and line
Maximum vessel length (MVL):	18.90 metres
Contribution for Use:	
Contribution to Activities:	
Quota in percentage TAC:	0.108009%

(d)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FZN 17
Licence area:	
Species of Fish:	rockfish
Fishing gear type:	hook and line
Maximum vessel length (MVL):	12.85 metres
Contribution for Use:	
Contribution to Activities:	

(e)

Program:	Allocation Transfer Program (ATP)
Licence eligibility number:	FS 08
Species of Fish:	shrimp
Fishing gear type:	trawl
Maximum vessel length (MVL):	10.75 metres
Contribution for Use:	
Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(g) interacting with Members engaged in Fishing, individuals engaged in commercial and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

(a) will not use physical contact or force for the purpose of detaining any individual;

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel, representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

s.19(1)

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Wade Larson	Field Supervisor, Terrace Detachment	250-615-5357

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO and the Aboriginal Fishery Guardians will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 14 day of September 20 15
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

LAKE BABINE NATION, also known as Lake Babine First Nation (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the Constitution Act, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 26
Schedule 7	Progress Report / Year End Report	Page 27
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 31

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to FOUR HUNDRED AND SIXTY-FIVE THOUSAND, FIVE HUNDRED DOLLARS ($465,500.00) in Fiscal Year 2015-2016 and an amount of up to FOUR HUNDRED AND SIXTY-FIVE THOUSAND, FIVE HUNDRED DOLLARS ($465,500.00) in Fiscal Year 2016-2017 and an amount of up to FOUR HUNDRED AND SIXTY-FIVE THOUSAND, FIVE HUNDRED DOLLARS ($465,500.00) in Fiscal Year 2017-2018 and an amount of up to FOUR HUNDRED AND SIXTY-FIVE THOUSAND, FIVE HUNDRED DOLLARS ($465,500.00) in Fiscal Year 2018-2019 and an amount of up to FOUR HUNDRED AND SIXTY-FIVE THOUSAND, FIVE HUNDRED DOLLARS ($465,500.00) in Fiscal Year 2019-2020 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2020.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Lake Babine Nation
P.O. Box 879
Burns Lake, BC
V0J 1E0

Attention: Wilfred Adam, Chief

Telephone: (250) 692-4700
Facsimile: (250) 692-4790

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-363-1647
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representatives who execute this Agreement on behalf of the Organization have authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2015-2016, 2016-2017 2017-2018, 2018-2019, and 2019-2020.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2015, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2015, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the Interest and Administrative Charges Regulations until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.1. The Organization's Fisheries Program Mission Statement is "***To Protect and conserve the fisheries resources and habitats within the Lake Babine Nation's Traditional Territory for the benefit of all members present and future***". The Organization Fisheries Program (Ned'u'ten Fisheries) was created in 1991 under the Aboriginal Fisheries Strategy. The Fisheries Program is fully funded by DFO. The purpose of the program is to co-manage salmonid stocks within the Organization's asserted area. The Organization values the fisheries resource within their asserted area and therefore, actively participates in all aspects of fisheries management.

Program Objectives:

1. To ensure productivity and viability of the fisheries resources for Future generations.
2. To actively participate in Fisheries Management decisions.
3. To monitor the health and status of salmonids, particularly Wild Babine Lake Sockeye and their habitat within the Organization's asserted area.
4. To actively participate in proposed projects that may have impact on fisheries resources.
5. To monitor and research uncertainties such as Climate Change and Proposed Developments on Fish and Fish habitat.

The Organization's Fisheries Program projects include: Stock Assessments, Stream Assessments, Access Monitoring, Habitat Monitoring, Food, Social and Ceremonial Catch Monitoring and Recreational Sport Fisheries Monitoring.

1.2. Multi-year Work Plan

1.2.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities				
Fiscal Year 2015-2016	**Fiscal Year 2016-2017**	**Fiscal Year 2017-2018**	**Fiscal Year 2018-2019**	**Fiscal Year 2019-2020**
$465,500.00	$465,500.00	$465,500.00	$465,500.00	$465,500.00

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Description: The Organization is comprised of 5 communities (Woyenne, Donald's Landing/Pinkut Lake, Tachet, Old Fort and Fort Babine) are spread out over 260km, from Burns Lake to Fort Babine which is 120kms from Smithers Lake. The Organization's Fisheries program is responsible for managing and implementing the AFS Field projects, FSC Fishery, budgeting and planning, reporting and data management. The Organization's leadership and fisheries staff coordinate the various fisheries activities and provide direction regarding the various projects while ensuring program stability and cost effective management. Regular community meetings are held relating to fisheries and fisheries management; and for the purposes of providing and receiving information, and planning management and harvesting strategies.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
The Organization's activities under this Agreement are supported by the program operations staff consisting of a Program Manager (PM), Fisheries Administrative Assistant (FAA) and Contract Biologist(s) (CBs). The PM and CBs ensure that the various projects are carried out as planned, completed within the allotted timeframes and that data collected is provided to DFO staff as required. The PM, reporting to the Organization's Executive Director, oversees all the project and activities, and will spend various amounts of time across each individual project. The Organization provides administrative support services for all the projects under this AFS Agreement – additional support is provided on an as needed basis. The Organization staff will receive various training and this will include Workers Compensation Board (WCB) requirements for occupational health and safety (OHS) needs, and other relevant technical training. Fisheries Technicians will conduct walks/surveys/flights of approximately 20 streams that are known salmon spawning tributaries to Babine Lake and the upper Babine River, and enumerate and document numbers of spawning salmon. The Organization technicians will monitor and collect information from the sport-kill fishery for sockeye salmon in the vicinity of the Fulton River confluence with Babine Lake. **Expected Results:** 1. A Comprehensive Fisheries Agreement will be negotiated. 2. Agreement activities and obligations effectively delivered. 3. Financial records maintained and reporting completed, as required. 4. Participation in various fishery management planning processes and forums. 5. One newsletter will published and distributed to all 5 communities. 6. Training will provide Organization members with the expertise to undertake technical tasks with competence. Safety courses will provide knowledge that allows employees to do their jobs, particularly in remote areas, with minimized risk to their safety. 7. Comprehensive spawner escapement data for tributary streams to Babine Lake. 8. Monitoring and redress of any fish passage/stream blockage issues. 9. Determination of angler catch and effort statistics from the sockeye sport-kill fishery.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: The Organization will manage and monitor FSC (salmon) fishing activities within their area. Monitors will seek and document catch information via interviews with FSC fishers. **Expected Results:** 1. Up to 6 individuals will be contracted by the Organization in support of completing catch monitoring and reporting, one in a supervisory capacity. 2. In-season catch information will be provided to the PM who in turn will transmit the information to DFO.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Activities

3.1. Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

s.20(1)(c)

Key Element A / Activity 1: Lake Babine Aquatic Resource Management Structure

ESTIMATED COST [redacted]

The Organization is comprised of 5 communities (Woyenne, Donald's Landing/Pinkut Lake, Tachet, Old Fort and Fort Babine), spread out over 260km from Burns Lake to Fort Babine which is 120kms from Smithers. The Organization's Fisheries program is responsible for managing and implementing the AFS Field projects, FSC Fishery, budgeting and planning, reporting and data management. The Organization's leadership and Fisheries staff coordinate the various fisheries activities and provide direction regarding the various projects while ensuring program stability and cost effective management. Regular community meetings are held relating to fisheries and fisheries management; and are for the purposes of providing and receiving information, and planning management and harvesting strategies.

The Organization's activities under this Agreement are supported by the program operations staff consisting of a Program Manager (PM) and Contract Biologist(s) (CBs). The PM and CBs ensure that the various projects are carried out as planned, completed within the allotted timeframes and that data collected is provided to DFO staff as required. The PM, reporting to the Executive Director, oversees all the projects and activities, and will spend various amounts of time across each individual project. The Organization provides administrative support services for all the projects under this AFS Agreement and additional support is brought on an as needed basis.

Task Description:

1. Fisheries program staff will facilitate negotiations and discussions leading to a Comprehensive Fisheries Agreement, and serve as the primary advisors to the Chief and Council on such matters.
2. Fisheries program staff will maintain involvement in community-based, bi-lateral and multi-lateral fisheries related meetings and forums.
3. Fisheries program staff will co-ordinate the various fishery activities of the Organization and will manage the various projects.
4. Technical expertise provided by the PM and CBs will provide the Organization with additional capacity to seek other funding to support their fishery related Activities.
5. A fisheries newsletter will be produced, copied and distributed
6. The Organization's financial administrative staff will provide fiscal tracking of expenditures for all projects and assist with budget management and financial administration for the purposes of maintaining the reporting obligations of the AFS program, and its auditing requirements.

Expected Results:

1. A Comprehensive Fisheries Agreement will be negotiated.
2. Work with DFO Stock Assessment in the management of Lake Babine Nation salmon.
3. Financial records maintained and reporting completed, as required.
4. Participation in various fishery management planning processes, meetings and forums.
5. One newsletter will be published and distributed to all 5 communities.

Products/Reports to provide to DFO:

1. Reporting as per Agreement terms including a Progress Report, and a Final Report submitted to DFO within 90 days of end of Agreement.
2. Record of fisheries-related meetings attended for the reporting periods which will include the subject of meeting, date, Organization members who attended, and location.
3. 1 community fisheries newsletter will be submitted in the Year End Report
4. An Audited Financial Statement in a form acceptable to DFO with respect to all financial transactions related to the Contribution (including financial transactions from the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

s.20(1)(c)

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

Organization) once complete.

Key Element A / Activity 2: Training

ESTIMATED COST [redacted]

Task Description:

1. The Organization staff will receive various training throughout the year. This will include WCB requirements for occupational health and safety (OHS) needs. Other relevant capacity development courses will be provided as required. Training opportunities may include:
   - Swift-water rescue
   - First aid courses
   - Small boating operation courses
   - Bear safety training
   - UTV and ATV operations training
   - Flat-water rescue
   - Computer skills
   - GPS skills
   - Supervisory training
   - Management training
   - Chainsaw safety

Expected Results:

1. Training will provide Organization members with the expertise to undertake technical tasks with competence. Safety courses will provide knowledge that allows employees to do their jobs, particularly in remote areas, with minimized risk to their safety.

Products/Reports to provide to DFO:

1. The Organization will include details of the type of training received by staff, including course names, dates and number of attendees.

Key Element A / Activity 3: Babine Tributary Spawner Escapement

ESTIMATED COST [redacted]

The Babine Tributary Spawner Escapement work is important to both DFO Resource Management and Stock Assessment, who rely on the escapement data when doing run-reconstruction at year end. Technicians will conduct walks/surveys/flights of approximately 20 streams that are known salmon spawning tributaries to Babine Lake and the upper Babine River to enumerate and document numbers of spawning salmon.

Task Description:

1. Fisheries Technicians will conduct walks/surveys from 10-20 streams that are known salmon spawning tributaries to Babine Lake and the upper Babine River. Organization personnel will also enumerate remote streams, including Sutherland/Shass, Tahlo and Morrison, via helicopter surveys and/or vehicle/ATV/boat surveys. Surveys will be conducted by technicians according to standard methodology. Surveys will be conducted from July to October and will include observations of sockeye (adult and jack), chinook, coho and pink salmon.
2. Crews will maintain passage conditions for spawning fish into various tributary streams and monitor various habitat conditions.
3. Data will be managed by the Organization and entered into the appropriate access database with the assistance and direction of DFO staff.

Expected Results:

1. Three stream crews and Supervisor(s) will be hired to conduct sockeye salmon spawner escapement enumeration for tributary streams to Babine Lake.
2. Maintenance and operation of equipment and boats used to conduct spawner surveys.
3. Monitoring and redress of any fish passage/stream blockage issues.
4. Entry of escapement data into appropriate DFO databases.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year: 2015-2016 and 2016-2017

s.20(1)(c)

Products/Reports to provide to DFO:

1. Summary reporting on streams enumerated included in the Year End Report.
2. Data submitted to DFO Stock Assessment in time to be used for Post Season Review.

Key Element A / Activity 4: Fulton Sockeye Recreational Creel Survey

ESTIMATED COST

The Organization will monitor and collect information from the sport-kill fishery for sockeye salmon in the vicinity of the Fulton River confluence with Babine Lake when additional funding can be secured from other sources.

Task Description:

1. The Organization will monitor and collect information from the sport-kill fishery for sockeye salmon in the vicinity of the Fulton River confluence with Babine Lake.
2. The Organization will monitor the fishery and collect catch and effort information from anglers.

Expected Results:

1. Determination of angler catch and effort from the sockeye sport-kill fishery.

Products/Reports to provide to DFO:

1. Creel Report (when activity takes place) appended to Year End Report.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Catch Monitoring Project

ESTIMATED COST

The Organization will manage and monitor FSC (salmon) fishing activities within their asserted area. Monitors will seek and document catch information via interviews with FSC fishers.

Task Description:

1. The Organization Monitors/Technicians will issue fish transportation permits for salmon food fishing activity and document the number of salmon captured during fishing activities by the Organization's members and other designated individuals.
2. Catch monitoring activities will be conducted up to a total of 6 weeks.
3. FSC monitors will submit all catch data collected to supervisors.

Expected Results:

1. The Organization's individuals will be hired seasonally by the Organization in support of completing catch monitoring and reporting.
2. Final catch information will be provided to management staff who will transmit the information to DFO by November 15.

Products/Reports to provide to DFO:

1. FSC catch information will be submitted to DFO staff in Smithers and Prince Rupert by November 15 of each year.
2. Catch monitoring summary will be provided in the Year End Report.

KEY ELEMENT C: ECONOMIC OPPORTUNITIES

KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony, Resource Manager at Melanie.anthony@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

s.20(1)(c)

Limited to a maximum quantity of:

[redacted]

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

4.1. [redacted]

4.2.

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Lake Babine Nation will serve as the Member's designation document.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to DFO Conservation and Protection in Smithers: Fax: (250) 847-4723 a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 16 day of December, 2015
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

METLAKATLA STEWARDSHIP SOCIETY, a Society incorporated under the *Societies Act of British Columbia* (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 16
Schedule 5	Activities	Page 18
Schedule 6	Cash Flow Projection of Eligible Costs	Page 26
Schedule 7	Progress Report / Year End Report	Page 27
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 34
Schedule B	Communal Commercial Fisheries Access	Page 38
Schedule D	Monitoring and Enforcement Protocol	Page 41

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND FIVE THOUSAND, FOUR HUNDRED AND EIGHTY-TWO DOLLARS ($105,482.00) in Fiscal Year 2015-2016 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding of [redacted] in Fiscal Year 2015-2016, which results from commercial opportunities described in Schedule B.

s.20(1)(c)

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2016.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Metlakatla Stewardship Society
P.O. Box 459
Prince Rupert, BC
V8J 3R2

Attention: Ross Wilson, Executive Director

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Attention:	Regional Manager, Aboriginal Fisheries Strategy
Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.1 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization warrants that it is a society duly incorporated and in good standing under the applicable laws of Canada or of a province or a territory of Canada, as the case may be, and will remain in good standing under those laws at all times during the term of this Agreement.

12.5. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"**Other Entity**" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in [list months] of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2015, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2015, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

a) travel and related expenses for contracted professional service providers or other non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2015-2016

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2015-2016
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Metlakatla Fisheries Program (MFP)

ESTIMATED COST

The Organization will provide support to the Metlakatla First Nation (MFN) with annual planning, strategic planning and budgeting. The Organization has responsibilities to manage the lands, waters and resources within Metlakatla asserted territory by providing strategic direction to the allocated programs within the Stewardship Office.

The Organization comprises of the following programs:

- Aquatics (includes fisheries)
- Lands (includes referrals)
- Marine and Land Implementation
- Culture & Heritage
- Communication
- Environmental Assessments

The Organization Executive Director, Ross Wilson oversees the Stewardship program, which includes the fishery program (MFP) and Agreement with DFO.

MFP staff includes:

- Aquatics Manager/MFP Manager;
- Senior Fisheries Technician and;
- Fisheries Technician

The Aquatics Manager/MFP Manager will direct the program and is responsible for the fisheries program, including reporting and financial management. The Senior Fisheries Technician will assist the Aquatics Manager with reporting and financial management, assist with program development and implementation, and produce accurate AFS narrative and financial progress reports. The Fisheries Technician will assist with the administration and field work. Fifty percent of all wages as listed in Table 4 for the MFP Manager, Senior Fisheries Technician and Fisheries Technician will be covered under the AFS budget and the other fifty percent will be covered by ATP revenues.

MFP staff will carry-out program development, work planning, consultations and negotiations of the AFS agreement and maintain dialogue and co-management initiatives between DFO and the Organization. MFP is responsible for managing the Organization's FSC Fishery; implementing AFS field programs and data management. The Organization provides administrative support to Activities under this Agreement and aids the Program

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016

Manager with the financial management component of the Agreement, including the provision of office space, supplies, utilities, and storage facilities.

The Program Manager, with the assistance of the Senior Fisheries Technician and Fisheries Technician, will be responsible for overseeing and co-ordinating the various fisheries activities under this Agreement and provides direction regarding the various activities while ensuring program stability and cost effective management. The Organization's activities under this Agreement are supported by program operations staff consisting of the Senior Fisheries Technician and Fisheries Technician. The program's staff will assist the Manager in facilitating training and development of fisheries staff operational plans, implementing field programs, budgeting, planning, reporting and data management.

Task Description:

1. The Manager and Senior Fisheries Technician will together co-ordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. The Manager and Senior Fisheries Technician will maintain regular communication with DFO to review, update or renew various schedules of the AFS Agreement. This may include communal licensing, upcoming fisheries, and updating Conservation & Protection plans.
3. Participation of staff in fisheries focused resource management forums including DFO sectorial and other fishery-related meetings (e.g. on commercial and recreational fishing plans for finfish or shell fish).
4. The Organization will monitor the FSC fishery and provide food fish estimates on reports to DFO. Working with the community the Aquatics Manager/MFP Manager will coordinate and implement the catch monitoring program for various fisheries in the area including: Halibut, Salmon, Herring, Eulachon and Bivalve shellfish.
5. Staff will communicate important fisheries related information to the community and fishermen through:
   - Posting notices about Biotoxin and Sanitary Water Quality conditions, every two weeks (October 1 – March 31st), in prominent locations throughout the village, Prince Rupert Mobile Office and on the Metlakatla Governing Council website.
   - Hosting annual pre-season fisheries meeting to present MFP activities and other development in fisheries management.
   - Regular staff meetings to present updates, collect information and feedback on Agreement Activities and relevant fisheries issues internally.
6. Prepare a Progress Report and a Year End Report as required under the Agreement.

Expected Results:

1. Activity budgets and operational work plans are completed and jointly agreed to in order to facilitate the completion of a Comprehensive Fisheries Agreement between DFO and the Organization.
2. MFP will maintain regular communication with DFO. Projects are carried out in accordance with the expected results and supporting detailed work plans jointly developed by the Organization and DFO. The Manager will ensure that all fisheries issues are communicated to DFO, while ensuring MFP staff is directed in a timely manner according to project timelines. MFP staff will coordinate and manage all activities pertaining to the MFP.
3. MFP staff will participate in technical and management process, provide input into fisheries management. MFP will remain open to issues and discussions related to the FSC and Commercial fisheries (which may include: salmon, halibut, crab, prawn, bivalve and herring) that the community engages in.
4. The MFP Staff is supported to maintain required and relevant training to work safely

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016

and effectively on administrative and fisheries projects.

5. The community of Metlakatla will be informed and updated on fisheries issues relevant to their FSC needs as well as other issues related to Communal Commercial and Commercial Fisheries.
6. Financial records are maintained and reporting is completed in a timely manner.

Products/Reports to provide to DFO:

1. A Progress Report and a Year End Report will be produced as requirements of the negotiated CFA, in addition to any project reports as described in the Agreement.
2. Provide catch monitoring plan and FSC catch estimate reports to the DFO Resource Manager as outlined in the Agreement and/or communal licence. Updated 2015-2016 Community Harvest Plan for Bivalves.
3. Copies of bulletins & notices will be provided in the Year End Report.
4. Documentation of all meeting- related activities attended/hosted shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items and dates.
5. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial and other) requested by DFO in relation to the CFA.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Food Fish Policy Development and Implementation

ESTIMATED COST

This project's intention is to develop a policy which serves to outline how the Organization will manage their variety of FSC harvests. This policy will cover seasonal timings, who can fish and where, and policy for non-band members fishing in Metlakatla asserted territory under Metlakatla designation.

The Organization will form a FSC Policy Committee to assist with the development and implementation of their FSC Policy which will guide FSC Management. The committee members will receive payments for attendance at meetings.

MFP will hold a one day community meeting to report out to the membership about the FSC policy and to determine FSC needs and requirements.

Task Description:

1. Metlakatla Fisheries staff will travel to Bella Bella for 3 – 5 days and learn about their processes of developing catch monitoring plans. Metlakatla Fisheries staff will then assemble a committee to help develop a FSC Policy which outlines procedure of harvesting various species for FSC purposes.

Expected Results:

1. MFP will make this document available to all membership to help answer any questions that may arise as to procedure around FSC fishing within Metlakatla asserted territory.

Products/Reports to provide to DFO:

1. In the Year End Report, MFP will provide the completed policy document.
2. A list of the dates of travel, briefings on the meetings that took place with Heiltsuk, and with the Metlakatla Food Fish Policy Committee.

Key Element B / Activity 2: Single Species (Roe-on-Kelp) Monitoring Project

ESTIMATED COST

Metlakatla Fisheries will monitor the 2016 FSC herring spawn on kelp fishery in Area 4, to ensure license conditions are being met. Metlakatla Fisheries staff will provide a vessel and

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016

field crew for two days during fiscal 2016 herring fishery season (March), to observe, record and report FSC activity. Any monitoring activities taking place after March will be added to the next year's AFS Agreement.

Task Description:

1. The primary objective of this activity is to undertake routine patrols during the herring spawning season in Area 4, and record information on vessels encountered, fishing effort, and catch.

Expected Results:

1. Data from 2016 and 2017 FSC Roe-on-kelp fishery will be recorded and entered into a database.

Products/Reports to provide to DFO:

1. MFP will provide the database to DFO Resource Management and AFS staff in Pr. Rupert in the Year End Report, with information on dates/times of patrols, number of vessels encountered, amount of roe-on-kelp harvested, and other environmental data.

Key Element B / Activity 3: FSC Sockeye Catch Monitoring of all Metlakatla and non-Tsimshian First Nations fishing (under Metlakatla designation) in the approach waters to the Skeena River (not including sub-areas 4-12 and 4-15)

ESTIMATED COST

MFP will conduct routine catch monitoring to encourage compliance with the conditions of communal licences. The fisheries staff will conduct on-grounds inspection of personal and vessel designations, observe catch methods, and monitor harvest levels. MFP operates a FSC sockeye validation and distribution program from June – September to assist with FSC needs. Through this program, sockeye are allocated to band members, and dockside validators record bycatch and sockeye catch numbers from each vessel that delivers to the program. Landing stations will be located in Metlakatla and at Metlakatla's Fisheries dock in Prince Rupert. Records of validation; such as dates, vessels, number of sockeye, and distribution to membership will be maintained.

FSC Catch Monitoring Program data will be recorded and input into excel spreadsheets. Copies of the database containing the entire season's data will be provided to the DFO North Coast – AFS Resource Manager.

Task Description:

1. The Organization, in consultation with DFO, will develop an operational plan for 2015-2016 FSC Sockeye catch monitoring.
2. The Fisheries staff will conduct on-grounds routine catch monitoring of Sockeye between June and September.
3. Catch Monitoring of FSC Harvest of Sockeye by Metlakatla Band Members and Non-Tsimshian First Nations under Metlakatla designation in the approach waters to the Skeena River.
4. Inspection of personal and vessel designations as required.
5. Record data related to Species, Catch, Gear, Locations, Timing, etc.
6. Transfer data from data sheets to database.
7. Produce Catch Calendar, food fish permits, and transport permits to assist with database management.

Expected Results:

1. FSC Sockeye Catch data for areas designated in Metlakatla's asserted traditional territory will be collected and stored in a database, copies of which will be provided to DFO AFS Manager monthly to assist in Fisheries Resource Management decision-making. Final catch numbers submitted by the middle of November (prior to Year End Report).
2. The Organization's fishery is coordinated, managed and monitored in accordance with Schedule A of this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016

Products/Reports to provide to DFO:

1. Catch and Fishery Monitoring records will be provided in electronic form to the DFO AFS Resource Manager monthly and a final copy will be submitted by mid-November.
2. Summary of 2015-16 FSC Harvests. This report will be included in the Year-End Narrative Report (Schedule 7).

Key Element B / Activity 4: FSC Monitoring (Non-Sockeye Species)

ESTIMATED COST

MFP staff will work with the DFO Resource Manager to develop a management plan to monitor FSC harvesting within the Metlakatla's local asserted area. Catch reports will be provided to the North Coast AFS Resource Manager. For Chinook, Coho, Chum, Pinks, Roe-on-Kelp, Halibut, Eulachon and Bivalves within statistical areas 3, 4 and 5, and Skeena River, all encountered harvesting will be recorded and provided to DFO North Coast AFS Resource Manager in the reports.

Task Description:

1. The Organization, in consultation with DFO, will develop a detailed operational plan for the 2015-2016 FSC catch monitoring of non-sockeye species.
2. Routine catch monitoring of non-sockeye species will occur during 2015-16. Catch monitoring of halibut, Roe on Kelp, bivalves, etc. will continue during their respective harvest seasons. Catch monitoring methodology, including number of sampling days, will be developed in consultation with DFO Resource Managers.
3. Catch monitoring of FSC harvest of non-sockeye species such as, but not limited to other salmonids, eulachon, herring, ground fish and shellfish.
4. A record of data will be maintained.
5. Non-sockeye species FSC harvest and catch data will be provided to DFO Resource Managers in electronic format.

Expected Results:

1. FSC harvest of non-sockeye catch data for areas designated in Metlakatla's Communal Licence will be collected and stored in a database, copies of which will be provided to the North Coast DFO AFS Resource Manager to assist in Fisheries Resource Management decision-making.

Products/Reports to provide to DFO:

1. DFO Resource Managers will be provided with catch or harvest numbers of quantities of non-sockeye species in electronic form in the Year End Report.
2. A progress report describing program methodology and results will be provided in electronic form to AFS Resource Manager for further distribution.
3. Salmon catch or harvest numbers will be provided by mid-November and other non-salmon species will provided in Year End Report and to Stock Assessment.
4. DFO will be provided with a report on the MFP staff field activities and a report of our catch information. Recommendations will be provided to DFO Resource Management and AFS Resource Manager from our research findings.

Key Element B / Activity 5: Storage Shed Mobilization and Vessel Repairs

ESTIMATED COST

In 2009 MFP built a dock office in Prince Rupert to assist in their fisheries related duties. Due to weight of the storage shed is causing the dock to sink, therefore the storage shed must be removed from the dock. Additionally, Metlakatla's fisheries vessels require several repairs to engines and mechanical systems.

Task Description:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2015-2016
1. To build a mobile deck to place the shed upon, remove all the materials inside, move the shed onto the mobile deck and replace all materials. Also, expired and degraded equipment must be replaced (such as flares and lifejackets). 2. Make required repairs to the vessels Metlakatla Spirit. **Expected Results**: 1. New deck to be built and placed on a boat trailer, storage shed moved from dock onto the mobile deck. 2. Motor repairs will be made to the MFP Fisheries vessel "Metlakatla Spirit". MFP relies on the program vessels for carrying out their fisheries related field work and catch monitoring programs. **Products/Reports to provide to DFO:** 1. Provide receipt(s) and invoice(s) from repairs in the Progress Report or Year End Report submitted to DFO (depending when repairs are complete). 2. In Year End Report, provide photos of shed on mobile deck after being moved and update DFO on new location of shed.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

4. Budget

4.1. Summary for Fiscal Year 2015-2016

TABLE 1 (full costing by Activity)

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year 2015-2016

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$105,482.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Section 2 –Products/Reports and Actual Results

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Metlakatla Fisheries Program (MFP) **Expected Results:** 1. Activity budgets and operational work plans are completed and jointly agreed to in order to facilitate the completion of a Comprehensive Fisheries Agreement between DFO and the Organization.	**Actual Results in Narrative Format (enter text):**
2. MFP will maintain regular communication with DFO. Projects are carried out in accordance with the expected results and supporting detailed work plans jointly developed by the Organization and DFO. The Manager will ensure that all fisheries issues are communicated to DFO, while ensuring MFP staff is directed in a timely manner according to project timelines. MFP staff will coordinate and manage all activities pertaining to the MFP.	**Actual Results in Narrative Format (enter text):**
3. MFP staff will participate in technical and management process, provide input into fisheries management. MFP will remain open to issues and discussions related to the FSC and Commercial fisheries (which may include: salmon, halibut, crab, prawn, bivalve and herring) that the community engages in.	**Actual Results in Narrative Format (enter text):**
4. The MFP Staff is supported to maintain required and relevant training to work safely and effectively on administrative and fisheries projects.	**Actual Results in Narrative Format (enter text):**
5. The community of Metlakatla will be informed and updated on fisheries issues relevant to their FSC needs as well as other issues related to Communal Commercial and Commercial Fisheries.	**Actual Results in Narrative Format (enter text):**
6. Financial records are maintained and reporting is completed in a timely manner.	**Actual Results in Narrative Format (enter text):**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. A Progress Report and a Year End Report will be produced as requirements of the negotiated CFA, in addition to any project reports as described in the Agreement.	**Products/Reports:**
2. Provide catch monitoring plan and FSC catch estimate reports to the DFO Resource Manager as outlined in the Agreement and/or communal licence. Updated 2015-2016 Community Harvest Plan for Bivalves.	**Products/Reports:**
3. Copies of bulletins & notices will be provided in the Year End Report.	**Products/Reports:**
4. Documentation of all meeting- related activities attended/hosted shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items and dates.	**Products/Reports:**
5. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial and other) requested by DFO in relation to the CFA.	**Products/Reports:**
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Food Fish Policy Development and Implementation **Expected Results:** 1. MFP will make this document available to all membership to help answer any questions that may arise as to procedure around FSC fishing within Metlakatla asserted territory.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. In the Year End Report, MFP will provide the completed policy document	**Products/Reports:**
2. A list of the dates of travel, briefings on the meetings that took place with Heiltsuk, and with the Metlakatla Food Fish Policy Committee.	**Products/Reports:**
Activity B-2: Single Species (Roe-on-Kelp) Monitoring Project **Expected Results:** 1. Data from 2016 and 2017 FSC Roe-on-kelp fishery will be recorded and entered into a database.	**Actual Results in Narrative Format (enter text):**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. MFP will provide the database to DFO Resource Management and AFS staff in Pr. Rupert in the Year End Report, with information on dates/times of patrols, number of vessels encountered, amount of roe-on-kelp harvested, and other environmental data.	**Products/Reports:**
Activity B-3: FSC Sockeye Catch Monitoring of all Metlakatla and non-Tsimshian First Nations fishing (under Metlakatla designation) in the approach waters to the Skeena River (not including sub-areas 4-12 and 4-15) **Expected Results:** 1. FSC Sockeye Catch data for areas designated in Metlakatla's asserted traditional territory will be collected and stored in a database, copies of which will be provided to DFO AFS Manager monthly to assist in Fisheries Resource Management decision-making. Final catch numbers submitted by the middle of November (prior to Year End Report).	**Actual Results in Narrative Format (enter text):**
2. The Organization's fishery is coordinated, managed and monitored in accordance with Schedule A of this Agreement.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Catch and Fishery Monitoring records will be provided in electronic form to the DFO AFS Resource Manager monthly and a final copy will be submitted by mid-November.	**Products/Reports:**
2. Summary of 2015-16 FSC Harvests. This report will be included in the Year-End Narrative Report (Schedule 7).	**Products/Reports:**
Activity B-4: FSC Monitoring (Non-Sockeye Species) **Expected Results:** 1. FSC harvest of non-sockeye catch data for areas designated in Metlakatla's Communal Licence will be collected and stored in a database, copies of which will be provided to the North Coast DFO AFS Resource Manager to assist in Fisheries Resource Management decision-making.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. DFO Resource Managers will be provided with catch or harvest numbers of quantities of non-sockeye species in electronic form in the Year End Report.	**Products/Reports:**
2. A progress report describing program methodology and results will be provided in electronic form to AFS Resource Manager for further distribution.	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
3. Salmon catch or harvest numbers will be provided by mid-November and other non-salmon species will provided in Year End Report and to Stock Assessment.	**Products/Reports:**
4. DFO will be provided with a report on the MFP staff field activities and a report of our catch information. Recommendations will be provided to DFO Resource Management and AFS Resource Manager from our research findings.	**Products/Reports:**
Activity B-5: Storage Shed Mobilization and Vessel Repairs **Expected Results:** 1. New deck to be built and placed on a boat trailer, storage shed moved from dock onto the mobile deck.	**Actual Results in Narrative Format (enter text):**
2. Motor repairs will be made to the MFP Fisheries vessel "Metlakatla Spirit". MFP relies on the program vessels for carrying out their fisheries related field work and catch monitoring programs.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Provide receipt(s) and invoice(s) from repairs in the Progress Report or Year End Report submitted to DFO (depending when repairs are complete).	**Products/Reports:**
2. In Year End Report, provide photos of shed on mobile deck after being moved and update DFO on new location of shed.	**Products/Reports:**
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

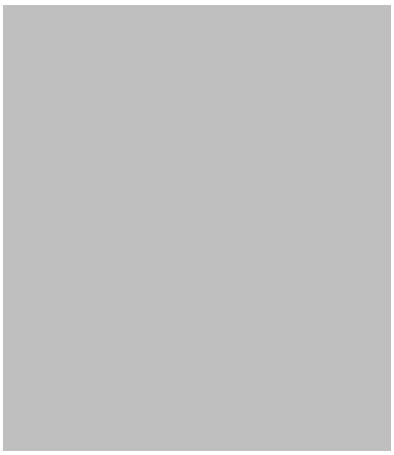
s.20(1)(c)

circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:



2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Area Where the FSC Fishery Takes Place

4.1.

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Metlakatla Stewardship Society will serve as the Member's designation document.

6.3. The Organization will designate specific Members to engage in Fishing on its behalf by issuing a designation document to each designated Member.

6.4. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.5. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Amy Wakelin at amy.wakelin@dfo-mpo.gc.ca. a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.6. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.7. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.8. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Organization holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, DFO will provide the Organization with the renewal application(s) and instructions that the Organization must follow prior to DFO issuing any Communal Commercial Licence for the licence eligibilities set out in subsection 6.1 of this Schedule.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. The Organization will identify, on each application, the designated vessel that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, the designated vessel must hold a vessel-based licence eligibility.

2.2. DFO will issue a Communal Commercial Licence to the Organization upon receipt of an application that will, among other things, identify the vessel registration number (VRN), name of the designated vessel and the name of the licence eligibility holder and vessel owner. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.3. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.4. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.5. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

3. Withdrawal or Amendment of Designation

3.1. The Organization may request to change a designated vessel with the submission of an Application for Aboriginal Communal Commercial Eligibility Re-designation signed by an authorized signing authority of the Organization and the submission of the previously issued Communal Commercial Licence and decals.

4. Responsibilities of the Organization

4.1. The Organization will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4.2. The Organization will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Organization will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Organization is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Organization is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

(a)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FR 15
	Licence area:	
	Species of Fish:	crab
	Fishing gear type:	trap
	Maximum vessel length (MVL):	12.19 metres
	Contribution for Use:	
	Contribution to Activities:	
(b)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FL 37
	Species of Fish:	halibut
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	19.99 metres
	Quota in percentage TAC:	0.174889%
	Contribution for Use:	
	Contribution to Activities:	

s.20(1)(c)

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FL 18
	Species of Fish:	halibut
	Fishing gear type:	hook and line
	Maximum vessel length (MVL):	22.86 metres
	Quota in percentage TAC:	0.172556%
	Contribution for Use:	
	Contribution to Activities:	
(d)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FW8
	Species of Fish:	prawn
	Fishing gear type:	trap
	Maximum vessel length (MVL):	12.45 metres
	Contribution for Use:	
	Contribution to Activities:	
(e)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FAG 77
	Licence area:	
	Species of Fish:	salmon
	Fishing gear type:	gillnet
	Maximum vessel length (MVL):	13.39 metres
	Contribution for Use:	
	Contribution to Activities:	
(f)	Program:	Allocation Transfer Program (ATP)
	Licence eligibility number:	FAS 16
	Licence area:	
	Species of Fish:	salmon
	Fishing gear type:	seine
	Maximum vessel length (MVL):	19.45 metres
	Contribution for Use:	
	Contribution to Activities:	

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization will work cooperatively in implementing this Schedule.

2.2. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) establish a process, where possible, for the reporting of enforcement activities and actions; and

(c) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Patricia DeMile	Detachment Supervisor	250-627-3430

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5. Seizure of Fish and Fishing Gear

5.1. DFO [and the Aboriginal Fishery Guardians] will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval.*

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 12 day of OCTOBER, 2016
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

METLAKATLA STEWARDSHIP SOCIETY, a Society incorporated under the *Societies Act of British Columbia* (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Organization is a non-profit society whose membership is entirely made up of Members of the Metlakatla First Nation;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

for the Metlakatla First Nation, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 16
Schedule 5	Activities	Page 18
Schedule 6	Cash Flow Projection of Eligible Costs	Page 25
Schedule 7	Progress Report / Year End Report	Page 26
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 32
Schedule B	Communal Commercial Fisheries Access	Page 37
Schedule D	Monitoring and Enforcement Protocol	Page 40

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND FIVE THOUSAND, TWENTY-EIGHT DOLLARS ($105,028.00) in Fiscal Year 2016-2017 on the condition that these funds will be used in accordance with the terms and

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

conditions of this Agreement.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding of [redacted] in Fiscal Year 2016-2017, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2017.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Metlakatla Stewardship Society
P.O. Box 459

Telephone:	604-363-1647
Facsimile:	604-666-2336
Email:	ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.1 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization warrants that it is a society duly incorporated and in good standing under the applicable laws of Canada or of a province or a territory of Canada, as the case may be, and will remain in good standing under those laws at all times during the term of this Agreement.

12.5. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2016, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2016, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

a) travel and related expenses for contracted professional service providers or other non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2016-2017

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2016-2017	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Metlakatla Fisheries Program (MFP)

ESTIMATED COST [redacted]

Metlakatla Stewardship Society (MSS) will provide support to the Metlakatla First Nation (MFN) with annual planning, strategic planning and budgeting. MSS has responsibilities to manage the Lands, Waters and Resources within Metlakatla asserted territory by providing strategic direction to the allocated programs within the Stewardship Office.

MSS comprises of the following programs:

- Aquatics (includes fisheries)
- Lands (includes referrals)
- Marine and Land Implementation
- Culture & Heritage
- Communication
- Environmental Assessments

MSS Executive Director, Ross Wilson oversees the Stewardship program, which includes the fishery program (MFP) and its Agreement with DFO.

MFP staff includes:

- Aquatics Manager/MFP Manager;
- Fisheries Biologist and;
- Fisheries Technician

The Aquatics Manager/MFP Manager will direct the program and is responsible for the fisheries program, including reporting and financial management. The Fisheries Biologist will assist the Aquatics Manager with reporting and financial management, assist with program development and implementation, and produce accurate AFS narrative and financial progress reports. The Fisheries Technician will assist with the administration and field work. The MFP Manager, Fisheries Biologist and Fisheries Technician wages will be covered under the AFS budget for fifty percent and the other fifty percent will be covered by ATP revenues.

MFP staff will carry out program development, work planning, consultations and negotiations of the AFS Agreement and maintain dialogue and co-management initiatives between DFO and the Organization. MFP is responsible for managing the First Nation FSC Fishery; implementing AFS field programs and data management. The Organization provides administrative support to activities under this agreement and aids the Program

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Manager with the financial management component of the Agreement, including the provision of office space, supplies, utilities, and storage facilities.

The Program Manager, with the assistance of the Fisheries Biologist and Fisheries Technician, will be responsible for overseeing and co-ordinating the various fisheries activities under this Agreement and provide direction regarding the various activities while ensuring program stability and cost effective management. The Organization's activities under this Agreement are supported by program operations staff, consisting of the Fisheries Biologist and Fisheries Technician. The program's staff will assist the Program Manager in facilitating training of fisheries staff and developing operational plans, implementing field programs, budgeting, planning, reporting and data management.

Task Description:

1. The Program Manager and Fisheries Biologist will together co-ordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. The Program Manager and Fisheries Biologist will maintain regular communication with DFO to review, update or renew various schedules of the AFS Agreement. This may include communal licensing, upcoming fisheries, and updating Conservation & Protection plans.
3. Participation of staff in fisheries focused resource management forums including DFO, sectorial and other fishery-related meetings (e.g. on commercial and recreational fishing plans for finfish or shell fish).
4. The Organization will monitor the FSC fishery and provide food fish estimates on reports to DFO. Working with the community the Aquatics Manager/MFP Manager will coordinate and implement the catch monitoring program for various fisheries in the area including: Halibut, Salmon, Herring, Eulachon and Bivalve shellfish.
5. Staff will communicate important fisheries related information to the community and fishermen through:
   - Posting notices about Biotoxin and Sanitary Water Quality conditions, reposting when conditions change (October 1 – March 31st), in prominent locations throughout the village, Prince Rupert dock Office and on the Metlakatla Governing Council website.
   - Hosting annual pre-season fisheries meeting to present MFP activities and other development in fisheries management.
   - Regular staff meetings to present updates, collect information and feedback on Agreement Activities and relevant fisheries issues internally.
6. Prepare semi-annual Progress Reports and a Year End Report as required under the Agreement.

Expected Results:

1. Activity budgets and operational work plans are completed and jointly agreed to in order to facilitate the completion of a Comprehensive Fisheries Agreement (CFA) between DFO and the Organization.
2. MFP will maintain regular communication with DFO. Projects are carried out in accordance with the expected results and supporting detailed work plans jointly developed by MSS and DFO. The Program Manager will ensure that all fisheries issues are communicated to DFO, while ensuring MFP staff is directed in a timely manner according to project timelines. MFP staff will coordinate and manage all activities pertaining to the MFP.
3. MFP staff will participate in technical and management process, provide input into fisheries management. MFP will remain open to issues and discussions related to the FSC and Commercial fisheries (which may include: salmon, halibut, crab, prawn,

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

Annual Work Plan for Fiscal Year 2016-2017

bivalve and herring) that the community engages in.

4. The MFP Staff is supported to maintain required and relevant training to work safely and effectively on administrative and fisheries projects.
5. The community of Metlakatla will be informed and updated on fisheries issues relevant to their FSC needs as well as other issues related to Communal Commercial and Commercial Fisheries.
6. Financial records are maintained and reporting is completed in a timely manner.

Products/Reports to provide to DFO:

1. Progress Reports and a Year End Report will be produced as requirements of the negotiated CFA, in addition to any project reports as described in the Agreement.
2. Provide catch monitoring plan, updated 2016-2017 Community Harvest Plan for Bivalves and FSC catch estimate reports to the DFO Resource Manager as outlined in the Agreement and/or communal licence.
3. Copies of bulletins and notices will be provided in the Year End Report.
4. Documentation of all meeting-related activities attended/hosted shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items and dates.
5. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial and other) requested by DFO in relation to the CFA.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Single Species (Herring) Monitoring Project

ESTIMATED COST

Metlakatla Fisheries will monitor the 2017 FSC herring spawn on kelp fishery in Area 4, to ensure license conditions are being met. Metlakatla Fisheries will provide a vessel and field crew for two days during fiscal 2017 herring fishery season (March), to observe, record and report FSC activity. Any monitoring activities taking place after March will be added to the next year's AFS Agreement.

Task Description:

1. The primary objective of this activity is to undertake routine patrols during the herring spawning season in Area 4, and record information on FSC vessels encountered, fishing effort, gear type, activity, harvest location, and pounds of product.

Expected Results:

1. Data from the 2017 FSC herring fishery will be recorded and entered into a database.

Products/Reports to provide to DFO:

1. MFP will provide the database to DFO in the Year End Report, with information on dates/times of patrols, number of vessels encountered, amount of herring and roe-on-kelp harvested, gear type, activity, locations, and other environmental data.

Key Element B / Activity 2: FSC Sockeye Catch Monitoring of all Metlakatla and designated non-members fishing (under Metlakatla designation) in the approach waters to the Skeena River (not including sub-areas 4-12 and 4-15)

ESTIMATED COST

MFP will conduct routine catch monitoring to encourage compliance with the conditions of communal licences. The Fisheries staff will conduct on-grounds inspection of personal and vessel designations, observe catch methods, and monitor harvest levels. MFP operates a FSC sockeye validation and distribution program from June – September to assist with FSC needs. Through this program, sockeye are allocated to band members, and dockside validators record by-catch and sockeye catch numbers from each vessel that delivers to the program. Landing stations will be located in Metlakatla and at Metlakatla's Fisheries dock

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

in Prince Rupert. Records of validation; such as dates, vessels, number of sockeye, and distribution to membership will be maintained.

FSC Catch Monitoring Program data will be recorded and input into excel spreadsheets. Copies of the database containing the entire season's data will be provided to the DFO North Coast – AFS Resource Manager.

Task Description:

1. The Organization, in consultation with DFO, will develop an operational plan for 2016 FSC Sockeye catch monitoring.
2. The Fisheries staff will conduct on-grounds routine catch monitoring of Sockeye between June and September.
3. Catch Monitoring of FSC Harvest of Sockeye by Metlakatla Band Members and Non-Tsimshian First Nations under Metlakatla designation in the approach waters to the Skeena River.
4. Inspection of personal and vessel designations as required.
5. Record data related to Species, Catch, Gear, Locations, Timing, etc.
6. Transfer data from data sheets to database.
7. Produce Catch Calendar, food fish permits, and transport permits to assist with Database Management.

Expected Results:

1. FSC Sockeye Catch data for areas designated in Metlakatla's asserted traditional territory will be collected and stored in a database, copies of which will be provided to DFO AFS Manager monthly to assist in Fisheries Resource Management decision-making. Final catch numbers submitted by November 15 (prior to final report).
2. The Organization's fishery is coordinated, managed and monitored in accordance with Schedule A of this Agreement.

Products/Reports to provide to DFO:

1. Catch and Fishery Monitoring records will be provided in electronic form to the DFO AFS Resource Manager by mid-November.
2. Summary of 2016-17 FSC Harvests. This report will be included in the Year End Report (Schedule 7).

Key Element B / Activity 3: FSC Monitoring (Non-Sockeye Species)

ESTIMATED COST

MFP staff will work with the DFO Resource Manager to develop a management plan to monitor FSC harvesting within the Metlakatla's local area. Catch reports will be provided to the North Coast AFS Resource Manager. For non-sockeye salmon species, Halibut, Eulachon and Bivalves within statistical areas 3, 4 and 5, and Skeena River, all encountered harvesting will be recorded and provided to DFO North Coast AFS Resource Manager in the reports.

Task Description:

2. The Organization, in consultation with DFO, will develop a detailed operational plan for the 2016-2017 FSC catch monitoring of non-sockeye species.
3. Routine catch monitoring of non-sockeye species will occur during 2016-2017. Catch monitoring of halibut, bivalves, etc. will continue during their respective harvest seasons. Catch monitoring methodology, including number of sampling days, will be developed in consultation with DFO Resource Managers.
4. Catch monitoring of FSC harvest of non-sockeye species such as, but not limited to other salmonids, eulachon, ground fish and shellfish.
5. A record of data will be maintained.
6. Non-sockeye species FSC harvest and catch data will be provided to DFO Resource

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

Annual Work Plan for Fiscal Year 2016-2017	
Managers in electronic format. **Expected Results:** 1. FSC harvest of non-sockeye catch data for areas designated in Metlakatla's Communal Licence will be collected and stored in a database, copies of which will be provided to the North Coast DFO AFS Resource Manager to assist in Fisheries Resource Management decision-making. **Products/Reports to provide to DFO:** 1. DFO Resource Managers will be provided with catch or harvest numbers of quantities of non-sockeye species in electronic form. A progress report describing program methodology and results will be provided in electronic form. Salmon catch or harvest numbers will be provided by mid-November and other non-salmon species will provided in Year End Report. 2. DFO will be provided with a report on the MFP staff field activities and a report of our catch information. Recommendations will be provided to DFO from our research findings.	
KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

4. Budget

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year 2016-2017

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$105,028.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Section 2 –Products/Reports and Actual Results

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Metlakatla Fisheries Program (MFP) **Expected Results:** 1. Activity budgets and operational work plans are completed and jointly agreed to in order to facilitate the completion of a Comprehensive Fisheries Agreement (CFA) between DFO and the Organization.	**Actual Results in Narrative Format (enter text):**
2. MFP will maintain regular communication with DFO. Projects are carried out in accordance with the expected results and supporting detailed work plans jointly developed by MSS and DFO. The Program Manager will ensure that all fisheries issues are communicated to DFO, while ensuring MFP staff is directed in a timely manner according to project timelines. MFP staff will coordinate and manage all activities pertaining to the MFP.	
3. MFP staff will participate in technical and management process, provide input into fisheries management. MFP will remain open to issues and discussions related to the FSC and Commercial fisheries (which may include: salmon, halibut, crab, prawn, bivalve and herring) that the community engages in.	
4. The MFP Staff is supported to maintain required and relevant training to work safely and effectively on administrative and fisheries projects.	
5. The community of Metlakatla will be informed and updated on fisheries issues relevant to their FSC needs as well as other issues related to Communal Commercial and Commercial Fisheries.	
6. Financial records are maintained and reporting is completed in a timely manner.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. Progress Reports and a Year End Report will be produced as requirements of the negotiated CFA, in addition to any project reports as described in the Agreement.	**Products/Reports:**
2. Provide catch monitoring plan, updated 2016-2017 Community Harvest Plan for Bivalves and FSC catch estimate reports to the DFO Resource Manager as outlined in the Agreement and/or communal licence.	
3. Copies of bulletins and notices will be provided in the Year End Report.	
4. Documentation of all meeting-related activities attended/hosted shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items and dates.	
5. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial and other) requested by DFO in relation to the CFA.	
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Single Species (Herring) Monitoring Report **Expected Results:** 1. Data from the 2017 FSC herring fishery will be recorded and entered into a database.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. MFP will provide the database to DFO in the Year End Report, with information on dates/times of patrols, number of vessels encountered, amount of herring and roe-on-kelp harvested, gear type, activity, locations, and other environmental data.	**Products/Reports:**
Activity B-2: FSC Sockeye Catch Monitoring of all Metlakatla and designated non-members fishing (under Metlakatla designation) in the approach waters to the Skeena River (not including sub-areas 4-12 and 4-15) **Expected Results:** 1. FSC Sockeye Catch data for areas designated in Metlakatla's asserted traditional territory will be collected and stored in a database, copies of which will be provided to DFO AFS Manager monthly to assist in Fisheries Resource Management decision-making. Final catch numbers submitted by November 15 (prior to final report).	**Actual Results in Narrative Format (enter text):**
2. The Organization's fishery is coordinated, managed and monitored in accordance with Schedule A of this Agreement.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. Catch and Fishery Monitoring records will be provided in electronic form to the DFO AFS Resource Manager by mid-November.	**Products/Reports:**
2. Summary of 2016-17 FSC Harvests. This report will be included in the Year End Report (Schedule 7).	
Activity B-3: FSC Monitoring (Non-Sockeye Species) **Expected Results:** 1. FSC harvest of non-sockeye catch data for areas designated in Metlakatla's Communal Licence will be collected and stored in a database, copies of which will be provided to the North Coast DFO AFS Resource Manager to assist in Fisheries Resource Management decision-making.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. DFO Resource Managers will be provided with catch or harvest numbers of quantities of non-sockeye species in electronic form. A progress report describing program methodology and results will be provided in electronic form. Salmon catch or harvest numbers will be provided by mid-November and other non-salmon species will provided in Year End Report.	**Products/Reports:**
2. DFO will be provided with a report on the MFP staff field activities and a report of our catch information. Recommendations will be provided to DFO from our research findings.	
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Metlakatla First Nation a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Metlakatla First Nation with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Metlakatla First Nation that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Metlakatla First Nation based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Metlakatla First Nation and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Metlakatla First Nation identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Metlakatla First Nation agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

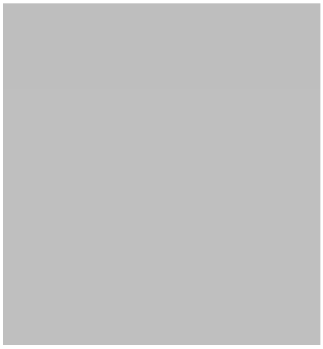
s.20(1)(c)

circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Metlakatla First Nation may engage in Fishing for the following species and quantities of Fish:



2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

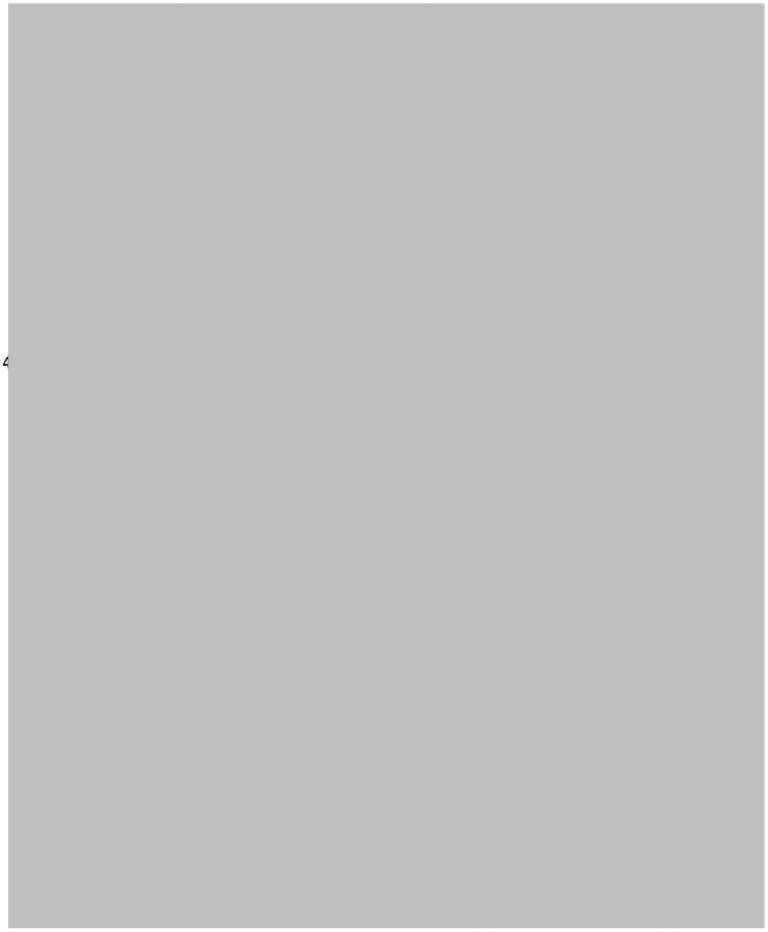
3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

4. Area Where the FSC Fishery Takes Place



Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

[redacted]

5. Disposition of Fish

5.1. The Organization and Metlakatla First Nation agree that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Metlakatla First Nation has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Metlakatla Stewardship Society will serve as the Member's designation document.

6.3. The Metlakatla First Nation will designate specific Members to engage in Fishing on its behalf by issuing a designation document to each designated Member.

6.4. The Metlakatla First Nation may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.5. Where the Metlakatla First Nation designates individuals to engage in Fishing in the FSC Fishery, it will provide to Amy Wakelin at amy.wakelin@dfo-mpo.gc.ca. a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.6. Where a designation document is issued by the Metlakatla First Nation, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.7. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

to a Fishery Enforcement Officer.

6.8. The Metlakatla First Nation will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Metlakatla First Nation may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Metlakatla First Nation will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Metlakatla First Nation has designated a vessel to engage in Fishing in the FSC Fishery, the Metlakatla First Nation may amend or withdraw that designation. Upon amending or withdrawing a designation, the Metlakatla First Nation will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Metlakatla First Nation

8.1. The Metlakatla First Nation will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Metlakatla First Nation holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, Metlakatla First Nation must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, Metlakatla First Nation will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and provide proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6. The Metlakatla First Nation may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7. The Metlakatla First Nation may designate in writing all of its Members to engage in Fishing under the Communal Commercial Licence, or all of its Members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Metlakatla First Nation will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Metlakatla First Nation may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2. Where the Metlakatla First Nation makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Metlakatla First Nation

4.1. The Metlakatla First Nation will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Metlakatla First Nation will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Metlakatla First Nation will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Metlakatla First Nation is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Metlakatla First Nation is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization will work cooperatively in implementing this Schedule.

2.2. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) establish a process, where possible, for the reporting of enforcement activities and actions; and

(c) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

s.19(1)

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
[redacted]		

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Patricia DeMile	Detachment Supervisor	250-627-3430

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5. Seizure of Fish and Fishing Gear

5.1. DFO will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 29 day of September, 2017
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

METLAKATLA STEWARDSHIP SOCIETY, a Society incorporated under the *Societies Act of British Columbia* (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Organization is a non-profit society whose membership is entirely made up of Members of the Metlakatla First Nation;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

for the Metlakatla First Nation, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 17
Schedule 5	Activities	Page 19
Schedule 6	Cash Flow Projection of Eligible Costs	Page 28
Schedule 7	Progress Report / Year End Report	Page 29
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 35
Schedule B	Communal Commercial Fisheries Access	Page 40
Schedule D	Monitoring and Enforcement Protocol	Page 43

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

5.2. As part of this Agreement, Schedule B includes provisions for communal commercial fisheries and the issuance of Communal Commercial Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to ONE HUNDRED AND FOUR THOUSAND, SEVEN HUNDRED AND FIFTY-SEVEN DOLLARS ($104,757.00) in Fiscal Year 2017-2018 an amount of up to ONE HUNDRED AND

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

FOUR THOUSAND, SEVEN HUNDRED AND FIFTY-SEVEN DOLLARS ($104,757.00) in Fiscal Year 2018-2019 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

6.3. In addition to the Contribution amount to be contributed by DFO, the Organization will contribute funding of [redacted] in Fiscal Year 2017-2018 and [redacted] in Fiscal Year 2018-2019, which results from commercial opportunities described in Schedule B.

6.4. Where the Parties agree, any amount of money that DFO contributes under this Agreement to help finance the Activities will decrease if commercial Fishing opportunities under the Allocation Transfer Program are provided.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2019.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:
Metlakatla Stewardship Society
P.O. Box 459
Prince Rupert, BC
V8J 3R2

Attention: Ross Wilson, Executive Director

Telephone: (250) 628-3234
Facsimile: (250) 628-9205
Email:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-363-1647
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization warrants that it is a society duly incorporated and in good standing under the applicable laws of Canada or of a province or a territory of Canada, as the case may be, and will remain in good standing under those laws at all times during the term of this Agreement.

12.5. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Commercial Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* for participation in the general commercial fishery;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Contribution for Use" means an amount, equivalent to the annual fee required by DFO for renewal of a commercial Fishing licence for the same species or licence category, that the Organization will contribute for the use of a Communal Commercial Licence or portion of quota set out in subsection 6.1 of Schedule B;

"Contribution to Activities" means the amount of funds, set by DFO for a Communal Commercial Licence or portion of quota, that the Organization will contribute toward the cost of the Activities;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2017-2018 and 2018-2019.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July and November of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2017, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2017, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

a) travel and related expenses for contracted professional service providers or other non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

s.20(1)(c)

SCHEDULE 5

ACTIVITIES

1. Overview

1.1 Metlakatla Stewardship Society (MSS) will provide support to the Metlakatla First Nation (MFN) with annual planning, strategic planning and budgeting. MSS has responsibilities to manage the Lands, Waters and Resources within Metlakatla asserted territory by providing strategic direction to the allocated programs within the Stewardship Office.

MSS comprises of the following programs:

- Aquatics (includes fisheries)
- Lands (includes referrals)
- Marine and Land Implementation
- Culture & Heritage
- Communication
- Environmental Assessments

(Metlakatla Fisheries Program (MFP) staff includes:

- Aquatics Manager/MFP Manager;
- Fisheries Coordinator (Biologist) and;
- Fisheries Communication Technician

MFP staff will carry out program development, work planning, consultations and negotiations of the AFS Agreement and maintain dialogue and co-management initiatives between DFO and the Organization. MFP is responsible for managing the First Nation FSC Fishery; implementing AFS field programs and data management. The Organization provides administrative support to activities under this agreement and aids the Fisheries Manager with the financial management component of the Agreement, including the provision of office space, supplies, utilities, and storage facilities.

The Fisheries Manager, with the assistance of the Fisheries Coordinator and Fisheries Communication, will be responsible for overseeing and co-ordinating the various fisheries activities under this Agreement and provide direction regarding the various activities while ensuring program stability and cost effective management. The Organization's activities under this Agreement are supported by program operations staff, consisting of the Fisheries Coordinator and Fisheries Data Specialist. The program's staff will assist the Fisheries Manager in facilitating training of fisheries staff and developing operational plans, implementing field programs, budgeting, planning, reporting and data management.

1.2 Multi-year Work Plan

1.2.1 The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities	
Fiscal Year 2017-2018	**Fiscal Year 2018-2019**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP
Description: The Fisheries Manager and Fisheries Coordinator will together co-ordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization. Staff will participate in fisheries focused resource management forums including DFO, sectorial and other fishery-related meetings (e.g. on commercial and recreational fishing plans for finfish or shell fish). Staff will communicate important fisheries related information to the community and fishermen through: • Posting notices about Biotoxin and Sanitary Water Quality conditions, reposting when conditions change (October 1 – March 31st), in prominent locations throughout the village, Prince Rupert dock Office and on the Metlakatla Governing Council website. • Hosting annual pre-season fisheries meeting to present MFP activities and other development in fisheries management. • Regular staff meetings to present updates, collect information and feedback on Agreement Activities and relevant fisheries issues internally. **Expected Results:** 1. Activity budgets and operational work plans will be completed and jointly agreed to in order to facilitate the completion of a Comprehensive Fisheries Agreement (CFA) between DFO and the Organization. 2. The Fisheries Manager will ensure that all fisheries issues are communicated to DFO, while ensuring MFP staff is directed in a timely manner according to project timelines. MFP staff will coordinate and manage all activities pertaining to the MFP. 3. MFP staff will participate in technical and management process, provide input into fisheries management. MFP will remain open to issues and discussions related to the FSC and Commercial fisheries (which may include: salmon, halibut, crab, prawn, bivalve and herring) that the community engages in. 4. The community of Metlakatla will be informed and updated on fisheries issues relevant to their FSC needs as well as other issues related to Communal Commercial and Commercial Fisheries.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: The Organization will monitor the FSC fishery and provide food fish estimates on reports to DFO. Working with the community the Aquatics Manager/MFP Manager will coordinate and implement the catch monitoring program for various fisheries in the area including: Halibut, Salmon, Herring, Eulachon and Bivalve shellfish. **Expected Results:** 1. FSC Catch data will be collected and stored in a database, copies of which will be provided to DFO AFS Manager in a timely manner to assist in Fisheries Resource Management decision-making.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Year 2017-2018

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2017-2018	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Metlakatla Fisheries Program (MFP)

ESTIMATED COST

Metlakatla Stewardship Society (MSS) will provide support to the Metlakatla First Nation (MFN) with annual planning, strategic planning and budgeting. MSS has responsibilities to manage the Lands, Waters and Resources within Metlakatla asserted territory by providing strategic direction to the allocated programs within the Stewardship Office.

MSS comprises of the following programs:

- Aquatics (includes fisheries)
- Lands (includes referrals)
- Marine and Land Implementation
- Culture & Heritage
- Communication
- Environmental Assessments

MSS Executive Director, Ross Wilson oversees the Stewardship program, which includes the fishery program (MFP) and its Agreement with DFO.

MFP staff includes:

- Aquatics Manager/MFP Manager;
- Fisheries Coordinator (Biologist) and;
- Fisheries Communication Technician

The Aquatics Manager/MFP Manager will direct the program and is responsible for the fisheries program, including reporting and financial management. The Fisheries Coordinator will assist the Aquatics Manager with reporting and financial management, assist with program development and implementation, and produce accurate AFS narrative and financial progress reports. The Fisheries Communication Technician will assist with the administration, field work, and data management. The MFP Manager, Fisheries Coordinator and Fisheries Communication Technician wages will be covered under the AFS budget for fifty percent and the other fifty percent will be covered by ATP revenues.

MFP staff will carry out program development, work planning, consultations and negotiations of the AFS Agreement and maintain dialogue and co-management initiatives between DFO and the Organization. MFP is responsible for managing the First Nation FSC Fishery; implementing AFS field programs and data management. The Organization provides administrative support to activities under this agreement and aids the Fisheries Manager with the financial management component of the Agreement, including the provision of office space, supplies, utilities, and storage facilities.

The Fisheries Manager, with the assistance of the Fisheries Coordinator and Fisheries

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Communication, will be responsible for overseeing and co-ordinating the various fisheries activities under this Agreement and provide direction regarding the various activities while ensuring program stability and cost effective management. The Organization's activities under this Agreement are supported by program operations staff, consisting of the Fisheries Coordinator and Fisheries Data Specialist. The program's staff will assist the Fisheries Manager in facilitating training of fisheries staff and developing operational plans, implementing field programs, budgeting, planning, reporting and data management.

Task Description:

1. The Fisheries Manager and Fisheries Coordinator will together co-ordinate program development, work planning, consultations and negotiations of the AFS Agreement between DFO and the Organization.
2. The Fisheries Manager and Fisheries Coordinator will maintain regular communication with DFO to review, update or renew various schedules of the AFS Agreement. This may include communal licensing, upcoming fisheries, and updating Conservation & Protection plans.
3. Participation of staff in fisheries focused resource management forums including DFO, sectorial and other fishery-related meetings (e.g. on commercial and recreational fishing plans for finfish or shell fish).
4. The Organization will monitor the FSC fishery and provide food fish estimates on reports to DFO. Working with the community the Aquatics Manager/MFP Manager will coordinate and implement the catch monitoring program for various fisheries in the area including: Halibut, Salmon, Herring, Eulachon and Bivalve shellfish.
5. Staff will communicate important fisheries related information to the community and fishermen through:
   - Posting notices about Biotoxin and Sanitary Water Quality conditions, reposting when conditions change (October 1 – March 31st), in prominent locations throughout the village, Prince Rupert dock Office and on the Metlakatla Governing Council website.
   - Hosting annual pre-season fisheries meeting to present MFP activities and other development in fisheries management.
   - Regular staff meetings to present updates, collect information and feedback on Agreement Activities and relevant fisheries issues internally.
6. Prepare semi-annual Progress Reports and a Year End Report as required under the Agreement.

Expected Results:

1. Activity budgets and operational work plans are completed and jointly agreed to in order to facilitate the completion of a Comprehensive Fisheries Agreement (CFA) between DFO and the Organization.
2. MFP will maintain regular communication with DFO. Projects are carried out in accordance with the expected results and supporting detailed work plans jointly developed by MSS and DFO. The Fisheries Manager will ensure that all fisheries issues are communicated to DFO, while ensuring MFP staff is directed in a timely manner according to project timelines. MFP staff will coordinate and manage all activities pertaining to the MFP.
3. MFP staff will participate in technical and management process, provide input into fisheries management. MFP will remain open to issues and discussions related to the FSC and Commercial fisheries (which may include: salmon, halibut, crab, prawn, bivalve and herring) that the community engages in.
4. The MFP Staff is supported to maintain required and relevant training to work safely and effectively on administrative and fisheries projects.
5. The community of Metlakatla will be informed and updated on fisheries issues relevant

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2017-2018

to their FSC needs as well as other issues related to Communal Commercial and Commercial Fisheries.

6. Financial records are maintained and reporting is completed in a timely manner.

Products/Reports to provide to DFO:

1. Progress Reports and a Year End Report will be produced as requirements of the negotiated CFA, in addition to any project reports as described in the Agreement.
2. Provide catch monitoring plan, updated annual Community Harvest Plan for Bivalves and FSC catch estimate reports to the DFO Resource Manager as outlined in the Agreement and/or communal licence.
3. Copies of bulletins and notices will be provided in the Year End Report.
4. Documentation of all meeting-related activities attended/hosted shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items and dates.
5. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial and other) requested by DFO in relation to the CFA.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: Single Species (Herring) Monitoring Project

ESTIMATED COST

Metlakatla Fisheries will monitor the 2018 FSC herring spawn on kelp fishery in Area 4, to ensure license conditions are being met. Metlakatla Fisheries will provide a vessel and field crew for two days during the herring fishery season (March), to observe, record and report FSC activity. Any monitoring activities taking place after March will be added to the next year's AFS Agreement.

Task Description:

1. The primary objective of this activity is to undertake routine patrols during the herring spawning season in Area 4, and record information on FSC vessels encountered, fishing effort, gear type, activity, harvest location, and pounds of product.

Expected Results:

1. Data from the FSC herring fishery will be recorded and entered into a database.

Products/Reports to provide to DFO:

1. MFP will provide the database to DFO in the Year End Report, with information on dates/times of patrols, number of vessels encountered, amount of herring and roe-on-kelp harvested, gear type, activity, locations, and other environmental data.

Key Element B / Activity 2: FSC Salmon Catch Monitoring of all Metlakatla and designated non-members fishing (under Metlakatla designation) in the approach waters to the Skeena River (not including sub-areas 4-12 and 4-15)

ESTIMATED COST

MFP will conduct routine catch monitoring to encourage compliance with the conditions of communal licences. The Fisheries staff will conduct on-grounds inspection of personal and vessel designations, observe catch methods, and monitor harvest levels. MFP operates a FSC salmon validation and distribution program from June – September to assist with FSC needs. Through this program, salmon are allocated to band members, and dockside validators record by-catch and salmon catch numbers from each vessel that delivers to the program. Landing stations will be located in Metlakatla and at Metlakatla's Fisheries dock in Prince Rupert. Records of validation; such as dates, vessels, number of salmon, and distribution to membership will be maintained.

FSC Catch Monitoring Program data will be recorded and input into excel spreadsheets. Copies of the database containing the entire season's data will be provided to the DFO North

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2017-2018

Coast – AFS Resource Manager.

Task Description:

1. The Organization, in consultation with DFO, will develop an operational plan for 2018 FSC Salmon catch monitoring.
2. The Fisheries staff will conduct on-grounds routine catch monitoring of Salmon between June and September.
3. Catch Monitoring of FSC Harvest of Salmon by Metlakatla Band members and Non-Tsimshian First Nations under Metlakatla designation in the approach waters to the Skeena River.
4. Inspection of personal and vessel designations as required.
5. Record data related to Species, Catch, Gear, Locations, Timing, etc.
6. Transfer data from data sheets to database.
7. Produce Catch Calendar, food fish permits, and transport permits to assist with Database Management.

Expected Results:

1. FSC Salmon Catch data for areas designated in Metlakatla's asserted traditional territory will be collected and stored in a database, copies of which will be provided to DFO AFS Manager monthly to assist in Fisheries Resource Management decision-making. Final catch numbers submitted by November 15 (prior to final report).
2. The Organization's fishery is coordinated, managed and monitored in accordance with Schedule A of this Agreement.

Products/Reports to provide to DFO:

1. Catch and Fishery Monitoring records will be provided in electronic form to the DFO AFS Resource Manager, Melanie Anthony by mid-November.
2. Summary of the annual FSC Harvests. This report will be included in the Year End Report (Schedule 7).

Key Element B / Activity 3: FSC Monitoring (Non-Salmon Species)

ESTIMATED COST

MFP staff will work with the DFO Resource Manager to develop a management plan to monitor FSC harvesting within the Metlakatla's local area. Catch reports will be provided to the North Coast AFS Resource Manager. For non-salmon salmon species, Halibut, and Bivalves within statistical areas 3, 4 and 5, and Skeena River, all encountered harvesting will be recorded and provided to DFO North Coast AFS Resource Manager in the reports.

Task Description:

2. The Organization, in consultation with DFO, will develop a detailed operational plan for the annual FSC catch monitoring of non-salmon species.
3. Routine catch monitoring of non-salmon species will occur during the year. Catch monitoring of halibut, bivalves, etc. will continue during their respective harvest seasons. Catch monitoring methodology, including number of sampling days, will be developed in consultation with DFO Resource Managers.
4. Catch monitoring of FSC harvest of non-salmon species such as, but not limited to other salmonids, ground fish and shellfish.
5. A record of data will be maintained.
6. Non-salmon species FSC harvest and catch data will be provided to DFO Resource Managers in electronic format.

Expected Results:

1. FSC harvest of non- salmon catch data for areas designated in Metlakatla's Communal Licence will be collected and stored in a database, copies of which will be provided to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2017-2018	
the North Coast DFO AFS Resource Manager to assist in Fisheries Resource Management decision-making. **Products/Reports to provide to DFO:** 1. DFO Resource Manager Melanie Anthony will be provided with catch or harvest numbers of quantities of non-salmon species in electronic form. A progress report describing program methodology and results will be provided in electronic form. Salmon catch or harvest numbers will be provided by mid-November and other non-salmon species will provided in Year End Report. 2. DFO will be provided with a report on the MFP staff field activities and a report of our catch information. Recommendations will be provided to DFO from our research findings.	
KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Amy Wakelin, Aboriginal Affairs Advisor at Amy.Wakelin@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☒ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$104,757.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Section 2 –Products/Reports and Actual Results

Activities (from section 3 of Schedule 5)	**Progress or Year-End/Final Report on Status (in measurable terms)**
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Metlakatla Fisheries Program (MFP) **Expected Results:** 1. Activity budgets and operational work plans are completed and jointly agreed to in order to facilitate the completion of a Comprehensive Fisheries Agreement (CFA) between DFO and the Organization.	**Actual Results in Narrative Format (enter text):**
2. MFP will maintain regular communication with DFO. Projects are carried out in accordance with the expected results and supporting detailed work plans jointly developed by MSS and DFO. The Fisheries Manager will ensure that all fisheries issues are communicated to DFO, while ensuring MFP staff is directed in a timely manner according to project timelines. MFP staff will coordinate and manage all activities pertaining to the MFP.	
3. MFP staff will participate in technical and management process, provide input into fisheries management. MFP will remain open to issues and discussions related to the FSC and Commercial fisheries (which may include: salmon, halibut, crab, prawn, bivalve and herring) that the community engages in.	
4. The MFP Staff is supported to maintain required and relevant training to work safely and effectively on administrative and fisheries projects.	
5. The community of Metlakatla will be informed and updated on fisheries issues relevant to their FSC needs as well as other issues related to Communal Commercial and Commercial Fisheries.	
6. Financial records are maintained and reporting is completed in a timely manner.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. Progress Reports and a Year End Report will be produced as requirements of the negotiated CFA, in addition to any project reports as described in the Agreement.	**Products/Reports:**
2. Provide catch monitoring plan, updated annual Community Harvest Plan for Bivalves and FSC catch estimate reports to the DFO Resource Manager as outlined in the Agreement and/or communal licence.	
3. Copies of bulletins and notices will be provided in the Year End Report.	
4. Documentation of all meeting-related activities attended/hosted shall be provided in Progress Reports and in the Year End Report, consisting of a minimum of a listing of agenda items and dates.	
5. Status report of Activities and financial summary reports as per Schedule 7, and any supplementary information (financial and other) requested by DFO in relation to the CFA.	
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Single Species (Herring) Monitoring Report **Expected Results:** 1. Data from the FSC herring fishery will be recorded and entered into a database.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. MFP will provide the database to DFO in the Year End Report, with information on dates/times of patrols, number of vessels encountered, amount of herring and roe-on-kelp harvested, gear type, activity, locations, and other environmental data.	**Products/Reports:**
Activity B-2: FSC Sockeye Catch Monitoring of all Metlakatla and designated non-members fishing (under Metlakatla designation) in the approach waters to the Skeena River (not including sub-areas 4-12 and 4-15) **Expected Results:** 1. FSC Salmon Catch data for areas designated in Metlakatla's asserted traditional territory will be collected and stored in a database, copies of which will be provided to DFO AFS Manager monthly to assist in Fisheries Resource Management decision-making. Final catch numbers submitted by November 15 (prior to final report).	**Actual Results in Narrative Format (enter text):**
2. The Organization's fishery is coordinated, managed and monitored in accordance with Schedule A of this Agreement.	

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. Catch and Fishery Monitoring records will be provided in electronic form to the DFO AFS Resource Manager, Melanie Anthony by mid-November.	**Products/Reports:**
2. Summary of the annual FSC Harvests. This report will be included in the Year End Report (Schedule 7).	
Activity B-3: FSC Monitoring (Non-Sockeye Species) **Expected Results:** 1. FSC harvest of non- salmon catch data for areas designated in Metlakatla's Communal Licence will be collected and stored in a database, copies of which will be provided to the North Coast DFO AFS Resource Manager to assist in Fisheries Resource Management decision-making.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. DFO Resource Manager Melanie Anthony will be provided with catch or harvest numbers of quantities of non-salmon species in electronic form. A progress report describing program methodology and results will be provided in electronic form. Salmon catch or harvest numbers will be provided by mid-November and other non-salmon species will provided in Year End Report.	**Products/Reports:**
2. DFO will be provided with a report on the MFP staff field activities and a report of our catch information. Recommendations will be provided to DFO from our research findings.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Metlakatla First Nation a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Metlakatla First Nation with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. DFO and the Organization will meet to jointly develop a Fishing plan that will form the basis of a Communal Licence. The plan will address the following:

(a) location;

(b) dates and times;

(c) Fishing gear set at the location(s) and in a manner specified;

(d) quantity of Fishing gear/type at any one time;

(e) Fishing gear marking; and

(f) other provisions as appropriate.

1.4. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Metlakatla First Nation that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Metlakatla First Nation based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.5. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Metlakatla First Nation and conservation requirements will be reviewed by DFO and the Organization.

1.6. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.7. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.8. In the event that the Metlakatla First Nation identifies an increase in the food, social and ceremonial needs of their members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Metlakatla First Nation agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.9. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.10. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when

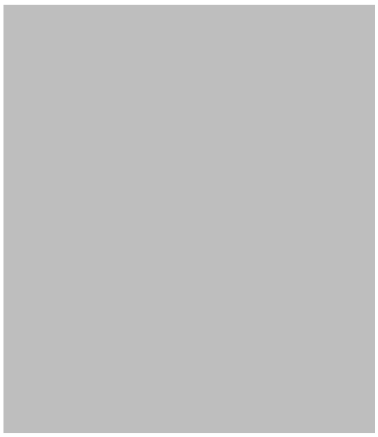
Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

1.11. Where DFO and the Organization have entered into a consultation protocol related to the matters in this Schedule, DFO and the Organization agree to follow the procedures outlined in the protocol.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Metlakatla First Nation may engage in Fishing for the following species and quantities of Fish:



2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

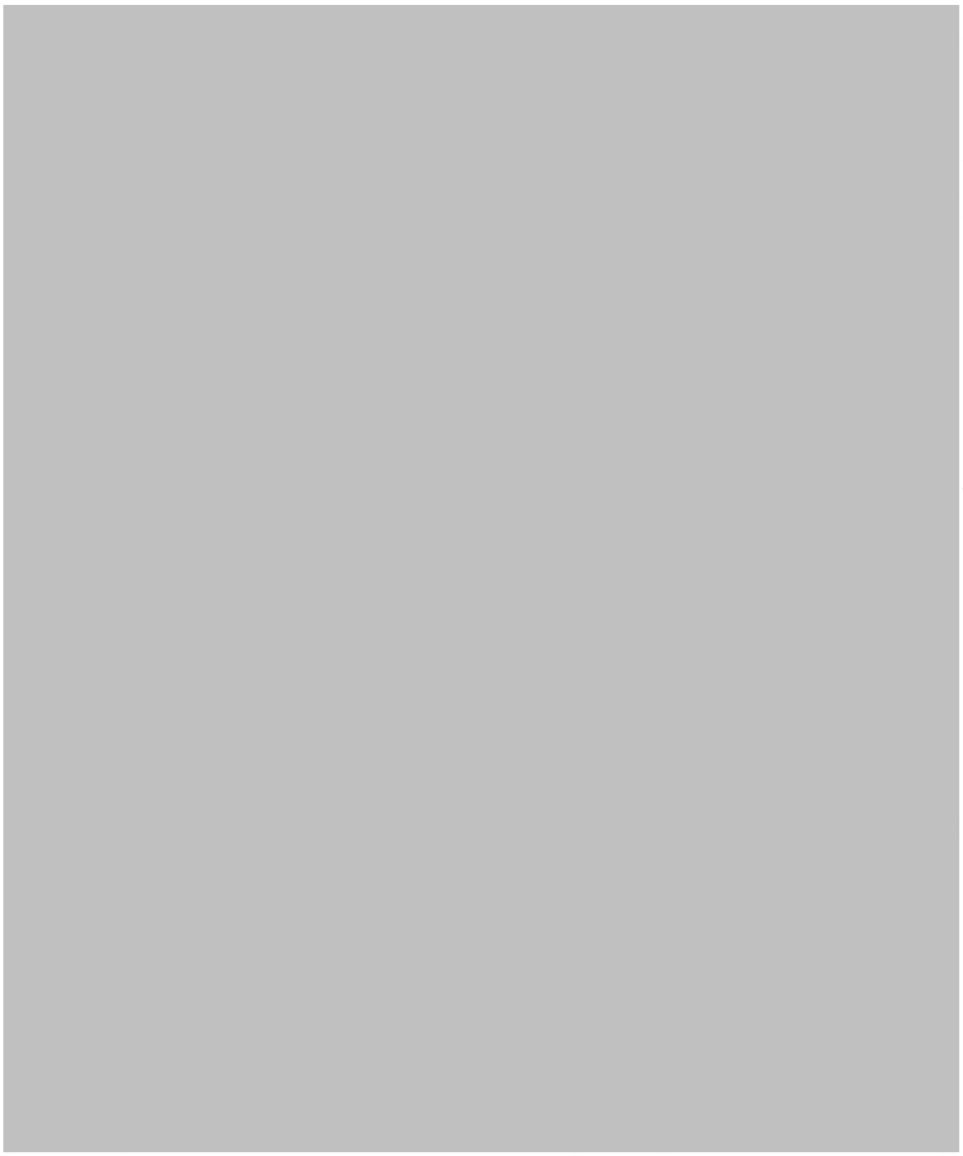
2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Area Where the FSC Fishery Takes Place



Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5. Disposition of Fish

5.1. The Organization and Metlakatla First Nation agree that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Metlakatla First Nation has designated all of its members to engage in Fishing in the FSC Fishery. Proof of membership in Metlakatla Stewardship Society will serve as the member's designation document.

6.3. The Metlakatla First Nation will designate specific members to engage in Fishing on its behalf by issuing a designation document to each designated Member.

6.4. The Metlakatla First Nation may designate an individual who is not a member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.5. Where the Metlakatla First Nation designates individuals to engage in Fishing in the FSC Fishery, it will provide to Amy Wakelin at amy.wakelin@dfo-mpo.gc.ca. a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.6. Where a designation document is issued by the Metlakatla First Nation, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.7. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

to a Fishery Enforcement Officer.

6.8. The Metlakatla First Nation will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Metlakatla First Nation may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Metlakatla First Nation will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Metlakatla First Nation has designated a vessel to engage in Fishing in the FSC Fishery, the Metlakatla First Nation may amend or withdraw that designation. Upon amending or withdrawing a designation, the Metlakatla First Nation will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Metlakatla First Nation

8.1. The Metlakatla First Nation will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE B

COMMUNAL COMMERCIAL FISHERIES ACCESS

1. Licensing

1.1. The Metlakatla First Nation holds the licence eligibilities and/or quota set out in subsection 6.1 of this Schedule. Licence eligibilities are party-based and non-transferable. Quota may be temporarily reallocated in accordance with the reallocation procedures set out in the applicable current Pacific Region Integrated Fisheries Management Plan.

1.2. Annually, Metlakatla First Nation must renew the Communal Commercial Licence(s) set out in subsection 6.1 of this Schedule through DFO's National Online Licencing System (NOLS) prior to DFO issuing any Communal Commercial Licence.

1.3. In the event that the end date of this Agreement has been reached, DFO may request that the Organization submit a letter of intent to enter into a future agreement in order to retain access to the licence eligibilities and/or quota referred to in subsection 6.1 of this Schedule. DFO will provide the Organization with the format for the letter of intent, if required.

2. Designation to Fish

2.1. Where applicable, Metlakatla First Nation will identify, through NOLS, the designated vessel, including vessel registration number and vessel master name, that will be used to engage in Fishing under the Communal Commercial Licence. The designated vessel will be a registered commercial Fishing vessel that meets established length restrictions by not exceeding the established maximum vessel length (MVL) associated with the licence eligibility. Where applicable, confirmation that conditions of the previous year's Communal Commercial Licence have been met will be required.

2.2. The Communal Commercial Licence must, at all times, be kept on board the designated vessel that is engaged in the Fishing or any other activity referred to in this Schedule.

2.3. The master of a designated vessel that is being used for Fishing, transporting Fish or landing Fish under a Communal Commercial Licence will, upon request, show the Communal Commercial Licence and conditions to a Fishery Enforcement Officer.

2.4. No vessel other than a designated vessel may be used for Fishing under a Communal Commercial Licence.

2.5. No individual other than the designated individual(s) will engage in Fishing under a Communal Commercial Licence. Designated individuals will carry their designation document and provide proof of identity at all times while engaged in Fishing or any other activity, including the transporting and landing of Fish, and will show this designation document and proof of identity to a Fishery Enforcement Officer upon request.

2.6. The Metlakatla First Nation may designate in writing each individual permitted to engage in Fishing under the Communal Commercial Licence before Fishing under the Communal Commercial Licence commences. The designation document will bear the name of the designated individual(s), the Communal Commercial Licence number and the name and VRN of the designated vessel.

2.7. The Metlakatla First Nation may designate in writing all of its members to engage in Fishing under the Communal Commercial Licence, or all of its members except named individuals, by specifying this on the designation document, along with the Communal Commercial Licence number and the name and VRN of the designated vessel. Proof of membership in the Metlakatla First Nation will serve as proof of identity.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Withdrawal or Amendment of Designation

3.1. The Metlakatla First Nation may request to change a designated vessel by submitting a request through NOLS, in accordance with NOLS procedures.

3.2. Where the Metlakatla First Nation makes changes to its designations, such as the names and registration numbers of the vessels and/or any designated individual, it will amend and re-issue the related fisher designation documents, and it will notify designated individuals of these amendments.

4. Responsibilities of the Metlakatla First Nation

4.1. The Metlakatla First Nation will notify the owner of any vessel that is designated to be used to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule, the Communal Commercial Licence and any amendments to this Schedule or the Communal Commercial Licence.

4.2. The Metlakatla First Nation will notify each individual who is designated to engage in Fishing under the authority of a Communal Commercial Licence of the provisions of this Schedule and the Communal Commercial Licence. The Metlakatla First Nation will notify each designated individual of any amendments to this Schedule or the Communal Commercial Licence.

4.3. The Metlakatla First Nation is responsible for all costs associated with the Fishing activities referred to in this Schedule.

4.4. For every year in which a Communal Commercial Licence is issued, the Metlakatla First Nation is responsible for any management or service provider fees that are associated with an equivalent commercial Fishing licence.

4.5. DFO may identify a requirement for the Organization to maintain an up-to-date commercial Fishing business plan for the Communal Commercial Licence(s) and/or quota set out in subsection 6.1 of this Schedule, and the Organization will provide the commercial Fishing business plan to DFO upon request, using the format provided by DFO.

4.6. The Organization will contribute annually the total amount referred to in subsection 6.3 of this Agreement, which consists of a Contribution to Activities and a Contribution for Use for each Communal Commercial Licence and/or portion of quota set out in subsection 6.1 of this Schedule.

4.7. The Organization will annually provide a report to DFO on the use of the Communal Commercial Licences and, if applicable, quota set out in subsection 6.1 of this Schedule, using the format provided by DFO.

5. Sale of Fish

5.1. Any sale of Fish harvested under a Communal Commercial Licence will be subject to all federal and provincial laws related to sale, including, but not limited to, laws respecting health and safety, inspection, processing, packaging, storage, export, quality control and labelling.

6. Species and Quantity of Fish and Associated Provisions

6.1. The licence eligibilities and/or quota referred to in section 1 of this Schedule are:

6.2. Any Communal Commercial Licence issued pursuant to this Schedule will be subject to all of the standard conditions of licence associated with a general commercial Fishing licence for the same species.

6.3. Compliance with the *Fisheries Act* and applicable regulations is a condition of any Communal Commercial Licence.

6.4. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in this Schedule.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel and representatives of the Organization will work cooperatively in implementing this Schedule.

2.2. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) establish a process, where possible, for the reporting of enforcement activities and actions; and

(c) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

s.19(1)

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
[redacted]		

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Patricia DeMile	Detachment Supervisor	250-627-3430

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence or a Communal Commercial Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

5. Seizure of Fish and Fishing Gear

5.1. DFO will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval*.

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Information Act / Document divulgué en vertu
de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 5 day of June, 2015
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

WET'SUWET'EN TREATY OFFICE SOCIETY, a Society incorporated under the *Society Act of British Columbia* for and on behalf of the Houses listed in this Agreement (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 9
Schedule 3	Financial Management, Payments and Reporting	Page 13
Schedule 4	Description of Eligible Costs for Reimbursement	Page 18
Schedule 5	Activities	Page 20
Schedule 6	Cash Flow Projection of Eligible Costs	Page 30
Schedule 7	Progress Report / Year End Report	Page 31
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 39
Schedule C	Aboriginal Fishery Guardians	Page 42
Schedule D	Monitoring and Enforcement Protocol	Page 45

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to FOUR HUNDRED AND FOURTY-ONE THOUSAND DOLLARS ($441,000.00) in Fiscal Year 2015-2016 an amount of up to FOUR HUNDRED AND FOURTY-ONE THOUSAND DOLLARS ($441,000.00) in Fiscal Year 2016-2017 an amount of up to FOUR HUNDRED AND FOURTY-ONE THOUSAND DOLLARS ($441,000.00) in Fiscal Year 2017-2018 an amount of up to FOUR HUNDRED AND FOURTY-ONE THOUSAND DOLLARS ($441,000.00) in Fiscal Year 2018-2019 and an amount of up to FOUR HUNDRED AND FOURTY-ONE THOUSAND DOLLARS ($441,000.00) in Fiscal Year 2019-2020 on the condition that these funds will be used in accordance with the terms and conditions

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

of this Agreement.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2020.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Wet'suwet'en Treaty Office Society
205 Beaver Road, Suite 1
Smithers, BC
V0J 2N1

Attention: Debbie Pierre

Telephone: (250) 847-3630
Facsimile: (250) 847-5381

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-363-1647
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

11.4. The Organization will notify DFO when it is no longer acting for or on behalf of a Member Organization by sending a notice, in writing, to that effect to DFO. Notwithstanding subsection 10.1, where DFO receives such a notice, DFO and the Organization will discuss the matter and, depending on the outcome of the discussion, the Parties may amend this Agreement.

11.5. When a Member Organization gives notice, in writing, to DFO that the Organization no longer acts for or on its behalf, DFO will discuss the matter with the Organization and the Member Organization giving notice. Notwithstanding subsection 10.1, depending on the outcome of the discussion, the Parties may amend this Agreement.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members and Member Organizations for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representatives referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization warrants that it is a society duly incorporated and in good standing under the applicable laws of Canada or of a province or a territory of Canada, as the case may be, and will remain in good standing under those laws at all times during the term of this Agreement.

12.5. The Organization will inform any Member Organizations and Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Aboriginal Fishery Guardian" means an individual employed by the Organization who is designated by the Minister as described in Schedule C;

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 3 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"C&P" means the Conservation and Protection sector of DFO;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

"FSC Fishery" means the fisheries for food, social and ceremonial purposes carried out by the Organization, its Member Organizations or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization or a member of a Member Organization;

"Member Organization" means one of the Member Organizations;

"Member Organizations" means, for the purposes of this Agreement, the following organizations:

CLAN	HOUSE
Tsayu	Tsakenyex
Laksamshu	Musdziyex
	Sayex
	Yexwaniddus
Gilseghu	Geyex
	Yextoswiten
	Yextsowidk'us
Laxsilyu	Ganeghhdyex
	Kwanbeyex
	Tselal Beyex
Gitumden	Keyexwaniits
	Anskaski
	Cas Yex

"Minister" means the Minister of Fisheries and Oceans, and any departmental official authorized to act on behalf of the Minister;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization, its Members or Member Organizations in carrying out the Activities under this Agreement will be owned by the Organization, its Members or Member Organizations, as required or appropriate under any agreement between the Organization and its Members or Member Organizations.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members or Member Organizations, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member Organization, any Member, any officer, employee, agent or contractor of the Organization or Member Organization, or anyone for whom the Organization or Member Organization is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, any Member Organization or anyone for whom the Organization or any Member Organization is responsible for in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization under this Agreement. The Organization and each Member Organization are responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.2.2. This Agreement will be amended to add to Schedule 5 any tables and provisions related to the Activities negotiated by the Parties for each of Fiscal Years 2015-2016, 2016-2017, 2017-2018, 2018-2019, and 2019-2020.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. To be eligible for subsequent advances, the Organization will provide to DFO, in July of each Fiscal Year covered by this Agreement, a revised cash flow projection of Eligible Costs that the Organization has incurred and expects to incur during the remainder of the Fiscal Year in the form set out in Schedule 6.

2.1.3. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2015, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2015, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for each Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment for a four-month period.

2.2.4. Subject to subsection 2.2.1 of this Schedule and DFO's approval of any Progress Reports required under subsection 3.2 of this Schedule, subsequent four-month advance payments will be made to the Organization upon its request.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.6. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization will submit a Progress Report, in the form set out in Schedule 7, covering the period April 1 to September 30 in each Fiscal Year covered by this Agreement.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

non-employees

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Overview

1.1. Multi-year Work Plan

1.1.1. The following work plan sets out the planned distribution of funding for the Activities to be undertaken during the term of this Agreement. The annual work plan will specify the Activities to be undertaken in each Fiscal Year covered by this Agreement.

Funds Needed to Complete the Activities				
Fiscal Year 2015-2016	**Fiscal Year 2016-2017**	**Fiscal Year 2017-2018**	**Fiscal Year 2018-2019**	**Fiscal Year 2019-2020**
$441,000.00	$441,000.00	$441,000.00	$441,000.00	$441,000.00

Multi-year Work Plan

KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Description:

The Wet'suwet'en Treaty Office Society (Organization) Fisheries Program oversees and carries out program development, work planning, consultations and negotiations of the AFS Agreement and maintains dialogue and co-management initiatives between DFO and the Organization. The Organization's key roles and responsibilities will be to represent the Wet'suwet'en in negotiations, maintain the office and overhead, coordinate projects with other First Nations groups within Wet'suwet'en asserted area, conduct Moricetown Canyon Fisheries Committee meetings, engage and participate in various committees regarding fisheries management, support stock assessment activities, habitat monitoring and restoration activities, provide education and awareness to community members and the public, arrange and support training for the Organization's fisheries staff, and continue to collect, input and incorporate Traditional Ecological Knowledge (TEK) data for the Wet'suwet'en asserted area. The Organization's Fisheries Program will also continue to operate the Mark/Recapture program in Moricetown Canyon in conjunction with Stock Assessment, and conduct other stock assessment projects to support the Mark/Recapture program. The Organization's staff will be trained to ensure a safe work environment and to help build capacity for the employees. Wet'suwet'en Fisheries Staff will conduct habitat protection and monitoring activities to assist in habitat baseline information collection, habitat protection and conservation efforts within the Wet'suwet'en asserted area. The Organization will maintain the operations and infrastructure by which the activities under this Agreement are supported.

Expected Results:

1. Negotiation of an AFS Agreement between the Organization and DFO with the intent of smoother turn-around of programs through the Fiscal Year.
2. Attend and participate in meetings, consultations and co-management with DFO, external groups and the community members.
3. Coordinate joint projects with other First Nations within the Wet'suwet'en asserted area such as stream walks on streams that are common with other First Nations.
4. Traditional Ecological Knowledge (TEK) will be collected and incorporated into the Wet'suwet'en Territorial Stewardship Plan (WTSP).
5. Assign fishing opportunities to community members under the FSC Communal Licence, test innovative and experimental harvest methods and gear within the FSC Fishery and implement a selective fishing plan and make adjustments/improvements in-

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Multi-year Work Plan
season. 6. Maintain and improve the fisheries office and compound. 7. Publish and distribute community newsletters about the Wet'suwet'en Fisheries Program to the communities of Hagwilget, Moricetown, Broman Lake, Nee Tai Buhn, Burns Lake and Skin Tyee. 8. Continue to develop and update content for a Wet'suwet'en website. 9. Ensure successful operation of the various Stock Assessment and Habitat Monitoring and Restoration activities under this Agreement. 10. Employees will be supported to maintain required and relevant training to work safely and effectively on fisheries projects. 11. Continue the existing water quality monitoring program for the special water management area in the upper Morice watershed that was created through the Morice Land and Resource Management Plan (LRMP). 12. Review plans and attend meetings for any mines, pipelines or other industrial developments that may have an impact on habitat within the Wet'suwet'en asserted area.
DFO KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT
Description: Catch monitoring of all salmon species will continue in Moricetown Canyon. The collection of FSC catch data allows the Organization to co-manage the resource with DFO and helps to identify in-season stock estimates and determine food fishery impacts on fish stocks by gathering accurate catch data. **Expected Results:** 1. Species and catch numbers of retained, released and observed salmon at FSC fishing sites will be reported to DFO for in-season fisheries management. 2. Develop harvest plans that are prioritized by conservation needs and FSC needs followed by commercial and recreational fisheries. 3. Obtain organizational support regarding the harvest plans from the Moricetown Canyon Committee, the Office of the Wet'suwet'en and the communities.
DFO KEY ELEMENT C: ECONOMIC OPPORTUNITIES
DFO KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY
Description: The Organization will hire one seasonal Aboriginal Fishery Guardian to patrol the Moricetown Canyon area to monitor FSC fisheries and recreational fishers. The Aboriginal Guardian and Ranger will also conduct patrols throughout the Wet'suwet'en asserted area to monitor any potential habitat infractions or violations. The Aboriginal Guardian and Ranger will continue to work with DFO on building positive relationships between the Aboriginal Guardian, Ranger, DFO and the community members. **Expected Results:** 1. Enforce regulations for FSC Fisheries and Wet'suwet'en Commercial Fisheries to protect weak stocks, prevent overfishing and illegal commercial fisheries, address community concerns regarding health and safety issues, and enforce Excess to Salmon to Spawning Requirement (ESSR) fisheries to ensure conditions of sale are followed. 2. Protect fish habitat by conducting stream walks, referring issues to DFO C&P staff, and attending user group meetings that monitor or study fish habitat.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Annual Work Planning Process

2.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

3. Activities

3.1. Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

s.20(1)(c)

3.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Wet'suwet'en Treaty Office Society (WTOS) Fisheries Authority

ESTIMATED COST

Task Description:

1. The Organization's core staff is comprised of a Fisheries Manager (FM), Junior/Fisheries Biologist (FB), up to 8 Fisheries Technicians, Bookkeeper, and a seasonal Receptionist.
2. The Organization will maintain the facilities required to carry out the various activities including the fisheries office.
3. The FM will coordinate and oversee the various fisheries activities including negotiate the fisheries Agreement, prepare and submit progress report to DFO, maintain dialogue with Wet'suwet'en communities and other First Nations groups, participate in the Canyon Committee meetings, participate in various fisheries committees, develop newsletters for the communities, and develop the FSC fishing plans.
4. Wet'suwet'en Fisheries Staff will continue to meet with chiefs and elders for TEK especially since there is no data for streams prior to 1950. This information is very important as habitat changes have impacted salmon distribution.
5. The FM and FB will keep abreast of current fisheries research on new and emerging fisheries and test innovative harvest methods and gear.
6. The Organization will encourage selective Fishing where appropriate and develop selective fishing plans and gear.
7. The FB will oversee the various Stock Assessment and Habitat Monitoring and Restoration activities, as well as attend major project consultations and meetings to provide input to the Wet'suwet'en Chiefs regarding environmental impacts.
8. The Bookkeeper will maintain the financial aspects of the fisheries program such as receipt coding and timesheet processing.
9. The receptionist will be hired on a seasonal basis to maintain the fisheries office and compound in Moricetown Canyon.

Expected Results:

1. Negotiation of an AFS Agreement between the Organization and DFO. Regular in-season communication with DFO Aboriginal Programs Officer on status of Activities. Attend and participate in meetings and consultations including but not limited to:
   - Skeena Fisheries Commission and Technical Committee meetings
   - Skeena River NGO meetings
   - Moricetown Canyon Fisheries Committee meetings
   - Wet'suwet'en Clan representatives and community members
   - DFO meetings
2. Chief's Advisory meetings will be held to help guide the direction of the program.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

3. Develop and post a Fishing protocol for the Moricetown Canyon Fishing sites.
4. Coordinate joint projects with other First Nations within the Wet'suwet'en asserted area such as stream walks on streams that are common with other First Nations.
5. TEK will be collected and incorporated into the Wet'suwet'en Territorial Stewardship Plan (WTSP). The data is gathered into GIS maps and databases. Stream assessment efforts can then be focused on areas where historically salmon were found but no data has been collected recently.
6. Manage the food fishery in order to prevent overfishing.
7. Test innovative and experimental harvest methods and gear.
8. Fisheries staff will maintain and improve the fisheries office and compound.
9. Publish and distribute community newsletters about the Wet'suwet'en Fisheries Program to the communities of Hagwilget, Moricetown, Broman Lake, Nee Tai Buhn, Burns Lake and Skin Tyee.
10. Continue to develop and update content for a Wet'suwet'en website.
11. Develop seasonal operational plans for Fishing activities within the Wet'suwet'en asserted area.
12. The FM will coordinate the operation of the various Stock Assessment and Habitat Monitoring and Restoration activities under this Agreement.
13. A junior FB (Wet'suwet'en member) will be hired to work seasonally when not attending post-secondary schooling. The junior FB will be encouraged to continue employment with the fisheries program over a number of years until graduation, with the intent of full time employment with the WTOS after graduation.

Products/Reports to provide to DFO:

1. Copies of community newsletters will be submitted to DFO with the Year End Report.
2. A list of meetings will be submitted with the Year End Reports including dates, locations, and title/purpose.
3. Canyon Fishing Protocol will be submitted in the Year End Reports including selective Fishing plans.
4. A list of all collaboration projects with other First Nations working within the Wet'suwet'en Territory will be submitted in the Year End Report.
5. A list of TEK information gathering activities will be submitted in the Year End Report.
6. Report progress of all undertaken activities of this Agreement in the Year End Report, through the financial and narrative reports and submit it to DFO Resource Manager, Melanie Anthony according to the timelines and format required as per Schedule 7 of this Agreement.

s.20(1)(c)

Key Element A / Activity 2: Training

ESTIMATED COST [redacted]

Task Description:

Annual training and recertification needs vary with returning and/or new staff. Required training consists of, but is not limited to, the following:

1. Health and Safety Courses:
   - Swift-water rescue
   - Small boat operation courses
   - Fishing equipment operations
2. Fisheries Management Training:
   - Catch monitoring
   - Scale and fin Sampling
   - Escapement monitoring
   - Snorkel training

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

- Data collection and data management
- Fish identification
- Supervisor training

Expected Results:

1. Employees will be provided opportunities to maintain required and relevant training to work safely and effectively on fisheries projects.

s.20(1)(c)

Products/Reports to provide to DFO:

1. A list of training activities will be included in the Progress Report and Year End Report including the training type, number of participating employees and number certified.

Key Element A / Activity 3: Stock Assessment/Mark Recapture

ESTIMATED COST

Wet'suwet'en Fisheries Staff will continue with the Mark/Recapture Project that provides a population estimate of salmon destined for spawning grounds above the Moricetown Canyon in season, as well as to tag Steelhead for other studies that may occur during the fall and spring. In addition to tagging the salmonids, data such as sex, length and condition is compiled. Special emphasis will be given to observe/record the damage conditions of salmon this year with consequent monitoring on the spawning beds. Research suggests that high infection rates with a fungus (Saprolegnia spp.) entering the fish body through net marks and other skin damage causes significant mortalities. The Mark/Recapture program is mainly funded through stock assessment and the top-up of funds is supported through the AFS program.

The development of a Morice Watershed Sockeye Conservation Plan will be a focus of the next two years. Sockeye enumeration, DNA sampling and potential options to increase the productive capacity of Morice Lake will be explored. Wet'suwet'en Fisheries Staff will conduct community outreach programs to explain the results of the Conservation Plan.

Task Description:

1. Data is collected and reported regularly to DFO Stock Assessment Biologist, Barry Finnegan and Provincial Stock Assessment staff. The Mark/Recapture program consists of two parts: Morice Canyon Tagging and Beach Seine Tagging Program.
2. Supplementary assessments such as stream walks in the Upper Bulkley, Nanika River swim and dead pitch, and aerial spawner counts are conducted in concert with Smithers DFO Stock Assessment Biologist, Barry Finnegan.
3. Canyon dip net tagging teams comprised of three taggers and two fishermen per team will tag and release Coho, Sockeye, Chinook and Steelhead within Moricetown Canyon.
4. Two beach seine teams comprised of 5 technicians per team will tag and release Coho, Sockeye, Chinook and Steelhead.
5. Other stock assessment efforts will include evaluating presence and strength of salmonids within the Wet'suwet'en asserted area, particularly the Bulkley/Morice watershed population. DNA sampling for the Bulkley and Morice/Atna systems will continue.
6. Wet'suwet'en Fisheries will continue to explore options with DFO Stock Assessment Staff for increasing the productive capacity of Morice Lake. Measures such as lake fertilization and sockeye enhancement will be explored.

Expected Results:

1. Maintain boats and vehicle for the tagging program.
2. Installation of bridges to Fishing sites, safety ropes, maintenance of project related Fishing gear.
3. Conduct pre-season test Fishing to determine when sampling activity should begin.
4. Hire labourers to transport equipment and gear for tagging operations, and to maintain

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

and repair truck, insure truck, inspect truck for compliance with Department of Highways regulations.

5. Update the daily tagging data form developed in 2014 as necessary. This form is used to make in-season estimates.
6. The FM will help ensure data is gathered and stored in a manner that safeguards the data, and ensures the data is accurate.
7. Conduct aerial spawner counts for Chinook, Coho, Sockeye and Pink in conjunction with DFO.
8. Conduct dead pitches in the Nanika River to supplement the Mark and Recapture program and swim Nanika River to count Sockeye spawners, noting tagged to untagged rations. DFO will generate population estimates.
9. Conduct stream walks to enumerate Sockeye in the upper Bulkley as the stock may meet the *Species at Risk Act* provision and the monitoring of the upper Bulkley River in regards of a genetically unique Sockeye stock. DNA samples will be taken.
10. Inventory the Morice Lake Sockeye beach spawner population along the south end of Morice Lake and snorkel survey the area between Morice River bridge and confluence with the Thautil/Gosnell rivers.
11. Inventory fish and fish habitat in the Maxan Creek area.
12. Inventory and analytical monitoring of Lamprey Eel populations will be conducted.
13. Enumerate Sockeye and collect DNA samples in Upper Bulkley River, and Morice Lake and Atna Lakes to supplement the Mark and Recapture program.
14. Conduct stream walks in the Morice River 1km from Morice Lake at the Dunes for Chinook enumeration.
15. Conduct stream walks in the Morice River Mainstem to count Sockeye and Sockeye spawners.
16. Paddling and mapping of fish habitat in Gosnell Creek from Joshua Creek confluence to the Gosnell Bridge. This project will be conducted in connection with a dead pitch survey in the second to third week of October, when the major Coho run has arrived.
17. A Morice Watershed Sockeye Conservation Plan will be developed in consultation with DFO Stock Assessment.

Products/Reports to provide to DFO:

1. Submit spawner count survey reports to DFO Stock Assessment for the Nanika and Gosnell Rivers.
2. Submit enumeration figures to DFO Stock Assessment for the Morice and Atna Lakes.
3. Submit enumeration figures to DFO Stock Assessment for Chinook and Sockeye in the Morice River.
4. Enter into Access database the Moricetown Canyon Tagging and Beach Seine Tagging data and submit to Smithers DFO Stock Assessment.
5. A Wet'suwet'en Fisheries Camp will be constructed on Atna Lake to facilitate the Sockeye enumeration, DNA sampling and restoration activities.
6. A Morice Watershed Sockeye Conservation Plan will be submitted in the Year End Report to DFO.
7. Submit in the Year End Report a summary of Stock Assessment activities and results.

Key Element A / Activity 4: Habitat Monitoring and Restoration

ESTIMATED COST $0.00
(Cost included in Activity 1 under Wages)

Task Description:

1. Wet'suwet'en Fisheries Staff will conduct habitat protection and monitoring activities to assist in habitat baseline information collection, habitat protection and conservation efforts within the Wet'suwet'en asserted area.
2. The Organization will monitor the functionality of various in-stream structures including culverts and forest service roads within the Morice Watershed.
3. The Organization will review proposals and attend any meetings related to proposed

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017

linear development or resource extraction development within the Wet'suwet'en asserted area.

Expected Results:

1. Water quality, flow and temperature monitoring in Moricetown Canyon.
2. Continue the existing water quality monitoring program for the special water management area in the upper Morice watershed that was created through the Morice LRMP.
3. Review plans and attend meetings for any mines, pipelines or other industrial developments that may have an impact on habitat within the Wet'suwet'en asserted area.
4. Country food (food fish) will be monitored for contaminants.
5. Habitat and fish inventory at pipeline crossing sites.
6. Establish baseline data for country foods (food fish) down streams of potential crossing locations.

Products/Reports to provide to DFO:

1. Information collected and concerns from the Wet'suwet'en Fisheries Staff specific to a land or water development proposal will be provided to the Office of the Wet'suwet'en, DFO, and Provincial Governments and to various industry representatives as applicable.
2. A summary of Habitat Monitoring and Restoration activities will be provided to DFO in the Year End Reports.
3. Any habitat violation concerns will be reported immediately to Smithers DFO C&P Officers.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

s.20(1)(c)

Key Element B / Activity 1: Catch Monitoring and Reporting

ESTIMATED COST

Task Description:

1. Catch Monitoring of all species will continue in Moricetown Canyon. Data will be used to calculate in-season catch estimates of the Wet'suwet'en fisheries and be reported weekly to DFO in Prince Rupert and Smithers.

Expected Results:

1. Up to 8 seasonal catch monitor positions will be created.
2. Species and catch numbers released and observed will be recorded at 2 hour intervals from dawn to dusk at FSC Fishing sites.
3. Monitoring data will be entered into a Microsoft Access database.

Products/Reports to provide to DFO:

1. In-season FSC catch numbers will be submitted to DFO Fisheries Management Melanie Anthony on a weekly basis.
2. A summary of FSC harvest will be provided by October 31 of that year and within the Year End Report and submitted to DFO in Smithers.

KEY ELEMENT C: ECONOMIC OPPORTUNITIES

KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Key Element D / Activity 1: Enforcement Activities

ESTIMATED COST

Task Description:

1. The Organization will hire one seasonal Aboriginal Fishery Guardian to patrol the Moricetown Canyon area to monitor FSC Fisheries and recreational fishers.
2. The Aboriginal Guardian and Ranger will also conduct patrols throughout the Wet'suwet'en asserted area to monitor any potential habitat infractions or violations.
3. The Aboriginal Guardian and Ranger will meet with Smithers DFO C&P staff to discuss

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Years 2015-2016 and 2016-2017
any issues and to maintain an enforcement protocol. 4. The Organization will provide equipment and training for the Wet'suwet'en Aboriginal Guardian and Ranger to fulfill their duties safely and effectively. **Expected Results:** 1. The Wet'suwet'en Aboriginal Guardian will be stationed and patrols will be undertaken within Moricetown Canyon throughout the Fishing season. 2. Enforcement of community fisheries licences. 3. Enforcement of ESSR agreements. 4. Fishery related bylaws and rules, such as the Canyon Fisheries Protocol detailing safety measures while Fishing in the canyon will be enforced. 5. An enforcement plan and/or an Observe, Record, Report (ORR) procedure will be discussed with DFO C&P in Smithers. 6. The Aboriginal Guardian will conduct regular enforcement patrols to ensure that the recreational fishery is not impacting the Food Fishery. **Products/Reports to provide to DFO:** 1. Aboriginal Guardian activities will be summarized in the Year End Report. 2. Conflicts between the recreational fishery and the food fishery will be reported to DFO C&P Smithers.

4. Movement of Funds

4.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 5 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

4.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony (melanie.anthony@dfo-mpo.gc.ca. The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

5. Budget

SCHEDULE 6

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year _____

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$441,000.00

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 3 or 5 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 7

PROGRESS REPORT / YEAR END REPORT

Fiscal Year:	2015-2016 and/or 2016-2017
Name and Address of Organization:	Wet'suwet'en Treaty Office Society 205 Beaver Road, Suite 1 Smithers, BC V0J 2N1
Agreement Number:	AFS2015-MLT-1551-0
Amount of Approved Contribution for Fiscal Year:	Total: $441,000.00 DFO: $441,000.00 Organization: $0.00

Reporting period: from: _____ to: _____

Type of report:	**Purpose of report:**
☐ Progress Report ☐ Year End Report	☐ Request for advance payment * ☐ Request for reimbursement ☐ Release holdback ☐ Other: _____ * Also submit a revised cash flow projection of Eligible Costs in the form set out in Schedule 6 of the Agreement.

2. A summary of Habitat Monitoring and Restoration activities will be provided to DFO in the Year End Reports.	**Products/Reports:**
3. Any habitat violation concerns will be reported immediately to Smithers DFO C&P Officers.	**Products/Reports:**
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: Catch Monitoring and Reporting **Expected Results:** 1. Up to 8 seasonal catch monitor positions will be created.	**Actual Results in Narrative Format (enter text):**
2. Species and catch numbers released and observed will be recorded at 2 hour intervals from dawn to dusk at FSC Fishing sites.	**Actual Results in Narrative Format (enter text):**
3. Monitoring data will be entered into a Microsoft Access database.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. In-season FSC catch numbers will be submitted to DFO Fisheries Management Melanie Anthony on a weekly basis.	**Products/Reports:**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Activities (from section 3 of Schedule 5)	Status * (in measurable terms)
2. A summary of FSC harvest will be provided by October 31 of that year and within the Year End Report and submitted to DFO in Smithers.	**Products/Reports:**
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY	
Activity D-1: Enforcement Activities **Expected Results:** 1. The Wet'suwet'en Aboriginal Guardian will be stationed and patrols will be undertaken within Moricetown Canyon throughout the Fishing season.	**Actual Results in Narrative Format (enter text):**
2. Enforcement of community fisheries licences.	**Actual Results in Narrative Format (enter text):**
3. Enforcement of ESSR agreements.	**Actual Results in Narrative Format (enter text):**
4. Fishery related bylaws and rules, such as the Canyon Fisheries Protocol detailing safety measures while Fishing in the canyon will be enforced.	**Actual Results in Narrative Format (enter text):**
5. An enforcement plan and/or an Observe, Record, Report (ORR) procedure will be discussed with DFO C&P in Smithers.	**Actual Results in Narrative Format (enter text):**
6. The Aboriginal Guardian will conduct regular enforcement patrols to ensure that the recreational fishery is not impacting the Food Fishery.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. Aboriginal Guardian activities will be summarized in the Year End Report.	**Products/Reports:**
2. Conflicts between the recreational fishery and the food fishery will be reported to DFO C&P Smithers.	**Products/Reports:**

* Please insert the title of the product/report in the status section and provide a copy of it by hardcopy, CD, DVD or hyperlink when it has been completed.

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization and Member Organizations with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. If DFO and the Organization have reached agreement on a Fishing plan, DFO will issue a Communal Licence to the Organization that includes the provisions of the agreed-to Fishing plan. If the Parties have not reached agreement on the Fishing plan, DFO will issue a Communal Licence to the Organization based on any provisions agreed and any additional provision that DFO has consulted on and deems necessary to achieve conservation goals and orderly management of the fishery.

1.4. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.5. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.6. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.7. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.8. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.9. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species of Fish:

Sockeye
Pink
Chinook
Coho

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Chum

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

s.20(1)(c)

4.1.

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Wet'suwet'en Treaty Office Society or a Member Organization will serve as the Member's designation document.

6.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to Smithers C&P, fax (250) 847-4723, email Ricardo.Correia@dfo-mpo.gc.ca a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies. Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE C

ABORIGINAL FISHERY GUARDIANS

1. Designation

1.1. On an annual basis, the Organization will identify one or more suitable candidates to be an Aboriginal Fishery Guardian.

1.2. The Minister may designate the candidate(s) recommended by the Organization as Aboriginal Fishery Guardian(s) under section 5 of the *Fisheries Act*.

1.3. The candidate will only be designated as an Aboriginal Fishery Guardian after meeting DFO's training requirements, security clearance and reliability checks.

1.4. The powers of the Aboriginal Fishery Guardian and the period of application will be defined in the designation certificate issued to that individual under subsection 5(2) of the *Fisheries Act*. Prior to the start of Aboriginal Fishery Guardian activities in each Fiscal Year, the renewal of designation will be discussed by DFO and the Organization.

1.5. The Minister may review the designation of an Aboriginal Fishery Guardian at the request of the Organization, or after any conduct considered by the Minister to be a serious breach of the duties or roles set out in this Schedule or in the designation certificate, or after any conduct considered to be inappropriate for an Aboriginal Fishery Guardian. If the Minister revokes the designation, DFO will require the immediate return of the designation certificate that was issued by DFO.

2. Roles and Responsibilities of Aboriginal Fishery Guardians

2.1. In accordance with this Agreement and under the direction of the Organization, the responsibilities of the Aboriginal Fishery Guardian may include, but are not restricted to, the following:

(a) education and shared stewardship activities in light of promoting compliance;

(b) carrying out enforcement functions that may include:

(i) the issuance of warnings,
(ii) the inspection of Fishing gear and Fish and otherwise gathering evidence,
(iii) the detention of accused individuals without physical contact and with the appropriate Charter warnings,
(iv) the taking of statements from accused individuals, with appropriate Charter warnings, and from witnesses,
(v) the seizure of Fish and Fishing gear,
(vi) the issuance of Appearance Notices,
(vii) assistance in the preparation of court briefs and other documents, and
(viii) testifying in court and providing evidence in court;

(c) providing catch information;

(d) carrying out patrols on land and water to monitor Fishing and habitat activities;

(e) carrying out stock assessment activities;

(f) reporting activities that are harmful to Fish habitat and participating in other habitat matters, habitat enhancement activities, the monitoring of water levels and fish-ways, and the collection of samples in accordance with procedures specified by DFO;

(g) interacting with Members engaged in Fishing, individuals engaged in commercial

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

and recreational Fishing, and other individuals; and

(h) providing reports on their activities to the Organization and to the local C&P personnel.

2.2. An Aboriginal Fishery Guardian will call on C&P personnel when circumstances require action beyond the authority of the Aboriginal Fishery Guardian.

2.3. In enforcement circumstances that require action beyond the powers set out in this Schedule, an Aboriginal Fishery Guardian's designation or, in circumstances where an Aboriginal Fishery Guardian is of the opinion that enforcement action will place the Aboriginal Fishery Guardian in personal danger, the Aboriginal Fishery Guardian will call on C&P personnel for assistance and will observe, record and report the incident to C&P personnel.

2.4. The Aboriginal Fishery Guardian will consult with and work cooperatively with local C&P personnel and other DFO personnel when carrying out Aboriginal Fishery Guardian activities referred to in this Agreement.

3. Participation in the Fishery

3.1. An Aboriginal Fishery Guardian will not participate in any Fishing while on duty, except as directed to support the Activities set out in this Agreement.

4. Training

4.1. DFO and the Organization may discuss training requirements of the designated Aboriginal Fishery Guardians. Based on these discussions, DFO and the Organization may, where necessary, provide academic and technical training to designated Aboriginal Fishery Guardians.

5. Uniforms and Equipment

5.1. The Organization is responsible for providing its Aboriginal Fishery Guardian(s) with uniforms or other working attire and will ensure that no DFO logo is used on the uniforms or attire. No individuals other than an Aboriginal Fishery Guardian will wear the uniform or other working attire provided by the Organization. An Aboriginal Fishery Guardian will not wear the uniform or other working attire except when on duty.

5.2. The Organization will provide its Aboriginal Fishery Guardian(s) with the appropriate equipment for operations, communications and personal safety needs. The Aboriginal Fishery Guardian(s) will maintain all equipment, issued by both DFO and the Organization, in good working condition.

6. Firearms and Other Authority

6.1. The Aboriginal Fishery Guardian will not be issued firearms, other weapons or restraints and will not carry such in the course of his/her duties.

6.2. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, the Organization is not precluded from issuing non-restricted firearms or other weapon for the sole purposes of personal safety and the safety of others from dangerous wildlife.

6.3. Notwithstanding subsection 6.1 of this Schedule and subject to all applicable laws, an Aboriginal Fishery Guardian may, for his/her personal safety, and for the safety of others, carry non-restricted firearms or other weapon for the sole purpose of protection from dangerous wildlife.

6.4. In the course of his/her duties, an Aboriginal Fishery Guardian:

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(a) will not use physical contact or force for the purpose of detaining any individual;

(b) will not exercise the powers of seizure or search of vehicles and vessels; and

(c) will not exercise the powers of search and arrest of accused individuals.

7. Responsibilities of the Organization

7.1. The Organization is responsible for any costs related to salaries, benefits and operations for individuals designated by DFO as Aboriginal Fishery Guardians for the Organization.

7.2. The Organization will arrange for insurance, including third-party liability insurance and disability insurance, for and on behalf of its Aboriginal Fishery Guardians.

7.3. The Organization will be accountable for ensuring that the duties of the Aboriginal Fishery Guardian(s) will be carried out in accordance with the provisions of this Agreement and that the Aboriginal Fishery Guardian(s) are made aware of its contents and any amendments that may impact their functions or duties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE D

MONITORING AND ENFORCEMENT PROTOCOL

1. Purpose

1.1. This Schedule will be used to assist the Parties in conducting monitoring and enforcement activities, but does not, and is not intended to, restrict the powers of C&P personnel.

2. Coordination of Monitoring and Enforcement Activities

2.1. C&P personnel, representatives of the Organization and Aboriginal Fishery Guardians will work cooperatively in implementing this Schedule.

2.2. The monitoring and enforcement activities of Aboriginal Fishery Guardians will be coordinated with the activities of DFO fishery officers by C&P personnel in consultation with representatives of the Organization.

2.3. C&P personnel and the representatives of the Organization will conduct the following activities:

(a) communicate regularly to discuss monitoring and enforcement issues;

(b) coordinate joint patrols between DFO fishery officers and Aboriginal Fishery Guardians, when appropriate;

(c) establish a process for the reporting of enforcement activities and actions undertaken by Aboriginal Fishery Guardians; and

(d) share relevant information concerning the occurrence of violations under the *Fisheries Act* and regulations.

3. Consultation

3.1. C&P personnel will attempt to consult with the representatives of the Organization before taking any enforcement action related to Fishing under this Agreement, except where prior consultation would compromise the effectiveness of the enforcement action, in which case DFO will consult with the representatives of the Organization as soon as possible after taking enforcement action.

3.2. C&P personnel will attempt to consult with the representatives of the Organization in the case where C&P has taken an enforcement action.

s.19(1)

3.3. The following will be the designated representatives of the Organization for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number

3.4. The following will be the designated representatives of DFO for the purpose of consultation under this Schedule:

Name	Position Title	Phone Number
Ricardo Correia	Detachment Supervisor	(250) 847-2576

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

4. Breach of Licence

4.1. Where there is a breach of the conditions of a Communal Licence and the Organization has taken or intends to take action against the individual(s) with respect to the breach, DFO will take into account the Organization's actions in determining what action, if any, DFO will take.

5. Seizure of Fish and Fishing Gear

5.1. DFO and the Aboriginal Fishery Guardians will carry out the disposition of any seized Fish or Fishing gear in accordance with the *Fisheries Act*. Any proceeds realized from such disposition will be paid to the Receiver General for Canada.

5.2. In accordance with the conservation and management objectives of this Agreement, seized Fish that are alive and unharmed will be returned to the water unless required for evidence.

6. Documentation

6.1. Incident reports, violation reports and any enforcement actions taken during the seizure of Fish and Fishing gear will be properly documented in accordance with federal and provincial law and DFO policy and procedure.

7. Appearance Notices

7.1. Appearance Notices will be issued in accordance with this Schedule and DFO's *National Procedural Guidelines for the Enforcement of Aboriginal Fishing for Food, Social and Ceremonial Purposes* and Pacific Region's *Standard Operating Procedure for Aboriginal Charge Approval.*

8. Enforcement Guidelines

8.1. The Parties may enter into discussions about enforcement guidelines.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 28 day of September, 20 15
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

YEKOOCHE FIRST NATION, also known as Nancut Indian Band (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

2. Interpretation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 5
Schedule 2	General Terms and Conditions	Page 7
Schedule 3	Financial Management, Payments and Reporting	Page 11
Schedule 4	Description of Eligible Costs for Reimbursement	Page 15
Schedule 5	Activities	Page 17
Schedule 6	Cash Flow Projection of Eligible Costs	Page 21
Schedule 7	Progress Report / Year End Report	Page 22
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 26

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to SEVEN THOUSAND DOLLARS ($7,000.00) in Fiscal Year 2015-2016 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2016.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Yekooche First Nation
1890 Third Avenue
Prince George, BC
V2M 1G4

Attention: Chief Allen Joseph

Telephone: (250) 562-0592
Facsimile: (250) 562-0530

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-363-1647
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representative referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

Witness
Francine Legault

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 3 of Schedule 5;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2015, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2015, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for the Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment of ninety percent (90%) of the Contribution amount.

2.2.4. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information

Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization may, at its discretion, submit a Progress Report at any time in the form set out in Schedule 7.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other non-employees

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for 2015-2016

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

2015-2016 Annual Work Plan for 2015-2016	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

Key Element A / Activity 1: Agreement Negotiations, Fisheries Related Meetings and Skeena Consultation s.20(1)(c)

ESTIMATED COST

Task Description:

The Organization will engage in negotiating and planning sessions with DFO to develop a Fisheries Agreement for the 2015-2016 fiscal year. The Program Manager and administrative staff will meet with DFO staff from Smithers and Williams Lake to discuss fisheries related meetings and planning. The Program Manager will also conduct community consultations. Costs will include travel and wages for Organization personnel to attend these selected fisheries meetings, as well as administration costs to support the Program Manager.

The Program Manager will attend meetings related to Skeena River salmon management issues. Meetings may include IFMP consultation and AFS program strategic planning, as well as liaison with DFO regarding capacity building within the Organization.

Planned Expenditures:

Eligible costs may include wages, travel and fees to attend fisheries related meetings.

Expected Results:

1. Increased dialogue between DFO and the Organization to pursue opportunities in training and increased fisheries roles for the Organization.
2. Engage in community consultations to keep leadership and community members updated on program and fisheries related issues.
3. Negotiate a Comprehensive Fisheries Agreement.
4. Increased community awareness and involvement in fisheries management.
5. Increased awareness for protection and enhancement of fisheries resources and fish habitat.
6. Work on strategic planning for the Organization fisheries program.

Products/Reports to provide to DFO:

1. A Year End Report will be submitted and include meeting dates and times and updates on community consultations within the prescribed timeframe.
2. The Year End Report will also include any developments on strategic planning.
3. The Year End Report and all financial reporting as identified in the contribution Agreement will be provided to Melanie Anthony, AFS Implementation Officer.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for 2015-2016

Key Element A / Activity 2: Fisheries Related Meetings and Consultations – Fraser Salmon Management Issues

s.20(1)(c)

ESTIMATED COST

Task Description:

The Program Manager and administrative staff will attend meetings related to fisheries and for the purpose of planning, providing information and consultation. These will be Tier 1 meetings with other First Nations and Tier 2 meetings between First Nations and DFO. Such meetings include:

- Forum on Conservation and Harvest Planning for Fraser Salmon
- "Fraser Salmon Management Council" – building a Fraser River Co-management Structure and Process

The meetings are largely for the purposes of discussing conservation and FSC harvest planning, including sharing in situations of returning weak salmon stocks. Meetings attended will be listed in the Year End Report.

Planned Expenditures:

Travel, salaries and wages, administration.

Expected Results:

1. The Organization will be actively participating in the fisheries related meetings and forums listed above, related to salmon stocks returning to streams in the Stuart River watershed forums and have its representative report back to Chief and Council on issues discussed.

Products/Reports to provide to DFO:

1. A Year End Report will be submitted and include meeting dates and times and updates on community consultations within the prescribed timeframe.
2. The Year End Report will also include any developments on strategic planning.
3. The Year End Report and all financial reporting as identified in the contribution Agreement will be provided to Melanie Anthony, AFS Implementation Officer.

KEY ELEMENT B:	FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: FSC Catch Monitoring

ESTIMATED COST

Task Description:

Record keeping and catch monitoring of the Organization's harvest of sockeye salmon Catch data of all harvests to be reported to DFO.

Planned Expenditures:

Salaries and wages

Expected Results:

1. Increased awareness of community members regarding the amount of fish taken for food, social and ceremonial purposes. Increased awareness for protection and enhancement of fisheries resources and fish habitat.

Products/Reports to provide to DFO:

1. A summary of FSC harvest will be submitted to DFO Resource Management, Melanie Anthony (melanie.anthony@dfo-mpo.gc.ca), by October 15, 2015. The catch summary will include dates, times, location and amount of harvest.

KEY ELEMENT C:	ECONOMIC OPPORTUNITIES
KEY ELEMENT D:	AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony (melanie.anthony@dfo-mpo.gc.ca, or Linda Stevens (Linda.stevens@dfo-mpo.gc.ca). The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

CASH FLOW PROJECTION OF ELIGIBLE COSTS

Fiscal Year 2015-2016

☐ Original

☐ Revised as of _____

MONTH	$ AMOUNT Current Fiscal Year
April	
May	
June	
July	
August	
September	
October	
November	
December	
January	
February	
March	
TOTAL	$7,000.00

s.20(1)(c)

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

Section 2 –Products/Reports and Actual Results

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
KEY ELEMENT A: AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP	
Activity A-1: Agreement Negotiations, Fisheries Related Meetings and Skeena Consultation **Expected Results:** 1. Increased dialogue between DFO and the Organization to pursue opportunities in training and increased fisheries roles for the Organization.	**Actual Results in Narrative Format (enter text):**
2. Engage in community consultations to keep leadership and community members updated on program and fisheries related issues.	**Actual Results in Narrative Format (enter text):**
3. Negotiate a Comprehensive Fisheries Agreement.	**Actual Results in Narrative Format (enter text):**
4. Increased community awareness and involvement in fisheries management.	**Actual Results in Narrative Format (enter text):**
5. Increased awareness for protection and enhancement of fisheries resources and fish habitat.	**Actual Results in Narrative Format (enter text):**
6. Work on strategic planning for the Organization fisheries program.	**Actual Results in Narrative Format (enter text):**

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information

Activities (from section 2 of Schedule 5)	Progress or Year-End/Final Report on Status (in measurable terms)
Products/Reports to provide to DFO: 1. A Year End Report will be submitted and include meeting dates and times and updates on community consultations within the prescribed timeframe.	**Products/Reports:**
2. The Year End Report will also include any developments on strategic planning.	**Products/Reports:**
3. The Year End Report and all financial reporting as identified in the contribution Agreement will be provided to Melanie Anthony, AFS Implementation Officer.	**Products/Reports:**
Activity A-2: Fisheries Related Meetings and Consultations - Fraser Salmon Management Issues **Expected Results:** 1. The Organization will be actively participating in the fisheries related meetings and forums listed above, related to salmon stocks returning to streams in the Stuart River watershed forums and have its representative report back to Chief and Council on issues discussed.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A Year End Report will be submitted and include meeting dates and times and updates on community consultations within the prescribed timeframe.	**Products/Reports:**
2. The Year End Report will also include any developments on strategic planning.	**Products/Reports:**
3. The Year End Report and all financial reporting as identified in the contribution Agreement will be provided to Melanie Anthony, AFS Implementation Officer.	**Products/Reports:**
KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT	
Activity B-1: FSC Catch Monitoring Babine Lake **Expected Results:** 1. Increased awareness of community members regarding the amount of fish taken for food, social and ceremonial purposes. Increased awareness for protection and enhancement of fisheries resources and fish habitat.	**Actual Results in Narrative Format (enter text):**
Products/Reports to provide to DFO: 1. A summary of FSC harvest will be submitted to DFO Resource Management, Melanie Anthony (melanie.anthony@dfo-mpo.gc.ca), by October 15, 2015. The catch summary will include dates, times, location and amount of harvest.	**Products/Reports:**
KEY ELEMENT C: ECONOMIC OPPORTUNITIES	
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

s.20(1)(c)

Limited to a maximum harvest of:

[redacted]

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Other Species of Fish

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

s.20(1)(c)

4.1. [redacted]

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Yekooche First Nation will serve as the Member's designation document.

6.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to DFO C&P Field Supervisors in Prince George, fax: (250) 286-5844, and Smithers, fax: (250) 847-4723, a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information

Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 15 day of November, 20 16
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

YEKOOCHE FIRST NATION, also known as Nancut Indian Band (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

2. Interpretation

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 5
Schedule 2	General Terms and Conditions	Page 7
Schedule 3	Financial Management, Payments and Reporting	Page 11
Schedule 4	Description of Eligible Costs for Reimbursement	Page 15
Schedule 5	Activities	Page 17
Schedule 6	Cash Flow Projection of Eligible Costs	Page 21
Schedule 7	Progress Report / Year End Report	Page 22
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 26

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.

6.2. DFO will contribute to the Organization an amount of up to SEVEN THOUSAND DOLLARS ($7,000.00) in Fiscal Year 2016-2017 on the condition that these funds will be used in accordance with the terms and conditions of this Agreement.

7. Effect and Duration

7.1. This Agreement will come into effect on execution by both Parties and, unless terminated earlier in accordance with section 10, will terminate on March 31, 2017.

8. Amendment

8.1. The Parties may amend this Agreement at any time for any reason, but such amendment will have no force or effect unless made in writing and signed by both Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9. Survival

9.1. The obligations of the Organization under sections 3 and 12 and subsections 8.1 and 8.2 of Schedule 2, and under subsections 1.5, 1.6, 3.3, 2.5.1 and 2.5.2 of Schedule 3 will survive the expiry or termination of this Agreement.

10. Termination

10.1. This Agreement may be terminated by either Party with ten (10) days notice in writing given to the other Party.

10.2. Notwithstanding subsection 10.1, this Agreement may be terminated for non-compliance with this Agreement immediately on notice in writing to that effect given to the other Party.

11. Notices and Representatives

11.1. Where any information or communication is required to be given under this Agreement, it will be in writing and delivered personally or by courier, registered mail, electronic mail or facsimile transmission, and unless notice to the contrary is given, will be addressed to the Party at:

To Organization:

Yekooche First Nation
1890 Third Avenue
Prince George, BC
V2M 1G4

Attention: Chief Allen Joseph

Telephone: (250) 562-0592
Facsimile: (250) 562-0530

To DFO:

Fisheries and Oceans Canada
200 – 401 Burrard Street
Vancouver, BC
V6C 3S4

Attention: Regional Manager, Aboriginal Fisheries Strategy

Telephone: 604-363-1647
Facsimile: 604-666-2336
Email: ann.susnik@dfo-mpo.gc.ca

11.2. A notice or communication will be deemed to have been received:

(a) the following business day if sent by facsimile or delivered in person;

(b) three (3) business days after sending if sent by e-mail;

(c) five (5) business days after the posting if sent by regular mail; or

(d) when receipt has been acknowledged by the other Party if sent by courier or registered mail.

11.3. A Party may change its representative and contact information by giving written notice of the change to the other Party.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12. Ratification

12.1. The Organization warrants that the representative who executes this Agreement on behalf of the Organization has authority to bind the Organization and Members for the purposes of this Agreement.

12.2. The representative who executes this Agreement on behalf of DFO has authority to enter into this Agreement on behalf of, and to bind, DFO.

12.3. Execution of this Agreement by the representative referred to in subsections 12.1 and 12.2 constitutes ratification of this Agreement by the Organization and DFO.

12.4. The Organization will inform Members of the contents of this Agreement and will provide them with a copy of this Agreement upon request.

13. Execution and Counterparts

13.1. This Agreement may be executed by the Parties in separate counterparts, each of which when so executed and delivered will be an original, but all such counterparts will together constitute one and the same instrument.

13.2. This Agreement may be signed in whole or in part by way of facsimile transmission or by e-mail delivery of a PDF data file and the Parties agree to accept and rely upon such facsimile or PDF signature as if it contained original signatures and such facsimile or PDF signature will have the same force and effect as an original document.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the day and year first written at the beginning of this Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans

Diane Clyne.

Witness

DIANE CLYNE

(Print name)

Robert Lamirande
Director General
Aboriginal Affairs
Fisheries and Oceans Canada

YEKOOCHE FIRST NATION by its duly authorized representative

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 1

DEFINITIONS

In this Agreement:

"Activity" or **"Activities"** means an activity or activities carried out by the Organization set out in the annual Activities table in section 2 of Schedule 5;

"Agreement" means this Agreement and any Schedules attached to it, as amended from time to time in accordance with this Agreement;

"Balance" means an amount equal to the total amount of Contribution received by the Organization from DFO under this Agreement, less the total amount paid or payable by the Organization toward Eligible Costs at the relevant date;

"Capital Acquisition" means a tangible asset that is purchased, constructed, developed or otherwise acquired by the Organization with the Contribution, at a price of one thousand dollars ($1,000.00) or more exclusive of Goods and Services Tax (GST), Harmonized Sales Tax (HST) or other taxes, having a useful life extending beyond one Fiscal Year and is intended to be used for the purpose of carrying out the Activities;

"Communal Licence" means a licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations* to conduct Fishing for food, social and ceremonial purposes and related activities;

"Contractual Arrangement" means a binding agreement, financial or otherwise, between two or more parties including any contract, long-term obligation, loan or capital lease;

"Contribution" means the conditional funding that DFO will provide to the Organization up to the amount referred to in subsection 6.2 of this Agreement;

"Eligible Costs" means the categories of costs described in Schedule 4 of this Agreement or otherwise approved by DFO that are incurred by and are paid or payable by the Organization during a Fiscal Year in carrying out the Activities, but does not include any Goods and Services Tax (GST) or Harmonized Sales Tax (HST) paid in relation to those costs for which the Organization may claim reimbursement or exemption;

"Fiscal Year" means the one year period beginning with April 1 of a calendar year and ending with March 31 of the next calendar year;

"Fish" includes:

(a) parts of fish,

(b) shellfish, crustaceans, marine animals and any parts of shellfish, crustaceans or marine animals, and

(c) the eggs, sperm, spawn, larvae, spat and juvenile stages of fish, shellfish, crustaceans and marine animals,

as defined in the *Fisheries Act*;

"Fishing" means fishing for, catching or attempting to catch Fish by any method, as defined under the *Fisheries Act*;

"Fishery Enforcement Officer" means an individual designated as a fishery officer or fishery guardian under section 5 of the *Fisheries Act* and may include a fishery officer, Aboriginal fishery officer, RCMP officer, conservation officer and an Aboriginal Fishery Guardian;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

"FSC Fishery" means fisheries for food, social and ceremonial purposes carried out by the Organization or its Members;

"Intellectual Property" means all rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields, including all intellectual creations legally protected through legislation or subject to protection under the law as trade secrets and confidential information;

"Member" means an individual who is a member of the Organization;

"Other Entity" includes societies, limited partnerships, partnerships and corporations;

"Parties" means the Organization and DFO and **"Party"** means either one of them;

"Progress Report" means a report on the progress of the Organization in carrying out the Activities during the reporting period to be provided by the Organization in accordance with subsection 3.2 of Schedule 3;

"RDG" means the Regional Director General of DFO for Pacific Region;

"Recipient Audit" means an independent assessment to provide assurance on the Organization's compliance with this Agreement. The scope of a recipient audit may address any or all financial or non-financial aspects of this Agreement;

"Unexpended Funding" means the amount by which the Contribution paid or payable to the Organization exceeds actual costs incurred to complete the Activities in any Fiscal Year covered by this Agreement; and

"Year End Report" means a report on the results of the Activities carried out by the Organization during the Fiscal Year to be provided by the Organization in accordance with subsection 3.3 of Schedule 3.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 2

GENERAL TERMS AND CONDITIONS

1. Service Standards

1.1. DFO will administer this Agreement in accordance with its service standards.

2. Evaluation

2.1. DFO and the Organization may conduct a joint evaluation of the implementation of this Agreement and, when appropriate, DFO may undertake other evaluation procedures.

2.2. Following evaluation, this Agreement may be amended in accordance with section 8 of this Agreement or terminated in accordance with section 10 of this Agreement.

3. Confidentiality

3.1. Subject to subsections 3.2 and 3.3 of this Schedule, DFO will respect the confidentiality of any information provided by the Organization to, or shared with, DFO in confidence.

3.2. Any information provided by or to DFO or shared by or with DFO under this Agreement will be subject to the *Access to Information Act* and the *Privacy Act*.

3.3. The Organization acknowledges and agrees that its name, the amount of the Contribution and the general nature of the Activities supported by this Agreement may be made publicly available by Her Majesty the Queen in right of Canada.

4. Intellectual Property and Aboriginal Traditional Knowledge

4.1. DFO and the Organization may negotiate the terms by which Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization in carrying out the Activities may be shared.

4.2. Any Intellectual Property and Aboriginal traditional knowledge that is created, gathered or organized by the Organization or its Members in carrying out the Activities under this Agreement will be owned by the Organization or its Members, as required or appropriate under any agreement between the Organization and its Members.

4.3. Her Majesty the Queen in right of Canada retains the right to obtain and utilize with the permission of the Organization, and without cost, the Intellectual Property and Aboriginal traditional knowledge identified in subsection 4.2 of this Schedule, under the terms negotiated in subsection 4.1 of this Schedule.

4.4. In respect of Intellectual Property and Aboriginal traditional knowledge that the Organization does not own, the Organization warrants that it will secure from its Members, as appropriate, the rights it requires to meet its obligations under subsection 4.1 of this Schedule.

5. No Employee Relationship, Agency Relationship or Assignment

5.1. Nothing in this Agreement, nor any acts of the Organization or of DFO creates or is intended to create an agency, association, employer-employee, or joint-venture relationship between the Organization and Her Majesty the Queen in right of Canada.

5.2. Neither Party will at any time hold itself out as acting as an agent of the other Party.

5.3. The Organization will not assign this Agreement or any part of it.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

6. Conflict of Interest

6.1. No member of the House of Commons or the Senate will be admitted to any share or part of this Agreement or to any benefit arising from it that is not otherwise available to the general public.

6.2. No individual, for whom the post-employment provisions of the *Conflict of Interest Act*, the *Conflict of Interest and Post-Employment Code for Public Office Holders* or the *Values and Ethics Code for the Public Service* apply, will derive any direct benefit from this Agreement unless that individual is in compliance with such legislation and codes. The Organization will disclose to DFO any individual it intends to hire or remunerate who was formerly or is presently a federal public servant.

7. Lobbyist Registration

7.1. The Organization will ensure that any individual lobbying on its behalf is in compliance with the *Lobbying Act*.

8. Indemnification and Insurance

8.1. Where the Organization enters into a Contractual Arrangement in relation to the Activities, the Organization assumes all responsibility, liability and risk arising out of, or related to, either directly or indirectly, the Contractual Arrangement. DFO, in reviewing any Contractual Arrangement entered into by the Organization is not making any representations to the Organization or any third party nor assuming any responsibility for the Contractual Arrangement. The Organization remains entirely responsible for any Contractual Arrangement entered into by it in relation to the Activities and the Organization will have no claim on Her Majesty the Queen in right of Canada related to such Contractual Arrangement.

8.2. The Organization will indemnify and save harmless Her Majesty the Queen in right of Canada, and Her Ministers, officers, employees and agents from and against all claims, demands, costs (including legal costs), losses, damages, actions, suits and proceedings, by whomsoever brought or prosecuted, caused by or related to any act or omission of the Organization, any Member, any officer, employee, agent or contractor of the Organization, or anyone for whom it is responsible in law, or any or all of them, in carrying out this Agreement or any part of it.

8.3. The Organization will purchase, provide and maintain insurance, including third-party liability insurance, suitable to its own requirements and to the Activities carried out by the Organization, or anyone for whom it is responsible in law, including but not limited to any Member, officer, employee, agent or contractor of the Organization, under this Agreement. The Organization is responsible for all short and long term disability insurance and all other operating, training, salary and benefit costs that are not specifically funded under this Agreement.

9. Acts and Regulations

9.1. Where any of the Activities requires an environmental assessment under the *Canadian Environmental Assessment Act*, DFO will fulfil its responsibilities under the *Canadian Environmental Assessment Act* before any payments in relation to the applicable Activities can be made under this Agreement.

9.2. Nothing in this Agreement affects any applicable federal requirement under the *Canadian Environmental Assessment Act*.

9.3. Where the Organization carries out Activities under this Agreement, the Organization will comply with the *Fisheries Act* and regulations and will ensure that any authorizations required under subsection 35(2) of the *Fisheries Act*, and any other authorization required by law, are obtained prior to the commencement of any Activities. The Organization will also ensure that the Activities are conducted in accordance with those authorizations.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

9.4. Nothing in this Agreement affects any applicable federal or provincial requirement with respect to the conservation and protection of Fish and Fish habitat or to the processing of Fish.

9.5. Nothing in this Agreement affects any applicable federal requirement under the *Species at Risk Act*.

10. Official Languages

10.1. The Organization will respect the spirit and the intent of the *Official Languages Act* when serving the public through the Activities. Linguistic requirements may apply to the Activities depending on the specificity of the regions, locations and/or targeted audiences of the Activities. The Organization, in consultation with DFO, will determine the linguistic obligations resulting from the services provided to the public based on the linguistic composition of the targeted public.

11. Public Acknowledgement and Communications

11.1. Subject to subsection 11.2 of this Schedule, the Organization may publicly acknowledge the Contribution provided by DFO under this Agreement in any publication, other media or public information release with respect to the Activities.

11.2. Any reproduction of a corporate symbol of the Government of Canada that is used in an acknowledgement by the Organization under subsection 11.1 of this Schedule, will be in a manner satisfactory to the Minister. The Organization will submit the publication, media or public information release, as applicable, to the DFO representative identified in the Notices and Representatives section of this Agreement for approval at least two (2) weeks before printing or publication.

12. Issue Resolution

12.1. If any issue arises under this Agreement that is not readily resolved by the Parties, the immediate supervisor of the representative from the Party raising the issue will provide a written description of the issue to the immediate supervisor of the representative of the other Party. The supervisors will attempt, in a timely manner, to resolve the issue.

12.2. If the issue remains unresolved, DFO's local area Resource Manager, Assistant Resource Manager or other staff member responsible for implementation of this Agreement, will be provided with the written description of the issue and will meet with the Party's field representatives to attempt to resolve the issue.

12.3. If the issue remains unresolved, and a Joint Technical Advisory Committee or an Implementation Committee exists, the Parties will arrange a meeting with the Committee and the local Aboriginal Affairs Advisor for the area, to attempt to resolve the issue.

12.4. If the issue remains unresolved, the local Aboriginal Affairs Advisor will discuss the matter with the responsible DFO managers and the DFO staff directly involved, and will arrange to meet with senior representatives of the Organization to attempt to resolve the issue.

12.5. If the issue remains unresolved, the Parties may refer the matter, with written details, to the RDG for review. Representatives of the Organization will have an opportunity to meet directly with the RDG to discuss the issue if they wish. On completion of the review, the RDG will notify the Organization in writing of the RDG's decision and the reason(s) for the decision.

12.6. At any point prior to referring the issue to the RDG, the Parties may agree to seek the services of a mediator or facilitator to assist in resolving the issue. Costs for the mediator or facilitator will be shared equally by the Parties.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

12.7. After the Fishing season, the Parties may review any issues dealt with through this issue resolution process and document any recommendations for resolving similar issues in a more effective way. A Joint Technical Advisory Committee or Implementation Committee, if one exists, may be used to assist in this final step.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 3

FINANCIAL MANAGEMENT, PAYMENTS AND REPORTING

1. Financial Management

1.1. Appropriation

1.1.1. Any payment under this Agreement is subject to appropriations approved by Parliament, and payments will be terminated or reduced in the event that funds are not available in the Fiscal Year in which payment is to be made.

1.2. Contribution

1.2.1. Any interest earned by the Organization on the Contribution or any part of it will be used exclusively for paying Eligible Costs.

1.3. Stacking and Other Financial Assistance

1.3.1. DFO supports partnering arrangements under which Aboriginal organizations seek financial assistance from other funding sources. Under the stacking limit, however, funding for an Activity from all federal, provincial, territorial and municipal sources cannot exceed one hundred percent (100%) of the cost of that Activity. If funding is received from government or non-government sources for different items or activities than those described in Schedule 5, or, if those funds supplement DFO supported Activities, subsections 1.3.4(a) and 1.3.4(b) of this Schedule do not apply.

1.3.2. The Organization agrees to inform DFO promptly in writing of any additional financial assistance received from other funding sources after the date on which this Agreement is signed for the Activities other than the financial assistance referred to in subsection 1.3.1 of this Schedule or subsection 6.2 of this Agreement.

1.3.3. The Organization declares that any financial assistance with respect to the Activities that it has received or will be receiving from other sources, excluding the Contribution, is set out in Schedule 5.

1.3.4. If the Organization is to receive, or receives, financial assistance from another funding source for the same item(s) to which DFO contributes for the Activities, then DFO will have the right to require an explanation of the use of the funds received and, subject to subsection 1.3.1, may:

(a) reduce the Contribution by the amount of assistance for the same item(s); or

(b) require payment of an amount equal to the assistance for the same item(s) if the Contribution has already been paid, and upon receipt of notice to repay under this subsection the Organization agrees to repay the amount to the Receiver General for Canada.

1.4. Capital Acquisitions

1.4.1. Any Capital Acquisition will, once purchased under this Agreement, become the property of the Organization. The Capital Acquisition will be appropriately maintained and stored so as to maximize its useful life. The Organization will keep an inventory of all Capital Acquisitions made under this Agreement, upon which each item will remain until it reaches the end of its useful life or is otherwise removed from the accounting records or books of the Organization. The Organization will, upon demand, permit DFO access to this inventory. Any additional restrictions on use and disposal will be set out in Schedule 5.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

1.4.2. Capital Acquisitions obtained under this Agreement may be considered in future negotiations between DFO and the Organization.

1.5. Records

1.5.1. The Organization will:

(a) maintain books, accounts, records and supporting documentation with respect to all financial transactions related to the Contribution in accordance with Canadian generally accepted accounting principles; and

(b) preserve the books, accounts, records and supporting documentation mentioned in subsection 1.5.1(a) of this Schedule together with reports and any other documents related to the Activities for a period of six (6) years following the end of this Agreement.

1.6. Audit

1.6.1. The Organization will, on demand, permit any individual that DFO may designate, to audit, monitor, take copies and extracts from and examine the books, accounts, records, supporting documentation, reports and any other documents referred to in subsection 1.5.1(a) of this Schedule as DFO deems fit, and will provide all necessary access and assistance for the audits and examinations.

1.6.2. The Organization will, on demand, permit DFO access to the premises and the books, accounts and records mentioned in subsection 1.5.1(a) of this Schedule to undertake a Recipient Audit to determine compliance with this Agreement.

1.6.3. Any discrepancies identified by an audit or examination will be promptly adjusted between the Parties in accordance with subsection 2.5.3 of this Schedule.

1.6.4. The Organization will make any of the documentation mentioned in subsection 1.5.1(a) of this Schedule available to the Auditor General of Canada when requested by the Auditor General for the purposes of an inquiry under subsection 7.1(1) of the *Auditor General Act*.

2. Payments

2.1. Requirements Prior to Payments

2.1.1. To be eligible for an initial advance, the Organization will provide to DFO, as soon as possible after this Agreement comes into effect and, where the Contribution is for more than one Fiscal Year, prior to the start of each subsequent Fiscal Year covered by this Agreement, a cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.1.2. If the total Contribution amount is amended for any Fiscal Year covered by this Agreement, the Organization will provide to DFO a revised cash flow projection of Eligible Costs that the Organization expects to incur during the Fiscal Year in the form set out in Schedule 6.

2.2. Payments under the Contribution Agreement

2.2.1. All payments are subject to:

(a) a current cash flow projection of Eligible Costs being provided by the Organization, in accordance with subsection 2.1 of this Schedule, and approved by DFO;

(b) the Activities for the applicable Fiscal Year being set out in section 2 of Schedule 5;

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

(c) the holdback provision in subsection 2.4 of this Schedule; and

(d) completion of reporting requirements.

2.2.2. Notwithstanding subsection 2.2.1(a) of this Schedule, where this Agreement comes into effect after April 1, 2016, DFO may request that the Organization submit a Progress Report or a Financial Summary in the form set out in Section 1 of Schedule 7 for the Eligible Costs incurred between April 1, 2016, and the date upon which this Agreement comes into effect.

2.2.3. Subject to subsection 2.2.1 of this Schedule, for the Fiscal Year covered by this Agreement DFO will provide to the Organization, upon its request, an initial advance payment of ninety percent (90%) of the Contribution amount.

2.2.4. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total payments for the reporting period exceed Eligible Costs claimed by the Organization, DFO will deduct the Balance from subsequent payments.

2.2.5. Where either a Progress Report or a revised cash flow projection of Eligible Costs indicates that the total Eligible Costs claimed by the Organization for the reporting period exceed payments to the Organization, DFO will reimburse the difference to the Organization.

2.3. Annual Final Payment

2.3.1. Following approval of a Year End Report, DFO will pay to the Organization the amount by which the Organization's total Eligible Costs as reported exceed all previous payments made by DFO under this Agreement for that Fiscal Year, up to the maximum Contribution amount for the Fiscal Year.

2.3.2. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

2.3.3. In no event will DFO make any further payments for the Fiscal Year following the annual final payment referred to in subsection 2.3.1 of this Schedule.

2.4. Holdback

2.4.1. For each Fiscal Year covered by this Agreement, a holdback of ten percent (10%) of the Contribution for the applicable Fiscal Year will apply.

2.5. Unexpended Funding and Repayments

2.5.1. The Organization will repay to DFO any amount of the Contribution and interest earned thereon not disbursed for Eligible Costs within sixty (60) days of:

(a) the end of each Fiscal Year covered by this Agreement;

(b) the Activities being completed; or

(c) the Agreement being terminated in accordance with the termination provisions of this Agreement.

2.5.2. The Organization will repay to DFO, immediately upon written request by DFO, any funds paid to the Organization for which DFO, at its sole discretion, determines that unsatisfactory evidence has been furnished by the Organization that the funds have been spent in accordance with this Agreement.

2.5.3. Any amount that the Organization is under obligation to repay will be a debt owing to Her Majesty the Queen in right of Canada and payable to the Receiver General for

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Canada. Any debt owing will accrue interest in accordance with the *Interest and Administrative Charges Regulations* until the full amount payable has been received.

2.6. Withholding of Payments

2.6.1. Where a Progress Report or a Year End Report does not, in DFO's opinion, contain the necessary information to substantiate Eligible Costs incurred and Activities undertaken, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the required information.

2.6.2. Where a Year End Report is not provided within the timeframe set out in subsection 3.3.1 of this Schedule, DFO may, at its discretion, withhold any payment to be made to the Organization pending receipt by DFO of the report.

2.7. Debts Owing the Crown

2.7.1. The Organization will promptly declare in writing any amount it owes to the Crown under any legislation or other funding agreement, and any such amount is a debt due and payable to Her Majesty the Queen in right of Canada and may thereafter be set off against any amount payable by DFO to the Organization.

3. Reporting

3.1. Reporting Requirements

3.1.1. The Organization will provide to DFO the products/reports that are set out in Schedule 5 in the form set out in Schedule 7.

3.1.2. DFO may, at its discretion and upon its written request, require the Organization to provide additional information on Activities or results to supplement Progress Reports and Year End Reports.

3.1.3. In the event that the Organization determines that a product/report will not be completed, the Organization will immediately notify DFO in writing. The Organization and DFO will discuss appropriate action and this Agreement may be amended accordingly to reflect the agreement.

3.2. Progress Reports

3.2.1. The Organization may, at its discretion, submit a Progress Report at any time in the form set out in Schedule 7.

3.2.2. DFO may, at its discretion, require the Organization to submit a Progress Report at any time in the form set out in Schedule 7.

3.3. Year End Reports

3.3.1. Within ninety (90) days following the end of each Fiscal Year covered by this Agreement, the Organization will submit to DFO a Year End Report in the form set out in Schedule 7.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 4

DESCRIPTION OF ELIGIBLE COSTS FOR REIMBURSEMENT

This Schedule is intended to support the determination of Eligible Costs and is not intended to replace or modify the elements of the annual Activity table(s) in Schedule 5 or any cost breakdown included therein.

In the event of any conflict of interpretation arising out of this Schedule and the annual Activity table(s) in Schedule 5, the contents of the annual Activity table(s) in Schedule 5 will prevail.

1) Administration:
   a) administrative expenses (e.g. phone, fax, internet, other utilities, bank fees, office supplies and materials)
   b) GST or HST paid that is not eligible for reimbursement or exemption
   c) bank interest fees if incurred where DFO is at fault
2) Audit
   a) costs incurred in carrying out an audit of financial statements associated with this Agreement
3) Communications:
   a) meeting expenses (e.g. hall, rent, supplies, hospitality)
   b) outreach materials (e.g. printing costs, web sites)
4) General Operating Expenses:
   a) repair and maintenance of equipment, facilities, vessels and vehicles related to this Agreement
   b) operating expenses for equipment, vessels and vehicles for non-commercial enterprises
5) Insurance:
   a) insurance expenses related to Activities under this Agreement
6) Professional Services:
   a) contracted and professional service costs other than travel or litigation costs
   b) consultation costs
   c) legal fees related to this Agreement (excluding litigation costs)
7) Property, Plant and Equipment:
   a) purchase, lease or rental of equipment, supplies and materials
   b) purchase, lease, rental or construction of facilities (e.g. storage and mobile accommodation, but excluding rolling stock, wharfage and administrative buildings) in support of the Activities
   c) construction of new vessels and/or gear
8) Rental of Space/Accommodations:
   a) office lease or rent
9) Salaries, Wages and Related Costs:
   a) human resource costs, including salaries and benefits (in-house)
10) Training:
   a) training fees and expenses, including materials
11) Travel:
   a) travel and related expenses for contracted professional service providers or other non-employees

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

b) travel and related expenses for employees

Costs other than those herein allowed are ineligible, unless specifically approved, in writing, by the individual in DFO with agreement signing authority.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

SCHEDULE 5

ACTIVITIES

1. Annual Work Planning Process

1.1. An annual work planning process will be undertaken jointly by the Parties. This Schedule may be amended, in accordance with the amendment provisions of this Agreement, to reflect the outcome of those discussions.

2. Activities

2.1. Annual Work Plan for Fiscal Year 2016-2017

2.1.1. The scope and methodology of the Activities will be in accordance with the Comprehensive Fisheries Agreement.

Annual Work Plan for Fiscal Year 2016-2017	
KEY ELEMENT A:	AQUATIC RESOURCE MANAGEMENT AND STEWARDSHIP

s.20(1)(c)

Key Element A / Activity 1: Agreement Negotiations, Fisheries Related Meetings and Skeena Consultation

ESTIMATED COST

Task Description:

The Organization will engage in negotiating and planning sessions with DFO to develop a Comprehensive Fisheries Agreement for the 2016-2017 Fiscal Year. The Program Manager and administrative staff will meet with DFO staff from Smithers and Williams Lake to discuss fisheries-related meetings and planning. The Program Manager will also conduct community consultations. Costs will include travel and wages for Organization personnel to attend these selected fisheries meetings, as well as administration costs to support the Program Manager.

The Program Manager will attend meetings related to Skeena River salmon management issues. Meetings may include Post Season Review and AFS program strategic planning, as well as liaison with DFO regarding capacity building within the Organization.

Planned Expenditures:

Eligible costs may include wages, travel and fees to attend fisheries-related meetings.

Expected Results:

1. Increased dialogue between DFO and the Organization to pursue opportunities in training and increased fisheries roles for the Organization.
2. Engage in community consultations to keep leadership and community members updated on program and fisheries-related issues.
3. Negotiate a Comprehensive Fisheries Agreement.
4. Increased community awareness and involvement in fisheries management.
5. Increased community awareness for protection and enhancement of fisheries resources and fish habitat.
6. Work on strategic planning for the Organization's fisheries program.
7. Attend Post Season Review for the Skeena River watershed in Prince Rupert on December 2, 2016.

Products/Reports to provide to DFO:

1. A Year End Report will be submitted and include meeting dates and times and updates on community consultations within the prescribed timeframe.
2. The Year End Report will also include any developments on AFS program strategic

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

planning.

3. The Year End Report and all financial reporting as identified in the contribution Agreement will be provided to Melanie Anthony, AFS Implementation Officer.

s.20(1)(c)

Key Element A / Activity 2: Fisheries Related Meetings and Consultations – Fraser Salmon Management Issues

ESTIMATED COST

Task Description:

The Program Manager and administrative staff will attend meetings related to fisheries and for the purpose of planning, providing information and consultation. These will be Tier 1 meetings with other First Nations and Tier 2 meetings between First Nations and DFO. Such meetings include:

- Forum on Conservation and Harvest Planning for Fraser Salmon
- Fraser Salmon Management Council – building a Fraser River Co-management Structure and Process

The meetings are largely for the purposes of discussing conservation and FSC harvest planning, including sharing in situations of returning weak salmon stocks. Meetings attended will be listed in the Year End Report.

Planned Expenditures:

Travel, salaries and wages, administration.

Expected Results:

1. The Organization will be actively participating in the fisheries-related meetings and forums listed above, related to salmon stocks returning to streams in the Stuart River watershed and have its representative report back to Chief and Council on issues discussed.

Products/Reports to provide to DFO:

1. A Year End Report will be submitted and include meeting dates and times and updates on community consultations within the prescribed timeframe.
2. The Year End Report will also include any developments on strategic planning.
3. The Year End Report and all financial reporting as identified in the contribution Agreement will be provided to Melanie Anthony, AFS Implementation Officer.

KEY ELEMENT B: FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERIES MANAGEMENT

Key Element B / Activity 1: FSC Catch Monitoring

ESTIMATED COST

Task Description:

Record keeping and catch monitoring of the Organization's harvest of sockeye salmon Catch data of all harvests to be reported to DFO.

Planned Expenditures:

Expenditures will be supported through Treaty Related Measures.

Expected Results:

1. Increased awareness of community members regarding the amount of fish taken for food, social and ceremonial purposes.
2. Increased awareness of community members regarding protection and enhancement of fisheries resources and fish habitat.

Products/Reports to provide to DFO:

1. A summary of FSC harvest will be submitted to DFO Resource Management, Melanie Anthony (melanie.anthony@dfo-mpo.gc.ca and dfo.ncap-pacn.mpo@dfo-mpo.gc.ca), by October 15, 2016. The catch summary will include dates, times, location and

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Annual Work Plan for Fiscal Year 2016-2017
amount of harvest.
KEY ELEMENT C: ECONOMIC OPPORTUNITIES
KEY ELEMENT D: AQUATIC RESOURCE MANAGEMENT COMPLIANCE AND ACCOUNTABILITY

3. Movement of Funds

3.1.1. The total funding amount per DFO Eligible Costs category represents an estimate and may increase or decrease by five percent (5%) per DFO Eligible Costs category per Fiscal Year without requiring prior DFO approval except where, in section 4 of this Schedule, it is followed by an asterisk (*), which indicates that the amount is the total maximum payable for the planned expenditure. In no event will the annual total of all payments made by DFO under this Agreement exceed the Contribution amount for the Fiscal Year provided for in subsection 6.2 of this Agreement.

3.1.2. For funding increases or decreases in excess of five percent (5%) per DFO Eligible Costs category per Fiscal Year, the Organization will submit a request in writing to Melanie Anthony (melanie.anthony@dfo-mpo.gc.ca and dfo.ncap-pacn.mpo@dfo-mpo.gc.ca, or Linda Stevens (Linda.stevens@dfo-mpo.gc.ca). The movement of funding between DFO Eligible Costs categories is subject to prior DFO approval.

4. Budget

NOTES:

1. Please provide the monthly breakdown of Eligible Costs for prior and future months and only for months for which Activities are planned. The total amount for the current Fiscal Year should equal the Contribution amount for the applicable Fiscal Year. The original monthly cash flow projection amounts must reconcile with amounts detailed in the table for the applicable Fiscal Year in section 2 or 4 of Schedule 5.

2. Future advance payments will be calculated in accordance with the cash flow projection of Eligible Costs and subsection 2.2 of Schedule 3 up to the maximum amount.

3. The cash flow projection of Eligible Costs may be amended at any time without a formal amendment to this Agreement.

4. Future payments may not be processed without an amended cash flow projection of Eligible Costs if the financial position of the Organization changes from the original budget forecast (under or over budget).

SCHEDULE A

FOOD, SOCIAL AND CEREMONIAL (FSC) FISHERY

1. Management and Planning of the FSC Fishery

1.1. For management purposes, DFO will issue to the Organization a Communal Licence to provide for the FSC Fishery. Should there be discrepancies between the contents of this Schedule and the Communal Licence, or any amendments thereto, the Communal Licence will prevail.

1.2. DFO agrees to manage the various fisheries based on the principle of the FSC Fishery having highest priority of access after conservation, with the goal of providing the Organization with a reasonable opportunity to engage in Fishing for the species of Fish set out in the Communal Licence.

1.3. The conditions in the Communal Licence are subject to discussion each year, at which time the needs of the Organization and conservation requirements will be reviewed by DFO and the Organization.

1.4. A Communal Licence for the FSC Fishery may be issued as one or more licences relating to a particular species of Fish, quantity, Fishing gear type, area or period of time.

1.5. The Organization agrees to manage Fishing by those designated to participate in the FSC Fishery in a manner consistent with this Agreement and subject to the provisions of the Communal Licence.

1.6. In the event that the Organization identifies an increase in the food, social and ceremonial needs of the Members, DFO and the Organization may review the quantities and species of Fish specified in the Communal Licence issued to the Organization and, if DFO and the Organization agree to change the quantities or species of Fish, DFO will amend the Communal Licence to reflect the change.

1.7. The Communal Licence will include provisions for Fishing of target species and by-catch.

1.8. DFO may vary or amend the Communal Licence. The variations or amendments will not be implemented unless DFO has first consulted with the Organization, except when circumstances require immediate action, including but not limited to the conservation and protection of Fish. In this case, DFO will meet with the Organization, at the first opportunity, to discuss the reasons for the action taken.

2. Species and Quantity of Fish and Associated Provisions

s.20(1)(c) 2.1. Subject to the Communal Licence issued pursuant to the *Aboriginal Communal Fishing Licences Regulations*, as amended from time to time, the Organization may engage in Fishing for the following species and quantities of Fish:

Limited to a maximum harvest of:

[redacted]

2.2. The Organization and DFO will work co-operatively to conduct catch monitoring for the purpose of gathering detailed catch information. The Organization will maintain catch records and submit the catch information to DFO as provided for in the Communal Licence. Additional details and provisions are set out in Schedule 5.

2.3. DFO may, at its discretion, verify the catch monitoring and reporting processes of the Organization, including on-site inspections.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

3. Other Species of Fish

s.20(1)(c)

3.1. Nothing in this Schedule precludes DFO and the Organization from entering into negotiations on Fishing for species of Fish other than those set out in subsection 2.1 of this Schedule.

4. Area Where the FSC Fishery Takes Place

4.1. [redacted]

5. Disposition of Fish

5.1. The Organization agrees that Fish obtained under the Communal Licence are for food, social and ceremonial purposes and may not be sold, traded or bartered.

5.2. For greater certainty, subsection 5.1 of this Schedule does not preclude the traditional exchange or distribution of Fish or Fish products within and between Aboriginal people and Aboriginal communities.

6. Designation to Fish

6.1. No individual other than a designated individual may participate in the FSC Fishery.

6.2. The Organization has designated all of its Members to engage in Fishing in the FSC Fishery. Proof of membership in Yekooche First Nation will serve as the Member's designation document.

6.3. The Organization may designate an individual who is not a Member to engage in Fishing from the quantities set out in the Communal Licence by issuing a designation document to them.

6.4. Where the Organization designates individuals to engage in Fishing in the FSC Fishery, it will provide to DFO C&P Field Supervisors in Prince George, fax: (250) 286-5844, and Smithers, fax: (250) 847-4723, a list of the names of designated individuals prior to the commencement of the FSC Fishery.

6.5. Where a designation document is issued by the Organization, it will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

6.6. Any designated individual who is Fishing, transporting Fish or landing Fish from an FSC Fishery will carry proof of designation and, upon request, show the proof of designation to a Fishery Enforcement Officer.

6.7. The Organization will designate vessels in writing and in accordance with the terms of the Communal Licence.

7. Restrictions to, Withdrawal of or Amendment of Designations

7.1. The Organization may place restrictions on designations, which may include the withdrawal or amendment of the designation of an individual who was designated to engage in Fishing in the FSC Fishery. Upon placing such restrictions, the Organization will notify DFO, in writing, of the nature of the restrictions and, where applicable, the individuals to whom they apply. Once the written notification is provided to DFO, designations are restricted, withdrawn or amended as indicated in the notification.

7.2. Where the Organization has designated a vessel to engage in Fishing in the FSC Fishery, the Organization may amend or withdraw that designation. Upon amending or withdrawing a designation, the Organization will notify DFO, in writing, of the amendment or withdrawal and the vessel to which the amendment or withdrawal applies.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

Once written notification is provided to DFO, vessel designation is amended or withdrawn as indicated in the notification.

8. Responsibilities of the Organization

8.1. The Organization will notify each individual whom it designates to participate in the FSC Fishery of the provisions of this Schedule, the conditions of the Communal Licence, and any amendments to the Communal Licence, including the provision that the Fish obtained are not for sale, trade or barter.

8.2. The Organization will provide a copy of this Agreement, the Communal Licence and any amendments to the Communal Licence to all of its fisheries management and enforcement personnel.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

COMPREHENSIVE FISHERIES AGREEMENT

This Agreement dated the 17 day of January, 2018
(Date of signing by DFO's authorized representative to be entered by DFO Staff)

BETWEEN

HER MAJESTY THE QUEEN IN RIGHT OF CANADA as represented by the Minister of Fisheries and Oceans (hereinafter called "DFO")

OF THE FIRST PART

AND

YEKOOCHE FIRST NATION, also known as Nancut Indian Band (hereinafter called "Organization")

OF THE SECOND PART

WHEREAS existing Aboriginal and treaty rights are recognized and affirmed in section 35(1) of the *Constitution Act*, 1982;

AND WHEREAS in entering into this Agreement, the Parties are not seeking to determine the existence, nature or scope of Aboriginal or treaty rights, but rather are seeking to provide for the orderly management of the fisheries and the involvement of the Organization in the conservation, management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

AND WHEREAS the Parties are both interested in the conservation, protection and management of aquatic resources;

AND WHEREAS the Parties confirm their commitment to a relationship based on mutual respect and understanding;

AND WHEREAS DFO is committed to providing access to fisheries resources for the Organization;

AND WHEREAS DFO agrees to contribute funding to the Organization to support the Organization in carrying out the Activities in accordance with the terms and conditions of this Agreement;

AND WHEREAS DFO is providing funding to the Organization to support the involvement of the Organization in the orderly management, protection and enhancement of aquatic and fisheries resources and supporting habitats;

NOW THEREFORE the Parties agree as follows:

1. Purpose

1.1. The purpose of this Agreement is to:

(a) provide for the orderly management of the fisheries and the involvement of the Organization in the management, protection and enhancement of aquatic and fisheries resources; and

(b) set out the arrangements by which DFO will provide access to fisheries resources for the Organization, in addition to contributing funding to the Organization to support the Organization in carrying out the Activities.

Document Released Under the Access to Information Act / Document divulgué en vertu de la Loi sur l'accès à l'information.

2. Interpretation

2.1. The Parties agree that this Agreement:

(a) does not, and is not intended to, define or extinguish any Aboriginal or treaty rights and is not evidence of the nature or extent of any Aboriginal or treaty rights;

(b) is made without prejudice to the positions taken by either Party with respect to Aboriginal or treaty rights;

(c) is not a land claims agreement or treaty within the meaning of section 35 of the *Constitution Act, 1982*; and

(d) does not affect any Aboriginal or treaty rights of any other Aboriginal group.

3. Schedules

3.1. The following Schedules form part of the Agreement:

Schedule 1	Definitions	Page 6
Schedule 2	General Terms and Conditions	Page 8
Schedule 3	Financial Management, Payments and Reporting	Page 12
Schedule 4	Description of Eligible Costs for Reimbursement	Page 16
Schedule 5	Activities	Page 18
Schedule 6	Cash Flow Projection of Eligible Costs	Page 22
Schedule 7	Progress Report / Year End Report	Page 23
Schedule A	Food, Social and Ceremonial (FSC) Fishery	Page 27

4. Roles and Responsibilities

4.1. The Parties agree to comply with all the terms and conditions set out in this Agreement and will work together in good faith to implement this Agreement and carry out all its obligations.

5. Fisheries Access

5.1. As part of this Agreement, Schedule A includes provisions for food, social and ceremonial fisheries and the issuance of Communal Licences to provide for these fisheries.

6. Contribution Amount

6.1. The Organization will act as recipient and administrator of the Contribution.
